

Molina Healthcare of New Mexico, Inc.
Patient-Centered Medical Home (PCMH)
June 25, 2010

Dear Practitioner,

This is a quick reminder that Molina Healthcare of New Mexico, Inc. (Molina Healthcare) is currently offering incentives to help your practice achieve National Committee for Quality Assurance (NCQA) recognition as a Patient-Centered Medical Home (PCMH). We have previously mailed to your office an introductory letter and description of the program.

What is PCMH?

According to the American College of Physicians, “Patient-Centered Medical Home is a team-based model of care... that provides continuous and coordinated care throughout a patient's lifetime to maximize health outcomes.”

If you did not receive the program information, please contact us at the number below so that we can resend it to you.

Please note that although we have set aside funds for this initiative, those funds are finite. We will accept practitioners/providers or groups for participation **on a first come, first serve basis. When all available funds are allocated, we will not accept any additional groups.**

Please contact your Provider Service Representative in Albuquerque at (505) 342-4660 or toll free at (800) 377-9594 with your interest in participating or if you have additional questions.

Thank you for your time and consideration.

Sincerely,

A handwritten signature in cursive script that reads 'Eugene F. Sun M.D.'.

Eugene Sun, MD
Chief Medical Officer
