

November 2007

Dear Provider:

**Good News!** Adjustments are on the way, and we appreciate your patience during the correction process with the Ambulatory Payment Classification (APC) adjudication. Molina denied your claims billed with revenue codes 250 and 270 in error. We value your partnership with Molina and apologize for any inconvenience.

Within the next 10-15 days checks will be going out to cover all of the claims submitted from April 1, 2007 dates of services until current. Once you receive payment, if there are some claims that were missed; please submit them to the Provider Services Department. If you should have any questions or concerns, you may contact Natasha Robinson at 1- 866-449-6828, ext. 155815 or your Provider Services Representative.

Again, thank you for your patience and we apologize for any inconvenience.

Sincerely,

Brenda R. Lever, MAOM  
Director, Provider Services & Community Outreach
