Welcome to Molina Healthcare!

Molina Healthcare Drug Formulary (List of Drugs)

Molina Healthcare's list of drugs that will be covered. The list is called the Drug Formulary. The drugs on the list are chosen by a group of doctors and pharmacists from Molina Healthcare and the medical community. The group meets every three months to talk about the drugs that are in the formulary. They review new drugs and changes in health care. They try to find the most effective drugs for different conditions. Drugs are added or removed from the Drug Formulary for different reasons. This could be:

- Changes in medical practice
- Medical technology
- When new FDA-approved drugs come on the market.
- When drugs are removed from the market by the FDA
- When a drug is identified with a new safety issue

You can look at Our Drug Formulary on Our Molina Healthcare website. The address is www.molinahealthcare.com/marketplace. You may call Molina Healthcare and ask about a drug. Call toll free [1 (888) 858-2150], Monday through Friday and choose the pharmacy option, [8:00 a.m. through 6:00 p.m.] If You are deaf or hard of hearing, [dial 711] for the Telecommunications Service. You can also ask Us to mail You a copy of the Drug Formulary. A drug listed on the Drug Formulary does not guarantee that Your doctor will prescribe it for You.

Access to Drugs Which are Not Covered

Molina has a process to allow You to request clinically appropriate drugs that are not covered under Your product. Your doctor may order a drug that is not in the Drug Formulary that he or she believes is best for You. Your doctor may contact Molina's Pharmacy Department to request that Molina cover the drug for You. If the request is approved, Molina will contact Your doctor. If the request is denied, Molina Healthcare will send a letter to You and Your doctor. The letter will explain why the drug was denied.

You may be taking a drug that is no longer on Our Drug Formulary. Your doctor can ask Us to keep covering it by sending Us a Prior Authorization request for the drug. The drug must be safe and effective for Your medical condition. Your doctor must write Your prescription for the usual amount of the drug for You. Molina may cover specific non-Drug Formulary drugs under the following conditions:

- Document in Your medical record;
- Certify that the Drug Formulary alternatives have not been effective in Your treatment; or
- The Drug Formulary alternatives cause or are reasonably expected by the prescriber to cause a harmful or adverse reaction in the Member.

There are two types of requests for clinically appropriate drugs that are not covered under Your product:

- Exception Request for urgent circumstances that may seriously jeopardize life, health, or ability to regain maximum function, or for undergoing current treatment using non-Drug Formulary drugs.
- Standard Exception Request.

You and/or Your Participating Provider will be notified of Our decision no later than:

- 24 hours following receipt of request for Expedited Exception Request
- 72 hours following receipt of request for Standard Exception Request

If initial request is denied, You and/or Your Participating Provider may request an IRO review. You and or Your Participating Provider will be notified of the IRO's decision no later than:
