

COVID-19 PROVIDER NOTIFICATION

What is COVID-19?

COVID-19 is a new strain of coronavirus, which originated in Wuhan City, China. The name COVID-19, is short for “coronavirus disease 2019.” This virus causes respiratory illness and has infected thousands of people worldwide. The CDC and WHO are actively monitoring the outbreak of this new coronavirus strain. Visit the CDC’s Traveler’s Health website for travel notices and advisories.

What are the symptoms of COVID-19?

Common signs of infection include fever, cough, and respiratory symptoms such as shortness of breath and breathing difficulties. In more severe cases, this infection can cause pneumonia, acute respiratory distress syndrome, kidney failure, and even death.

People with heart and lung disease or weakened immune systems, as well as infants and older adults, are at higher risk for more severe symptoms from this illness.

How is COVID-19 spread?

Coronaviruses are generally thought to be spread most often by respiratory droplets. They are usually spread from an infected person to others through the air by coughing and sneezing, and through close personal contact such as touching or shaking hands.

Who should be tested?

The Centers for Disease Control and Prevention (CDC) is [telling clinicians](#) to use their judgment in determining whether testing is necessary. They should consider the presence of symptoms (fever, cough, shortness of breath), travel history, contact with a confirmed COVID-19 patient and local epidemiology, and should rule out other potential causes of illness. This expands testing to a wider group of symptomatic patients.

Clinicians should use their judgment to determine if a patient has signs and symptoms compatible with COVID-19 and whether the patient should be tested. Decisions on which patients receive testing should be based on the local epidemiology of COVID-19, as well as the clinical course of illness. Most patients with confirmed COVID-19 have developed fever and/or symptoms of acute respiratory illness (e.g., cough, difficulty breathing). Clinicians are strongly encouraged to test for other causes of respiratory illness, including infections such as influenza.

Epidemiologic factors that may help guide decisions on whether to test include: any persons (including healthcare workers) who have had close contact with a laboratory-confirmed COVID-19 patient within 14 days of symptom onset, or a history of travel from affected geographic areas within 14 days of symptom onset.

When there is a suspected case of COVID-19, clinicians should immediately notify their state or local health department and [implement infection control practices](#).

As availability of diagnostic testing for COVID-19 increases, clinicians will be able to access laboratory tests for diagnosing COVID-19 through clinical laboratories performing tests

authorized by FDA under an Emergency Use Authorization (EUA). Clinicians will also be able to access laboratory testing through public health laboratories in their jurisdictions.

What billing codes are related to COVID-19?

CPT	Description HCPCS
U0001	This code is used specifically for CDC testing laboratories
U0002	This code is used for non–CDC testing laboratories

ICD-10	Description
B97.29	Other coronavirus as the cause of diseases classified elsewhere
Z03.818	Encounter for observation for suspected exposure to other biological agents - ruled out
Z20.828	Contact with and (suspected) exposure to other viral communicable diseases

RESOURCE REFERENCES

CDC: ICD-10-CM Official Coding Guidelines – Supplement. Coding encounters related to COVID-19 Coronavirus Outbreak. Effective: February 20, 2020.

Claim Submission for COVID Testing

To ensure claims are processed accurately, Molina will be conducting system configuration updates during the next six (6) weeks. Therefore, we ask that all COVID-19 testing related claims be submitted on or after April 1, 2020.

Prior Authorization

Molina will be waiving any prior authorization or pre-certification requirements associated with COVID-19 testing or treatment.

WHAT MOLINA IS DOING TO HELP ITS MEMBERS:

Molina will waive co-pays, deductibles, and cost share for the diagnostic laboratory test for COVID-19 until May 1, 2020. (If the outbreak continues please monitor our provider notifications for potential extension of this policy). This policy will cover the test kit for patients who meet CDC guidelines for testing, which can be done in any approved laboratory location. Molina will waive the member costs associated with this diagnostic testing for COVID-19 at any authorized location for all Medicare, Marketplace, and Medicaid lines of business. No Prior Authorization is needed for this testing.

Molina will offer zero co-pay and cost share for participating (PAR) telemedicine visits (where these are a covered benefit) - for any diagnosis until May 1, 2020. (If the outbreak continues please monitor our provider notifications for potential extension of this policy). Molina members should use telemedicine as their first line of defense in order to limit potential exposure in physician offices. Cost sharing will be waived for all video visits by in-network providers delivering synchronous virtual care (live video-conferencing) for those plans that cover this type of service.

Molina will waive co-pays and cost share for office visits, urgent care visits, and ED visits where the diagnosis rendered is specifically related to COVID-19 until May 1, 2020. (If the outbreak continues please monitor our provider notifications for potential extension of this policy). Visits for other symptoms or diagnoses will not have co-pay or cost share removed. This includes not removing cost share for other laboratory testing (besides COVID-19 testing), x-rays, or other add-on testing.

Molina will relax refill timing on all prescriptions until May 1, 2020. (If the outbreak continues please monitor our provider notifications for potential extension of this policy). Refill timing will be relaxed to allow refills up to 7 days early.

Molina will allow 90-day prescription volumes if this is covered by your plan. This covers prescriptions and refills performed at CVS pharmacies.

Molina Nurse Advise Line will continue to be available 24 hours a day, 7 days a week.
(888) 275-8750 (English/Other Languages) or (866) 648-3537 (Spanish)

Telehealth Resources

UTAH

Billing for Telemedicine

For providers who offer telemedicine to Molina members, Molina pays for services at the current fee schedule amount for the service provided. Providers should submit claims for telemedicine services using the appropriate CPT or HCPCS code for the professional service. Modifiers are no longer required. Simply use the Place of Service (POS 02) to indicate that a billed service was delivered as a telemedicine service. Telephonic consultation services are also billable under specific E/M service codes. For additional billing details for Medicaid and Marketplace, see the [Utah Medicaid Guidance](#) or visit <https://coronavirus.utah.gov/>; for Medicare, see [CMS Medicare Telehealth Frequently Asked Questions \(FAQs\)](#) and [Medicare Telemedicine Healthcare Provider Fact Sheet](#).

Virtual Urgent Care

Molina members have access to immediate diagnosis, care, advice, or assistance from a doctor or nurse practitioner 24/7 through Teladoc or Intermountain Connect Care. Members can talk to a provider from their phone, tablet or computer. No appointments are needed. Registration is required before meeting with a virtual care provider.

Teladoc Inc

- Call 800 TELADOC (800-835-2362), TTY 711 or visit <https://member.teladoc.com/molina>
- Download the Teladoc mobile app at <https://www.teladoc.com/mobile/>, Apple app store, or Google Play store.
- For help registering, call (800) 835-2362 or contact our Member Services department at (888) 483-0760.

Intermountain Connect Care

- **For access to registration, care, and additional information**, please visit the Intermountain Connect Care website at <https://intermountainhealthcare.org/services/urgent-care/connect-care/>

*****Note: Intermountain Connect Care is not available under Molina Medicare Choice Care*****

IDAHO

Billing for Telemedicine

Members can access any telehealth services allowed under CMS Medicare and Idaho Department of Health and Welfare Medicaid program benefits. For providers who offer telemedicine to Molina members, Molina pays for services at the current fee schedule amount for the service provided.

Place of Service 02 (telehealth) is required for Medicare but is not used by Idaho Medicaid. All normal Place of Service codes are acceptable for telehealth. The place of service used should be the location of the participant. Claims must include a GT modifier. For additional billing details for Medicaid, see the [IDHW Medicaid Provider Handbook](#); for Medicare, see [CMS Medicare Telehealth Frequently Asked Questions \(FAQs\)](#) and [Medicare Telemedicine Healthcare Provider Fact Sheet](#).
