INTRODUCTION

The Michigan Department of Health and Human Services has worked with its health plan partners to create a list of drugs that all Medicaid health plans must cover. This list is called the *Michigan Medicaid Managed Care Common Formulary*.

The 2017 *Molina Healthcare of Michigan Preferred Drug List (Formulary)* is the *Michigan Medicaid Managed Care Common Formulary*. We are pleased to provide this Formulary as a useful reference and informational tool. This document can assist medical providers in selecting clinically-appropriate and cost-effective products for their patients.

The drugs represented have been reviewed by a Pharmacy and Therapeutics (P&T) Committee and are approved for inclusion. The document is reflective of current medical practice as of the date of review.

The information contained in this document and its appendices is provided solely for the convenience of medical providers. We do not warrant or assure accuracy of such information nor is it intended to be comprehensive in nature. All the information in the document is provided as a reference for drug therapy selection.

The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

We assume no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.

PREFACE

The document is organized by sections. Each section is divided by therapeutic drug class primarily defined by mechanism of action. Products are listed by generic name with brand name for reference only. Unless the cited drug is available as an injectable or an exception is specifically noted, generally, all applicable dosage forms and strengths of the drug cited are included in the document.

PHARMACY AND THERAPEUTICS (P&T) COMMITTEE

The services of the Common Formulary Committee and Molina Healthcare's Pharmacy and Therapeutics Committee ("P&T Committee") are utilized to approve safe and clinically effective drug therapies. Both Committees' voting members include physicians and pharmacists, all of whom have a broad background of clinical and academic expertise regarding prescription drugs. Voting members of the P&T Committee must disclose any financial relationship or conflicts of interest with any pharmaceutical manufacturers.

DRUG LIST PRODUCT DESCRIPTIONS

To assist in understanding which specific strengths and dosage forms on the document are covered, general principles are noted below.

- Listed products on the document generally include all strengths and dosage forms of the cited brand-name product.
- When a strength or dosage form is specified, only the specified strength and dosage form is on the document. Other strengths/dosage forms, including injectable dosage forms of the reference product are not.
- If the OTC and Prescription versions of the product are covered, then both are listed.
- Extended-release and delayed-release products require their own entry.
- Dosage forms on the document will be consistent with the category and use where listed.

GENERIC SUBSTITUTION

Generic substitution is a pharmacy action whereby a generic version is dispensed rather than a prescribed brand-name product. **Boldface type** indicates generic availability. However, not all strengths or dosage forms of the generic name in boldface type may be generically available. In most instances, a brand-name drug for which a generic product becomes available will become non-formulary, with the generic product covered in its place, upon release of the generic product onto the market. However, the document is subject to state specific regulations and rules regarding generic substitution and mandatory generic rules apply where appropriate.

Generic drugs are usually priced lower than their brand-name equivalents. Prescription generic drugs are:

- Approved by the U.S. Food and Drug Administration for safety and effectiveness, and are manufactured under the same strict standards that apply to brand-name drugs.
- Tested in humans to assure the generic is absorbed into the bloodstream in a similar rate and extent compared to the brand-name drug (bioequivalence). Generics may be different from the brand in size, color and inactive ingredients, but this does not alter their effectiveness or ability to be absorbed just like the brand-name drug.
- Manufactured in the same strength and dosage form as the brand-name drugs.

When a generic drug is substituted for a brand-name drug, you can expect the generic to produce the same clinical effect and safety profile as the brand-name drug (therapeutic equivalence).

PLAN DESIGN

The document represents a closed formulary plan design. The medications listed on the document are covered by the plan as represented. Certain medications on the list are covered if utilization management criteria are met (i.e. Step Therapy, Prior Authorization, Quantity Limits, etc.); requests for use of such medications outside of their listed criteria will be reviewed for medical necessity. If a medication is not listed on the document, a formulary exception may be requested for coverage. Medical necessity or formulary exception requests will be reviewed based on drug-specific prior authorization criteria or standard non-formulary prescription request criteria. Log in to www.molinahealthcare.com to check coverage.

PRIOR AUTHORIZATION REQUEST PROCEDURE

Prescriptions for medications requiring prior approval or for medications not included on the Molina Drug Formulary may be approved when medically necessary and when formulary options have demonstrated ineffectiveness. When these exceptional situations arise, the physician may fax a completed drug prior authorization form to Molina at (888) 373-3059. The forms may be obtained by logging into the website www.molinahealthcare.com. Trials of pharmaceutical samples will not be considered as rationale for approving a prior authorization request.

PRIOR AUTHORIZATION HELPFUL HINTS

To ensure the quickest response possible from Molina Healthcare of Michigan Pharmacy Department, please provide relevant information with the Prior Authorization request. The following are examples:

Class of Medication/Diagnosis

Cholesterol Lowering

Diabetes

Non-Formulary/Non-Preferred Medication

Requested Clinical Information

Lipid Panel, Cardiovascular risk factors

A1c Report

Medication Log and/or Progress Notes documenting previous use of Formulary medications

LEGEND

AGE Age Limit

OTC Over-the-counter, covered benefit with a prescription

PA Prior Authorization

QL Quantity Limit

SP Specialty Drug; these drugs must be obtained through a specialty pharmacy

ST Step Therapy

boldface Indicates generic availability; boldface may not apply to every strength or dosage form under the listed generic name

delayed-rel Delayed-release (also known as enteric-coated), refer to the reference brand listed for clarification

ext-rel Extended-release (also known as sustained-release), refer to the reference brand listed for clarification

REQUESTING FORMULARY CHANGES

If you are a prescriber and would like to request a formulary change, please submit your request and rationale to Molina's Pharmacy Department with your contact information.

Fax: 888-373-3059

STATE OF MICHIGAN, MEDICAID CARVE-OUT

The State of Michigan enacted a carve-out for Medicaid beneficiaries. This impacts all Medicaid members including Healthy Michigan Medicaid members. NON-DISCRIMINATION STATEMENT

Non-Discrimination Notification Molina Healthcare of Michigan Medicaid

Molina Healthcare of Michigan (Molina) complies with all Federal civil rights laws that relate to healthcare services. Molina offers healthcare services to all members without regard to race, color, national origin, age, disability, or sex. Molina does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex. This includes gender identity, pregnancy and sex stereotyping.

To help you talk with us, Molina provides services free of charge:

- Aids and services to people with disabilities
 - Skilled sign language interpreters
 - Written material in other formats (large print, audio, accessible electronic formats, Braille)
- Language services to people who speak another language or have limited English skills
 - Skilled interpreters
 - Written material translated in your language
 - Material that is simply written in plain language

If you need these services, contact Molina Member Services at (888) 898-7969.

Hearing Impaired: MI Relay (800) 649-3777 or 711.

If you think that Molina failed to provide these services or treated you differently based on your race, color, national origin, age, disability, or sex, you can file a complaint. You can file a complaint in person, by mail, fax, or email. If you need help writing your complaint, we will help you. Call our Civil Rights Coordinator at (866) 606-3889, or TTY, 711. Mail your complaint to:

Civil Rights Coordinator
200 Oceangate
Long Beach, CA 90802

You can also email your complaint to civil.rights@molinahealthcare.com. Or, fax your complaint to (248) 925-1765.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights. Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>. You can mail it to:
