Dear Practitioner/Provider:

Thank you for your assistance throughout 2014 - the first year of Centennial Care. As we continue forward, this Provider Manual is being provided to address the requirements of delivering covered services to Molina Healthcare Members enrolled with Centennial Care.

This manual was designed to provide you with assistance in all areas of your practice, from making referrals to receiving payment for your services. In some cases, you may have developed internal procedures that meet the standards set out in this manual. In these instances, you do not need to change your procedures as long as they adhere to the standards outlined herein.

From time to time, this manual will be revised as policies, program or regulatory requirements change. All changes and updates will be updated and posted to the Molina Medicare website as they occur.

Contracted practitioners/providers are an essential part of delivering quality care to our Members. We value our partnership and appreciate the family-like relationship that you pass on to our Members. As our partner, assisting you is one of our highest priorities. We welcome your feedback and look forward to supporting all your efforts to provide quality care.

Thank you for your active participation in the delivery of quality healthcare services to Molina Healthcare Members.

Sincerely,

Patty Kehoe, RN, MPH, CCM President
Molina Healthcare of New Mexico, Inc.

Section 1- Background and Overview of Molina Healthcare, Inc.

A. Introduction to Centennial Care

This manual serves as a guide for providing covered services to Molina Healthcare Members enrolled in Centennial Care, which is the name for New Mexico’s new Medicaid Managed Care Program. The cornerstone of this program is a single, comprehensive delivery system for medical, behavioral, and long term care services, which emphasizes care coordination so that recipients will receive the right care, in the right place, at the right time, leading to better health outcomes. Central to this approach are:

- Assessing each Member’s physical, behavioral, functional, and psychosocial needs;
- Identifying the medical, behavioral, and long-term care services and other social support services and assistance;
- Ensuring timely access and provision, coordination, and monitoring of services needed to help each Member maintain or improve his or her physical and/or behavioral health status; and
- Facilitating access to other social support services and assistance needed in order to promote each Member’s health, safety, and welfare.

Molina Healthcare updates and publishes the Provider Manual once a year. All contracted practitioners/providers (collectively referred to going forward in this Manual as “Provider” or “Providers”) will be notified of any additional updates or changes that occur either via the Provider Newsletter or by letter. To receive a printed version of the manual, please contact your Provider Services Representative at (505) 342-4660 or toll free at (800) 377-9594.

This manual is supplemented by additional Provider Reference Manuals:

Molina Medicare - Molina Medicare Provider Manual

B. Company Profile

Molina Healthcare, Inc. (MHI) is a family-founded, physician-led managed care organization headquartered in Long Beach, California. Founded more than thirty years ago; MHI has grown to serve more than 2.4 million Members across the nation.

MHI and affiliated health plans focus on providing healthcare services to people who receive benefits through government-sponsored programs such as Medicaid and Medicare. MHI strives to break down the financial, cultural and linguistic barriers that prevent low-income families and individuals from accessing appropriate healthcare – and does so by collaborating with state government programs.

MHI is an exceptional health care organization focused on improving access to quality care, increasing coordination of care and improving health outcomes for Medicaid Members; all while cultivating a culturally sensitive and provider-friendly environment.

C. David Molina, M.D., founded the company in 1980 as a provider organization with a network of primary care clinics in California. As the need for effective management and delivery of healthcare services to underserved populations continued to grow, MHI became licensed as a Health
Maintenance Organization (HMO) in California. Dr. Molina believed that each person should be treated like family, and that each person deserves quality care. The company remains devoted to that mission.

MHI is committed to quality and has made accreditation a strategic goal for each of its health plans. Year after year, Molina health plans have received accreditation from the National Committee for Quality Assurance (NCQA). The NCQA accreditation process sets the industry standard for quality in health plan operations. For six consecutive years, Molina Healthcare has earned an “Excellent” ranking from NCQA.

In addition to operating health plans and primary care clinics, Molina Medicaid Solutions provides design, development, implementation, and business process outsourcing solutions to state governments for their Medicaid Management Information Systems to support the administration of state Medicaid and other health care entitlement programs. Molina Medicaid Solutions is currently contracted with the states of Idaho, Louisiana, Maine, New Jersey and West Virginia.

C. Network Management and Operations Department

The Network Management and Operations Department (NMO) is devoted exclusively to the needs of contracted providers. Within this department are five (5) major functions:

- **Provider Contracting.** The staff in this area builds the contracted network through negotiated agreements within New Mexico, bordering states and across the nation. They work with providers to help them understand both terms and fee schedules and they amend contracts as needed from time-to-time due to regulatory or program requirements.

- **Provider Inquiry, Research and Resolution (Appeals).** This area addresses Provider appeals, grievances and reconsideration processes regarding claims payments and/or denials.

- **Member Advocacy - Grievances, Appeals and Fair Hearings.** This area helps Members with their concerns and disagreements with coverage decisions.

- **Provider Services.** This area has dedicated Provider Service Representatives (PSRs) to provide training and conduct visits to provider offices, answer questions and serve as the point of contact for all provider needs. The PSR Territory Map reflects the service area, the PSR responsible for each of these geographic areas and their contact information.

The PSR Territory Map is located on the Molina Healthcare Provider website at [www.molinahealthcare.com](http://www.molinahealthcare.com). Choose the “Contact Us” tab, then “Provider Services,” them the PSR Territory Map.

## Web Portal Services

Molina Healthcare of New Mexico, Inc. (Molina Healthcare) offers a Web Portal to all contracted Medicaid and Medicare providers. Molina Healthcare’s Web Portal is a Health Insurance Portability and Accountability Act (HIPAA) secure site that offers real-time information twenty-four (24) hours a day, seven (7) days a week.

In the Web Portal, you will be able to do the following:

- Check Member eligibility and benefits;
- Obtain Primary Care Practitioner (PCP) Rosters;
- Search and manage your service request/authorizations;
- Search and manage claims;
- Access forms (credentialing, claim reconsideration requests, prior authorization)
request/matrix, etc.; and
- Request office/facility demographic update/changes.

Register today to access our on-line services. A video will guide you through the easy on-line registration process. Link into our Web Portal at: Web Portal - Provider Self Serve

Upon registration, practitioners/providers and their staff will be able to perform the following tasks on-line through Web Portal:

- **Member Eligibility:**
  - Verify Members eligibility
  - Verify Member’s benefits
- **PCP Information:**
  - Verify Member’s PCP; and
  - Obtain PCP rosters.
- **Claims:**
  - Check claim status;
  - Submit CMS-1500 Claim Forms; and
  - Submit Provider Reconsideration Request (PRR) forms.
- **Prior Authorizations:**
  - Check prior authorization status; and
  - Submit prior authorization requests – Information about diagnosis and procedure codes is also readily available.
- **Provider Directory:** Search for contracted providers by name, specialty or zip code.
- **Download Forms:**
  - Print and/or save to your computer forms most useful and frequently used (i.e. prior authorization request (medical and pharmacy), Provider reconsideration review forms, etc.); and
- **Change Mailing Address and Telephone Number**

**Molina Healthcare Website**

Molina Healthcare’s website provides information, materials, news, updates and much more. Log on to our website at www.molinahealthcare.com to access the following information:

- Provider Manual;
- Provider forms;
- Provider Policies;
- HIPAA Resource Center;
- EDI, EFT/ERA information;
- Drug list;
- Health Resources;
- Provider Newsletters;
- Provider Communications;
- Contact information;
- Clinical Practice Guidelines;
- HEDIS and CAHPS Scores;
- Provider Coding Tools;
- Disease Management/Health Management Programs;
- Preventive Health Guidelines; and
- Critical Incident Reporting.

**HealthXnet Service**
Molina Healthcare is contracted with Hospital Services Corporation (HSC) to provide on-line services for providers through HealthXnet. Upon registration, you and your office staff will be able to perform the following tasks on-line through HealthXnet: Member eligibility; claims status; and Service Request (prior authorization status).

To register, contact HealthXnet (low monthly subscription fees will apply):

Section 3 – Member Eligibility, Enrollment and Health Assessment

A. Member Eligibility

HSD determines eligibility for enrollment in the Centennial Care Program. All individuals determined to be Medicaid eligible are required to participate in the Centennial Care Program unless he or she is: (1) a Native American and elects enrollment in the Medical Assistance Division’s fee-for-service (FFS) program; or (2) is in an excluded population.

A native American who does not meet a nursing facility level of care or intermediate care facility for individuals with intellectual disabilities (ICF/IID) levels of care or is not dually-eligible for both Medicaid and Medicare will not be enrolled in the Centennial Care Program unless the eligible recipient elects to enroll.

The following eligible recipients are excluded from Centennial Care Program enrollment:
1. Qualified Medicare beneficiaries (QMB)-only recipients;
2. Specified low income Medicare beneficiaries,
3. Qualified individuals,
4. Qualified disabled working individuals;
5. Refugees;
6. Participants in the program for all inclusive care for the elderly (PACE); and
7. Children and adolescents in out-of-state foster or adoption placements.

B. Member Enrollment

The New Mexico Human Services Department (HSD) will enroll individuals determined eligible for Centennial Care. Enrollment with Molina Healthcare may be the result of a recipient’s selection or assignment by HSD.

Upon Enrollment with Molina Healthcare, Members receive a Welcome Packet that includes:
- Verification of Member eligibility;
- A Provider Directory;
- Primary Care Practitioner Selection Form;
- Member Handbook, which includes Member rights and responsibilities; and
- Notice of Privacy Practices.

Centennial Care Members enrolled with Molina Healthcare of New Mexico are provided with an identification card identifying the Member as a participant in the Centennial Care Program. These cards include:
- Telephone numbers for information and/or authorizations, including for physical health, behavioral health, and long-term Care services;
- Descriptions of procedures to be followed for emergency or special services;
- Member identification number, name, date of birth, enrollment effective date, and PCP; and
- Member co-payment amounts for covered services.
The back of Molina Healthcare’s Member identification card provides important information on obtaining services and telephone numbers for our providers and Members to utilize as needed.

At each office visit, your office staff should:

- Ask for the Member’s ID Card;
- Copy both sides of the ID Card and keep the copy with the patients files; and
- Determine if the Member is covered by another health plan, and record information for coordination of benefits. If the Member is covered by another health plan, the provider must submit to the other carrier(s) first. After the other carrier(s) pay, submit the claim to Molina Healthcare.

Sample of Molina Healthcare of New Mexico Centennial Care ID Card:

Front:

Back:
Members, due to their category of eligibility based on income-level, may qualify for the Alternative Benefit Plan, which has copayment requirements for some covered services. Copayments will be reflected on the Member ID Card and can be found on the Provider Web Portal.

C. PCP Assignment
After 15 days that a Member is enrolled with Molina Healthcare, a primary care practitioner (PCP) is assigned to the Member with the exception of Dual Eligible Members (enrolled in both Medicaid and Medicare). The Member will receive an identification card showing the assigned PCP. ID cards for Dual Eligible Members will
not reflect a PCP. Individual family Members may choose the same or different PCPs.

PCPs are chosen from the list of participating practitioners in one of the following specialties:
- Family Practice, General Practice;
- Certified Nurse Practitioner and Physician Assistants;
- Internal Medicine;
- Gerontology;
- Pediatrics;
- OB/GYN – Female Members may self-refer to a women’s health care provider. Some OB/GYNs act as a PCP. In this case, the OB/GYN is listed under the Primary Care Section of the Provider Directory; and
- Specialists, on an individualized basis, for Members whose care is more appropriately managed by a specialist, such as Members with infectious diseases, chronic illness, complex behavioral health conditions or disabilities.

I/T/Us (Indian Health Services, Tribal 638 and Urban Indian Providers may be designated as PCPs as appropriate.

D. Change in PCP Assignment
1. Member Initiated
   The Member has the right to change that PCP and may call Molina Healthcare with the change request. When a Member changes PCPs, Molina Healthcare will issue a new card to the Member. Members may initiate a PCP change at any time, for any reason. The request for PCP change may be made in writing or by telephone. If the change is requested by the twentieth of the month, it will become effective the first day of the following month. If the request is made after the twentieth day, it will become effective the first day of the second month following the request.

2. PCP Initiated
   Molina Healthcare asks that you document the need for these changes in writing to the Provider Services Department, with the specific reasons for the request. Reasonable Cause Does Not Include a Member’s Health Status. Please submit documentation to:

   Molina Healthcare of New Mexico,
   Inc. Provider Services Department
   P. O. Box 3887
   Albuquerque, NM, 87190 - 9859 OR
   Fax to (505) 798-7313

   PCPs are responsible for providing basic care and emergency coverage for up to thirty (30) days after the date of your change letter, or until we can confirm the Member has made a change in his/her PCP, whichever is less. The PCP initiating the
Member’s change is responsible for the copy and transfer of the Member’s medical records to the new PCP.

3. **Molina Healthcare Initiated Change of PCP**
   Molina Healthcare may initiate a PCP change for a Member under the following circumstances:
   - Molina Healthcare and the Member agree that assignment to a different PCP is in the Member’s best interest, based on the Member’s medical condition;
   - A Member’s PCP ceases to be a Molina-contracted practitioner;
   - A Member’s behavior towards the PCP is such that it is not feasible to safely or prudently provide medical care, and the PCP has made reasonable efforts to accommodate the Member;
   - A Member has initiated legal actions against the PCP; and/or
   - The PCP is suspended for any reason.

4. **PCP and Medical Practitioner and Pharmacy Lock-In**
   When concerns about misuse of unnecessary services and/or prescription drugs by a Member are identified, Molina Healthcare may place a Member into “lock-in.” This program is called Patient Review and Restriction (PRR). Enrollment in the PRR Program is usually for twelve months.

**PCP Lock-In:**
Molina Healthcare may require that a Member see a certain PCP while ensuring reasonable access to quality services when:

- Utilized services have been identified as unnecessary;
- A Member’s behavior is detrimental; and/or
- A need is indicated to provide care continuity.

Molina Healthcare utilizes claim data, emergency room reports, pharmacy reports, Care Coordination Referral Forms, Provider Complaints and Nurse Advice Line reports to identify when a Member’s behavior requires placement into Lock-In. Identified behaviors include, but are not limited to: excessive emergency room utilization, excessive PCP change requests, provider reports of drug demands when not medically indicated and non-compliance to treatment plans, self-referral to pain management providers, and excessive “no-shows” to provider appointments.

A Member may be considered for lock-in/PRR if their utilization history shows:
- any two or more of the following conditions have been met or exceeded in a ninety-day period within the past year:
  - The Member has received services from four or more different practitioners, or
  - Has had prescriptions filled by four or more different pharmacies, or
  - Has received ten or more different prescriptions, or
  - Has had prescriptions filled by four or more different prescribers, or
• Has received similar services from two or more practitioners in the same day; or
b. The Member has made two or more visits to emergency departments for similar services within a 90-day period in the past year; or
c. Has a medical history at-risk utilization patterns within the past year; or
d. Member has made repeated and documented efforts to seek medically unnecessary health services within the past year; and has been counseled at least once by a health care provider or managed care plan representative about the appropriate use of health care services.

When the conditions listed above are met, a medical director reviews the Member’s diagnosis, history of services provided, or other relevant medical information (e.g. prescription claims history). The Medical Director must determine that the documented utilization shows both of the following:

- That the utilization is all related to one problem, and is not an unlucky coincidence of appropriate treatment for several different problems; and
- That continuation of services from multiple providers constitutes inappropriate, unsafe, or medically unnecessary medical practice or overuse of medical services (as defined in applicable New Mexico statutes and regulations) medical services well beyond the patient’s medically necessary care).

If the reviewing medical director finds that the Member is using inappropriate, unsafe, or medically unnecessary services, Molina Healthcare staff will follow policies and procedures to initiate restrictions.

Prior to placing a Member into medical provider lock-in, Molina will inform the Member and/or Member’s Representative of the intent to lock-in, including the reasons for imposing the lock-in and notice that the restriction does not apply to emergency services furnished to the Member.

a. Molina Healthcare’s grievance procedure will be made available to any Member being designated for PCP lock-in.
b. The PCP lock-in will be reviewed and documented and reported to HSD every quarter.
c. The Member will be removed from PCP lock-in when it has determined that the utilization problems have been solved and that recurrence of the problems is judged to be improbably.
d. HSD will be notified of all lock-in removals.

The Member’s input will be required to select an assigned medical practitioner for lock-in. Depending on circumstances, this practitioner may be the Member’s PCP, pain specialist, oncologist, Suboxone or methadone provider or another medical practitioner who has a relationship with the Member and a reason to provide the Member with prescriptions for drugs with abuse potential. The medical practitioner chosen by the Member must be agreeable to acting as the practitioner and
manager of the Member’s prescriptions for medications with abuse potential. Molina Healthcare’s grievance procedure will be made available to a Member disagreeing with the lock-in process.

The lock-in will be reviewed and documented by Molina Healthcare and reported to HSD every quarter. The Member will be removed from lock-in when Molina Healthcare has determined that the utilization problems or detrimental behavior have ceased and that recurrence of the problems is judged to be improbable. HSD will be notified of all lock-in removals.

**Pharmacy Lock-In**
Molina Healthcare may also require that a Member be restricted to a single pharmacy provider when non-compliance or drug seeking behavior is suspected. Prior to placing the Member on pharmacy lock-in, Molina Healthcare will inform the Member and the Member’s representative(s) of the intent to lock-in.

- Molina Healthcare’s grievance procedure will be made available to the Member being designated for pharmacy lock-in.
- The pharmacy lock-in will be reviewed and documented and reported to HSD every quarter.
- The Member will be removed from pharmacy lock-in when it has determined that the compliance or drug-seeking behavior has been resolved and the recurrence of the problems is judged to be improbable.
- HSD will be notified of all lock-in removals.

**Criteria for ending lock-in/PRR for a Member are as follows:**
- The Member has been in the program for 12 months, and
- Review of clinical, prescribing, and billing information shows that the Member’s care has been reasonable and appropriate, or
- The PCP handling the lock-in/PRR restrictions reports that the services requested have been reasonable and appropriate, or
- One of the following early-termination criteria are met:
  - The Member disenrolls or otherwise leaves the plan; or
  - The Member’s health status changes and the program is no longer necessary or is a hindrance to ongoing medical care.

5. **Member Disenrollment**
A Member may request to be disenrolled from Molina Healthcare for cause at any time, even during a lock-in period. The Member must submit a written request to HSD for approval.

**D. Transition of Care for New Molina Healthcare Members**
Molina Healthcare will authorize medically necessary health care services for a new Member who has been authorized to receive these services by their previous MCO upon enrollment to Molina Healthcare as defined by State regulation.
The utilization reviewer and/or care manager will contact the new Member and the new Member’s current practitioner/provider to determine the transition of care needs of the Member to a Molina Healthcare contracted practitioner/provider.

E. Continuity of Care

1. Continuity of Care Following Transition Between two Managed Care Organizations (MCOs)
Practitioners/providers will receive pertinent Member information, with Member consent, when the Member transitions from one managed care organization to another, including information related to key medical conditions, authorization data, assessment results, and service coordination and/or care management status, including a copy of the current Care Plan.

2. Continuity of Care Following Member Loss of Eligibility
If the Member’s eligibility ends and the Member needs continued treatment, Molina Healthcare will inform the Member of alternative options for care that may be available through a local or state agency.

3. Continuity of Care and Communication after Practitioner Termination
It is Molina Healthcare’s policy to provide members with advance notice when a provider they are seeing will no longer be in network. Members and providers are encouraged to use this time to transition care to an in-network provider. The provider leaving the network shall provide all appropriate information related to course of treatment, medical treatment, etc. to the provider(s) assuming care. Under certain circumstances, members may be able to continue treatment with the out of network provider for a given period of time.

Molina Healthcare stresses the importance of timely communication between providers involved in a member’s care. This is especially critical between specialists, including behavioral health providers, and the member’s PCP. Information should be shared in such a manner as to facilitate communication of urgent needs or significant findings.

- Molina Healthcare allows any Member whose treating practitioner leaves the network during an episode of care, to continue diagnostic or therapeutic endeavors with that practitioner until the current episode of care (an active course of treatment for an acute medical condition or ongoing treatment of a chronic medical condition) terminates or until ninety (90) days have elapsed since the practitioner’s contract ended, whichever is shorter;
- Molina Healthcare will authorize this continuity of care only if the health care practitioner/provider agrees to:
  - Accept reimbursement from Molina Healthcare at the rates applicable prior to the start of the transitional period as payment in full; and
  - Adhere to Molina Healthcare’s quality assurance requirements and to provide to Molina Healthcare necessary medical information related to such
Under no circumstances will Members be permitted to continue care with practitioners/providers who have been terminated from the network for quality of care, barred from participation based on existing Medicare, Medicaid or State Children’s Health Insurance Program sanctions (except for Emergency Services) or fraud reasons.

4. **Continuity of care includes but is not limited to the following situations:**
   - Surgery follow-up as covered by the global surgical fee and until any operative or post-operative complication has resolved or ninety (90) have elapsed;
   - Third trimester pregnancies through the post-partum period; (newborns enrolled with Molina Healthcare must be treated by a contracted practitioner);
   - Members in the midst of a course of chemotherapy or radiation may continue through the current course of treatment; or
   - The treating practitioner has left the network and there is no similar practitioner in network however, these situations require Medical Director’s approval.

**F. Member Notification of PCP and Specialist Termination**

Molina Healthcare will notify the Member in writing of their PCP termination within thirty (30) calendar days of the receipt of the termination. Molina Healthcare will notify the Member in writing of their specialist’s termination when the Member has received services from that specialist within the ninety (90) days immediately prior to the specialist’s termination.

**G. Member Health Assessment**

Molina Healthcare will identify Members with complex physical and/or behavioral health needs through screening and health assessments performed by Care Managers at the time of enrollment. The staff will obtain basic health demographic information to complete a Health Risk Assessment (HRA). The HRA results will determine the necessary level of care management, identify any cultural or disability sensitivities and determine the need for a Comprehensive Needs Assessment (CNA).

The results of the HRA will be communicated to Molina Healthcare’s Care Management team for evaluation of the appropriate level of care and any special accommodations. Members identified will be referred for the appropriate level of Care Management and Care Coordination, and a Molina Healthcare Care Manager will develop a Care Plan to address the Members functional needs, medical conditions, behavioral health needs, and social and environmental needs in collaboration with the Member’s family, PCP, and other professional practitioners/providers or agencies involved in their care.

The Care Coordination Queue is available during normal business house Monday through Friday from 8:00 a.m. – 5:00 p.m. Please call toll free (855) 315-5677. This shall ensure that members have a telephone number to call to directly contact their
care coordinator or a member of their care coordination team.

To verify Member benefits or eligibility, please contact Member Services in Albuquerque at (505) 341-7493 or toll free at (888) 825-9266.
Section 4 - Member Rights and Responsibilities

All contracted Molina Healthcare providers must abide by the Member rights and responsibilities as outlined below.

A. Member Rights

The Member and/or his or her legal guardian(s) have the right to:

1. Receive information about Molina Healthcare, Molina Healthcare’s policies and procedures regarding products, services, its contracted providers, grievance procedures, benefits provided and Members' rights and responsibilities.
2. Be treated with courtesy and consideration, equitably and with respect and recognition of his/her dignity and right and need to for privacy.
3. Choose a PCP within the limits of the covered benefits, and plan network, and the right to refuse care of specific practitioners.
4. Receive from the Member's practitioner(s), in terms that the Member or legal guardian(s) understands, an explanation of his/her complete medical condition, and recommended treatment, risk(s) of the treatment, expected results and reasonable medical alternatives, irrespective of the health care insurer's or Molina Healthcare’s position on treatment options. If the Member is not capable of understanding the information, the explanation will be provided to his/her next of kin, guardian, agent or surrogate, if available, and documented in the Member’s medical record.
5. Receive health care services in a non-discriminatory fashion.
6. Participate with his/her health care practitioners in decision making in all aspects of his/her health care, including the treatment plan development, acceptable treatments and the right to refuse treatment.
7. Be provided with informed consent.
8. Choose a surrogate decision-maker to be involved as appropriate, to assist with care decisions.
9. Seek a second opinion by another provider in the Molina Healthcare’s network when Members need additional information regarding recommended treatment or believe the provider is not authorizing requested care.
10. A candid discussion of appropriate or medically necessary treatment options for his/her conditions, regardless of cost or benefit coverage.
11. Voice complaints, grievances or appeals about Molina Healthcare, the handling of grievances, or the care provided and make use of Molina Healthcare’s grievance process and the HSD hearings process, at no cost, without fear of retaliation.
12. File a complaint, grievance or appeal with Molina Healthcare or, the HSD Hearings Bureau, for Medicaid Members, and to receive an answer to those complaints, grievances or appeals within a reasonable time.
13. Choose from among the available providers within the limits of Molina Healthcare’s network and its referral and prior authorization requirements.
14. Make his/her decisions known through advance directives regarding health care decisions (i.e., living wills, right to die directives, “do not resuscitate” orders, etc.) consistent with federal and state laws and regulations.
15. Privacy of medical and financial records maintained by Molina Healthcare and its providers, in accordance with existing law.
16. Access the Member's medical records in accordance with the applicable federal and state laws and regulations.
17. Consent to or deny the release of identifiable medical or other information by Molina Healthcare, except when such release is required by law.
18. Request an amendment to his/her Protected Health Information (PHI) if the information is believed to be incomplete or wrong.
19. Receive information about Molina Healthcare, its health care services, how to access those services, the network providers (i.e., title, education, and the Patient Bill of Rights).
20. Be provided with information concerning Molina Healthcare’s policies and procedures regarding products, services, providers, appeal procedures, obtaining consent for use of Member medical information, allowing Members access to his/her medical records, and protecting access to Member medical information, and other information about Molina Healthcare and benefits provided.
21. Know upon request of any financial arrangements or provisions between Molina Healthcare and its providers, which may restrict referral or treatment options or limit the services offered to the Members.
22. Be free from harassment by Molina Healthcare or its network providers about contractual disputes between Molina Healthcare and providers.
23. Available and accessible services when medically necessary as determined by the PCP or treating provider in consultation with Molina Healthcare, twenty-four (24) hours per day, seven (7) days per week for urgent or emergency care services and for other health care services as defined by the contract or evidence of coverage.
24. Adequate access to qualified health professionals near where the Member lives or work within the service area of Molina Healthcare.
25. Prompt notification of termination or changes in benefits, services or provider network.
26. Seek care from a non-participating provider and be advised of their financial responsibility if they receive services from a non-participating provider, or receive services without required prior authorization.
27. Continue an ongoing course of treatment for a period of at least thirty (30) days. This will apply if the Member's provider leaves the provider network or if a new Member's provider is not in the provider network.
28. Make recommendations regarding the organization's Member rights and responsibilities policies.
29. Be free from any form of restraint or seclusion used as a means of coercion, discipline, convenience or retaliation, as specified in other federal regulations on the use of restraints and seclusion.
30. Select an MCO and exercise switch enrollment rights without threats or harassment.
31. Detailed information about coverage, maximum benefits and exclusions of specific conditions, ailments or disorders, including restricted benefits and all requirements that an enrollee must follow for prior approval and utilization review.
32. Be afforded by law, rule, or regulation as a patient in a licensed health care facility, including the right to refuse medication and treatment after possible consequences of this decision have been explained in language the Member understands.
33. A complete explanation of why care is denied, an opportunity to appeal the decision to Molina Healthcare’s internal review, the right to a secondary appeal, and the right to request the superintendent’s or HSD’s assistance as applicable.
34. Be free to exercise his/her rights and that exercising those rights will not result in adverse treatment of the member or their legal guardian.

In addition:
35. Members who do not speak English as his/her first language have the right to access translator services at no cost for communication with Molina Healthcare.
36. Members who have a disability have the right to receive information in an alternative format in compliance with the Americans with Disabilities Act.
37. Members have a right to affordable health care, with limits on out-of-pocket expenses, including the right to seek care from a non-participating provider and an explanation of a Member’s financial responsibility when services are provided by a non-participating Provider or non-participating Provider, or provided without required pre-authorization.

B. Member Responsibilities
Molina Healthcare enrolled Members and/or his/her guardian(s) has the responsibility to:
1. Provide, to the extent possible, information that Molina Healthcare and its providers need in order to care for him/her.
2. Understand the Member’s health problems and to participate in developing mutually agreed upon treatment goals.
3. Follow the plans and instructions for care that he/she have agreed on with his/her practitioner(s).
4. Keep, reschedule or cancel an appointment rather than to simply fail to show-up.
5. Review his/her Member Handbook or Evidence of Coverage and if there are questions contact the Member Services Department for clarification of benefits, limitations and exclusions. The Member Services telephone number is located on the Member’s Identification Card.
6. Follow Molina Healthcare’s policies, procedures and instructions for obtaining services and care.
7. Show his/her Member Identification Card each time he/she goes for medical care and to notify Molina Healthcare immediately of any loss or theft of his/her identification card.
8. Advise a participating provider of coverage with Molina Healthcare at the time of service. Members may be required to pay for services if he/she does not inform the participating provider of his/her coverage.
9. Pay for all services obtained prior to the effective date with Molina Healthcare and subsequent to termination or cancellation of coverage with Molina Healthcare.
10. Notify his/her Income Support Division Caseworker if there is a change in his/her name, address, telephone number, or any changes in his/her family.
11. Notify HSD and Molina Healthcare if he/she gets medical coverage other than through Molina Healthcare.
12. Pay for all required co-payments and/or coinsurance at the time services are rendered.
Section 5 – **Centennial Care Covered Services**

**A. Covered Services**

Molina Healthcare provides and coordinates comprehensive and integrated health care benefits to each of its enrolled Members and covers the physical health, behavioral health and long-term care benefits outlined below:

<table>
<thead>
<tr>
<th>Benefit Package</th>
<th>Services Included but not limited to:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Behavioral Health Services</td>
<td>Inpatient Behavioral Health, Residential Treatment Center (RTC) services, substance abuse services including outpatient and residential, Treatment Foster Care (TFC) I and II, Assertive Community Treatment (ACT), Psychosocial Rehabilitation Services, Behavior Management Skills (BMS) development services, day treatment services, intensive outpatient programs, Behavioral Health professional outpatient services and Value-Added Services.</td>
</tr>
<tr>
<td>Medical and Acute Care Services</td>
<td>Ambulatory surgical center services, anesthesia services, audiology services for adults and children, care coordination services, cancer screening, diagnostic and treatment services, dental services, diagnostic imaging and therapeutic radiology, dialysis, durable medical equipment, EPSDT service package, emergency services, family planning services, hearing aids for adults and children, home health care, hospice, hospital services (inpatient and outpatient), infusion therapy, laboratory, nutritional counseling, occupational services, optometry, specialists, pharmacy, physical therapy, podiatry, preventive health, prosthetics/orthotics, short term nursing facility stays, speech and language therapy, transplants, transportation, vision and value-added services.</td>
</tr>
<tr>
<td>Home and Community Based Services</td>
<td>Adult day health, assisted living, emergency response services, environmental modifications, case management, homemakermaker services, private duty nursing, respite and maintenance therapies (physical, occupational and speech).</td>
</tr>
<tr>
<td>Long-Term Care Support</td>
<td>Day health services, skilled nursing facility stays and personal care services.</td>
</tr>
</tbody>
</table>

**B. Community Benefit**

For Members meeting nursing facility level of care, Molina Healthcare provides the Community Benefit, as determined appropriate based on the Member’s Comprehensive Needs Assessment. The **Community Benefit** means both the **Agency-Based Community Benefit** and the **Self-Directed Community Benefit** subject to an individual’s annual allotment as determined by HSD. Members eligible for the Community Benefit will have the option to select either the Agency-Based Community Benefit or the Self-Directed Community Benefit.
• Members selecting the Agency-Based Community Benefit will have the option to select their personal care service provider; and
• Members may also select the Self-Directed Community Benefit, which affords them the opportunity to have choice and control over how services are provided and how much certain providers are reimbursed in accordance with range of rates per service established by HSD.

1. **Agency-Based Care Services**
   - Adult Day Health;
   - Assisted Living;
   - Behavior Support Consultation;
   - Community Transition Services;
   - Emergency Response;
   - Employment Supports;
   - Environmental Modifications;
   - Home Health Aide;
   - Personal Care Services;
   - Private Duty Nursing for Adults;
   - Respite; and
   - Skilled Maintenance Therapy Services.

2. **Self-Directed Community Benefit Services**
   - Behavior Support Consultation;
   - Emergency Response;
   - Employment Supports;
   - Environmental Modifications;
   - Home Health Aide;
   - Homemaker;
   - Nutritional Counseling;
   - Private Duty Nursing for Adults;
   - Related Goods;
   - Respite;
   - Skilled Maintenance Therapy Services;
   - Specialized Therapies; and
   - Transportation (non-medical).

For additional information regarding the Centennial Care Community Benefit, please contact your Long Term Care Provider Services Representative toll free at (800) 377-9594.

---

¹ Includes a health appraisal exam, laboratory and radiological tests and early detection procedures.

² Covers speech, occupational and physical therapy, and applied behavioral analysis for recipients age 19-20; or age 21-22 who are enrolled in high school.

³ Limited to one per lifetime. Criteria may be applied that considers previous attempts by the member to lose weight, BMI and health status.

⁴ Limited to short-term therapy (two consecutive months) per cardiac event.

⁵ The ABP covers dental services for adults in accordance with 8.3.10.7 NMAC. Recipients age 19-20 may receive dental services according to the increased periodicity under EPSDT.

⁶ Requires a provider’s prescription. DME is limited to a periodicity schedule and must be medically necessary. Disposable medical supplies are limited to diabetic and contraceptive supplies. Foot orthotics, including shoes and arch supports, are covered only when an integral part of a leg brace, or are diabetic shoes.

⁷ Sterilization reversal is not covered. Infertility treatment is not covered.

⁸ Limited to Triple Serum Test and genetic testing for the diagnosis or treatment of a current illness. Does not include random genetic screening.

⁹ Limited to short-term therapy (two consecutive months) per condition.

<sup>10</sup> Hearing aids and hearing aid testing by an audiologist or hearing aid dealer are not covered, except for recipients age 19-20.

<sup>11</sup> Home health is limited to 100 visits per year. A visit cannot exceed four hours.

<sup>12</sup> Includes ACIP-recommended vaccines

<sup>13</sup> Includes services in a psychiatric unit of a general hospital and inpatient substance abuse detoxification. The ABP does not include inpatient drug rehabilitation services. Free-standing psychiatric hospitals (or Institutions for Mental Disease) are not covered under the ABP or ABP-exempt package except for recipients age 19-20. Surgeries for cosmetic purposes are not covered.

<sup>14</sup> Includes services in a nursing or long-term care acute rehabilitation facility/hospital. Covered is limited to temporary stays as a step-down level of care from an acute care hospital when medically necessary and the discharge plan for the recipient is the eventual return home.

<sup>15</sup> Transplants are limited to two per lifetime.

<sup>16</sup> Other over-the-counter items may be considered for coverage only when the item is considered more medically or economically appropriate than a prescription drug, contraceptive drug or device, or for treating diabetes.

<sup>17</sup> Includes US Preventive Services Task Force “A” and “B” recommendations; preventive care and screening recommendations of the HRSA Bright Future program; and additional preventive services for women recommended by the Institute of Medicine.

<sup>18</sup> Covered when medically necessary due to malformations, injury, acute trauma or diabetes.

The Alternative Benefit Plan is a low cost insurance plan for adults ages nineteen (19) to sixty-four (64). Under ABP, there are cost sharing amounts that are based on Federal Poverty Level (FPL) percentages. This will impact newly eligible adults up to 138% of FPL.

¹⁹ Limited to short-term therapy (two consecutive months) per condition.
²⁰ Subject to the 100-visit home health limited when provided through a home health agency.
²¹ Limited to diagnostic sleep studies performed by certified providers/facilities.
²² The ABP does not cover behavioral health supportive services: Family Support, Recovery Services and Respite services.
²³ Refraction for visual acuity and routine vision are not covered, except for recipients age 19-20.
²⁴ Covered only following the removal of the lens from one or both eyes (aphakia). Coverage of materials is limited to one set of contact lenses or eyeglasses per surgery, within 90 days following surgery. Vision hardware is covered for recipients age 19-20 following a periodicity schedule.
Section 6 – Medical Management Program and Prior Authorization

A. Introduction
Molina Healthcare maintains a medical management program to ensure patient safety as well as detect and prevent fraud, waste and abuse in its programs. The Molina Healthcare medical management program also ensures that Molina Healthcare only reimburses for services identified as a covered benefit and medically necessary. Elements of the Molina Healthcare medical management program include medical necessity review, prior authorization, inpatient management and restrictions on the use of non-network providers.

B. Medical Necessity Review
In conjunction with regulatory guidance from the Centers for Medicare and Medicaid Services (CMS) and industry standards, Molina Healthcare only reimburses services provided to its members that are medically necessary. Molina Healthcare may conduct a medical necessity review of all requests for authorization and claims, within the specified time frame governed by Federal or State law for all lines of business. This review may take place prospectively, as part of the inpatient admission notification/concurrent review, or retrospectively, as long as the review complies with Federal or State regulations and the Molina Healthcare Hospital or Provider Services Agreement.

Medically Necessary means the care which, in the opinion of the treating physician, is reasonably needed to:
- Prevent the onset or worsening of an illness, condition, or disability;
- Establish a diagnosis;
- Provide palliative, curative, or restorative treatment for physical and/or mental health conditions;
- Assist the individual to achieve or maintain maximum functional capacity in performing daily activities, taking into account both the functional capacity of the individual and those functional capacities that are appropriate for individuals of same age; and
- Not primarily long-term institutional care services unless long-term institutional services is a Covered Service that the Provider has agreed to provide. In addition, there must be no other effective and more conservative or substantially less costly treatment, service and setting available.

Medically Necessary Services means clinical and rehabilitative physical, mental or behavioral health services that: (i) are essential to prevent, diagnose or treat medical conditions or are essential to enable the Member to attain, maintain or regain the Member’s optimal functional capacity; (ii) are delivered in the amount, duration, scope and setting that are both sufficient and effective to reasonably achieve their purposes and clinically appropriate to the specific physical, and behavioral health care needs of the Member; (iii) are provided within professionally accepted standards of practice and national guidelines; and (iv) are required to meet the physical, and behavioral health needs of the Member and (v) are not primarily for the convenience of the Member, the provider or Molina Healthcare.

The fact that a provider has prescribed, recommended or approved medical or allied goods or services does not, in itself, make such care, goods or services Medically Necessary, a Medical
Necessity or a Covered Service/Benefit.

C. Clinical Information
Molina Healthcare requires copies of clinical information be submitted for documentation in all medical necessity determination processes. Clinical information includes but is not limited to: physician emergency department notes, inpatient history/physical exams, discharge summaries, physician progress notes, physician office notes, physician orders, nursing notes, results of laboratory or imaging studies, therapy evaluations and therapist notes. Molina Healthcare does not accept clinical summaries, telephone summaries or inpatient case manager criteria reviews as meeting the clinical information requirements unless required by State regulation or the Molina Healthcare Hospital or Provider Services Agreement.

Molina Healthcare may request specific clinical information such as clinical notes, consultation reports, imaging studies, lab reports, hospital reports, letters of medical necessity and other clinical information deemed relevant. All requested information will be on a need-to-know, minimum, necessary basis. Molina Healthcare does not require prior authorization for life-threatening, emergency medical or behavioral health conditions.

D. Prior Authorization
Molina Healthcare requires prior authorization for specified services as long as the requirement complies with Federal or State regulations and the Molina Healthcare Hospital or Provider Services Agreement. The list of services that require prior authorization is available in narrative form, along with a more detailed list by CPT and HCPCS codes. Molina Healthcare prior authorization documents are updated annually and the current documents are posted on the Molina Healthcare website. Molina Healthcare has included at the end of this section of this manual a copy of the current Authorization Request form. If using a different form, the prior authorization request must include the following information:

- Member demographic information (name, date of birth, Molina Healthcare ID number, etc.);
- Provider demographic information (referring provider and referred to provider/facility);
- Requested service/procedure, including all appropriate CPT, HCPCS and ICD-9 codes; and
- Clinical information sufficient to document the medical necessity of the requested service.

Services performed without authorization may not be eligible for payment. Services provided emergently (as defined by Federal and State law) are excluded from the prior authorization requirements. Molina Healthcare does not “retroactively” authorize services that require prior authorization.

Molina Healthcare will process any non-urgent requests within fourteen (14) calendar days of receipt of request. Urgent requests will be processed within seventy-two (72) hours.

Providers who request Prior Authorization approval for patient services and/or procedures may request to review the criteria used to make the final decision. Molina Healthcare has a full-time Medical Director available to discuss medical necessity decisions with the requesting provider.

Emergency Services
Emergency services are covered on a (24) hour basis without the need for prior authorization for all Members experiencing an emergency medical situation. Molina Healthcare accomplishes this service by providing Utilization Management during business hours and a (24) hour Nurse Triage option on the main telephone line for post business hours. In addition, the 911 information is given to all members at the onset of any call to the plan.
For members within our service area: Molina Healthcare contracts with vendors that provide (24) hour emergency services for ambulance and hospitals. In the event that a Member is outside of the service area, Molina Healthcare is prepared to authorize treatment to ensure that the patient is stabilized.

E. Requesting Prior Authorization
The prior authorization (PA) process requires a request to determine medical necessity/eligibility before the service is rendered. To expedite the review process, pertinent clinical notes (i.e. practitioner office notes, lab test results, etc.) should be attached to the PA request. Authorization for a procedure does not in itself guarantee coverage but notifies you that the procedure as described meets criteria for medical necessity and appropriateness.

1. Practitioners/providers are encouraged to use the Molina Healthcare Web Portal for outpatient prior authorization submission at Web Portal - Provider Self-Serve
   There is a rules-based authorization submission process called Clear Coverage. After logging into the Web Portal, choose the drop down option “Create Service Request/Authorization using Clear Coverage” link under the Service Request/Authorization Menu.

   Some of the benefits of using Clear Coverage are:
   ▪ Many outpatient services can automatically be approved at the time of the authorization submission;
   ▪ For requests not automatically approved, you can see the real-time status of your request by opening your office’s home page directly in Clear Coverage; and
   ▪ Receive rapid confirmation for services where no authorization is required. You are notified within a few steps if no authorization is required for the CPT code requested. You can print or paste a copy of that notification showing no authorization required for your records. There is no need for you to take any additional action.

   When using Clear Coverage, practitioners/providers will receive Auto Approval if InterQual Criteria is met for the following:
   ▪ Outpatient Hospital/Ambulatory Surgery Center (ASC) Procedures;
   ▪ Imaging: CT, MRI, MRA, PET, SPECT, Cardiac Nuclear Studies, CT Angiograms, Intimal Media Thickness Testing , Three Dimensional Imaging; and/or
   ▪ Genetic Counseling and Testing NOT related to Pregnancy.

   If your office/facility would like training to implement the Clear Coverage authorization submission process, please contact your Provider Service Representative.

2. PA Forms and services requiring Prior Authorization can be accessed on the Molina Healthcare website at www.molinahealthcare.com.
   a. Choose New Mexico;
   b. Choose Health Care Professionals;
   c. Forms; and
   d. Frequently Used Forms.

   Behavioral Health Prior Authorization Request Form
   Nursing Facility Level of Care Notification Form
3. Prior Authorization Requests may also be submitted by fax via the following Toll Free Fax: (888) 802-5711. Faxes received after 5:00 p.m. Monday through Thursday will be considered to have been received on the next business day. Faxes received after 5:00 p.m. Friday, or on Saturday or Sunday will be considered to have been received on the next business day. Faxes received on a holiday will be considered to have been received on the next business day.

- Medically Urgent Requests by Phone: In Albuquerque: (505) 798-7371 or Toll free (877) 262-0187
- Pharmacy: Toll free fax: (866) 472-4578

4. All authorized services are subject to the Member’s benefit plan and eligibility at the time the service is provided. A list of Molina Healthcare’s services that require prior authorization are listed below. Routine/Elective requests must be faxed to Molina Healthcare.
**Use the Molina web portal for faster turnaround times.**

**Contact Provider Services for details**

- **Behavioral Health:** Mental Health, Alcohol and Chemical Dependency Services:
  - Inpatient, Residential Treatment, Treatment Foster Care, Group Home, hospitalization, Day Treatment, Electroconvulsive Therapy (ECT)
  - Applied Behavioral Analysis (ABA) – for treatment of Autism Spectrum Disorder (ASD)
- **Cosmetic, Plastic and Reconstructive Procedures (in any setting)**
- **Dental General Anesthesia:** > 7 years old or per state benefit (Not a Medicare covered benefit)
- **Dialysis:** one time only notification
- **Durable Medical Equipment:** Refer to Molina’s website or portal for specific codes that require authorization.
  - Medicare Hearing Supplemental benefit: Contact Avesis at 800-327-4462
- **Experimental/Investigational Procedures**
- **Genetic Counseling and Testing** except for prenatal diagnosis of congenital disorders of the unborn child through amniocentesis and genetic test screening of newborns mandated by state regulations.
- **Habilitative Therapy** – After initial evaluation plus six (6) visits for outpatient and home settings (per state benefit)
- **Home Healthcare and Home Infusion:** After initial evaluation plus six (6) visits
- **Hospice & Palliative Care:** notification only.
- **Hyperbaric Therapy**
- **Imaging, Advanced and Specialty Imaging:** Refer to Molina’s website or portal for specific codes that require authorization.
- **Inpatient Admissions:** Acute hospital, Skilled Nursing Facilities (SNF), Rehabilitation, Long Term Acute Care (LTAC) Facility, Hospice (Hospice requires notification only)
- **Long Term Services and Supports:** Refer to Molina’s website or portal for specific codes that require authorization. Not a Medicare covered benefit.  
- **Neuropsychological and Psychological Testing**
- **Non-Par Providers/Facilities:** Office visits, procedures, labs, diagnostic studies, inpatient stays except for:
  - Emergency Department services
  - Professional fees associated with ER visit, approved Ambulatory Surgery Center (ASC) or inpatient stay
  - Other services based on state requirements
- **Occupational Therapy:** After initial evaluation plus six (6) visits for outpatient and home settings
- **Office-Based Procedures do not require authorization**
- **Outpatient Hospital/Ambulatory Surgery Center (ASC) Procedures:** Refer to Molina’s website or portal for specific codes that require authorization.
- **Pain Management Procedures:** except trigger point injections (Acupuncture is not a Medicare covered benefit)
- **Physical Therapy:** After initial evaluation plus six (6) visits for outpatient and home settings
- **Pregnancy and Delivery:** notification only
- **Prosthetics/Orthotics:** Refer to Molina’s website or portal for specific codes that require authorization.
- **Radiation Therapy and Radiotherapy (for selected services only):** Refer to Molina’s website or portal for specific codes that require authorization.
- **Rehabilitation Services:** Including Cardiac, Pulmonary, and Comprehensive Outpatient Rehab Facility (CORF). CORF Services for Medicare only.
- **Sleep Studies**
- **Specialty Pharmacy drugs (oral and injectable)** Refer to Molina’s website or portal for specific codes that require authorization.
- **Speech Therapy:** After initial evaluation plus six (6) visits for outpatient and home settings.
- **Transplants including Solid Organ and Bone Marrow** (Cornea transplant does not require authorization)
- **Transportation:** non-emergent ambulance (ground and air)
- **Unlisted, Miscellaneous and T (Temporary) Codes:** Molina requires standard codes when requesting authorization. Should an unlisted, miscellaneous, or Temporary code be requested, medical necessity documentation and rationale must be submitted with the prior authorization request.
- **Wound Therapy**

---

*STERILIZATION NOTE: Federal guidelines require that at least 30 days have passed between the date of the individual’s signature on the consent form and the date the sterilization was performed. The consent form must be submitted with claim. (Medicaid benefit only)*
Information generally required to support authorization decision making includes:

- Current (up to 6 months), adequate patient history related to the requested services.
- Relevant physical examination that addresses the problem.
- Relevant lab or radiology results to support the request (including previous MRI, CT Lab or X-ray report/results)
- Relevant specialty consultation notes.
- Any other information or data specific to the request.

The Urgent / Expedited service request designation should only be used if the treatment is required to prevent serious deterioration in the member's health or could jeopardize the enrollee’s ability to regain maximum function. Requests outside of this definition will be handled as routine / non-urgent.

- If a request for services is denied, the requesting provider and the member will receive a letter explaining the reason for the denial and additional information regarding the grievance and appeals process. Denials also are communicated to the provider by telephone, fax or electronic notification. Verbal, fax, or electronic denials are given within one business day of making the denial decision, or sooner if required by the member’s condition.
- Providers and members can request a copy of the criteria used to review requests for medical services.
- Molina Healthcare has a full-time Medical Director available to discuss medical necessity decisions with the requesting physician at 800-377-9495.

For Molina Use Only:
F. Criteria Used in Making Medically Necessary Decisions

The Molina Healthcare Quality Assurance Committee (QAC) has approved several criteria sets to be utilized for review of service requests. Molina Healthcare utilizes the Office of Disability Guidelines, and internally developed Medical Coverage Guidance Documents to determine appropriateness of service requests.

InterQual Smart Sheets are specifically created to guide the provider through the clinical criteria and are available upon request. A copy of other specific guidelines can be requested by contacting the Health Care Services (HCS) Department or your Provider Service Representative.

If the requested services do not meet criteria for medical necessity or covered services, the case will be referred to a physician reviewer for determination. Utilization review criteria, internal guidelines, and nationally recognized criteria are used to determine approval of the requested service authorization.

Molina Healthcare employs physicians licensed in the State of New Mexico to make medical necessity denial decisions for Centennial Care Members. Board certified physicians from appropriate specialty areas will provide consultations as needed for medical necessity decisions.

Denial decisions are communicated to the provider and the Member, in writing, as required by contract and NCQA standards. These letters include the specific utilization review criteria or benefits provisions used in the determination and provide information on the appeal process. Providers have telephonic access to the Medical Director to discuss medical necessity determinations.

G. Second Opinions

As a means of ensuring both high quality health care and Member satisfaction, Molina Healthcare will provide the option for a Member to obtain a second opinion from a qualified health care professional. If an appropriate professional is not available in network, Molina Healthcare will arrange for the Member to obtain the second opinion out of network at no more cost to the Member than if the service was obtained in-network. The Member may obtain a second opinion by:

- Asking his/her doctor for a referral to see another practitioner or specialist to obtain a second opinion; or
- Contacting the Member Service Department in Albuquerque (505) 342-4681 or toll free (800) 580-2811, if the practitioner does not agree to a request for a referral for a second opinion.

If a Member requires a second opinion that may only be provided by a practitioner outside the Molina Healthcare network, the referring practitioner will work with Molina Healthcare to obtain the appropriate prior authorization. All out-of-network second opinion requests are
reviewed by a Medical Director. If the practitioner providing the second opinion agrees with the Member’s practitioner, Molina Healthcare will not authorize a third opinion.

H. Communication Services
Practitioners/providers seeking information about the utilizations management (UM) process or UM decisions may contact our Health Care Services (HCS) staff between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday. It is Molina Healthcare’s policy for staff to identify themselves by name, title and organization when initiating or returning calls regarding UM issues. Practitioners/providers seeking information regarding medical services may call Member Services in Albuquerque at (505) 341-7493 or toll free at (888) 825-9266. If you would like to discuss a case, please ask to be put in contact with one of Molina Healthcare’s Medical staff.

I. Ensuring Appropriate Service and Coverage/ Avoiding Conflict of Interest
Molina Healthcare does not reward providers or other individuals for issuing denials of coverage or care. Furthermore, Molina Healthcare never provides financial incentives to encourage authorization decision makers to make determinations that result in underutilization. Delegated medical groups/IPAs are required to avoid this kind of conflict of interest.
- Decisions about utilization management (effective use of services) are based only on whether care is appropriate and whether a Member has coverage;
- Molina Healthcare does not reward providers or other individuals for issuing denials of coverage or care;
- UM decision-makers do not receive financial incentives, which encourage review decisions that result in underutilization;
- Molina Healthcare does not reward practitioners/providers or other individuals for issuing denials of coverage or service care; and
- UM decisions-makers do not receive financial incentives.

J. Thirty (30) Day Hospital Readmissions

Definitions:
Readmission: A subsequent admission to an acute care hospital within a specified time frame of a prior admission for a related condition or as readmission is defined by State laws or regulations.

Related Condition: A condition that has a same or similar diagnosis or is a preventable complication of a condition that required treatment in the original hospital admission.

Molina Healthcare conducts reviews of acute inpatient admissions that occur within thirty (30) calendar days of a previous initial acute care inpatient admission from the same facility. When such a situation occurs, medical records from the preceding admission will be requested and reviewed in conjunction with clinical documentation from the second
admission. If it is determined that the second admission is the result of either premature discharge or of inadequate discharge, transition, or coordination of care, payment for the second admission will be denied. In such instances, please note that the hospital is not allowed to bill the Member.

Hospital readmissions within thirty (30) days have been found by CMS to potentially constitute a quality of care problem. Readmission review is an important part of Molina Healthcare’s Quality Improvement Program to ensure that Molina Healthcare members are receiving hospital care that is compliant with nationally recognized guidelines, Medicare regulations, State Medicaid regulations and CMS.

Molina Healthcare will review all hospital subsequent admissions that occur within thirty 30 days of the previous discharge for all Medicaid claims. If the subsequent hospital admission is determined to be a Readmission, Molina Healthcare will deny the subsequent admission or pay for the subsequent admission and seek money from the first Provider if they are different Provider, unless it meets one of the exceptions noted below, violates State and/or Federal law or violates the terms of the Hospital or Provider Services Agreement between the Hospital and Molina.

Exceptions:
1. The readmission is determined to be due to an unrelated condition from the first inpatient admission AND there is no evidence that premature discharge or inadequate discharge planning in the first admission necessitated the second admission.
2. The readmission is part of a medically necessary, prior authorized or staged treatment plan.
3. There is clear medical record documentation that the patient left the hospital against medical advice (AMA) during the first hospitalization prior to completion of treatment and discharge planning.

K. Timelines for Molina Healthcare Utilization Management Decisions

<table>
<thead>
<tr>
<th>Type of Request</th>
<th>Molina Decision Timeframes</th>
<th>Molina Notification Timeframes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Non-urgent pre-service decisions (pre-certification routine)</td>
<td>Within 14 business days of receipt of request</td>
<td>Within 1 business day of decision</td>
</tr>
<tr>
<td>Urgent pre-service Precertification urgent</td>
<td>Within 72 hours of receipt of request -OR- Within 1 hour for life threatening conditions</td>
<td>Within 72 hours of decision</td>
</tr>
<tr>
<td>Urgent concurrent review (i.e. inpatient, ongoing ambulatory services)</td>
<td>Within 1 business day of receipt of request</td>
<td>Within 1 business day of decision</td>
</tr>
</tbody>
</table>
Routine Concurrent

Within 10 business days of receipt of request
Within 1 business day of decision

Post-service decisions

Within 30 calendar days of receipt

Residential Services (RTC, TFC, Group Homes)

Within 5 business days of receipt of request
Within 1 business day of decision

L. Initial Inpatient Admission Review

Elective, Non-Urgent Hospitalizations

1. Prior authorization is required for elective, non-urgent admissions, including admissions for elective procedures;
2. Elective inpatient admission services performed without prior authorization may not be eligible for payment.
3. For elective hospitalizations and procedures requiring overnight hospital stay, the facility needs to fax notification toll free to (866) 472-4575 on the date of admission; and
4. For hospital stays which exceed any pre-approved number of bed days or level of care, concurrent review of medical necessity is required. Records to support concurrent utilization review must be submitted by fax to (866) 472-4575 within 24 hours – see “Concurrent Inpatient Admission Review” process below.
5. For elective procedures and for scheduled, non-emergent hospitalizations, please refer to the Prior Authorization Guide above. The request and the relevant clinical information submitted are evaluated and reviewed against established criteria to determine the medical necessity and appropriateness of an inpatient stay and proposed treatment plan.
6. Only patients with a medical need for hospitalization are approved for admission;
7. The proposed treatment is customary for the diagnosis; and
8. Treatment will take place in the most cost effective and appropriate setting.

Urgent/Emergent Hospitalizations

1. Molina Healthcare requires notification of all emergent inpatient admissions within twenty-four (24) hours of admission or by the close of the next business day when emergent admissions occur on weekends or holidays. Molina Healthcare requires that notification includes member demographic information, facility information, date of admission and clinical information sufficient to document the medical necessity of the admission. Emergent inpatient admission services performed without meeting notification and medical necessity requirements will result in a denial of authorization for the inpatient admission. The facility/practitioner must fax admission notification toll free to (866) 472-4575;
2. All weekend and/or holiday inpatient or hospital observation admissions are subject to retrospective review for medical necessity;
3. For admissions over the weekend/holiday, facility reviews are expected to contain appropriate clinical evidence of services administered over the weekend/holiday;
4. Concurrent utilization review is required for all contracted facilities. Review documentation is to be faxed toll free to **(866) 472-4575** within 24 hours, refer to “Concurrent Inpatient Admission Review” process below;

5. The Medical Director, may call the attending practitioner for more information if questions arise relating to the admission;

6. When coverage is denied based on lack of medical necessity, Molina Healthcare will notify the requesting facility and send a confirmatory denial letter;

7. All medical necessity denials are made by a Molina Medical Director;

8. The attending physician or hospital (with the Member’s written consent), the Member or Member’s representative may appeal a denial within ninety (90) calendar days; and

9. If the request is of an emergent/urgent nature then the attending physician, hospital, Member or Member’s representative can request an expedited appeal.

**Labor & Delivery**

1. Molina Healthcare does not require notification for “normal” labor and delivery stays (forty-eight (48) hours for vaginal delivery and ninety-six (96) hours for cesarean (C-sections) or for stays less than twenty-four (24) hours. If the newborn is not discharged with the mother and requires a longer stay, authorization is required; and

2. If the newborn is in a higher acuity bed than newborn nursery, authorization is required.

Notification of Birth (MAD Form 313) must be completed by the hospital (or other Medicaid provider) prior to the time of discharge to ensure that Medicaid eligible newborn infants are enrolled into Centennial Care. The child will be enrolled in the same Managed Care Organization (MCO) as the enrolled mother.

**M. Nursing Facility Admissions/Discharges**

Practitioners/Providers are required to promptly notify Molina Healthcare of a:

- Member’s admission or request for admission to the Nursing facility regardless of payor source for the Nursing Facility stay;
- Change in a Member’s known circumstances; and
- Member’s pending discharge (must be in writing).

The **Nursing Facility Level of Care Notification Form and Communication Form** are located on the Molina Healthcare Website at [www.molinahealthcare.com](http://www.molinahealthcare.com)

- Choose New Mexico;
- For Health Care Professionals;
- Forms; and
- Frequently Used Forms.

**N. Concurrent Inpatient Admission Review**

Contracted facilities are required to participate in providing documentation to support concurrent utilization review of acute hospital admissions. Documentation supporting medical necessity for hospitalization will be submitted for review by Molina Healthcare
HCS staff by no later than 24-hours after (1) admission or (2) re-review date as specified by Molina Healthcare HCS review staff. Failure to submit such documentation within the specified 24-hour timeframe will result in administrative denial of coverage. In such instances, please note that the hospital is not allowed to bill the Member.

Records to support utilization review of initial and ongoing hospital stays should include documentation by the attending physician and other medical professionals providing care for the Member. Appropriate documents for submission include History and Physicals, physician’s progress notes, results of pertinent laboratory and imaging studies, vital signs, consultant notes and discharge summaries.

**O. On Site Review**

Some facilities may receive on-site review by Molina Healthcare staff. When Healthcare staff Members arrive at your facility, they are required to identify themselves by name, title and organization. They should also be wearing his/her Molina Healthcare photo identification badge.

**P. Non-Contracted Practitioners and Facilities**

Molina Healthcare maintains a contracted network of qualified healthcare professionals who have undergone a comprehensive credentialing process in order to provide medical care for Molina Healthcare members. Molina Healthcare requires members to receive medical care within the participating, contracted network of providers. All care provided by non-contracted, non-network providers must be prior authorized by Molina Healthcare. Non-network providers may provide emergent/urgent care and dialysis services for a member who is temporarily outside the service area, without prior authorization or as otherwise required by Federal or State laws or regulations.

For all admissions to non-contracted facilities, which were not pre-approved through Molina Healthcare, retrospective review is required and documentation is to be submitted at the time of claim submission.

**Q. Provider Preventable Conditions and Present on Admission Program**

Molina Healthcare follows procedures for coverage of Provider Preventable Conditions as specified by the State of New Mexico and the Centers for Medicare and Medicaid Services. From the State of NM Medical Assistance Program Supplement 12-05:Federal regulations released by the Centers for Medicare and Medicaid Services (CMS) on June 6, 2011 outlined the final requirements regarding Payment Adjustment for Provider-Preventable Conditions Including Health Care-Acquired Conditions. These regulations implemented Section 2702 of the Affordable Care Act (ACA, P.L. 111-148 and P.L. 111-152), which requires the Secretary of Health and Humans Services (HHS) to issue regulations prohibiting federal payments to states for providing medical assistance for Provider Preventable Conditions (PPCs), effective July 1, 2011. The final rule requires that state Medicaid programs implement non-payment polices for provider preventable conditions.
(PPCs) including health care-acquired conditions (HCACs) and other provider-preventable conditions (OPPCs).

1. **Provider Preventable Conditions – Hospital-Acquired Conditions**
   One category of PPCs is Hospital Acquired Conditions (HACs), which apply to all inpatient settings. Effective July 1, 2012, the New Mexico Medicaid Program is adopting the CMS present on admission (POA) / Hospital-Acquired Conditions (HAC) policy and will begin to deny claims that indicate that the diagnosis was not present on admission or that the documentation is insufficient to determine if condition was present at the time of inpatient admission. Conditions / diagnosis codes are identified by CMS as HACs when not present on hospital admission. The following are conditions or events considered to be HACs:

   e. Foreign Object Retained After Surgery;
   f. Air Embolism;
   g. Blood Incompatibility;
   h. Stage III and IV Pressure Ulcers;
   i. Falls and Trauma; including Fractures, Dislocations, Intracranial Injuries, Crushing Injuries, Burns, Electric Shock;
   j. Catheter-Associated Urinary Tract Infection (UTI);
   k. Vascular Catheter-Associated Infection;
   l. Manifestations of Poor Glycemic Control; including: Diabetic Ketoacidosis, Nonketotic Hyperosmolar Coma, Hypoglycemic Coma, Secondary Diabetes with Ketoacidosis, Secondary Diabetes with Hyperosmolarity; and
   m. Surgical Site Infection Following:
      ▪ Coronary Artery Bypass Graft (CABG) – Mediastinitis;
      ▪ Bariatric Surgery; including Laparoscopic Gastric Bypass, Gastroenterostomy, Laparoscopic Gastric Restrictive Surgery;
      ▪ Orthopedic Procedures; including Spine, Neck, Shoulder, Elbow; and
      ▪ Deep Vein Thrombosis (DVT)/Pulmonary Embolism (PE) Following Total Knee Replacement or Hip Replacement with pediatric and obstetric exceptions.

2. **Reporting the Present on Admission Indicator**
   Practitioners/providers must follow the official POA coding guidelines as set forth in the UB-04 Data Specifications Manual and in the ICD Official Guidelines for Coding and Reporting, or their successors. Present on admission is defined as present at the time the order for inpatient admission occurs - conditions that develop during an outpatient encounter, including emergency department, observation, or outpatient surgery, are considered as present on admission.

   POA indicator is assigned to principal and secondary diagnoses (as defined in Section II of the Official Guidelines for Coding and Reporting) and the external cause of injury codes.
Issues related to inconsistent, missing, conflicting or unclear documentation must still be resolved by the provider. If a condition would not be coded and reported based on Uniform Hospital Discharge Data Set definitions and current Official Guidelines, then the POA indicator would not be reported. Providers of inpatient DRG claims will be required to use the “present on admission” indicator on claims for all primary and all secondary diagnoses. If a condition is not present on admission, meaning that it was acquired during the inpatient stay, the New Mexico Medicaid program will not pay for any services or procedures involved in the treatment of that condition. For DRG cases, the DRG payable shall exclude the diagnoses not present on admission for any Health-Care Acquired Conditions (HCAC). Claims will be paid as though the diagnosis code is not present.

3. **Other Provider Preventable Conditions (OPPC): All Healthcare Providers**

The second category of PPCs is Other Provider Preventable Conditions (OPPCs), and applies to all Medicaid enrolled providers including physicians, inpatient and outpatient hospitals, ambulatory surgical centers, and other facilities. PPCs are conditions occurring in any health care setting that could have reasonably been prevented through the application of evidence based guidelines. Providers are required to report on a claim if an OPPC occurs.

If a provider reports any of the below diagnosis codes on a claim, the reduction in payment will be limited to the amounts directly identifiable as related to the PPC and the resulting treatment. OPPCs are defined as the following (condition with ICD code):

- Performance of wrong operation (procedure) on correct patient;
- Wrong device implanted into correct surgical site excludes: correct operation (procedure) performed on wrong body part;
- Performance of operation (procedure) on patient not scheduled for surgery;
- Performance of operation (procedure) intended for another patient;
- Performance of operation (procedure) on wrong patient;
- Performance of correct operation (procedure) on wrong side/body part;
- Performance of correct operation (procedure) on wrong side; and
- Performance of correct operation (procedure) on wrong site.

Also, if a practitioner/provider reports any one of the below modifiers on a claim, the reduction in payment would be limited to the amounts directly identifiable as related to the OPPC and the resulting treatment.

- PA - Surgery, Wrong Body Part;
- PB - Surgery, Wrong Patient;
- PC – Wrong Surgery on Patient; and
- The New Mexico Medicaid program will continue to follow CMS guidelines and national coverage determinations (NCDs), including any future additions or changes to the current list of HAC conditions, diagnosis codes, and OPPCs.

Practitioners/providers may read more about the Provider Preventable Conditions policy on the CMS website at [http://www.medicaid.gov/Medicaid-CHIP-Program-Information/By-](http://www.medicaid.gov/Medicaid-CHIP-Program-Information/By-).
R. Psychiatric Acute Inpatient Hospitalization

- **Definition of Service**

  Acute Inpatient Psychiatric Hospitalization is a 24-hour, secure and protected, medically staffed, psychiatrically supervised treatment service. This level of care is for stabilization of urgent or emergent behavioral health problems. Acute Inpatient Hospitalization is provided specifically for those consumers who, as a result of a psychiatric disorder, are an acute and significant danger to themselves or others, or are acutely and significantly disabled, or whose activities of daily living are significantly impaired. This level of care involves the highest level of skilled psychiatric services. It is rendered in a freestanding psychiatric hospital or the psychiatric unit of a general hospital. The care must be provided under the direction of an attending physician who performs a face-to-face interview of the consumer within 24 hours of admission. The care involves an individualized treatment plan that is reviewed and revised frequently based on the consumer’s clinical status.

  This level of care should not be authorized solely as a substitute for management within the adult corrections, juvenile justice or protective services systems, as an alternative to specialized schooling (which should be provided by the local school system), or simply to serve as respite or housing.

  This level of care is available for all age ranges, but admission should be to a unit that is age appropriate. For school age children and youth, academic schooling funded through the local school system or by the facility is expected.

2. **Admission Criteria (meets A and B, and C or D, or E or F):**

- Medical necessity has been demonstrated according to the New Mexico Medical Assistance Division definition contained in NMAC 8.305.1, and the consumer has a DSM diagnosed condition that requires, and is likely to benefit from, therapeutic intervention;
- Treatment cannot safely be administered in a less restrictive level of care;
- There is an indication of actual or potential imminent danger to self which cannot be controlled outside of a twenty-four (24)-hour treatment setting. Examples of indications include serious suicidal ideation or attempts, severe self-mutilation or other serious self-destructive actions.
- There is an indication of actual or potential imminent danger to others and the impulses to harm others cannot be controlled outside of a twenty-four (24)-hour treatment setting. An example of an indication includes a current threat and means to kill or injure someone;
- There is disordered or bizarre thinking, psychomotor agitation or retardation, and/or a loss of impulse control or impairment in judgment leading to behaviors that place the consumer or others in imminent danger. These behaviors cannot be controlled outside of a twenty-four (24)-hour treatment setting; and/or
- There is a co-existing medical illness that complicates the psychiatric illness or treatment. Together the illnesses or treatment pose a high risk of harm for the consumer, and cannot be managed outside of a twenty-four (24)-hour treatment setting.

3. Continued Stay Criteria (meets all):
- The consumer continues to meet admission criteria;
- An individualized treatment plan that addresses the consumer’s specific symptoms and behaviors that required Inpatient treatment has been developed, implemented and updated, with the consumer’s and/or guardian’s participation whenever possible, which includes consideration of all applicable and appropriate treatment modalities; and
- An individualized discharge plan has been developed which includes specific realistic, objective and measurable discharge criteria and plans for appropriate follow-up care. A timeline for expected implementation and completion is in place but discharge criteria have not yet been met.

4. Discharge Criteria (meets all):
- The consumer has met his/her individualized discharge criteria;
- The consumer can be safely treated at a less intensive level of care; and
- An individualized discharge plan with appropriate, realistic and timely follow-up care is in place.

Exclusionary Criteria (may meet any):
- The condition of primary clinical concern is one of a medical nature (not behavioral health) and, as outlined in the current Mixed Services Protocol, should be covered by another managed care entity; and/or
- The consumer appears to have presented for admission for reasons other than a primary psychiatric emergency, such as homelessness or in appropriate seeking of medications.

S. Inpatient Days Awaiting Placement (DAP) Rate
1. Description:
   Per NMAC 8.311.2.14 (4.MAD 721.5) and NMAC 8312.2 (742.14.A-C) Inpatient Days awaiting Placement (DAP) is a negotiated rate used when a Medicaid eligible consumer no longer meets acute care criteria and it is verified that the eligible consumer requires a residential level of care which may not be immediately located, those days during which the eligible consumer is awaiting placement to the lower level of care are termed “awaiting placement days.” These circumstances must be beyond the control of the inpatient provider.

DAP is intended to be brief and to support transition to the lower level of care. DAP may not be used solely because the inpatient provider did not pursue or implement a discharge plan in a timely manner.
2. Approval Criteria (must meet all):
   ▪ The consumer is covered by Medicaid as administered by the Medical Assistance Division definition, and the consumer has a DSM diagnosed condition that has required an acute inpatient psychiatric level of care currently;
   ▪ The consumer no longer meets continued stay criteria for inpatient acute psychiatric care and/or does meet discharge criteria and there is a specific discharge plan in place to a residential level of care, but documented barriers to implementation of that plan exist that are beyond the control of the provider or facility;
   ▪ The provider has made reasonable efforts to identify and obtain the services needed to implement the discharge plan, and continues to actively work to identify resources to implement that plan; and
   ▪ The MCO has authorized the residential level of care sought as the discharge, and documentation of this authorization has been made available to MCO utilization management personnel.

3. Exclusionary Criteria:
   ▪ The consumer has met his/her individualized discharge criteria and substantial barriers to discharge no longer exist;
   ▪ The inpatient facility cannot demonstrate that it continues to actively work to eliminate barriers to the planned discharge; and
   ▪ The inpatient facility is pursuing a discharge to a level of care or service that a MCO psychiatrist peer reviewer has explicitly stated does not appear to meet admission criteria at this time.

T. 23 Hour Observation Stay
1. Definition of Service
   A twenty-three (23) Hour Observation Stay occurs in a secure, medically staffed, and psychiatrically supervised facility. This level of care, like acute inpatient hospitalization, involves the highest level of skilled psychiatric services. This service can be rendered in a psychiatric unit of a general hospital, or in the emergency department of a licensed hospital. The care must be provided under the direction of an attending physician who has performed a face-to-face evaluation of the consumer. The care involves an individual treatment plan that includes access to the full spectrum of psychiatric services. A twenty-three (23) Hour Observation Stay provides an opportunity to evaluate consumers whose needed level of care is not readily apparent. In addition, it may be used to stabilize a consumer in crisis, when it is anticipated that the consumer’s symptoms will resolve in less than twenty-four (24) hours.

This level of care may be considered when support systems and/or a previously developed crisis plan have not sufficiently succeeded in stabilizing the consumer, and the likelihood for further deterioration is high. This level of care is available for all age ranges.
If a physician orders an eligible recipient to remain in the hospital for less than 24 hours, the stay is not covered as inpatient admission, but is classified as an observation stay. An observation stay is considered an outpatient service. The following are exemptions to the general observation stay definition:

- The eligible recipient dies;
- Documentation in medical records indicates that the eligible recipient left against medical advice or was removed from the facility by his legal guardian against medical advice;
- An eligible recipient is transferred to another facility to obtain necessary medical care unavailable at the transferring facility; or
- An inpatient admission results in delivery of a child.

**In addition**

- If an admission is considered an observation stay, the admitting hospital is notified that the services are not covered as an inpatient admission.
- A hospital must bill these services as outpatient observation services.
- Outpatient observation services must be medically necessary and must not involve premature discharge of an eligible recipient in an unstable medical condition.
- The hospital or attending physician can request a review and reconsideration of the observation stay decision.
- The observation stay review does not replace the review of one- and two-day stays for medical necessity.
- Medically unnecessary admissions, regardless of length of stay, are not covered benefits.

2. **Admission Criteria (meets A and B, and C OR D, or E):**
   a. Medical necessity has been demonstrated according to the New Mexico Medical Assistance Division definition contained in NMAC 8.305.1, and the consumer has a DSM diagnosed condition that requires, and is likely to benefit from, therapeutic intervention in less than twenty-four (24) hours in a secure setting;
   b. The consumer cannot be evaluated in a less restrictive level of care; T
   c. The consumer is expressing suicidal ideation or is expressing threats of harm to others that must be evaluated on a continuous basis for severity and lethality;
   d. The consumer has acted in disruptive, dangerous or bizarre ways that require further immediate observation and assessment. An evaluation of the etiology of such behaviors is needed, especially if suspected to be chemically or organically induced; and/or
   e. The consumer presents with significant disturbances of emotions or thought processes that interfere with his/her judgment or behavior that could seriously endanger the consumer or others if not evaluated and stabilized on an emergency basis.
3. Discharge Criteria (meets both):
   - The consumer no longer meets admission criteria; and
   - An individualized discharge plan with appropriate, realistic and timely follow-up care is in place.

4. Exclusionary Criteria (may meet any):
   - The consumer meets admission criteria for Acute Inpatient Hospitalization; and/or
   - The consumer appears to have presented for admission for reasons other than a primary psychiatric emergency, such as homelessness or in appropriate seeking of medications.

U. Accredited Residential Treatment

1. Definition of Service
   Accredited Residential Treatment Center Services (ARTC) is a service provided to consumers under the age of twenty-one (21) whom, because of the severity or complexity of their behavioral health needs. These are consumers who, as a result of a recognized psychiatric disorder(s) are a significant danger to themselves or others. ARTC facilities must be licensed by the New Mexico Department of Children Youth & Family, Licensing and Credentialing Authority (or similar body when located in other states). The need for ARTC services must be identified in the tot to teen health check or other diagnostic evaluation furnished through a health check referral and the consumer must meet medical necessity criteria as part of early and periodic screening, diagnosis and treatment (EPSDT) services [42 CFR Section 441.57].

   ARTC services are provided in a 24-hour a day/7 days a week accredited (The Joint Commission, http://www.jointcommission.org/) facility. Facilities provide all diagnostic and therapeutic services provided. ARTC units are medically staffed at all times with direct psychiatric services provided several days a week and with twenty-four (24)-hour psychiatric consultation availability. The services are provided under the direction of an attending psychiatrist. The treatment plan is reviewed frequently and updated based on consumer’s clinical status. Regular family therapy is a key element of treatment and is required except when clinically contraindicated. Discharge planning should begin at admission, including plans for successful reintegration into the home, school and community. If discharge to a home/family may not be a realistic option, alternative placement/housing must be identified as soon as possible and documentation of active efforts to secure such placement must be thorough.

   This service should not be authorized solely as a substitute for management within the juvenile justice or protective services systems, as an alternative to specialized schooling (which should be provided by the local school system) or simply to serve as respite or housing. Academic schooling funded through the local school system or by the facility is expected. Failure to comply with treatment at a detention center does not automatically constitute unsuccessful treatment at a less restrictive level of care.
As discussed in NMAC 8.321.3, in addition to regularly scheduled structured counseling and therapy sessions (individual, group, family, or multifamily - based on individualized needs, and as specified in the treatment plan), ARTC also includes facilitation of age-appropriate skills development in the areas of household management, nutrition, personal care, physical and emotional health, basic life skills, time management, school attendance and money management. ARTC also includes therapeutic services to meet the physical, social, cultural, recreational, health maintenance and rehabilitation needs of recipients that are not primarily recreational or diversional in nature. Also, ARTC shall not implement experimental or investigational procedures, technologies, or non-drug therapies or related services.

2. Admission Criteria (meets all):
   - Medical necessity has been demonstrated according to the New Mexico Medical Assistance Division definition contained in NMAC 8.305.1, and the consumer has a DSM diagnosed condition that requires, and is likely to benefit from, therapeutic intervention;
   - The consumer is experiencing emotional or behavioral problems in the home and/or community to such an extent that the safety or well-being of the consumer or others is substantially at risk. These problems require a supervised, structured, and twenty-four (24)-hour continuous therapeutic milieu. A licensed behavioral health professional has made the assessment that the consumer is likely to experience a deterioration of his/her condition to the point that inpatient hospitalization may be required if the individual is not treated at this level of care; and
   - Less restrictive or intensive levels of treatment have been tried and were unsuccessful, or have proven inadequate to meet the consumer’s needs. Documentation exists to support these contentions.

3. Continued Stay Criteria (meets all):
   - The consumer continues to meet admission criteria;
   - An individualized treatment plan that addresses the consumer’s specific symptoms and behaviors that required ARTC treatment has been developed, implemented and updated, with the consumer’s or guardian’s participation whenever possible, which includes consideration of all applicable and appropriate treatment modalities;
   - An individualized discharge plan has been developed/ updated which includes specific realistic, objective and measurable discharge criteria and plans for appropriate follow-up care. A timeline for expected implementation and completion is in place but discharge criteria have not yet been met;
   - The consumer is participating in treatment, or there are active efforts being made that can reasonably be expected to lead to the consumer’s engagement in treatment; and
   - The consumer’s parent(s), guardian or custodian is participating in the treatment and discharge planning, or persistent efforts are being made and documented to involve them, unless it is clinically contraindicated.
4. Discharge Criteria (meets all):
   - The consumer has met his/her individualized discharge criteria;
   - The consumer can be safely treated at a less intensive/restrictive level of care; and
   - An individualized discharge plan with linkage to appropriate, realistic and timely follow-up care is in place.

5. Exclusionary Criteria for ARTC (may meet any):
   - There is evidence (documented) that the ARTC placement is intended as an alternative to incarceration or community corrections involvement, and medical necessity have not been met;
   - There is evidence that the ARTC treatment episode is intended to defer or prolong a permanency plan determination. The inability of unwillingness of a parent or guardian to receive the consumer back into the home is not grounds for continued ARTC care;
   - The individual demonstrates a clinically significant level of institutional dependence and/or detachment from their community of origin;
   - Common Criterion # 5 has not been met: The consumer’s current condition cannot be effectively and safely treated in a lower level of care even when the treatment plan is modified, attempts to enhance the consumer’s motivation have been made, or referrals to community resources or peer supports have been made; and/or
   - Common Criterion # 8 has not been met: Treatment is not primarily for the purpose of providing respite for the family, increasing the consumer’s social activity, or for addressing antisocial behavior or legal problems, but is for the active treatment of a behavioral health condition.

V. Residential Treatment Center Services

1. Definition of Service
   Residential Treatment Center Services (RTC), as governed by NMAC 8.321.3 (accredited RTC) and NMAC 8.321.4 (non-accredited RTC) are provided to consumers under the age of twenty-one (21) years who require twenty-four (24)-hour treatment and supervision in a safe therapeutic environment.

2. Non-Accredited Residential Treatment Centers and Group Homes
   The New Mexico Medicaid program (Medicaid) pays for medically necessary health services furnished to eligible recipients. To help New Mexico recipients under twenty-one (21) years of age who need the level of care furnished by psychosocial rehabilitation services in a residential setting, the New Mexico Medical Assistance Division (MAD) pays for services furnished in non-accredited residential treatment centers or group homes as part of Early and Periodic Screening, Diagnosis and Treatment (EPSDT) services [42 CFR § 441.57].

The need for non-accredited residential treatment center and group home services must be identified in the Tot to Teen health check screen or other diagnostic evaluation furnished through a health check referral. This section describes eligible providers,
covered services, service limitations, and general reimbursement methodology.

3. **Provider Responsibilities**

Providers who furnish services to Medicaid recipients must comply with all specified Medicaid participation requirements. See Section MAD-701, GENERAL PROVIDER POLICIES. Providers must verify that individuals are eligible for Medicaid at the time services are furnished and determine if Medicaid recipients have other health insurance.

Providers must maintain records which are sufficient to fully disclose the extent and nature of the services furnished to recipients. See Section MAD-701, GENERAL PROVIDER POLICIES. Providers must maintain records documenting the source and amount of any financial resource collected or receive by provider by behalf of recipients, including federal or state governmental sources and document receipt and disbursement of recipient funds.

4. **Covered Services**

Medicaid covers those medically necessary services for recipients under twenty-one (21) years of age which are designed to develop skills necessary for successful reintegration into the family or transition into the community. A level of care determination must indicate that the recipient needs the level of care that is furnished in non-accredited residential treatment centers or group homes. Residential services must be rehabilitative and provide access to necessary treatment services in a therapeutic environment.

The following services must be furnished by centers to receive reimbursement from Medicaid. Payment for performance of these services is included in the center's reimbursement rate:

- Performance of necessary evaluations and psychological testing for development of the treatment plan, while ensuring that evaluations already performed are not repeated;
- Regularly scheduled structured counseling and therapy sessions for recipients, groups, families, or multifamily groups based on individualized needs, as specified in the treatment plan;
- Facilitation of age-appropriate skills development in the areas of household management, nutrition, personal care, physical and emotional health, basic life skills, time management, school attendance, and money management;
- Assistance to recipients in self-administration of medication in compliance with state policies and procedures;
- Appropriate staff available on a twenty-four (24) hour basis to respond to crisis situations, determine the severity of the situation, stabilize recipients by providing support, make referrals, as necessary, and provide follow-up;
- Consultation with other professionals or allied care givers regarding a specific recipient;
- Non-medical transportation services needed to accomplish the treatment objective; and
Therapeutic services to meet the physical, social, cultural, recreational, health maintenance, and rehabilitation needs of recipients.

5. Non-Covered Services
Services furnished by non-accredited treatment centers or group homes are subject to the limitations and coverage restrictions which exist for other Medicaid services. See Section MAD-602, GENERAL NONCOVERED SERVICES. Medicaid does not cover the following specific activities furnished in non-accredited residential treatment centers or group homes:
- Services not considered medically necessary for the condition of the recipients, as determined by MAD or its designee;
- Room and board;
- Services for which prior approval was not obtained;
- Services furnished after the determination is made by MAD or its designee that the recipient no longer needs care;
- Formal educational or vocational services related to traditional academic subjects or vocational training;
- Experimental or investigations procedures, technologies, or non-drug therapies and related services;
- Drugs classified as "ineffective" by FDA Drug Evaluations; and
- Activity therapy, group activities, and other services which are primarily recreational or diversional in nature.

6. Treatment Plan
An individualized treatment plan used in non-accredited residential treatment centers or group homes must be developed by a team of professionals in consultation with recipients, parents, legal guardians or others in whose care recipients will be released after discharge.
- The plan must be developed within fourteen (14) days of the recipient's admission;
- The interdisciplinary team must review the treatment plan at least every thirty (30) days;
- The following must be contained in the treatment plan or documents used in the development of the treatment plan. The treatment plan and all supporting documentation must be available for review in the recipient's file:
  a. Statement of the nature of the specific problem and the specific needs of the recipient;
  b. Description of the functional level of the recipient, including the following:
     1. Mental status assessment;
     2. Intellectual function assessment;
     3. Psychological assessment;
     4. Educational assessment;
     5. Vocational assessment;
     6. Social assessment;
7. Medication assessment; and

- Statement of the least restrictive conditions necessary to achieve the purposes of treatment;
- Description of intermediate and long-range goals, with the projected timetable for their attainment and the duration and scope of therapy services;
- Statement and rationale of the plan of treatment for achieving these intermediate and long-range goals, which includes provisions for review and modification of the plan;
- Specification of staff responsibilities, description of proposed staff involvement, and orders for medication(s), treatments, restorative and rehabilitative services, activities, therapies, social services, diet, and special procedures recommended for the health and safety of the recipient; and
- Criteria for release to less restrictive settings for treatment, discharge plans, criteria for discharge, and projected date of discharge.

7. Admission Criteria (meets all):
- Medical necessity has been demonstrated according to the New Mexico Medical Assistance Division definition contained in NMAC 8.305.1, and the consumer has a DSM diagnosed condition that requires, and is likely to benefit from, therapeutic intervention;
- The consumer is experiencing emotional or behavioral problems in the home, community and/or treatment setting to such an extent that the safety or well-being of the consumer or others is at risk. These problems require a supervised, structured, and 24-hour continuous therapeutic milieu in a residential setting;
- A licensed behavioral health professional has made the assessment that the consumer is likely to experience a deterioration of his/her condition to the point that a more restrictive treatment setting may be required if the individual is not treated at this level of care at this time; and
- Less restrictive or intensive levels of treatment have been tried and were unsuccessful, or have proven inadequate to meet the consumer’s needs. Documentation exists to support these contentions.

8. Continued Stay Criteria (meets all):
- The consumer continues to meet admission criteria;
- An individualized treatment plan that addresses the consumer’s specific symptoms and behaviors that required Residential treatment has been developed, implemented and updated, with the consumer’s and/or guardian’s participation whenever possible, which includes consideration of all applicable and appropriate treatment modalities;
- An individualized discharge plan has been developed which includes specific realistic, objective and measurable discharge criteria and plans for appropriate follow-up care. A timeline for expected implementation and completion is in place but discharge criteria have not yet been, or other barriers to discharge exist which the provider has made reasonable efforts to mitigate;
The consumer is participating in treatment, or there are active efforts being made that can reasonably be expected to lead to the consumer’s engagement in treatment; and
The consumer’s parent(s), guardian or/or custodian is participating in treatment and discharge planning, or persistent efforts are being made and documented to involve these individuals unless it is clinically contraindicated.

9. Discharge Criteria (meets A or B, and C, and D):
   a. The consumer has met his/her individualized discharge criteria;
   b. The consumer has not realized substantial benefit from Residential Treatment Services despite documented persistent efforts to engage the consumer;
   c. The consumer can be safely treated at a less intensive/restrictive level of care; and/or
   d. An individualized discharge plan with linkage to appropriate, realistic and timely follow-up care is in place.

10. Exclusionary Criteria for RTC (may meet any):
   ▪ There is evidence that the RTC placement is intended as an alternative to incarceration or community corrections involvement, and medical necessity have not been met;
   ▪ There is evidence that the RTC treatment episode is intended to defer or prolong a permanency plan determination. The inability or unwillingness of a parent or guardian to receive the consumer back into the home is not grounds for continued RTC care;
   ▪ The individual demonstrates a clinically significant level of institutional dependence and/or detachment from their community of origin;
   ▪ MCO Common Criterion # 5 has not been met: The consumer’s current condition cannot be effectively and safely treated in a lower level of care even when the treatment plan is modified, attempts to enhance the consumer’s motivation have been made, or referrals to community resources or peer supports have been made; and/or
   ▪ MCO Common Criterion # 8 has not been met; Treatment is not primarily for the purpose of providing respite for the family, increasing the consumer’s social activity, or for addressing antisocial behavior or legal problems, but is for the active treatment of a behavioral health condition.

W. Treatment Foster Care I and II

1. Definition of Service
   Treatment Foster Care (TFC), as governed by NMAC 8.322.2 and NMAC 8.322.5, is a behavioral health service provided to consumers under the age of 21 years who are placed in a twenty-four (24)-hour community-based supervised, trained, surrogate family through a TFC placement agency licensed by the New Mexico Department of Children Youth & Family, Licensing and Credentialing Authority.

   NMAC citation 8.322.2/ MAD citation 745.1 TREATMENT FOSTER CARE Level I and Level II: The New Mexico Medicaid program (Medicaid) pays for
medically necessary health services furnished to eligible recipients. The New Mexico Medical Assistance Division (MAD) pays for mental health services furnished to recipients under twenty-one (21) years of age who have an identified need for treatment foster care and meet this level of care as part of Early and Periodic Screening, Diagnosis and Treatment (EPSDT) services [42 CFR § 441.57]. The need for treatment foster care services must be identified in the Tot to Teen health check or other diagnostic evaluation furnished through a health check referral. This section describes eligible providers, covered services, service limitations, and general reimbursement methodology.

2. Provider Responsibilities
Providers who furnish services to Medicaid recipients must comply with all specified Medicaid participation requirements. See Section MAD-701, GENERAL PROVIDER POLICIES. Providers must verify that individuals are eligible for Medicaid at the time services are furnished and determine if Medicaid recipients have other health insurance.

Providers must maintain records which are sufficient to fully disclose the extent and nature of the services furnished to recipients. See Section MAD-701, GENERAL PROVIDER POLICIES. Providers must maintain records documenting the source and amount of any financial resource collected or receive by provider by behalf of recipients, including federal or state governmental sources and document receipt and disbursement of recipient funds.

3. Covered Services
Medicaid covers those services included in individualized treatment plans which are designed to help recipients develop skills necessary for successful reintegration into the natural family or transition into the community.

The family living experience is the core treatment service to which other individualized services can be added. Treatment foster parents are employed or contracted by the treatment foster care agency. Their responsibilities include:

- Participation in the development of treatment plans for recipients by providing input based on their observations;
- Assumption of primary responsibility for implementing the in-home treatment strategies specified in a treatment plan;
- Recording information and documentation of activities, as required by the foster care agency and the standards under which it operates;
- Helping recipients maintain contact with their families and enhancement of those relationships;
- Supporting efforts specified by the treatment plan to meet the recipient's permanency planning goals; and
- Assisting recipients obtain medical, educational, vocational, and other services to reach goals identified in treatment plans.
The following services must be furnished by the agency certified for treatment foster care to receive reimbursement. Payment for performance of these services is included in the provider's reimbursement rate:

- Assessment of the recipient's progress in TFC and assessment of family interactions and stress;
- Regularly scheduled counseling and therapy sessions for recipients in individual, family, or group sessions;
- Facilitation of age-appropriate skill development in the areas of household management, nutrition, physical and emotional health, basic life skills, time management, school attendance, money management, independent living, relaxation techniques, and self-care techniques;
- Crisis intervention, including twenty-four (24) hour availability of appropriate staff to respond to crisis situations; and
- When a return to the natural family is planned, assessment of family strengths and needs and development of a family service plan.

4. Non-Covered Services
   Treatment foster care services are subject to the limitations and coverage restrictions which exist for other Medicaid services. See Section MAD-602, GENERAL NON-COVERED SERVICES. Medicaid does not cover the following services:
   - Room and Board;
   - Formal educational or vocational services related to traditional academic subjects or vocational training; and
   - Respite care.

5. Treatment Plan
   The treatment plan must be developed by the treatment team in consultation with recipients, families or legal guardians, physicians, if applicable, and others in whose care recipients will be released after discharge. The plan must be developed within fourteen (14) days of a recipient's admission to the TFC program.

   a. The treatment team must review the treatment plan every thirty (30) days; and
   b. The following must be contained in the treatment plan or documents used in the development of the treatment plan. The treatment plan and all supporting documentation must be available for review in the recipient's file:
      1. Statement of the nature of the specific problem and the specific needs of the recipient;
      2. Description of the functional level of the recipient, including the following:
         - Mental status assessment;
         - Intellectual function assessment;
         - Psychological assessment;
         - Educational assessment;
         - Vocational assessment;
         - Social assessment;
• Medication assessment; and
• Physical assessment.
3. Statement of the least restrictive conditions necessary to achieve the purposes of treatment;
4. Description of intermediate and long-range goals, with the projected timetable for their attainment and the duration and scope of therapy services;
5. Statement and rationale of the treatment plan for achieving these intermediate and long-range goals, including provisions for review and modification of the plan;
6. Specification of staff and TFC parent responsibilities, description of proposed staff involvement, orders for medication(s), treatments, restorative and rehabilitative services, activities, therapies, social services, diet, and special procedures recommended for the health and safety of the recipient; and
7. Criteria for release to less restrictive settings for treatment, discharge plans, criteria for discharge, and projected date of discharge.

6. NMAC citation 322.5 / MAD citation 745.5 TREATMENT FOSTER CARE (LEVEL II):

The New Mexico Medicaid program (Medicaid) pays for medically necessary health services furnished to eligible recipients. The New Mexico Medical Assistance Division (MAD) pays for mental health services furnished to recipients under twenty-one (21) years of age who have an identified need for treatment foster care and meet this level of care as part of Early and Periodic Screening, Diagnosis and Treatment (EPSDT) services [42 CFR § 441.57]. The need for treatment foster care services must be identified in the Tot to Teen health check or other diagnostic evaluation furnished through a health check referral. This section describes eligible providers, covered services, service limitations, and general reimbursement methodology. [11-1-99]

7. Provider Responsibilities
Providers who furnish services to Medicaid recipients must comply with all specified Medicaid participation requirements. See Section MAD-701, GENERAL PROVIDER POLICIES. Providers must verify that individuals are eligible for Medicaid at the time services are furnished and determine if Medicaid recipients have other health insurance.

Providers must maintain records which are sufficient to fully disclose the extent and nature of the services furnished to recipients. See Section MAD-701, GENERAL PROVIDER POLICIES. Providers must maintain records documenting the source and amount of any financial resource collected or receive by provider by behalf of recipients, including federal or state governmental sources and document receipt and disbursement of recipient funds.

8. Covered Services
Treatment Foster Care II is a mental and behavioral health treatment modality provided by a specially trained treatment foster care parent or family in his or her or their home.
Treatment parents are employed by or contracted for and trained by a TFC agency certified by The New Mexico Children, Youth and Families Department (CYFD). TFC II combines the normalizing influence of family-based care with individualized treatment interventions and social supports, thereby creating a therapeutic environment in the family context or maintaining and extending an existing therapeutic context established in TFC. Through the provision of TFC II services, the child's symptoms are expected to decrease and functional level to improve or maintain so that he or she may be discharged successfully to a less restrictive setting, that best meets the child's needs.

Medicaid covers those services included in the individualized treatment plan which are designed to help recipients develop skills necessary for successful reintegration into the biological, foster or adoptive family or transition to the community. TFC II will allow for a step-down from TFC when the child improves and no longer meets those utilization review criteria. TFC II will also allow entry into the program at a lower level of care for those children who would benefit optimally from the treatment foster care model.

The therapeutic family living experience is the core treatment service to which other individualized services can be added. Treatment foster parents are employed or contracted by the treatment foster care agency. Their responsibilities include:

- Participation in the development of treatment plans for recipients by providing input based on their observations;
- Assumption of primary responsibility for implementing the in-home treatment strategies as specified in an individualized treatment plan;
- Recording of information and documentation of all activities required by the foster care agency and the standards under which it operates;
- Helping recipients maintain contact with their families and fostering enhancement of those relationships as appropriate;
- Supporting efforts specified by the treatment plan to meet the recipient's permanency planning goals; and
- Through coordinating, linking and monitoring services, assist recipients to obtain medical, educational, vocational, and other necessary services to reach goals identified in the treatment plan.

The following services must be performed by the agency or be contracted for and overseen by the agency certified for treatment foster care to receive reimbursement:

- Assessment of the recipient and his biological, foster or adoptive family's strengths and needs;
- Development of a discharge plan that includes a strengths and needs assessment of the recipient's family when a return to that family is planned, including a family service plan;
- Development and monitoring of the treatment plan;
- Assessment of the recipient's progress in TFC II;
- Assessment of the TFC II family's interaction with the recipient, his or her biological, foster or adoptive family, and any stressors identified;
- Facilitation of age-appropriate skills development in the areas of household management, nutrition, physical, behavioral and emotional health, basic life skills, social skills, time management, school and/or work attendance, money management, independent living skills, relaxation techniques, and self-care techniques;
- Ensuring the occurrence of counseling or therapy sessions for recipients in individual, family and/or group sessions as specified in the treatment plan; and
- Ensuring the availability of crisis intervention, including twenty-four (24) hour a day, seven (7) days a week) availability of appropriately licensed parties to respond to crisis situations. [11-1-99].

9. Non-Covered Services
Treatment foster care services are subject to the limitations and coverage restrictions which exist for other Medicaid services. See Section MAD-602, GENERAL NONCOVERED SERVICES. Medicaid does not cover the following services:
- Room and Board;
- Formal educational or vocational services related to traditional academic subjects or vocational training; and
- Respite care. [11-1-99]

10. Treatment Plan
The treatment plan must be developed by the treatment team in consultation with the recipient, his or her biological, foster or adoptive family or legal guardian, physician(s), when applicable, and others in whose care the recipient is involved and/or in whose care to whom the recipient will be released after discharge. The plan must be developed within fourteen (14) days of a recipient's admission to the TFC II program.

a. The treatment coordinator must review the treatment plan every thirty (30) days;
b. The following must be contained in the treatment plan or documents used in the development of the treatment plan. The treatment plan and all supporting documentation must be available for review in the recipient's file:
   1. Statement of the nature of the specific problem and the specific needs and strengths of the recipient;
   2. Description of the functional level of the recipient, including the following:
      - Mental status assessment;
      - Intellectual function assessment;
      - Psychological assessment;
      - Educational assessment;
      - Vocational assessment;
      - Social assessment;
      - Medication assessment; and
      - Physical assessment.
   3. Statement of the least restrictive conditions necessary to achieve the purposes
of treatment;
4. Description of intermediate and long-range goals with the projected timetable for their attainment;
5. Statement and rationale of the treatment plan for achieving these intermediate and long-range goals, including provisions for review and modification of the plan;
6. Specification of staff and TFC II parent responsibilities and the description and frequency of the following components: proposed staff involvement, orders for medication(s), treatments, restorative and rehabilitative services, activities, therapies, social services, special diet, and special procedures recommended for the health and safety of the recipient; and
7. Criteria for release to less restrictive settings for treatment, discharge plans, criteria for discharge, and projected date of discharge. [11-1-99]

11. Admission Criteria (Meets A, B, E, and C or D):
*These admission criteria are for both TFC I and II, with some caveats, as noted below.

- Medical necessity has been demonstrated according to the New Mexico Medical Assistance Division definition contained in NMAC 8.305.1, and the consumer has a DSM diagnosed condition that requires, and is likely to benefit from, therapeutic interventions implemented in a TFC/ family living experience treatment setting.
- The consumer’s current (within 30 days of proposed admission) medical and psychiatric symptoms require and can be managed safely in a twenty-four (24)-hour supervised community/home-based setting.
- The consumer is immediately at risk for needing a higher level of services and/or being excluded from community, home or school activities due to clinically significant disruptive symptoms or behaviors. These symptoms or behaviors are not amenable to treatment in the consumer’s own home or a standard foster care environment.
- A licensed behavioral health professional has made the assessment that the consumer is likely to experience a deterioration of his/her condition to the point that a more restrictive treatment setting may be required if the individual is not treated at this level of care at this time.
- There is a recent history (within the past six (6) months) of less restrictive or intensive levels of treatment having been tried and proving unsuccessful, or these services are not currently appropriate to meet the consumer’s needs.

12. For TFC I, the following additional Admission Criteria must be met:
The consumer is unable to participate independently (without twenty-four (24)-hour adult supervision) in age appropriate activities.

13. For TFC II, the following additional admission criteria must be met:
The consumer has met the treatment goals of TFC I or is able to participate independently in age appropriate activities without 24-hour adult supervision.
Additionally, to be appropriate for TFC II, the consumer’s treatment needs or social, behavioral, emotional, or functional impairments are not as serious or severe as those exhibited by consumers who meet criteria for TFC I; therefore services are less clinically intensive than those provided in TFC I. Consumers in TFC II can generally participate independently in age appropriate activities (e.g. dressing self at age 7, working at age sixteen (16), attending school without parental classroom supervision), while consumers in TFC I could require supervision for those activities. TFC II is often, but not always, used as a transition from TFC I; consumers may be admitted directly to TFC II. Conversely, not all consumers in TFC I need to go to TFC II before discharge from TFC.

14. Continued Stay Criteria (meets all):
- The consumer continues to meet all relevant admission criteria;
- The consumer continues to need twenty-four (24)-hour adult supervision and/or assistance to develop, restore or maintain skills and behaviors that are necessary to live safely in their own home and community;
- An individualized treatment plan that addresses the consumer’s specific symptoms and behaviors that required TFC treatment has been developed, implemented and updated according to licensing rules, with the consumer’s and/or legal guardian’s participation, which includes consideration of all applicable and appropriate treatment modalities;
- An individualized discharge plan has been developed (and updated since the last clinical review/approval) which includes specific realistic, objective and measurable discharge criteria and plans for appropriate follow-up care. A timeline for expected implementation and completion is in place but discharge criteria have not yet been met;
- The consumer is participating in treatment, or there are active, persistent efforts being made that can reasonably be expected to lead to the consumer’s engagement in treatment; and
- The parent, legal guardian or custodian is participating in the treatment, discharge and/or permanency planning, or persistent efforts are being made and documented to involve them, unless it is clinically indicated otherwise.

15. Criteria for Transition from TFC I to TFC II (meets all):
- A review of the individualized treatment and permanency plan shows that the consumer has met a significant portion of all TFC I treatment goals;
- Continued stay in a treatment foster care setting is necessary to maintain the gains made in TFC I, but consumer does not require the intensity of supervision associated with TFC I; and
- The consumer is able to participate independently in age appropriate activities without continuous adult supervision.

16. Discharge Criteria (meets A OR B, and C, and D):
- The consumer has met his/her individualized discharge criteria;
- The consumer has not benefited from Treatment Foster Care despite documented
persistent efforts to engage the consumer;
- The consumer can be safely treated at a less intensive level of care; and/or
- An individualized discharge plan with appropriate, realistic and timely follow-up care is in place.

17. Exclusionary Criteria for TFC I and TFC II (may meet any):
- There is evidence that the TFC placement is intended as an alternative to incarceration or community corrections involvement, and medical necessity have not been met;
- There is evidence that the TFC treatment episode is intended to defer or prolong a permanency plan determination, or is substituting for permanent housing;
- The individual demonstrates a clinically significant level of institutional dependence and/or detachment from their community of origin;
- MCO Common Criterion # 5 has not been met: The consumer’s current condition cannot be effectively and safely treated in a lower level of care even when the treatment plan is modified, attempts to enhance the consumer’s motivation have been made, or referrals to community resources or peer supports have been made; or
- MCO Common Criterion # 8 has not been met: Treatment is not primarily for the purpose of providing respite for the family, increasing the consumer’s social activity, or for addressing antisocial behavior or legal problems, but is for the active treatment of a behavioral health condition.

X. Group Home
1. Definition of Service
   Group Home is a lower level of care than Residential Treatment Center Services and is indicated when a structured home-based living situation is unavailable or not clinically appropriate for the consumer’s behavioral health needs and the consumer needs services focused on psychosocial skills development. Group Home services also differ from Treatment Foster Care in that they are residentially and group based, rather than family and community based.

NMAC citation 321.4 /MAD citation 742.3 NON-ACREDITED RESIDENTIAL TREATMENT CENTERS AND GROUP HOMES:
The New Mexico Medicaid program (Medicaid) pays for medically necessary health services furnished to eligible recipients. To help New Mexico recipients under twenty-one (21) years of age who need the level of care furnished by psychosocial rehabilitation services in a residential setting, the New Mexico Medical Assistance Division (MAD) pays for services furnished in non-accredited residential treatment centers or group homes as part of Early and Periodic Screening, Diagnosis and Treatment (EPSDT) services [42 CFR § 441.57]. The need for non-accredited residential treatment center and group home services must be identified in the Tot to Teen health check screen or other diagnostic evaluation furnished through a health check referral. This section describes eligible providers, covered services, service limitations, and general reimbursement methodology.
2. **Provider Responsibilities**

Providers who furnish services to Medicaid recipients must comply with all specified Medicaid participation requirements. See Section MAD-701, GENERAL PROVIDER POLICIES. Providers must verify that individuals are eligible for Medicaid at the time services are furnished and determine if Medicaid recipients have other health insurance.

Providers must maintain records which are sufficient to fully disclose the extent and nature of the services furnished to recipients. See Section MAD-701, GENERAL PROVIDER POLICIES. Providers must maintain records documenting the source and amount of any financial resource collected or receive by provider by behalf of recipients, including federal or state governmental sources and document receipt and disbursement of recipient funds.

3. **Covered Services**

Medicaid covers those medically necessary services for recipients under twenty-one (21) years of age which are designed to develop skills necessary for successful reintegration into the family or transition into the community. A level of care determination must indicate that the recipient needs the level of care that is furnished in non-accredited residential treatment centers or group homes. Residential services must be rehabilitative and provide access to necessary treatment services in a therapeutic environment. The following services must be furnished by centers to receive reimbursement from Medicaid. Payment for performance of these services is included in the center's reimbursement rate:

a. Performance of necessary evaluations and psychological testing for development of the treatment plan, while ensuring that evaluations already performed are not repeated;

b. Regularly scheduled structured counseling and therapy sessions for recipients, groups, families, or multifamily groups based on individualized needs, as specified in the treatment plan;

c. Facilitation of age-appropriate skills development in the areas of household management, nutrition, personal care, physical and emotional health, basic life skills, time management, school attendance, and money management;

d. Assistance to recipients in self-administration of medication in compliance with state policies and procedures;

e. Appropriate staff available on a twenty-four (24) hour basis to respond to crisis situations, determine the severity of the situation, stabilize recipients by providing support, make referrals, as necessary, and provide follow-up;

f. Consultation with other professionals or allied care givers regarding a specific recipient;

g. Non-medical transportation services needed to accomplish the treatment objective; and

h. Therapeutic services to meet the physical, social, cultural, recreational, health maintenance, and rehabilitation needs of recipients.
4. Non-Covered Services
Services furnished by non-accredited treatment centers or group homes are subject to the limitations and coverage restrictions which exist for other Medicaid services. See Section MAD- 602, GENERAL NONCOVERED SERVICES. Medicaid does not cover the following specific activities furnished in non-accredited residential treatment centers or group homes:
2. Services not considered medically necessary for the condition of the recipients, as determined by MAD or its designee;
3. Room and board;
4. Services for which prior approval was not obtained;
5. Services furnished after the determination is made by MAD or its designee that the recipient no longer needs care;
6. Formal educational or vocational services related to traditional academic subjects or vocational training;
7. Experimental or investigations procedures, technologies, or non-drug therapies and related services;
8. Drugs classified as "ineffective" by FDA Drug Evaluations; and
9. Activity therapy, group activities, and other services which are primarily recreational or diversional in nature.

5. Treatment Plan
An individualized treatment plan used in non-accredited residential treatment centers or group homes must be developed by a team of professionals in consultation with recipients, parents, legal guardians or others in whose care recipients will be released after discharge. The plan must be developed within fourteen (14) days of the recipient's admission.

a. The interdisciplinary team must review the treatment plan at least every thirty (30) days.
b. The following must be contained in the treatment plan or documents used in the development of the treatment plan. The treatment plan and all supporting documentation must be available for review in the recipient's file:
1. Statement of the nature of the specific problem and the specific needs of the recipient;
2. Description of the functional level of the recipient, including the following:
   - Mental status assessment;
   - Intellectual function assessment;
   - Psychological assessment;
   - Educational assessment;
   - Vocational assessment;
   - Social assessment;
   - Medication assessment; and
   - Physical assessment.
3. Statement of the least restrictive conditions necessary to achieve the purposes of treatment;
4. Description of intermediate and long-range goals, with the projected timetable
for their attainment and the duration and scope of therapy services;
5. Statement and rationale of the plan of treatment for achieving these intermediate and long-range goals, which includes provisions for review and modification of the plan;
6. Specification of staff responsibilities, description of proposed staff involvement, and orders for medication(s), treatments, restorative and rehabilitative services, activities, therapies, social services, diet, and special procedures recommended for the health and safety of the recipient; and
7. Criteria for release to less restrictive settings for treatment, discharge plans, criteria for discharge, and projected date of discharge.

6. Admission Criteria (meets A, B and C, and either D, or E):
   a. Medical necessity has been demonstrated according to the New Mexico Medical Assistance Division definition contained in NMAC 8.305.1, and the consumer has a DSM diagnosed condition that requires, and is likely to benefit from, therapeutic intervention;
   b. The consumer may manifest significant psychological or behavioral disturbances but can participate in age-appropriate community based activities (including school) with assistance from group home staff or with other support;
   c. Less restrictive or intensive levels of treatment have been tried and were unsuccessful, or are not appropriate to meet the consumer’s needs;
   d. A structured home-based living situation is unavailable or is not appropriate for the consumer’s needs; and/or
   e. The consumer is in need of 24-hour therapeutic milieu, but does not require the intensive staff assistance that is provided in Residential Treatment Center Services.

7. Continued Stay Criteria (meets all):
   - The consumer continues to meet admission criteria;
   - The consumer continues to need twenty-four (24)-hour supervision and assistance to develop or restore skills and behaviors that are necessary to live safely in the home and community;
   - An individualized treatment plan that addresses the consumer’s specific symptoms and behaviors that required Group Home treatment has been developed, implemented and updated, with the consumer’s and/or guardian’s participation whenever possible, which includes consideration of all applicable and appropriate treatment modalities;
   - An individualized discharge plan has been developed which includes specific realistic, objective and measurable discharge criteria and plans for appropriate follow-up care. A timeline for expected implementation and completion is in place but discharge criteria have not yet been met;
   - The consumer is participating in treatment, or there are active, persistent efforts being made that can reasonably be expected to lead to the consumer’s engagement in treatment; and/or
   - The parent, guardian or custodian is participating in the treatment, discharge and/or permanency planning, or persistent efforts are being made and documented
to involve them, unless it is clinically indicated otherwise.

8. Discharge Criteria (meets A or B, and C, and D):
   a. The consumer has met his/her individualized discharge criteria;
   b. The consumer has not benefited from Group Home services despite documented persistent efforts to engage the consumer;
   c. The consumer can be safely treated at a less intensive level of care; and/or
   d. An individualized discharge plan with appropriate, realistic and timely follow-up care is in place.

9. Exclusionary Criteria (may meet any):
   a. There is evidence that the Group Home placement is intended as an alternative to incarceration or community corrections involvement, and medical necessity have not been met;
   b. There is evidence that the Group Home treatment episode is intended to defer or prolong a permanency plan determination. The inability of unwillingness of a parent or guardian to receive the consumer back into the home is not grounds for continued Group Home care;
   c. The individual demonstrates a clinically significant level of institutional dependence and/or detachment from their community of origin;
   d. MCO Common Criterion # 5 has not been met: The consumer’s current condition cannot be effectively and safely treated in a lower level of care even when the treatment plan is modified, attempts to enhance the consumer’s motivation have been made, or referrals to community resources or peer supports have been made; or
   MCO Common Criterion # 8 has not been met: Treatment is not primarily for the purpose of providing respite for the family, increasing the consumer’s social activity, or for addressing antisocial behavior or legal problems, but is for the active treatment of a behavioral health condition.

Y. Adaptive Skills Building (ABS) - Applied Behavioral Analysis

1. Definition of Service
   Adaptive Skill Building services (ASB) are provided to children who need intensive intervention to develop skills necessary to function successfully at home and in the community and who require intensive and specialized treatment approaches to learn adaptive behavior. Eligible children include:

   - Very young children (recipients birth up to three (3) years of age) with a diagnosis of Autism Disorders (AD), classified as a current, active or residual stat, including but not limited to infantile autism, Kanner’s syndrome, or Asperger’s syndrome;
   - Very young children (recipients birth up to three (3) years of age) with a diagnosis of Pervasive Development Disorder/not otherwise specified (PDD/NOS), classified as a current, active or residual stat, including but not limited to Asperger’s syndrome, autistic psychopathology, or Schizoid disorder of childhood;
   - Young children (recipients three (3) up to five (5) years of age) with a diagnosis of
Autism Disorders (AD) with a current, active or residual stat, including but not limited to infantile autism, Kanner’s syndrome or Asperger’s syndrome; and

- The evaluation leading to the diagnosis should be thorough and include information from multiple sources, because the child’s performance may vary among settings and caregivers.

ASB services include the development of an Intervention Plan, implementation of the plan, application of Applied Behavior Analysis, assistance for caregivers in socially purposeful engagement of the recipient, and ongoing monitoring of the plan and recipient progress being made. This service includes the use of basic Applied Behavior Analysis techniques provided as part of a comprehensive approach to the treatment of Autism Disorders. The treatment plan should include caregiver training regarding identification of the specific behavior(s) and interventions, in order to support utilization of the ABA techniques by caregiver(s).

The initial ASB authorization will be for six (6) months; ongoing ASB interventions shall be authorized for three months.

2. Admission Criteria (must meet all):
- Medical necessity has been demonstrated according to the New Mexico Medical Assistance Division definition contained in NMAC 8.305.1, a and the consumer has a DSM diagnosed condition that requires, and is likely to benefit from, therapeutic intervention;
- There is documentation of a DSM-IV-TR diagnosis by a clinical psychologist or psychiatrist with experience treating Autism of a diagnosis of Autism Disorders (AD) for recipients aged birth up to five (5) years of age;
- There is documentation of maladaptive behaviors that would require adaptive skill building services;
- Each qualifying child must need intensive intervention to develop skills necessary to function successfully at home and in the community and also must require intensive and specialized treatment approaches to learn adaptive behaviors;
- There is a reasonable expectation on the part of a treating health care professional that the individual’s behavior will improve with adaptive skill building services; and
- A comprehensive evaluation has been done which includes the following components:
  - Health, developmental, and behavioral histories that include a family history and a review of systems;
  - Other diagnoses have been considered and an appropriate evaluation has been done to rule out those diagnoses;
  - Confirmation of the presence of a categorical DSMIV-TR diagnosis meeting the criteria for this service using specific evidence to support the diagnosis including standardized tools that operationalize the DSM criteria; and
  - The parents'/guardians’ knowledge of ASD, coping skills, and available resources and supports have been assessed and there is evidence that the parents/guardians can participate in Adaptive Skill Building.
- **Continued Stay Criteria (must meet A through C, or both A and D):**
  - The consumer continues to meet the admission criteria;
  - There is evidence the child, family, and social supports can continue to participate effectively in this service;
  - There is evidence the consumer is responding positively to the service; and/or
  - If the consumer is not responding positively to the service or if the child, family, or social supports are not adequately participating in the service the treatment plan must reflect what interventions will change to produce effective results.

- **Discharge Criteria (Meets A, or B, or C, or D, and E):**
  - The child has met his/her individualized discharge criteria;
  - The child can be appropriately treated at a less intensive level of care;
  - The child has reached his or her fifth (5\text{th}) birthday;
  - The child has received thirty-six (36) months (cumulative) of Adaptive Skill Building services; and
  - An individualized discharge plan with appropriate, realistic and timely follow-up care is in place.

- **Exclusionary Criteria (may meet any):**
  - The child is not responding to ASB services in a way that suggests the services are effective and meets admission criteria for a higher, more intensive, or more restrictive, level of care; or
  - The child’s parent(s) or legal guardian is not substantially involved in the child’s treatment and/or the services are being used in place of respite (see common criterion #8).
Section 7 – Care Management / Care Coordination

A. Care Management / Care Coordination Overview

Molina Healthcare’s Integrated Care Management, which includes Utilization Management, Case Management and Disease Management, will work with providers to assist with coordinating services and benefits for members with complex needs and issues. It is the responsibility of contracted providers to assess members and with the participation of the member and their representatives, create a treatment care plan. The treatment plan is to be documented in the medical record and is updated as conditions and needs change.

Molina Healthcare staff assists providers by identifying needs and issues that may not be verbalized by providers, assisting to identify resources such as community programs, national support groups, appropriate specialists and facilities, identifying best practice or new and innovative approaches to care. Care coordination by Molina Healthcare staff is done in partnership with providers and members to ensure efforts are efficient and non-duplicative.

Molina Healthcare recognizes the emotional impact the diagnosis of a serious or catastrophic illness can have on a patient. Molina Healthcare has a Care Management program that can help you better manage your patient’s health. The Health Care Services Department has the clinical experience that enables us to respond quickly to patient needs. This clinical experience helps us coordinate care for many different illnesses and conditions, including, but not limited to:

- Acute Diseases;
- Behavioral Health Diagnoses including Substance Abuse that adversely affects the Member’s life;
- Progressive arthritic conditions;
- Cancer;
- Congestive Heart Failure;
- Dependent child in out-of-home placements;
- Dementias/deteriorating cognitive abilities;
- Epilepsy;
- High-risk pregnancies;
- Hospital readmissions within thirty (30) days;
- ICF/MR/DD;
- Medically fragile;
- Muscular/neuromuscular degenerative diseases; and
- Transplants.

Practitioners/providers must contact the Molina Care Manager should any of the following conditions occur:

- Inability to contact Member;
- Inability to provide services;
- Change in the Member’s condition;
- Member unexpectedly leaves their place of residence or without notification;
- Member is transferred to the hospital;
- Member suffers a fall;
- Skin integrity issues;
- Hospice election;
- Bed hold and therapeutic leave requests (Skilled Nursing Facilities only); and
- Death of the Member.

The earlier you provide notification of these cases, the sooner Molina Healthcare can begin working with you to maximize the patient’s health coverage benefits. Members can be referred to Molina Healthcare for Care Coordination by telephone or fax via the following:

**Complex Medical Care Management/Care Coordination Review** toll free fax: (866) 472-4575

Care Coordination/ Care Management Referral Forms can be accessed via the Molina Healthcare Provider Portal at: [Care Coordination Form](#)

**B. Role of the Care Manager/Care Coordinator**

Molina Healthcare provides care coordination that includes the following functions:

- Performs a Health Risk Assessment (HRA) and assigns Members to Care Management Level 1-3;
- Comprehensive needs assessments (including level of care);
- Determines the Member’s physical and behavioral health, and long-term care needs;
- Develops and updates of an Individual Service Plan (ISP)/Care Plan based upon the Member’s individual needs and preferences; and
- On-going coordination services based upon Members assessed need.

The PCP serves as the point of initial contact and as the Member’s “medical home.” In addition to the PCP, other practitioners/providers are included in the care management process. Specialists, therapists, home and community-based providers, subcontractors and other practitioners/providers – including those that are out-of-network – are included in the Interdisciplinary Care Team, as appropriate, and provide input into the development of the Member’s treatment plan or ISP and care planning process.

Care Managers work with these practitioners/providers to coordinate services and provide updates on the results of Member assessments. Practitioners/providers should contact the Member’s Care Manager or the Member’s PCP if they detect a change in the Member’s condition.

Primary care teams consisting of residents and a supervising faculty physician for contracts with teaching facilities or teams which include certified mid-level practitioners who, at the Member’s request, may serve as the point of first contact. Molina Healthcare will organize its team to ensure continuity of care to Members and will identify a “lead physician” within the team for each Member. The “lead physician” will be an attending physician (medical...
students, interns and residents may not serve as “lead physician”.

The Member plays a critical role in Molina’s Care Management Model. Self-management support helps the Member understand how medical, behavioral, social, and cultural influences drive decisions regarding healthcare.

Molina Healthcare has in place several initiatives to promote continuity and coordination of services. These activities incorporate processes that occur at various stages of the health care continuum as well as addressing changes in the status of the Member. These processes include, but are not limited to:

- Evaluation of continuity and coordination of care, including reevaluation upon a change in condition;
- Coordination of all medical care;
- Coordination of care between behavioral health and medical care;
- Continuity after practitioner termination;
- Member notification of PCP and specialist termination;
- Continuity of care upon new Member effective date of enrollment; and
- Continuity of care following Member loss of eligibility.

C. Care Coordination for Individuals with Special Health Care Needs (ISHCN)

Molina Healthcare recognizes the special needs of ISHCN’s and provides care management and service coordination to these Members on an as-needed basis. Care Management can help to ensure the medical and behavioral health needs of the Member are met and coordinated with appropriate associated services such as Children, Youth and Families Department (CYFD) Protective Services and Juvenile Justice Services and School-Based Programs, etc. Molina Healthcare promotes a high level of Member compliance with follow-up appointments, consultations/referrals, and diagnostic laboratory, diagnostic imaging and other testing.

If you have questions regarding this program, or would like to refer a Molina Healthcare Member to this service, please call in Albuquerque (855) 315-5677. Care Coordination/Care Management Referral Forms can be accessed via the Molina Healthcare Provider Portal at: www.molinahealthcare.com

D. Coordinating Medical Services

Well-documented medical records demonstrating coordination of care, whether electronic or on paper, facilitate communication, coordination, and continuity of care and promotes the efficiency and effectiveness of treatment. Molina Healthcare Care Managers will conduct record reviews to assess:

- Does the PCP refer patients to behavioral health providers as appropriate? Are specialty practitioners reports in the patients file?
- Are diagnostic tests results in the patients file?
- Is there a note about the patient being told by the practitioner of abnormal results of any laboratory, imaging or other testing?
- Are reports of emergency care in the patient’s file?
- Are therapeutic–physical therapy (PT), occupational therapy (OT), speech/language SLP – reports in the patient’s file?
- Is home health nursing reports in the patient’s file?
- Are hospital inpatient or discharge reports in the patient’s file?
- Are surgery center reports in the patient’s file? and
- Are nursing facility reports in the patients file?
Section 8 – Health Management

Molina Healthcare provides health management services to at-risk Members who have asthma, diabetes, chronic obstructive pulmonary disease (COPD), and cardiovascular disease (CVD). Molina Healthcare is in the process of developing additional health management programs to meet the needs of Members with Behavioral Health diagnoses and Members receiving Long Term Care services.

Molina Healthcare’s health management programs are designed to assist your patients who have chronic health conditions better understand his/her condition, update him/her on new information about the condition and provide him/her with assistance from our staff to help him/her manage his/her condition. The programs are designed to reinforce your treatment plan for the patient. We also provide pregnant Members who are at risk for complications with a pregnancy program.

Members of Molina Healthcare are automatically enrolled when we identify him/her with the disease. However, if you would like to enroll a Molina Healthcare patient who is not already in the program, please let us know. We will inform you of his/her participation, and we will provide you with updates on the results of tests or other information that Molina Healthcare collects on your patient. Membership in these health management programs is voluntary. If at any time your patient wishes to stop participating in the program, he/she can call Molina Healthcare and inform us of his/her decision.

breathe with ease™

Molina Healthcare provides a health management program called breathe with ease™, designed to assist Members in understanding their condition. Molina Healthcare has a special interest in asthma, as it is the number one chronic disease diagnosis for our Members. This program was developed with the help of several community providers with large asthma populations. The program educates the Member and family about asthma symptom identification and control. Our goal is to partner with you to strengthen asthma care in the community.

Each identified Member will receive specific educational materials and other resources in accordance with their assigned stratification level. Additionally, all identified Members will receive periodic educational newsletters.

Healthy Living with COPD™

Molina Healthcare has a health management program called Healthy Living with COPD™. Molina Healthcare’s Healthy Living with COPD™ health management program is a collaborative team approach comprised of patient education, clinical care management and provider education. The team works closely with contracted practitioners in the identification, assessment and implementation of appropriate interventions for Members with COPD. Molina Healthcare’s goal is to promote to the Member routine follow-ups with their Primary Care Practitioner and/or specialist to ensure the receipt of optimal medical care. This program is designed for adults who are active Molina Healthcare Members thirty-five (35) years of age or
older upon enrollment in the program. The Member must have a confirmed diagnosis of COPD. The Member participates in the program for the duration of his or her eligibility or until the Member “opts out”. Each identified Member will receive specific educational materials and other resources in accordance with their assigned stratification level. Additionally, all identified Members will receive periodic educational newsletters.

**Healthy Living with Diabetes**
Molina Healthcare has a health management program called Healthy Living with Diabetes designed to assist Members in understanding diabetes and self-care. The Healthy Living with Diabetes program is designed for Members eighteen (18) years of age or older upon enrollment in the program. The Member must have a confirmed diagnosis of diabetes, (non-gestational and/or non-steroid-induced). The Member will participate in the program for the duration of his or her eligibility with the plan’s coverage or until Member opts out. Each identified Member will receive specific educational materials and other resources in accordance with their assigned stratification level. Additionally, all identified Members will receive periodic educational newsletters.

**Heart Healthy Living**
Molina Healthcare has a health management program called Heart Healthy Living designed to teach Members how to manage their heart disease. Each identified Member will receive educational materials about heart disease, hypertension and/or congestive heart failure and ways to stay healthy. Additionally, all identified Members will receive periodic educational newsletters.

**motherhood matters** Pregnancy Program
Molina Healthcare also offers a voluntary educational program for pregnant Members called the motherhood matters Program.

Molina Healthcare cares about the health of your pregnant patients and their new babies. You can take advantage of better support and care for your patients when you refer your pregnant patients to our motherhood matters Pregnancy Program. Your patients will be given additional education, guidance and resources.

Members enrolled in the motherhood matters Pregnancy Program receive a free infant car seat for completing the prenatal education and car seat safety education program. They also receive a free convertible (toddler) car seat for completing a postpartum check-up within three (3) to eight (8) weeks after delivery of their newborn.

Call Molina Healthcare’s Health Improvement hotline **toll free at (800) 377-9594, extension 182618** to refer a patient or for more information regarding this program. This information is also available on Molina Healthcare’s website at [www.molinahealthcare.com](http://www.molinahealthcare.com)
Manage Your Chronic Disease (MyCD) Program
Molina Healthcare of New Mexico, Inc. (Molina Healthcare) has a FREE evidence-based lifestyle change program for Members with a chronic health condition such as diabetes, asthma, high blood pressure, heart disease, etc. The Chronic Disease Self-Management Program (CDSMP)/Manage Your Chronic Disease (MyCD) Program can help people gain the self-confidence necessary to take part in maintaining their health and managing their chronic health condition.

The CDMSP/MyCD Program was developed by Stanford University. Results of their research conducted on the MyCD Program earned the program as “evidence based” due to predictably positive results for those participants who attended regularly. This peer-led education program is delivered in community settings such as senior centers, community centers, churches, libraries and hospitals. The program is for adults of all ages with chronic conditions. Family, friends and caregivers are also welcome. Classes are held in small groups and meet for 2½ hours, once (1) a week for six (6) weeks. The highly interactive workshops are led by pairs of trained leaders, most of who have a chronic condition themselves and may have successfully adopted the techniques taught in the program. The workshops cover skill-building techniques to deal with challenges such as:

- Frustration, fatigue, pain and isolation;
- Appropriate exercise for maintaining and improving strength,
- Flexibility and endurance;
- Appropriate use of medications;
- Communicating effectively with health professionals, family and friends; and
- Eating healthy.

Molina Healthcare practitioners/providers play a powerful role in the success of this program. Patients have stated that receiving a referral from their provider would be the most powerful motive to join the program.

To register Molina Healthcare Members for the MyCD classes call Molina Healthcare’s Health Improvement Hotline toll free at (800) 377-9594, extension 182618 or (505) 342-4660, extension 182618 in Albuquerque.

National Diabetes Prevention Program (NDPP)
Molina Healthcare of New Mexico, Inc. (Molina Healthcare) has another FREE lifestyle change program called the National Diabetes Prevention Program. This evidence-based program is from the Centers for Disease Control and Prevention (CDC). The program is available for Members who are risk for diabetes (prediabetes). The program is a 16-week lifestyle change program that helps lower Members’ risk for type 2 diabetes through learning healthy changes, increasing physical activity and losing weight. Coaching sessions meet weekly for 16 weeks. After the 16 weeks, the sessions meet monthly for six (6) months for additional support. To qualify for this program, Members must be at least 18 years of age AND have one of the following: BMI of 24 or higher (22 or higher for Asian), elevated fasting or two (2) hour glucose tolerance, HbA1C (5.7 – 6.4) glucose levels, a history of gestational diabetes and/or family history of diabetes.
To refer Molina Healthcare Members for the NDPP classes, call Molina Healthcare’s Health Improvement Hotline toll free at (800) 377-9594, extension 182618 or (505) 342-4660, extension 182618 in Albuquerque.
Section 9 – Pharmacy and Formulary Services

A. Preferred Drug List

The development and maintenance of the Molina Healthcare formulary, or Preferred Drug List (PDL) is overseen by the Pharmacy and Therapeutics (P&T) Committee, whose mission is to ensure access to the medications and treatments that meet or exceed established standards for the delivery of quality care. This committee meets every other month and is comprised of health care professionals from within the company as well as contracted providers.

The purpose of the PDL is to assist in maintaining the quality of patient care by providing a range of safe and effective medications to the Members. The Molina Healthcare formulary is classified as a closed formulary, which necessitates requests for prior authorization (PA) related to drugs not listed on the formulary. Contracted providers are requested to refer to the Molina Healthcare PDL when selecting prescription drug therapy for eligible plan Members.

The PDL may be accessed and printed via the Molina Healthcare website via the following link: http://www.molinahealthcare.com/medicaid/providers/nm/drug/Pages/formulary.aspx. In addition, a list of drugs requiring prior authorization and step-therapy and prior authorization criteria is also contained on this link. Paper copies of the Molina Healthcare PDL may also be obtained by calling the Member Service Department in Albuquerque at (505) 341-7493.

The Medication Prior Authorization Request Form and Suboxone Induction Notification may be downloaded for fax via this link. Medication Prior Authorization Request Form Suboxone or Subutex Prior Notification Form. The Suboxone form should be completed prior to the visit with the Member.

B. Specialty Pharmaceuticals - Injectables and Infusion Services

Many self-administered and office-administered injectable products require Prior Authorization (PA). In some cases they will be made available through Molina Healthcare’s vendor, Caremark Specialty Pharmacy. More information about our Prior Authorization process, including a PA request form, is available in Section 6 of this manual.

Caremark will coordinate with Molina Healthcare and ship the prescription directly to your office or the member’s home. All packages are individually marked for each member, and refrigerated drugs are shipped in insulated packages with frozen gel packs. The service also offers the additional convenience of enclosing needed ancillary supplies (needles, syringes and alcohol swabs) with each prescription at no charge. Please contact your Provider Relations Representative with any further questions about the program.

C. Non-Formulary Requests for Specialty/Injectable Medication

These medications generally require a prior authorization or are managed in terms of the
number of doses allowed in a given time span. When requesting a prior authorization for injectable medications (greater than $200), complete a copy of the Molina Healthcare Medication Prior Authorization Request Form (located at the end of this section and on the Molina website as a Quick Link under “New Mexico” and “Provider”) and fax it to Molina Healthcare Pharmacy Prior Authorization Department in Albuquerque at our toll free number (866) 472-4578. Please include all pertinent medical necessity documentation that justifies the use of a non-formulary medication as well as the expected duration of therapy. Molina Healthcare will review the request and evaluate it according to established guidelines. The resulting decision will be communicated to both the prescriber and the Member.

Approved injections supplied by and administered in a practitioner’s office should be billed electronically or on a CMS-1500 form.

D. Non-Formulary Requests for Oral Medications

Complete the Medication Prior Authorization Request Form: Medication Prior Authorization Request Form and fax it to the Molina Healthcare Pharmacy Prior Authorization Department in Albuquerque at our toll free number (866) 472-4578. Please include all pertinent medical necessity documentation that justifies the use of a non-formulary medication as well as the expected duration of therapy. Molina Healthcare will review the request and evaluate it according to established guidelines. The resulting decision will be communicated to both the prescriber and the Member.

E. Formulary Addition Requests From Practitioners

We value and want your feedback. Molina Healthcare convenes a Pharmacy & Therapeutics (P&T) Committee to review formulary changes. The committee is composed of community practitioners from various backgrounds and expertise.

To request a Formulary Addition, download the Formulary Addition Request Form: Formulary Addition Request Form. Please fax this form to Molina Healthcare in Albuquerque at our toll free number (866) 472-4578. The P&T Committee will review the request as soon as possible and communicate its decision to the requesting practitioner.

F. Medicare Part D Benefit

Dual Eligible Molina Healthcare Members (Members enrolled in both Medicare and Medicaid) will receive their primary drug coverage through Medicare Part D. Molina Healthcare will provide wrap-around prescription drug coverage for selected members that are on medication in drug classes not covered through Medicare Part D. Medicare Prescription Drug coverage is available through the Members Medicare Advantage Prescription Drug Plans (MA-PD and standalone Prescription Drug Plans (PDP).

Medicare Part D is a built-in benefit. Members participating in Molina’s Medicare Special Needs Plan (SNP) called “Options Plus” automatically receive Medicare Part D coverage. There are no forms to fill out or selections to make. Molina handles the paperwork for all
Members participating in the Molina Medicare SNP.

**G. Pharmacy and Therapeutics (P&T) Committee Membership**

If you are interested in becoming a member of the Molina Healthcare P&T Committee, please communicate this via faxed memo to the P&T Chairperson in *Albuquerque* at *our toll free number (866) 472-4578*. 

Section 10 – Provider Credentialing / Recredentialing

The purpose of the Credentialing Program is to strive to assure that the Molina Healthcare network consists of quality practitioners/providers who meet clearly defined criteria and standards. It is the objective of Molina Healthcare to provide superior health care to the community. The decision to accept or deny a credentialing applicant is based upon primary source verification, recommendation of peer practitioners/providers and additional information as required. The information gathered is confidential and disclosure is limited to parties who are legally permitted to have access to the information under state and federal law. The Credentialing Program has been developed in accordance with state and federal requirements and accreditation guidelines. In accordance with those standards, Molina Healthcare members will not be referred and/or assigned to you until the credentialing process has been completed.

A. Criteria for Participation in the Molina Healthcare Network

Molina has established criteria and the sources used to verify these criteria for the evaluation and selection of practitioners for participation in the Molina network. This policy defines the criteria that are applied to applicants for initial participation, recredentialing and ongoing participation in the Molina network. To remain eligible for participation practitioners must continue to satisfy all applicable requirements for participation as stated herein and in all other documentations provided by Molina Healthcare.

Molina reserves the right to exercise discretion in applying any criteria and to exclude practitioners who do not meet the criteria. Molina may, after considering the recommendations of the Credentialing Committee, waive any of the requirements for network participation established pursuant to these policies for good cause if it is determined that such waiver is necessary to meet the needs of Molina and the community it serves. The refusal of Molina to waive any requirement shall not entitle any practitioner to a hearing or any other rights of review.

Practitioners must meet the following criteria to be eligible to participate in the Molina Healthcare network. If the practitioner fails to provide proof of meeting these criteria, the credentialing application will be deemed incomplete and it will result in an administrative denial or termination from the Molina Healthcare network. Practitioners who fail to provide proof of meeting these criteria do not have the right to submit an appeal.

1. Practitioner must practice, or plan to practice within 90 calendar days, within the area served by Molina.
2. All providers, including ancillary providers, (i.e. vision, pharmacy, etc.), will apply for enrollment in the Medicaid program. Providers are required to have an NPI or an Administrative Provider Identification Number (APIN).
3. Practitioner must complete and submit to Molina a credentialing application. The application must be entirely complete. The practitioner must sign and date that application attesting that their application is complete and correct within 180 calendar days of the credentialing decision. If Molina or the Credentialing Committee requests any additional information or clarification the practitioner must supply that information in the time-frame requested.
4. Practitioner must hold an active current valid license to practice in their specialty in every state in which they will provide care for Molina members.
5. If applicable to the specialty, practitioner must hold a current and unrestricted federal Drug Enforcement Agency (DEA) certificate and Controlled Substance Certification or Registration. If a practitioner has never had any disciplinary action taken related to his/her DEA or CDS and chooses not to have a DEA or CDS, the practitioner may be considered for network participation if they submit a written prescription plan describing the process for allowing another practitioner with a valid DEA or CDS certificate to write all prescriptions. If a practitioner does not have a DEA because of disciplinary action including but not limited to being revoked or relinquished, the practitioner is not eligible to participate in the Molina network.

6. Practitioners will only be credentialed in an area of practice in which they have adequate education and training as outlined below. Therefore practitioners must confine their practice to their credentialed area of practice when providing services to Molina members.

7. Practitioners must have graduated from an accredited school with a degree required to practice in their specialty.

8. Oral Surgeons and Physicians (MDs, DOs) must have satisfactorily completed a training program from an accredited training program in the specialty in which they are practicing. Molina only recognizes training programs that have been accredited by the Accreditation Council of Graduate Medical Education (ACGME) and the American Osteopathic Association (AOA) in the United States or by the College of Family Physicians of Canada (CFPC) or the Royal College of Physicians and Surgeons of Canada. Oral Surgeons must have completed a training program in Oral and Maxillofacial Surgery accredited by the Commission on Dental Accreditation (CODA).

9. Board certification in the specialty in which the practitioner is practicing is preferred but not required. Initial applicants who are not Board Certified may be considered for participation only if they have satisfactorily completed a training program from an accredited training program in the specialty in which they are practicing. Molina recognizes Board Certification only from the following Boards:
   a. American Board of Medical Specialties (ABMS)
   b. American Osteopathic Association (AOA)
   c. American Board of Podiatric Surgery (ABPS)
   d. American Board of Podiatric Medicine (ABPM)
   e. American Board of Oral and Maxillofacial Surgery

10. Practitioners who are not Board Certified and have not completed a training program from an accredited training program are only eligible to be considered for participation as a General Practitioner in the Molina network. To be eligible, the practitioner must have maintained a Primary Care practice in good standing for a minimum of the most recent five years without any gaps in work history.

11. Practitioner must supply a minimum of 5-years of relevant work history on the application or curriculum vitae. Relevant work history includes work as a health professional. If the practitioner has practiced fewer than 5-years from the date of Credentialing, the work history starts at the time of initial licensure. Experience practicing as a non-physician health professional (e.g. registered nurse, nurse practitioner, clinical social worker) within the 5-years should be included. If Molina determines there is a gap in work history exceeding six-months, the practitioner must clarify the gap either verbally or in writing. Verbal communication must be appropriately documented in the credentialing file. If Molina determines there is a gap in work history that exceeds one-year, the practitioner must clarify the gap in writing.

12. Practitioner must supply a full history of malpractice and professional liability claims and settlement history. Documentation of malpractice and professional liability claims and settlement history is requested from the practitioner on the credentialing application. If there is an affirmative response to the related disclosure questions on the application, a detailed response is required from the practitioner.
13. Practitioner must disclose a full history of all license actions including denials, revocations, terminations, suspension, restrictions, reductions, limitations, sanctions, probations and non-renewals. Practitioner must also disclose any history of voluntarily relinquishing, withdrawing, or failure to proceed with an application in order to avoid an adverse action or to preclude an investigation or while under investigation relating to professional competence or conduct. If there is an affirmative response to the related disclosure questions on the application, a detailed response is required from the practitioner.

14. At the time of initial application, the practitioner must not have any pending or open investigations from any state or governmental professional disciplinary body. This would include Statement of Charges, Notice of Proposed Disciplinary Action or the equivalent.

15. Practitioner must disclose all Medicare and Medicaid sanctions. Practitioner must disclose all debarments, suspensions, proposals for debarments, exclusions or disqualifications under the non-procurement common rule, or when otherwise declared ineligible from receiving Federal contracts, certain subcontracts, and certain Federal assistance and benefits. If there is an affirmative response to the related disclosure questions on the application, a detailed response is required from the practitioner.

16. Practitioner must not be currently sanctioned, excluded, expelled or suspended from any state or federally funded program including but not limited to the Medicare or Medicaid programs.

17. Practitioner must have current professional malpractice liability coverage with limits that meet Molina criteria. This coverage shall extend to Molina members and the practitioners activities on Molina’s behalf.

18. Practitioner must disclose any inability to perform essential functions of a practitioner in their area of practice with or without reasonable accommodation. If there is an affirmative response to the related disclosure questions on the application, a detailed response is required from the practitioner.

19. Practitioner must disclose if they are currently using any illegal drugs/substances. If there is an affirmative response to the related disclosure questions on the application, a detailed response is required from the practitioner. If a practitioner discloses any issues with substance abuse (e.g., drugs, alcohol) the practitioner must provide evidence of either actively and successfully participating in a substance abuse monitoring program or successfully completing a program.

20. Practitioner must disclose if they have ever had any criminal convictions. If there is an affirmative response to the related disclosure questions on the application, a detailed response is required from the practitioner.

21. Practitioner must not have been convicted of a felony or pled guilty to a felony for a healthcare related crime including but not limited to healthcare fraud, patient abuse and the unlawful manufacture distribution or dispensing of a controlled substance.

22. Practitioner must disclose all past and present issues regarding loss or limitation of clinical privileges at all facilities or organizations with which the practitioner has had privileges. If there is an affirmative response to the related disclosure questions on the application, a detailed response is required from the practitioner.

23. Physicians (MD, DO), Primary Care Practitioners, Nurse Midwives, Oral Surgeons, Podiatrists and/or those practitioners dictated by state law, must have admitting privileges in their specialty. If a practitioner chooses not to have admitting privileges, the practitioner may be considered for

---

25 If a practitioner’s application is denied solely because a practitioner has a pending Statement of Charges, Notice of Proposed Disciplinary Action, Notice of Agency Action or the equivalent from any state or governmental professional disciplinary body, the practitioner may reapply as soon as practitioner is able to demonstrate that any pending Statement of Charges, Notice of Proposed Disciplinary Action, Notice of Agency Action, or the equivalent from any state or governmental professional disciplinary body is resolved, even if the application is received less than one year from the date of original denial.
network participation if they have a plan for hospital admission by using a Hospital Inpatient Team or having an arrangement with a credentialed Molina participating practitioner that has the ability to admit Molina patients to a hospital. Practitioners practicing exclusively on a consultative basis are not required to have admitting hospital privileges. Physicians practicing in Dermatology, Occupational Medicine, Pain Medicine, Physical Medicine and Rehabilitation, Psychiatry, Sleep Medicine, Sports Medicine, Telemedicine, Urgent Care and Wound Management do not require admitting privileges.

24. Practitioners not able to practice independently according to state law must have a practice plan with a supervising physician approved by the state licensing agency. The supervising physician must be contracted and credential with Molina.

26. If applicable to the specialty, practitioner must have a plan for shared call coverage that includes 24-hours a day, seven days per week and 365 days per year. The covering practitioner(s) must be qualified to assess over the phone if a patient should immediately seek medical attention or if the patient can wait to be seen on the next business day. All Primary Care Practitioners must have 24-hour coverage. Physicians practicing in Dermatology, Occupational Medicine, Pain Medicine, Physical Medicine and Rehabilitation, Sleep Medicine, Telemedicine, Sports Medicine, Urgent Care and Wound Management are not required to have 24-hour coverage.

27. Molina may determine, in its sole discretion, that a practitioner is not eligible to apply for network participation if the practitioner is an employee of a practitioner or an employee of a company owned in whole or in part by a practitioner, who has been denied or terminated from network participation by Molina, who is currently in the Fair Hearing Process, or who is under investigation by Molina. Molina also may determine, in its sole discretion that a practitioner cannot continue network participation if the practitioner is an employee of a practitioner or an employee of a company owned in whole or in part by a practitioner, who has been denied or terminated from network participation by Molina. For purposes of these criteria, a company is “owned” by a practitioner when the practitioner has at least 5% financial interest in the company, through shares or other means.

28. Practitioners denied by the Credentialing Committee are not eligible to reapply until one year after the date of denial by the Credentialing Committee. At the time of reapplication, practitioner must meet all criteria for participation outlined above.

29. Practitioners terminated by the Credentialing Committee or terminated from the network for cause are not eligible to reapply until five years after the date of termination. At the time of reapplication, practitioner must meet all criteria for participation as outlined above.

30. Practitioners denied or terminated administratively are eligible to reapply for participation anytime as long as the practitioner meets all criteria for participation above.

B. Burden of Proof

The practitioner shall have the burden of producing adequate information to prove he/she meets all criteria for initial participation and continued participation in the Molina Healthcare network. This includes but is not limited to proper evaluation of their experience, background, training, demonstrated ability and ability to perform as a practitioner without limitation, including physical and mental health status as allowed by law, and the burden of resolving any doubts about these or any other qualifications to participate in the Molina Healthcare network. If the practitioner fails to provide this information, the credentialing application will be deemed incomplete and it will result in an administrative denial or termination from the Molina Healthcare network. Practitioners who fail to provide this burden of proof do not have the right to submit an appeal.
C. Practitioner Termination and Reinstatement

If a practitioner’s contract is terminated and later it is determined to reinstate the practitioner, the practitioner must be initially credentialed prior to reinstatement if there is a break in service more than thirty (30) calendar days. The credentialing factors that are no longer within the credentialing time limits and those that will not be effective at the time of the Credentialing Committee's review must be re-verified. The Credentialing Committee or medical director, as appropriate, must review all credentials and make a final determination prior to the practitioner's reentry into the network.

If a practitioner is given administrative termination for reasons beyond Molina’s control (e.g., the practitioner failed to provide complete credentialing information), and is then reinstated within thirty (30) calendar days, Molina may recredential the practitioner as long as there is clear documentation that the practitioner was terminated for reasons beyond Molina Healthcare’s control and was recredentialed and reinstated within thirty (30) calendar days of termination. Molina Healthcare must initially credential the practitioner if reinstatement is more than thirty (30) calendar days after termination.

If Molina Healthcare is unable to recredential a practitioner within 36-months because the practitioner is on active military assignment, maternity leave or sabbatical but the contract between Molina and the practitioner remains in place, Molina Healthcare will recredential the practitioner upon his or her return. Molina Healthcare will document the reason for the delay in the practitioner’s file. At a minimum, Molina Healthcare will verify that a practitioner who returns has a valid license to practice before he or she can resume seeing patients. Within sixty (60) calendar days of notice when the practitioner resumes practice, Molina Healthcare will complete the recredentialing cycle. If either party terminates the contract and there is a break in service of more than thirty (30) calendar days, Molina Healthcare will initially credential the practitioner before the practitioner rejoins the network.

D. Practitioners terminating with a delegate and contracting with Molina Healthcare directly

Practitioners credentialed by a delegate who terminate their contract with the delegate and want to contract with Molina Healthcare directly must be credentialed by Molina Healthcare within six-months of the practitioner’s termination with the delegate. If the practitioner has a break in service more than thirty (30) calendar days, the practitioner must be initially credentialed prior to reinstatement.

E. Credentialing Application

At the time of initial credentialing and recredentialing, the practitioner must complete a credentialing application designed to provide Molina Healthcare with information necessary to perform a comprehensive review of the practitioner’s credentials. The application must be completed in its entirety. The practitioner must attest that their application is complete and correct within one hundred eighty (180) calendar days of the credentialing decision. The application must be completed in typewritten text, in pen or electronically through applications such as the Counsel for Affordable Quality Healthcare (CAQH) Universal Credentialing Data Source. Pencils or erasable ink will not be an acceptable writing instrument for completing credentialing applications. Molina Healthcare may use another organization's application as long as it meets all the factors. Molina Healthcare will accept faxed, digital, electronic, scanned or photocopied signatures. A signature stamp is not acceptable on the attestation. The application must include:
Inability to perform essential functions and illegal drug use
An inquiry regarding illegal drug use and inability to perform essential functions may vary. Practitioners may use language other than "drug" to attest they are not presently using illegal substances. Molina Healthcare may accept more general or extensive language to query practitioners about impairments; language does not have to refer exclusively to the present, or only to illegal substances.

History of actions against applicant - An application must contain the following information:
- History of loss of license
- History of felony convictions; and
- History of all past and present issues regarding loss or limitation of clinical privileges at all facilities or organizations with which a practitioner has had privileges

Current malpractice coverage
The application form must include specific questions regarding the dates and amount of a practitioner's current malpractice insurance. Molina Healthcare may obtain a copy of the insurance face sheet from the malpractice carrier in lieu of collecting the information in the application.

For practitioners with federal tort coverage, the application need not contain the current amount of malpractice insurance coverage. Practitioner files that include a copy of the federal tort letter or an attestation from the practitioner of federal tort coverage are acceptable.

Correctness and completeness of the application
Practitioners must attest that their application is complete and correct when they apply for credentialing and recredentialing. If a copy of an application from an entity external to Molina is used, it must include an attestation to the correctness and completeness of the application. Molina Healthcare does not consider the associated attestation elements as present if the practitioner did not attest to the application within the required time frame of 180 days. If state regulations require Molina Healthcare to use a credentialing application that does not contain an attestation, Molina Healthcare must attach an addendum to the application for attestation.

Meeting Application time limits
If the practitioner attestation exceeds 180 days before the credentialing decision, the practitioner must attest that the information on the application remains correct and complete, but does not need to complete another application. It is preferred to send a copy of the completed application with the new attestation form when requesting the practitioner to update the attestation.

F. Turn-Around Time
According to New Mexico regulation (NM MAD 8.305.8.14 and 13.10.21.9 NMAC – N, 09/01/2019), “The credentialing process shall be completed within 45 days from receipt of
completed application with all required documentation unless there are extenuating circumstances.” Molina Healthcare shall take into account and make allowance for the time required to request and obtain primary source verifications and other information that must be obtained from third parties in order to authenticate the practitioner’s credentials, and shall make allowance for the scheduling of a final decision.

Within forty-five (45) calendar days after receipt of a completed application and with all supporting documents, Molina Healthcare shall assess and verify the practitioner’s qualifications and notify the practitioner of its decision.

If, by the 45th calendar day after receipt of the completed application, Molina Healthcare has not received all of the information or verifications it requires from third parties, or date-sensitive information has expired, Molina Healthcare shall issue a written notification through standard mail, fax, or electronic mail, or other agreed upon writing, to the practitioner either closing the application and detailing Molina Healthcare’s attempts to obtain the information or verification, or pending the application and detailing Molina Healthcare’s attempts to obtain the information and verifications. If the application is held, Molina Healthcare shall inform the practitioner that the file will be pended for forty-five (45) calendar days, once this timeframe is exhausted, if the information and verifications have not been received the file will be closed.

Incomplete Applications:
Within ten (10) working days after receipt of an incomplete application Molina Healthcare shall notify the practitioner in writing of all missing or incomplete information or supporting documents.

G. The Process for Making Credentialing Decisions
All practitioners requesting initial participation with Molina Healthcare must complete a credentialing application. To be eligible to submit an application, practitioners must meet all the criteria outlined above in the section titled “Criteria for Participation in the Molina Healthcare Network”. Practitioners may not provide care to Molina Healthcare members until the final decision is rendered by the Credentialing Committee or the Molina Healthcare Medical Director.

Molina Healthcare recredentials its practitioners at least every thirty-six (36) months. Approximately six months prior to the recredentialing due date, the practitioners application will be downloaded from CAQH (or a similar NCQA accepted online applications source), or a request will be sent to the practitioner requesting completion of a recredentialing application.

During the initial and recredentialing application process, the practitioner must:
- Submit a completed application within the requested timeframe;
- Attest to the application within the last one hundred eighty (180) calendar days; and
- Provide Molina Healthcare adequate information to prove he/she meets all criteria for initial participation or continued participation in the Molina Healthcare network.

Once the application is received, Molina Healthcare will complete all the verifications as outlined in the Molina Healthcare Credentialing Program Policy. In order for the application to be deemed complete, the practitioner must produce adequate information to prove he/she meets all criteria for initial participation or continued participation in the Molina Healthcare network. All fields within the application must be completed, all required attachments must be included, detailed explanations
must be provided to all affirmative answers on the attestation questions and any additional information requested by Molina Healthcare must be provided.

If the practitioner does not provide the information necessary to complete the application process in the time period requested, the application will be deemed incomplete and Molina Healthcare will discontinue processing of the application. This will result in an administrative denial or administrative termination from the Molina Healthcare network. Practitioners who fail to provide proof of meeting the criteria or fail to provide a complete credentialing application do not have the right to submit an appeal.

At the completion of the application and primary source verification process, each credentialing file is quality reviewed to ensure completeness. During this quality review process each credentialing file is assigned a level based on established guidelines. Credentialing files assigned a Level One (1) are considered clean credentialing files and the Medical Director(s) responsible for credentialing has the authority to review and approve them. Credentialing files assigned a Level Two (2) are reviewed by the Molina Healthcare Credentialing Committee.

At each Credentialing Committee meeting, practitioner credentialing files assigned a Level Two (2) are reviewed by the Credentialing Committee; all of the issues are presented to the Credentialing Committee members and then open discussion of the issues commences. After the discussion, the Credentialing Committee votes for a final decision. The Credentialing Committee can approve, deny, terminate, approve on watch status, place on corrective action or defer their decision pending additional information.

H. Process for Delegating Credentialing and Recredentialing
Molina Healthcare will delegate credentialing and recredentialing activities to Independent Practice Associations (IPA) and Provider Groups that meet Molina Healthcare’s requirements for delegation. Molina Healthcare’s Delegation Oversight Committee (DOC) must approve all delegation and subdelegation arrangements, and retains the right to limit or revoke any and all delegated credentialing activities when a delegate fails to meet Molina Healthcare’s requirements.
Molina Healthcare’s Credentialing Committee retains the right to approve new providers and provider sites and terminate practitioners, providers and sites of care based on requirements in the Molina Healthcare Credentialing Policy.

To be delegated for credentialing, IPAs and Provider Groups must:

- Be National Committee for Quality Assurance (NCQA) accredited or certified for credentialing or pass Molina Healthcare’s credentialing delegation pre-assessment, which is based on NCQA credentialing standards and requirements for the Medicaid and Medicare programs, with a score of at least 90%;
- Correct deficiencies within mutually agreed upon time frames when issues of non-compliance are identified by Molina Healthcare at pre-assessment;
- Agree to Molina Healthcare’s contract terms and conditions for credentialing delegates
- Submit timely and complete reports to Molina Healthcare as described in policy and procedure;
- Comply with all applicable federal and state laws; and
- If the IPA or Provider Group subdelegates primary source verification to a Credentialing Verification Organization (CVO), the CVO must be NCQA certified in all ten areas of accreditation.
I. Non-Discriminatory Credentialing and Recredentialing
Molina Healthcare does not make credentialing and recredentialing decisions based on an applicant’s race, ethnic/national identity, gender, age, sexual orientation or the types of procedures (e.g. abortions) or patients (e.g. Medicaid or Medicare) in which the practitioner specializes. This does not preclude Molina Healthcare from including in its network practitioners who meet certain demographic or specialty needs; for example, to meet cultural needs of members.

J. Notification of Discrepancies in Credentialing Information
Molina Healthcare will notify the practitioner immediately in writing in the event that credentialing information obtained from other sources varies substantially from that provided by the practitioner. Examples include but are not limited to actions on a license, malpractice claims history or sanctions. Molina Healthcare is not required to reveal the source of information if the information is not obtained to meet organization credentialing verification requirements or if disclosure is prohibited by law. Please also refer to the section below titled Practitioners Right to Correct Erroneous Information.

K. Notification of Credentialing Decisions
A letter is sent to every practitioner with notification of the Credentialing Committee or Medical Director decision regarding their participation in the Molina Healthcare network. This notification is sent within two weeks of the decision. Copies of the letters are filed in the practitioner’s credentials files. Under no circumstance will notification letters be sent to the practitioners later than sixty (60) calendar days from the decision.

L. Confidentiality and Immunity
Information regarding any practitioner or provider submitted, collected, or prepared by any representative of this or any other health care facility or organization or medical staff for the purpose of evaluating, improving, achieving or maintaining quality and cost effective patient care shall, to the fullest extent permitted by law, be confidential and shall only be disseminated to a Representative in order to carry out appropriate activities under these Policies and Procedures. Confidentiality shall also extend to such information that is provided by third parties.

For purposes of this section a “representative” shall mean any individual authorized to preform specific information gathering or disseminating functions for the purpose of evaluating, improving, achieving or maintaining quality and cost effective patient care.

For purposes of this section “information” may be any written or oral disclosures including, but not limited to, a practitioner’s or provider’s professional qualifications, clinical ability, judgment, character, physical or mental health, emotional stability, professional ethics, or any other matter that might directly or indirectly affect patient care or practitioner’s or provider’s provision of patient care services.

By providing patient care services at Molina Healthcare, a practitioner or provider:

1. Authorizes representatives of Molina Healthcare to solicit, provide, and act upon information bearing on the practitioner’s or provider’s qualifications;
2. Agrees to be bound by the provisions of this policy and procedure and to waive all legal claims against any representative who acts in accordance with the provisions of this policy and procedure; and

3. Acknowledges that the provisions of this policy and procedure are express conditions of the application for, or acceptance of, Molina Healthcare membership and the continuation of such membership, and to the exercise of clinical privileges or provision of patient care.

The confidentiality and immunity provisions of this policy and procedure shall apply to all information so protected by State or Federal law. To the fullest extent permitted by State or Federal law, the confidentiality and immunity provisions of this policy and procedure shall include, but is not limited to:

1. Any type of application or reapplication received by the Provider or Practitioner;
2. Actions reducing, suspending, terminating or revoking a practitioner’s and provider’s status, including requests for corrective actions, investigation reports and documents and all other information related to such action;
3. Hearing and appellate review;
4. Peer review and utilization and quality management activities;
5. Risk management activities and claims review;
6. Potential or actual liability exposure issues;
7. Incident and/or investigative reports;
8. Claims review;
9. Minutes of all meetings by any committees otherwise appropriately appointed by the Board;
10. Any activities related to monitoring the quality, appropriateness or safety of health care services;
11. Minutes of any Committees and Subcommittees related to monitoring the quality, appropriateness or safety of health care services; and
12. Any Molina Healthcare operations and actions relating to practitioner and provider conduct.

**Immunity from Liability for Action Taken:** No representative shall be liable to a practitioner or provider or any third party for damages or other relief for any decision, opinion, action, statement, or recommendations made within the scope of their duties as representative, if such representative acts in good faith and without malice.

**Immunity from Liability for Providing Information:** No representative or third parties shall be liable to a practitioner or provider for damages or other relief by reason of providing information, including otherwise privileged or confidential information, to a representative or to any third party pursuant to authorization by the practitioner or provider, or if permitted or required by law, or these Policies and Procedures, provided that such representative or third parties acts in good faith and without malice.

**Cumulative Effect:** The provisions in this Policy and Procedure and any forms relating to authorizations, confidentiality of information, and immunities from liability are in addition to other protections provided by relevant state and federal law, and are not a limitation thereof.

All members (voting and non-voting) and guests of the Credentialing Committee, or any other committee performing any peer review functions or other individuals who participate in peer review functions will sign a Statement of Confidentiality annually. Members and guests of the Credentialing
Committee will not discuss, share or use any information for any purpose other than peer review at Molina Healthcare.

The Director in charge of Credentialing grants access to electronic credentials files only as necessary to complete credentialing work or as required by law. Access to these documents are restricted to authorized staff, Credentialing Committee members, peer reviewers and reporting bodies as authorized by the Credentialing Committee or the Governing Board of Molina Healthcare. Each person is given a unique user ID and password. It is the strict policy of Molina Healthcare that employees keep their passwords confidential and never share their passwords with anyone. All Credentialing employees are prompted to change their passwords into the system every three-months.

Minutes, reports and files of Credentialing Committee meetings are stored in secure electronic folders or in locked cabinets in the Credentialing Department and will be protected from discovery under all applicable laws.

Copies of minutes and any other related Credentialing Committee meeting materials will not be allowed to be removed from meetings of peer review committees and Credentialing staff will shred extra sets of information from such meetings. Electronic data and/or information are password protected and Molina Healthcare Staff is instructed not to divulge passwords to their co-workers.

M. Practitioners’ Rights during the Credentialing Process
Practitioners have the right to review their credentials file at any time. Practitioners are notified of their right in a letter sent to them at the time the initial or recredentialing application is received.

The practitioner must notify the Credentialing Department and request an appointed time to review their file and allow up to seven calendar days to coordinate schedules. A Medical Director and the Director responsible for Credentialing or the Quality Improvement Director will be present. The practitioner has the right to review all information in the credentials file except peer references or recommendations protected by law from disclosure.

The only items in the file that may be copied by the practitioner are documents which the practitioner sent to Molina Healthcare (e.g., the application, the license and a copy of the DEA certificate). Practitioners may not copy documents that include pieces of information that are confidential in nature, such as the practitioner credentialing checklist, the responses from monitoring organizations (i.e. National Practitioner Data Bank, State Licensing Board), and verification of hospital privileges letters.

N. Practitioners Right to Correct Erroneous Information
Practitioners have the right to correct erroneous information in their credentials file. Practitioners are notified of their right in a letter sent to them at the time the initial or recredentialing application is received.

Molina Healthcare will notify the practitioner immediately in writing in the event that credentialing information obtained from other sources varies substantially from that provided by the practitioner. Examples include but are not limited to actions on a license or malpractice claims history. Molina Healthcare is not required to reveal the source of information if the information is not obtained to meet organization credentialing verification requirements or if disclosure is prohibited by law.
The notification sent to the practitioner will detail the information in question and will include instructions to the practitioner indicating:

- Their requirement to submit a written response within 10 calendar days of receiving notification from Molina.
- In their response, the practitioner must explain the discrepancy, may correct any erroneous information and may provide any proof that is available.
- The practitioner’s response must be sent to:
  Molina Healthcare, Inc.
  Attention Kari Horseman, CPCS, Credentialing Director
  PO Box 2470
  Spokane WA 99210

- Upon receipt of notification from the practitioner, Molina Healthcare will document receipt of the information in the practitioner’s credential file. Molina Healthcare will then re-verify the primary source information in dispute. If the primary source information has changed, correction will be made immediately to the practitioner’s credential file. The practitioner will be notified in writing that the correction has been made to their credential file. If the primary source information remains inconsistent with practitioners’ notification, the Credentialing Department will notify the practitioner. The practitioner may then provide proof of correction by the primary source body to Molina Healthcare's Credentialing Department. The Credentialing Department will re-verify primary source information if such documentation is provided.

If the practitioner does not respond within (ten) 10 calendar days, their application processing will be discontinued and network participation will be denied.

O. Practitioners Right to be Informed of Application Status

Practitioners have a right, upon request, to be informed of the status of their application. Practitioners applying for initial participation are sent a letter when their application is received by Molina Healthcare and are notified of their right to be informed of the status of their application in this letter.

The practitioner can request to be informed of the status of their application by telephone, email or mail. Molina Healthcare will respond to the request within two (2) working days. Molina Healthcare may share with the practitioner where the application is in the credentialing process to include any missing information or information not yet verified. Molina Healthcare does not share with or allow a practitioner to review references or recommendations, or other information that is peer-review protected.

P. Credentialing Committee

Molina Healthcare designates a Credentialing Committee to make recommendations regarding credentialing decisions using a peer review process. Molina Healthcare works with the Credentialing Committee to strive to assure that network practitioners are competent and qualified to provide continuous quality care to Molina members. A practitioner may not provide care to Molina Healthcare members until the final decision from the Credentialing Committee or in situations of “clean files” the final decision from the Molina Healthcare Medical Director.

The Credentialing Committee is responsible for reviewing and evaluating the qualifications of applicant practitioners and for approving or denying applicants for participation. In addition, the Credentialing Committee reviews Credentialing Policies and Procedures annually and recommends revisions, additions and/or deletions to the policies and procedures. Composed of network
practitioners, the committee is responsible for performing peer review of medical information when requested by the Medical Director, and recommending actions based on peer review findings, if needed. The committees report to the Quality Improvement Committee (QIC).

Each Credentialing Committee member shall be immune, to the fullest extent provided by law, from liability to an applicant or practitioner for damages or other relief for any action taken or statements or recommendations made within the scope of the committee duties exercised.

**Committee Composition**
The Medical Director chairs the Credentialing Committee and appoints all Credentialing Committee members. Each member is required to meet all of Molina Healthcare's credentialing criteria. Credentialing Committee members must be current representatives of Molina Healthcare's practitioner network. The Credentialing Committee representation includes at least five practitioners. These may include practitioners from the following specialties:

- Family Medicine
- Internal Medicine
- Pediatrics
- OB/GYN
- Surgery

Additionally, surgical specialists and Internal Medicine specialists may participate on the committee as appropriate. Other ad hoc practitioners may be invited to participate when representation of their discipline is needed. Ad hoc committees representing a specific profession (e.g., Behavioral Health Practitioner, Nurse Practitioners, Chiropractors) may be appointed by the chairs to screen applicants from their respective profession and make credentialing recommendations to the Credentialing Committee.

**Committee Members Roles and Responsibilities**

- Committee members participate in and support the functions of the Credentialing Committee by attending meetings, providing input and feedback and overall guidance of the Credentialing Program.
- Review/approve credentialing program policy and related policies established by Molina Healthcare on an annual basis, or more often as deemed necessary.
- Review and consider each applicant’s information based on criteria and compliance requirements. The Credentialing Committee votes to make final decisions regarding credentialing determinations and disciplinary actions.
- Conduct ongoing monitoring of those practitioners approved to be monitored on a “watch status”
- Access clinical peer input when discussing standards of care for a particular type of practitioner when there is no committee member of that specialty.
- Ensure credentialing activities are conducted in accordance with Molina Healthcare's Credentialing Program.
- Review quality improvement findings as part of the recredentialing and the ongoing monitoring process.

**Q. Excluded Practitioners**
Excluded practitioner means an individual practitioner, or an entity with an officer, director, agent, manager or individual who owns or has a controlling interest in the entity who has been convicted of crimes as specified in section 1128 of the SSA, excluded from participation in the Medicare or
Medicaid program, assessed a civil penalty under the provisions of section 1128, or has a contractual relationship with an entity convicted of a crime specified in section 1128.

Pursuant to section 1128 of the SSA, Molina Healthcare and its subcontractors may not subcontract with an Excluded Practitioner/Person. Molina Healthcare and its subcontractors shall terminate subcontracts immediately when Molina Healthcare and its subcontractors become aware of such excluded practitioner/person or when Molina Healthcare and its subcontractors receive notice. Molina Healthcare and its subcontractors certify that neither it nor its member/practitioner is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency. Where Molina Healthcare and its subcontractors are unable to certify any of the statements in this certification, Molina Healthcare and its subcontractors shall attach a written explanation to this Agreement.

R. Practitioners/Providers opting out of Medicare
If a practitioner/provider opts out of Medicare, that practitioner/provider may not accept Federal reimbursement for a period of two (2) years. Practitioners/providers who are currently opted out of Medicare are not eligible to contract with Molina Healthcare for the Medicare line of business.

S. Ongoing Monitoring of Sanctions
Molina Healthcare monitors practitioner sanctions between recredentialing cycles for all practitioner types and takes appropriate action against practitioners when occurrences of poor quality is identified.

Medicare and Medicaid Sanctions
The United States Department of Health & Human Services (HHS), Office of Inspector General (OIG) Fraud Prevention and Detection Exclusions Program releases a report every month of individuals and entities that have been excluded from Medicare and Medicaid programs. Within thirty (30) calendar days of its release, Molina Healthcare reviews the report and if a Molina network provider is found with a sanction, the practitioner’s contract is terminated effective the same date the sanction was implemented.

Molina Healthcare also monitors every month for state Medicaid sanctions/exclusions/terminations through each state’s specific Program Integrity Unit (or equivalent). If a practitioner is found to be sanctioned/excluded/terminated from any state’s Medicaid program, the practitioner will be terminated in every state where they are contracted with Molina Healthcare and for every line of business.

Sanctions or Limitations on Licensure
Molina Healthcare monitors for sanctions or limitations against licensure between credentialing cycles for all network practitioners. All practitioners with identified sanctions or limitations on license in the ongoing monitoring process will be immediately placed into the full credentialing process and will be recredentialled early. The practitioner must provide all necessary information to complete the recredentialing process within the requested time-frames or the practitioner will be administratively terminated from the network. The complete recredentialing file will be reviewed at the next scheduled Credentialing Committee meeting for a determination.

Continuous Query (Proactive Disclosure Service)
Molina Healthcare registers all network practitioners with the National Practitioner Data bank (NPDB) Continuous Query program. Molina Healthcare receives instant notification of all new
NPDB reports against the enrolled providers. When a new report is received between recredentialing cycles, the practitioner will be immediately placed into the full credentialing process and will be recredentialed early. The practitioner must provide all necessary information to complete the recredentialing process within the requested time-frames or the practitioner will be administratively terminated from the network. The complete recredentialing file will be reviewed at the next scheduled Credentialing Committee meeting for a determination.

**Member Complaints/Grievances**
Each Molina Healthcare Plan has a process in place to investigate practitioner-specific complaints from members upon their receipt. Molina Healthcare evaluates both the specific complaint and the practitioner’s history of issues, if applicable. The history of complaints is evaluation for all practitioners at least every six (6) months.

**Adverse Events**
Each Molina Healthcare Plan has a process in place for monitoring practitioner adverse events at least every six (6) months. An adverse event is an injury that occurs while a member is receiving health care services from a practitioner.

**System for Award Management (SAM)**
Molina Healthcare monitors the SAM once per month to ensure practitioners have not been sanctioned. If a Molina Healthcare network provider is found with a sanction, the practitioner’s contract is terminated effective the same date the sanction was implemented.

**Medicare Opt-Out**
Practitioner’s participating in Medicare must not be listed on the Medicare Opt-Out report. Molina Healthcare reviews the quarterly opt out reports released from the appropriate Medicare financial intermediary showing all of the practitioners who have chosen to Opt-Out of Medicare. These reports are reviewed within thirty (30) calendar days of their release. If a physician or other practitioner opts out of Medicare, that physician or other practitioner may not accept Federal reimbursement for a period of two (2) years. These provider contracts will be immediately terminated for the Molina Healthcare Medicare line of business.

**T. Program Integrity (Disclosure of Ownership/Controlling Interest)**
Medicaid Managed Care Health Plans are required to collect specific information from network providers prior to contracting and during credentialing to ensure that it complies with federal regulations that require monitoring of federal and state sanctions and exclusions databases. This monitoring ensures that any network providers and the following details of any individual/entity being contracted and those individuals/entities affiliated with the contractor are appropriately screened against these sources, ensuring compliance with 42 CFR §455.

The categorical details required and collected at all initial and recredentialing must be current and are as follows:

1. Detailed identifying information for any individual who has ownership or controlling interest in the individual/entity being contracted if that individual has a history of criminal activity related to Medicaid, Medicare, or Title XX services (see 42 CFR §455.106).

2. Detailed identifying information for all individuals who exercise operational or managerial control either directly or indirectly over daily operations and activities (see 42 CFR §455.101).
3. Detailed identifying information for all individuals or entities that have a 5% or more ownership or controlling interest in the individual/entity being contracted (see 42 CFR §455.104).

U. Office Site and Medical Record Keeping Practices Review
A review of office sites where you see Molina Healthcare Members may be required. This review may be scheduled as soon as the Credentialing Department receives your application. This may also include a review of your medical record keeping practices. A passing score is required to complete the application process. Your cooperation in working with the site review staff and implementing any corrective action plans will expedite a credentialing decision.

Office site and medical record keeping reviews may also be initiated if any member complaints are received regarding the physical accessibility, physical appearance or adequacy of waiting room and examining room space.

V. Range of Actions, Notification to Authorities and Practitioner Appeal Rights
Molina Healthcare uses established criteria in the review of practitioners’ performance. All adverse actions taken by the Credentialing Committee are conducted in compliance with the Molina Healthcare Fair Hearing Plan and the Healthcare Quality Improvement Act of 1986.

**Range of Actions Available**
The Molina Healthcare Credentialing Committee can take one of the following actions against practitioners who fail to meet credentialing standards or who fail to meet performance expectations pertaining to quality of patient care:
- Monitor on a Watch Status;
- Require formal corrective action;
- Denial of network participation;
- Termination from network participation; and
- In cases where the Medical Director determines the circumstances pose an immediate risk to patients, a practitioner may be summarily suspended from participation in the network, without prior notice, pending review and investigation of information relevant to the case.

This applies to all practitioners who are contracted by Molina Healthcare. These actions do not apply to applicants who do not meet basic conditions of participation and are ineligible for participation. If at any point a practitioner fails to meet the minimum standards and criteria for credentialing or fails to meet performance expectations with regard to quality of patient care the Credentialing Committee may act to implement one of these actions. Termination may be taken after reasonable effort has been made to obtain all the facts of the matter and the practitioner may be given the opportunity to appeal this decision.

**Criteria for Denial or Termination Decisions by the Credentialing Committee**
The criteria used by the Credentialing Committee to make a decision to deny or terminate a practitioner from the Molina Healthcare network include, but are not limited to, the following:
1. The practitioner’s professional license in any state has or has ever had any informal or formal disciplinary orders, decisions, agreements, disciplinary actions or other actions including but not limited to, restrictions, probations, limitations, conditions suspensions and revocations.

2. Practitioner has or has ever surrendered, voluntarily or involuntarily, his or her professional license in any State while under investigation by the State or due to findings by the State resulting from the practitioner’s acts, omissions or conduct.

3. Practitioner has any pending statement of charges, notice of proposed disciplinary actions, notice of agency action or the equivalent from any state or governmental professional disciplinary body which based on the judgment of the Credentialing Committee establishes an immediate potential risk to the quality of care or service delivered by the practitioner to Molina Healthcare members.

4. Practitioner has or has ever had any restrictions, probations, limitations, conditions, suspensions or revocations on their federal Drug Enforcement Agency (DEA) certificate or Controlled Substance Certification or Registration.

5. Practitioner has a condition, restriction or limitation on their license, certification or registration related to an alcohol, chemical dependency, or health condition or if other evidence indicates that the practitioner has an alcohol, chemical dependency problem or health condition and there is no clear evidence and documentation demonstrating that the practitioner has complied with all such conditions, limitations, or restrictions and is receiving treatment adequate to ensure that the alcohol, chemical dependency problem or health condition will not affect the quality of the practitioner’s practice.

6. Practitioner has or has ever had sanctions of any nature taken by any governmental program or professional body including but not limited to, Medicare, Medicaid, Federal Employee Program or any other State or Federal program or agency.

7. Practitioner has or has ever had any denials, limitations, suspensions or terminations of participation of privileges by any health care institution, plan, facility or clinic.

8. Practitioner’s history of medical malpractice claims or professional liability claims or settlements reflect what constitutes a pattern of questionable or inadequate treatment or contain what constitutes any gross or flagrant incident or incidents of malpractice.

9. Practitioner has a criminal history, including, but not limited to, any criminal charges, criminal investigations, convictions, no-contest pleas and guilty pleas.

10. Practitioner has or has ever had involvement in acts of dishonesty, fraud, deceit or misrepresentation that relate to or impact or could relate to or impact the practitioner’s professional conduct or the health, safety or welfare of Molina members.

11. Practitioner has or has ever engaged in acts which Molina Healthcare, in its sole discretion, deems inappropriate.

12. Practitioner has or has ever had a pattern of member complaints or grievances in which there appears to be a concern regarding the quality of service provided to Molina Healthcare members.

13. Practitioner has not complied with Molina Healthcare’s quality assurance program.

14. Practitioner is found to have rendered a pattern of substandard care or is responsible for any gross or flagrant incident of substandard care.

15. Practitioner has or has ever displayed inappropriate patterns of referral, which deviate substantially from reasonably expected patterns of referral.

16. Practitioner makes or has ever made any material misstatements in or omissions from their credentialing application and attachments.

17. Practitioner has ever rendered services outside the scope of their license.

18. Practitioner has or has ever had a physical or mental health condition that may impair their ability to practice with the full scope of licensure and qualifications, or might pose a risk of harm on patients.
19. Practitioner has or has ever failed to comply with the Molina Healthcare Medical Record Review Guidelines.
20. Practitioner has or has ever failed to comply with the Molina Healthcare Site Review or Medical Record Keeping Practice Review Guidelines.

**Monitoring on a Committee Watch Status**
Molina Healthcare uses the credentialing category “watch status” for practitioners whose initial or continued participation is approved by the Credentialing Committee with follow-up to occur. The Credentialing Committee may approve a practitioner to be monitored on watch status when there are unresolved issues or when the Credentialing Committee determines that the practitioner needs to be monitored for any reason.

When a practitioner is approved on watch status, the Credentialing Department conducts the follow-up according to the Credentialing Committee direction. Any unusual findings are reported immediately to the Molina Healthcare Medical Director to determine if immediate action is necessary. Every unusual finding is reviewed in detail at the next Credentialing Committee meeting for review and recommendation.

**Corrective Action**
In cases where altering the conditions of participation is based on issues related to quality of care and/or service, Molina Healthcare may work with the practitioner to establish a formal corrective action plan to improve performance, prior to, or in lieu of suspending or terminating his or her participation status.

A corrective action plan is a written improvement plan, which may include, but is not limited to the following:

- Identifying the performance issues that do not meet expectations;
- What actions/processes will be implemented for correction;
- Who is responsible for the corrective action;
- What improvement/resolution is expected;
- How improvements will be assessed; and
- Scheduled follow-up, monitoring (compliance review, normally not to exceed six (6) months)

Within ten (10) calendar days of the Credentialing Committee’s decision to place practitioner on a corrective action plan, the practitioner will be notified via a certified letter from the Medical Director. Such notification will outline:

- The reason for the corrective action
- The corrective action plan

If the corrective actions are resolved, the practitioner’s performance may or may not be monitored, as deemed appropriate. If the corrective action(s) are not adequately resolved within the designated time, depending on the circumstances of the case, the Credentialing Committee may recommend that the practitioner continue on an improvement plan, or recommend suspension or termination. All recommendations for termination that result from a lack of appropriate practitioner response to corrective action will be brought to the Credentialing Committee for review and decision.
Summary Suspension
In cases where the Credentialing Committee or the Medical Director becomes aware of circumstances that pose an immediate risk to patients, the practitioner may be summarily suspended from participation in the network, without prior notice, pending review and investigation of information relevant to the case.

Such summary suspension shall become effective immediately upon imposition, and the Medical Director shall promptly notify the practitioner of the suspension by written notification sent via certified letter. Notification will include the following:

- A description of the action being taken
- Effective date of the action
- The reason(s) for the action and/or information being investigated
- Information (if any) required from the practitioner
- The length of the suspension
- The estimated timeline for determining whether or not to reinstate or terminate the practitioner
- Details regarding the practitioner’s right to request a fair hearing within thirty (30) calendar days of receipt of the notice and their right to be represented by an attorney or another person of their choice (see Fair Hearing Plan policy)
- If the practitioner does not request a fair hearing within the thirty (30) calendar days, they have waived their rights to a hearing
- The action will be reported to the NPDB if the suspension is in place longer than thirty (30) calendar days

Upon initiation of the suspension, the Medical Director and credentialing staff will commence investigation of the issues. Findings of the investigation will be presented to the Credentialing Committee. The Credentialing Committee has the authority to implement corrective action, place conditions on the practitioner’s continued participation, discontinue the suspension or terminate the practitioner.

Denial
After review of appropriate information, the Credentialing Committee may determine that the practitioner should not be approved for participation in the Molina Healthcare network. The Credentialing Committee may then vote to deny the practitioner.

The practitioner will not be reported to the NPDB and will not be given the right to a fair hearing. Within ten (10) calendar days of the Committee’s decision, the practitioner is sent a written notice of denial via certified mail, from the Medical Director, which includes the reason for the denial.

Termination
After review of appropriate information, the Credentialing Committee may determine that the practitioner does not meet performance expectations pertaining to quality of care, services or established performance/professional standards. The Credentialing Committee may then vote to terminate the practitioner.

Terminations for Reasons Other than Unprofessional Conduct or Quality of Care
If the termination is based on reasons other than unprofessional conduct or quality of care, the practitioner will not be reported to the NPDB and will not be given the right to a fair hearing. Within
ten (10) calendar days of the Committee’s decision, the practitioner is sent a written notice of termination via certified mail, from the Medical Director, which includes the following:

1. A Description of the action being taken
2. Reason for termination

**Terminations Based on Unprofessional Conduct or Quality of Care**

If the termination is based on unprofessional conduct or quality of care, the practitioner will be given the right to a fair hearing.

Within ten (10) calendar days of the Committee’s decision, the practitioner is sent a written notice of Molina Healthcare’s intent to terminate them from the network, via certified mail from the Medical Director, which includes the following:

- A Description of the action being taken;
- Reason for termination;
- Details regarding the practitioner’s right to request a fair hearing within thirty (30) calendar days of receipt of notice (see Fair Hearing Plan policy). The Fair Hearing Policy explains that Molina will appoint a hearing officer and a panel of individuals to review the appeal;
- The practitioner does not request a fair hearing within the thirty (30) calendar days, they have waived their rights to a hearing;
- The notice will include a copy of the Fair Hearing Plan Policy describing the process in detail;
- Practitioner’s right to be represented by an attorney or another person of their choice;
- Obligations of the practitioner regarding further care of Molina Healthcare patients/members; and
- The action will be reported to the NPDB and the State Licensing Board.

Molina Healthcare will wait thirty (30) calendar days from the date the terminated practitioner received the notice of termination. If the practitioner requests a fair hearing within that required timeframe, Molina Healthcare will follow the Fair Hearing Plan Policy. Once the hearing process is completed, the practitioner will receive written notification of the appeal decision which will contain specific reasons for the decision (see Fair Hearing Plan Policy). If the hearing committee’s decision is to uphold the termination, the action will be reported to the State Licensing Board and the NPDB as defined in reporting to appropriate authorities section below. If the hearing committee overturns the termination decision and the practitioner remains in the Molina Healthcare network, the action will not be reportable to the State Licensing Board or to the NPDB.

If the practitioner does not request a hearing within the thirty (30) calendar days, they have waived their rights to a hearing and the termination will become the final decision. A written notification of the final termination will be sent to the practitioner and the termination will be reported to the State Licensing Board and the NPDB as defined in reporting to appropriate authorities section below.

**Reporting to Appropriate Authorities**

Molina Healthcare will make reports to appropriate authorities as specified in the Molina Healthcare Fair Hearing Plan Policy when the Credentialing Committee takes or recommends certain Adverse Actions for a practitioner based upon Unprofessional Conduct or quality of care. Adverse Actions include:

- Revocation, termination of, or expulsion from Molina Healthcare Provider status.
- Summary Suspension in effect or imposed for more than thirty (30) calendar days.
- Any other final action by Molina Healthcare that by its nature is reportable to the State Licensing Board and the NPDB.
Within fifteen (15) calendar days of the effective date of the final action, the Manager responsible for credentialing reports the action to the following authorities:

- All appropriate state licensing agencies
- National Practitioner Data Bank (NPDB)

A letter is then written to the appropriate state licensing boards describing the adverse action taken, the practitioner it was taken against and a copy of the NPDB report is attached to the letter. This letter is sent certified to the appropriate state licensing boards within 24-hours of receiving the final NPDB report. A copy of this letter is filed into the Practitioner’s credential file. The action is also reported to other applicable State entities as required.

W. Fair Hearing Plan Policy

Under State and Federal law, certain procedural rights shall be granted to a provider in the event that peer review recommendations and actions require a report be made to the State Licensing Board, NPDB, and/or the Healthcare Integrity and Protection Data Bank (HIPDB).

Molina Healthcare, and its affiliates will maintain and communicate the process providing procedural rights to providers when a final action by Molina Healthcare will result in a report to the State Licensing Board, NPDB, and/or HIPDB.

1. Definitions

a. Adverse Action shall mean an action that entitles a provider to a hearing, as set forth in Section B (l)-(3) below.

b. Chief Medical Officer shall mean the Chief Medical Officer for the respective Molina Healthcare affiliate State Plan wherein the provider is contracted.

c. Days shall mean calendar days. In computing any period of time prescribed or allowed by this Policy, the day of the act or event from which the designated period of time begins shall not be included.

d. Medical Director shall mean the Medical Director for the respective Molina Healthcare affiliate State Plan wherein the provider is contracted.

e. Molina Healthcare Plan shall mean the respective Molina Healthcare affiliate State Plan wherein the provider is contracted.

f. Notice shall mean written notification sent by certified mail, return receipt requested, or personal delivery.

g. Peer Review Committee or Credentialing Committee shall mean a Molina Healthcare Plan committee or the designee of such a committee.

h. Plan President shall mean the Plan President for the respective Molina Healthcare affiliate State Plan wherein the provider is contracted.

i. Provider shall mean physicians, dentists, and other health care practitioners as defined by 42 USC 11151 and Social Security Act § 1861(u).

j. State shall mean the licensing board in the state in which the provider practices.

k. State Licensing Board shall mean the state agency responsible for the licensure of provider.

l. Unprofessional Conduct refers to a basis for corrective action or termination involving an aspect of a provider’s competence or professional conduct which is reasonably likely to be detrimental to patient safety or the delivery of quality care. Unprofessional conduct does not refer to instances where a provider violates a material term of the provider’s contract with a Molina Healthcare Plan.
2. **Grounds for a Hearing**  
Grounds for a hearing exist whenever the Peer Review Committee or Credentialing Committee takes or recommends any of the following Adverse Actions for a provider based upon Unprofessional Conduct:

a. Revocation, termination of, or expulsion from Molina Healthcare Provider status when such revocation, termination, or expulsion is reportable to the State Licensing Board, NPDB, and/or HIPDB.

b. Suspension, reduction, limitation, or revocation of authority to provide care to Molina Healthcare members when such suspension, reduction, limitation, or revocation is reportable to the State Licensing Board, NPDB, and/or HIPDB.

c. Any other final action by Molina Healthcare that by its nature is reportable to the State Licensing Board, NPDB, and/or HIPDB.

3. **Notice of Action**  
If the Peer Review Committee and/or Credentialing Committee have recommended an Adverse Action, the Committee shall give written notice to the provider by certified mail with return receipt requested. The notice shall:

a. State the reasons for the action;

b. State any Credentialing Policy provisions that have been violated;

c. Advise the provider that he/she has the right to request a hearing on the proposed Adverse Action;

d. Advise the provider that any request for hearing must be made in writing within thirty (30) days following receipt of the Notice of Action, and must be sent to the respective Molina Plan Medical Director by certified mail, return receipt requested, or personal delivery;

e. Advise the provider that he/she has the right to be represented by an attorney or another person of their choice.

f. Advise the provider that the request for a hearing **must** be accompanied by a check in the amount of $1,000.00 as a deposit for the administrative expenses of the hearing and specify that this amount will be refunded if the Adverse Action is overturned;

g. State that the proposed action or recommendation, if adopted, must be reported pursuant to State and Federal law; and

h. Provide a summary of the provider’s hearing rights or attach a copy of the Policy.

4. **Request for a Hearing – Waiver**  
If the provider does not request a hearing in writing to the Chief Medical Officer within thirty (30) days following receipt of the Notice of Action, the provider shall be deemed to have accepted the action or recommendation of the Peer Review Committee and/or Credentialing Committee, and such action or recommendation shall be submitted to the Chief Medical Officer for final decision. In the event that a timely written Request for Hearing is received, a Hearing Officer and/or hearing panel shall be appointed as set forth below and the Peer Review Committee and/or Credentialing Committee shall provide the provider with a Notice of Hearing and Statement of Charges consistent with the Policy.

A provider who fails to request a hearing within the time and in the manner specified above waives his or her right to any hearing to which he or she might otherwise have been entitled. If the provider waives his or her right to any hearing by failing to request a hearing within the time and in the manner specified above, the recommendation of the Peer Review Committee and/or Credentialing Committee taking or recommending the Adverse Action shall be forwarded to the
Chief Medical Officer for final approval. In the event of a submittal to the Chief Medical Officer upon the provider’s waiver as set forth herein, the Peer Review Committee and/or Credentialing Committee may submit to the Chief Medical Officer additional information relevant to its recommended Adverse Action to be considered by the Chief Medical Officer in accepting or rejecting the recommended Adverse Action.

5. **Appointment of a Hearing Committee**
   a. **Composition of Hearing Committee**
      The Chief Medical Officer/Plan President shall select the individuals to serve on the Hearing Committee. The Hearing Committee shall consist of individuals who are not in direct economic competition with the subject provider; who shall gain no direct financial benefit from the outcome of the hearing; and, who shall have not acted as accuser, investigator, fact finder, initial decision maker or otherwise have not actively participated in the consideration of the matter leading up to the recommendation or action. General knowledge of the matter involved shall not preclude a physician from serving as a member of the panel.

      The panel shall consist of three or more providers and shall include, whenever feasible, at least one individual practicing the same specialty as the affected provider. In the event providers are not available to sit as Hearing Committee members, physicians from the community may be substituted by the Medical Director.

   b. **Scope of Authority**
      The Hearing Committee shall have the authority to interpret and apply the Policy insofar as it relates to its powers and duties.

   c. **Responsibilities** - The Hearing Committee shall:
      - Evaluate evidence and testimony presented.
      - Issue a decision accepting, rejecting, or modifying the decision of the Peer Review Committee and/or Credentialing Committee.
      - Maintain the privacy of the hearing unless the law provides to the contrary.

   e. **Vacancies** - In the event of a vacancy in a hearing panel after a hearing has commenced, the remaining panel members may continue with the hearing and determination of the controversy, unless the parties agree otherwise.

   f. **Disclosure and Challenge Procedures**
      Any person appointed to the Hearing Committee shall disclose to the Chief Medical Officer/Plan President any circumstance likely to affect impartiality, including any bias or a financial or personal interest in the result of the hearing or any past or present relationship with the parties or their representatives.

      The Hearing Officer may remove any person appointed to the Hearing Committee if the Hearing Officer believes that the person is unable to render an impartial decision.
6. **Hearing Officer**
   a. Selection - The Chief Medical Officer and/or Plan President shall appoint a Hearing Officer, who may be an attorney. The Hearing Officer shall gain no direct financial benefit from the outcome of the hearing, shall not act as a prosecuting officer or advocate, and shall not be entitled to vote.

   b. Scope of Authority - The Hearing Officer shall have the sole discretion and authority to:
      1. Exclude any witness, other than a party or other essential person.
      2. Determine the attendance of any person other than the parties and their counsel and representatives.
      3. For good cause shown to postpone any hearing upon the request of a party or upon a Hearing Committee’s own initiative, and shall also grant such postponement when all of the parties agree thereto.

   c. Responsibilities - The Hearing Officer shall:
      1. Guide the hearing process, including endeavoring to assure that all participants in the hearing have a reasonable opportunity to be heard and to present relevant oral and documentary evidence in an efficient and expeditious manner;
      2. Ensure that proper decorum is maintained;
      3. Be entitled to determine the order of, or procedure for, presenting evidence and argument during the hearing;
      4. Issue rulings pertaining to matters of law, procedure and the admissibility of evidence;
      5. Issue rulings on any objections or evidentiary matters;
      6. Discretion to limit the amount of time;
      7. Assure that each witness is sworn in by the court reporter;
      8. May ask questions of the witnesses (but must remain neutral/impartial);
      9. May meet in private with the panel members to discuss the conduct of the hearing;
      10. Remind all witnesses at the conclusion of their testimony of the confidentiality of the hearing;
      11. Participate in the deliberations of the Hearing Committee as a legal advisor, but shall not be entitled to vote; and
      12. Prepare the written report.

7. **Time and Place of Hearing**
   Upon receipt of a Request for Hearing, the Chief Medical Officer and/or Plan President shall schedule and arrange for a hearing. The Chief Medical Officer and/or Plan President shall give notice to the affected provider of the time, place and date of the hearing, as set forth below. The date of commencement of the hearing shall be not less than thirty (30) days from the date of the Notice of the Hearing, and not more than sixty (60) days from the date of receipt of the Request for Hearing. Notwithstanding the above timeframes, the parties may agree to extensions, or the Hearing Officer may grant an extension on a showing of good cause. If more than one meeting is required for a hearing, the Hearing Officer shall set the date, time, and location for additional meetings.

8. **Notice of Hearing** - The Notice of Hearing shall contain and provide the affected provider with the following:
   a. The date, time and location of the hearing;
   b. The name of the Hearing Officer;
   c. The names of the Hearing Committee Members;
d. A concise statement of the affected provider’s alleged acts or omissions giving rise to the Adverse Action or recommendation, and any other reasons or subject matter forming the basis for the Adverse Action or recommendation which is the subject of the hearing;

e. The names of witnesses, so far as they are then reasonably known or anticipated, who are expected to testify on behalf of the Peer Review Committee and/or Credentialing Committee, provided the list may be updated as necessary and appropriate, but not later than ten (10) days prior to the commencement of the hearing; and

f. A list of all documentary evidence forming the bases of the charges reasonably necessary to enable the provider to prepare a defense, including all documentary evidence which was considered by the Peer Review Committee and/or Credentialing Committee in recommending the Adverse Action.

Except with regard to the disclosure of witnesses, as set forth above, the Notice of Hearing may be amended from time to time, but not later than the close of the case at the conclusion of the hearing by the Hearing Committee. Such amendments may delete, modify, clarify or add to the acts, omissions, or reasons specified in the original Notice of Hearing.

9. Pre-Hearing Procedures

a. The provider shall have the following pre-hearing rights:
   ▪ To inspect and copy, at the provider’s expense, documents upon which the charges are based which the Peer Review Committee and/or Credentialing Committee have in its possession or under its control; and
   ▪ To receive, at least thirty (30) days prior to the hearing, a copy of the evidence forming the basis of the charges which is reasonably necessary to enable the provider to prepare a defense, including all evidence that was considered by the Peer Review Committee and/or Credentialing Committee in recommending Adverse Action.

b. The Hearing Committee shall have the following pre-hearing right:
   To inspect and copy, at Molina Healthcare’s expense, any documents or other evidence relevant to the charges which the provider has in his or her possession or control as soon as practicable after receiving the hearing request.

c. The Hearing Officer shall consider and rule upon any request for access to information and may impose any safeguards required to protect the peer review process, privileges and ensure justice. In so doing, the Hearing Officer shall consider:
   ▪ Whether the information sought may be introduced to support or defend the charges;
   ▪ The exculpatory or inculpatory nature of the information sought, if any;
   ▪ The burden attendant upon the party in possession of the information sought if access is granted; and
   ▪ Any previous requests for access to information submitted or resisted by the parties.

d. The provider shall be entitled to a reasonable opportunity to question and object to or challenge the impartiality of members of the Hearing Committee and the Hearing Officer. Challenges to the impartiality of any Hearing Committee member or the Hearing Officer shall be ruled on by the Hearing Officer.

e. It shall be the duty of the provider, the Peer Review Committee and/or Credentialing Committee to exercise reasonable diligence in notifying the Hearing Officer of any pending or anticipated procedural disputes as far in advance of the scheduled hearing as possible, in
order that decisions concerning such matters may be made in advance of the hearing. Objections to any pre-hearing decisions may be succinctly made at the hearing.

f. Failure to disclose the identity of a witness or produce copies of all documents expected to be produced at least ten (10) days before the commencement of the hearing shall constitute good cause for a continuance or limitation of the evidence or the testimony if deemed appropriate by the Hearing Officer.

g. The right to inspect and copy by either party does not extend to confidential information referring solely to individually identifiable physicians or patients, other than the provider under review, or to information, interviews, reports, statements, findings and conclusions resulting from studies or other data prepared specifically to be submitted for review purposes made privileged by operation of the State.

10. Conduct of Hearing

a. Rights of the Parties - Within reasonable limitations, and as long as these rights are exercised in an efficient and expeditious manner, both sides at the hearing may:
   - Call and examine witnesses for relevant testimony;
   - Introduce relevant exhibits or other documents;
   - Cross-examine or impeach witnesses who have testified orally on any matter relevant to the issues;
   - Otherwise rebut evidence;
   - Have a record made of the proceedings;
   - Submit a written statement at the close of the hearing; and
   - Receive the written recommendation of the Hearing Officer or Hearing Committee, including a statement of the basis for the recommendations, upon completion of the hearing.

The provider may be called by the Peer Review Committee and/or Credentialing Committee and examined as if under cross-examination.

a. Course of the Hearing
   - Each party may make an oral opening statement.
   - The Peer Review Committee and/or Credentialing Committee shall call any witnesses and present relevant documentary evidence to support its recommendation.
   - The affected provider may then call any witnesses and present relevant documentary evidence supporting his/her defense.
   - The Hearing Committee or Officer has the discretion to vary the course of the hearing, but shall afford a full and equal opportunity to all parties for the presentation of material and relevant evidence and for the calling of witnesses.
   - The Hearing Committee shall be the judge of the relevance and materiality of the evidence offered, and conformity to legal rules of evidence shall not be necessary. All evidence shall be taken in the presence of the entire Hearing Committee and all of the parties, except when agreed to by the parties, or determined by the Hearing Officer.

b. Use of Exhibits
   - Exhibits, when offered by either party, may be received into evidence by the Hearing Committee as ruled upon by the Hearing Officer.
   - A description of the exhibits in the order received shall be made a part of the record.
c. Witnesses
   - Witnesses for each party shall submit to questions or other examination.
   - The Hearing Officer shall have the power to sequester witnesses (exclude any witness, other than a party or other essential person, during the testimony of any other witness). The names and addresses of all witnesses and a description of their testimony in the order received shall be made a part of the record.
   - The Hearing Committee may receive and consider the evidence of witnesses by affidavit, but shall give it only such weight as the Hearing Committee deems it is entitled to after consideration of any objection made to its admission.
   - The party producing such witnesses shall pay the expenses of their witnesses.

d. Rules for Hearing:
   - Attendance at Hearings - Only those persons having a direct interest in the hearing are entitled to attend the hearing. This means that the hearing will be closed except for the parties and their representatives. The only exception is when good cause is shown satisfactory to the Hearing Officer that it is necessary in the interest and fairness of the hearing to have others present.
   - Communication with Hearing Committee - There shall be no direct communication between the parties and the Hearing Committee other than at the hearing, unless the parties and the Hearing Committee agree otherwise. Any other oral or written communication from the parties to the Hearing Committee shall be directed to the Hearing Officer for transmittal to the Hearing Committee.
   - Interpreter - Any party wishing to utilize an interpreter shall make all arrangements directly with the interpreter and shall assume the costs of the services.

11. Close of the Hearing
At the conclusion of the hearing, the Hearing Officer shall dismiss all parties and participate in the deliberations of the Hearing Committee. The Hearing Committee shall render its final decision by a majority vote, including findings of fact and a conclusion articulating the connection between the evidence produced at the hearing and the decision reached to the Hearing Officer. Within thirty (30) days of the conclusion of the deliberations, the Hearing Officer shall issue a written report including the following:

a. A summary of facts and circumstances giving rise to the hearing.
b. A description of the hearing, including:
   - The panel members’ names and specialties;
   - The Hearing Officer’s name;
   - The date of the hearing;
   - The charges at issue; and
   - An overview of witnesses heard and evidence.
c. The findings and recommendations of the Hearing Committee.
d. Any dissenting opinions desired to be expressed by the hearing panel members.

Final adjournment of the Hearing Committee shall occur when the Hearing Officer has mailed or otherwise delivered the written report.
12. Burden of Proof
In all hearings it shall be incumbent on the Peer Review Committee and/or Credentialing Committee taking or recommending an Adverse Action to come forward initially with evidence in support of its action or decision. Thereafter, the provider who requested the hearing shall come forward with evidence in his/her support.

The burden of proof during a hearing shall be as follows:

The Peer Review Committee or Credentialing Committee taking or recommending the Adverse Action shall bear the burden of persuading the Hearing Committee that its action or recommendation is reasonable and warranted. The term “reasonable and warranted” means within the range of alternatives reasonably available to the Peer Review Committee and/or Credentialing Committee taking or recommending Adverse Action under the circumstances and not necessarily that the action or recommendation is the only measure or the best measure that could have been taken or formulated.

13. Provider Failure to Appear or Proceed
Failure, without good cause, of the provider to personally attend and proceed at a hearing in an efficient and orderly manner shall be deemed to constitute voluntary acceptance of the recommendations or actions involved.

14. Record of the Hearing/Oath
A court reporter shall be present to make a record of the hearing proceedings and the pre-hearing proceedings, if deemed appropriate by the Hearing Officer. The cost of attendance of the reporter shall be borne by Molina Healthcare, but the cost of the transcript, if any, shall be borne by the party requesting it. The Hearing Officer shall be required to order that all oral evidence be taken by oath administered by a person lawfully authorized to administer such oath.

15. Representation
Each party shall be entitled to representation by an attorney at law, or other representative at the hearing, at their own expense, to represent their interests, present their case, offer materials in support thereof, examine witnesses, and/or respond to appropriate questions.

16. Postponements
The Hearing Officer, for good cause shown, may postpone any hearing upon the request of a party or the Hearing Committee.

17. Notification of Finding
The Hearing Office shall serve a copy of the written report outlining the basis of the Hearing Committee’s decision to the Medical Director, the Peer Review Committee and/or Credentialing Committee imposing the Adverse Action, and the affected provider.

18. Final Decision
Upon receipt of the Hearing Committee’s decision, the Chief Medical Officer/Plan President shall either adopt or reject the Hearing Committee’s decision. The Chief Medical Officer/Plan President’s action constitutes the final decision.
19. Reporting
In the event the Chief Medical Officer/Plan President adopts the proposed decision of the Peer Review Committee and/or Credentialing Committee taking or recommending the Adverse Action, Molina Healthcare will submit a report to the State Licensing Board, NPDB, and/or HIPDB, as required. Reports shall be made in accordance with the Credentialing Program Policy.

Reports to the State Licensing Board, NPDB, and/or HIPDB for Adverse Actions must be submitted within fifteen (15) days from the date the Adverse Action was taken.

20. Exhaustion of Internal Remedies
If any of the above Adverse Actions are taken or recommended, the provider must exhaust the remedies afforded by the Policy before resorting to legal action.

Although an external hearing process does not exist for a Provider, any practitioner/provider who is dissatisfied with the result of a Complaint, Appeal or fair hearing review decision may contact the Superintendent of Insurance at the address below.

X. Assessment of Organizational Provider Credentialing – Health Delivery Organizations (HDO)
Molina Healthcare is committed to providing quality care and services to its members. To help support this goal, Molina Healthcare completes an assessment of organizational providers with whom it contracts. In addition, Molina Healthcare completes a reassessment of all contracted organizational providers every thirty-six (36) months. Organizational providers are required to meet established criteria. Molina Healthcare does not contract with organizational providers that do not meet the criteria.

The decision to accept or deny an organizational provider is based upon primary source verification, secondary source verification and additional information as required. The information gathered is confidential and disclosure is limited to parties who are legally permitted to have access to the information under State and Federal law.

Type of Organizational Providers Assessed
The organizational provider types assessed may include but are not limited to the following:

Agencies

Case Management Agency
| Day Training, Developmentally Disabled Services Agency |
| Early Intervention Provider Agency |
| Home Health Agency |
| Hospice Care Agency |
| In Home Supportive Care Agency |
| Nursing Care Agency |
| Program for All-Inclusive Care for the Elderly (PACE) Provider Organization |
| Public Health Agency |
| Supports Brokerage |

### Ambulatory Health Care Facilities

| Adolescent & Children Mental Health Center |
| Adult Day Care Center |
| Adult Mental Health |
| Ambulatory Family Planning Facility |
| Ambulatory Surgical Center |
| Amputee Center |
| Augmentative Communication Center |
| Birthing Center |
| Critical Access Hospital |
| Emergency Care Center |
| Endoscopy Center |
| End-Stage Renal Disease (ESRD) Treatment Center |
| Federally Qualified Health Center (FQHC) |
| Infusion Therapy Clinic |
| Lithotripsy Center |
| Magnetic Resonance Imaging Center (MRI) |
| Medically Fragile Infants and Children Day Care Center |
| Mental Health Center |
| Occupational Therapy Center |
| Oncology, Radiation Center |
| Ophthalmologic Surgery Center |
| Oral and Maxillofacial Surgery Center |
| Physical Therapy Center |
| Radiology Center |
| Radiology Center, Mammography |
| Rehabilitation Center, Substance Use Disorder |
| Rural Health Clinic (RHC) |
| Speech Therapy Center |
| Urgent Care Center |

### Hospitals

| Chronic Disease Hospital |
| Chronic Disease Hospital – Children |
| General Acute Care Hospital |
| General Acute Care Hospital – Children |
| General Acute Care Hospital – Critical Access |
| General Acute Care Hospital – Rural |
| General Acute Care Hospital – Women |
| Long Term Care Hospital |
| Psychiatric Hospital |
| Rehabilitation Hospital |
| Rehabilitation Hospital – Children |
| Religious Nonmedical Health Care Institution |
| Special Hospital |

### Laboratories

| Clinical Medical Laboratories |
| Dental Laboratories |
| Physiological Laboratory |

### Nursing and Custodial Care Facilities

| Assisted Living Facility |
| Assisted Living, Behavioral Disturbances |
| Assisted Living, Mental Illness |
| Custodial Care Facility |
| Adult Care Home |
| Hospice Inpatient |

Other Atypical Providers

Home/environment modification
Pest Control
Homemaker Services
Personal Care Services
Community Health Workers
Community Transition Services (Housing)
Adaptive Assistance Devices
Financial Assessment/Risk Reduction Services
Core Services Agencies
Employment Support
Nutritional Consultation
Independent Living Assistance

Atypical providers do not provide health care. This is further defined under HIPAA in Federal regulations at 45 CFR 160.103. Taxi services, home and vehicle modifications, and respite services are examples of atypical providers reimbursed by the Medicaid program. Even if these atypical providers submit HIPAA transactions, they still do not meet the HIPAA definition of health care and do not receive an NPI number. Therefore, atypical providers will not have a Taxonomy code.

Approved accrediting agencies
Approved accrediting agencies accepted by Molina Healthcare are any accrediting agencies that have been deemed by CMS. These include but are not limited to the following:

- The Joint Commission (TJC)
- American Osteopathic Association (AOA)
- National Committee for Quality Assurance (NCQA)
Criteria for Participation in the Molina Network

Molina Healthcare has established criteria and sources used to verify these criteria for the evaluation and selection of organizational providers for participation in the Molina Healthcare network. This policy defines the criteria that are applied to applicants for initial participation, and ongoing participation in the Molina Healthcare network.

Molina Healthcare reserves the right to exercise discretion in applying any criteria and to exclude organizational providers who do not meet the criteria. To remain eligible for participation organizational providers must continue to satisfy all applicable requirements for participation as stated herein and in all other documentations provided by Molina Healthcare.

Organizational providers must meet the following criteria to be eligible to participate in the Molina Healthcare network. If the organizational provider fails to provide proof of meeting these criteria, the application will be deemed incomplete and it will result in an administrative denial or termination from the Molina Healthcare network. Organizational providers that have been denied initial network participation by the Credentialing Committee are not eligible to reapply for participation until one year after the date of denial. Organizational Providers terminated by the Credentialing Committee or terminated from the network for cause are not eligible to reapply until five years after the date of terminations.

- Organizational provider must submit a complete, signed and dated application and all requested documentation. Application must be typewritten or completed in non-erasable ink. The attestation must be within 180-calendar days old at the time of decision. All reassessment information must be submitted by the organizational provider within the timeframe requested.
- Organizational Provider must have a current, valid license, certification or registration to operate in their specialty area(s) in every state in which they will provide care and/or services for Molina Healthcare members.
- If the organizational provider does not have a facility license, certification or registration, they must provide a list of all employed individually licensed practitioners and their license...
numbers. Each practitioner must have a current, valid license, certification or registration to practice in their specialty in every state in which they will provide care and/or services for Molina members.

- The organizational provider must attest on the application that they verify all of their employees:
  1. Are licensed in good standing in the states in which they will be seeing Molina Healthcare members (if providing health care services);
  2. Do not have OIG and/or SAM sanctions; and
  3. Have had a criminal background check completed and have never been convicted of a felony or pled guilty to a felony for a health-care related crime, including but not limited to health care fraud, patient abuse and the unlawful manufacture, distribution, prescription, or dispensing of controlled substance.

- At the time of initial application, the organizational provider’s state license(s), certification(s) and or registration(s) must be currently free of any restrictions, limitations, conditions or sanctions (formal or informal) and there should be no such open or pending investigations. The organizational provider also must not have any of the following sanctions imposed by Medicare, Medicaid, accrediting agencies or other state and federal agencies:
  1. Stop placement status;
  2. Denial of payment status;
  3. Temporary management status;
  4. Pending state charges, actions;
  5. Excluded or expelled status; and
  6. Loss of accreditation, licensure or certification status.

- Organizational provider must meet at least one of the following requirements:
  1. Be accredited through an accrediting agency that has approval from the Centers for Medicare and Medicaid (CMS) services for deeming authority of accreditation.
  2. Non-accredited organizational providers must be approved and have passed inspection by CMS or the applicable state agency. The CMS or state survey may not be greater than three years old at the time of verification.
  3. Molina Healthcare conducts an onsite quality assessment if the organizational provider does not meet one of the two previously listed criteria under a or b. (Exception – Molina Healthcare does not conduct site visits for non-accredited organizational providers when the state or CMS has not conducted a site review when the provider is in a rural area as defined by the U.S. Census Bureau)

- Evidence that the organizational provider has been approved for Medicare participation or is certified by the appropriate agency for provision of applicable services.

- Organizational provider must have current professional malpractice liability coverage and general liability insurance coverage with limits that meet Molina criteria specifically outlined in this policy. The insurance must be through a commercial carrier or statutory authority.

- If applicable to the organizational provider type, provider must have a current and unrestricted federal Drug Enforcement Agency (DEA) certificate.

- Birthing Centers must submit a clear written plan of transfer and transition of patients in
emergent situations. The plan must include the name(s) of the hospital and the name(s) of the OB/GYN or Physician providing back up.

- Hospitals and Laboratories and all other organizational providers conducting laboratory testing must have a current CLIA in good standing.

Ownership and/or Controlling Interest in the Organizational Provider
The organizational provider, person(s) with ownership or controlled interest in the organizational provider and managing employees of the organizational provider must not have ever been:

1. Convicted of a felony or pled guilty to a felony for a health-care related crime, including but not limited to health care fraud, patient abuse and the unlawful manufacture, distribution, prescription, or dispensing of controlled substance.

2. Excluded, expelled or suspended from any federally funded programs, including but not limited to, the Medicare or Medicaid programs.

3. Excluded, expelled or suspended from any state funded programs including but not limited to Medicare or Medicaid.
Section 11 – Requirements for Long Term Care Service Providers

Molina Healthcare’s Care Coordinators are responsible for authorizing approved services for Long Term Care practitioners/providers. The practitioner/provider must submit an authorization request with all appropriate CPT and ICD codes.

All Long Term Care Practitioners/Providers must obtain a prior authorization before providing services to an eligible Member or prior to admitting an eligible member to their facility. All Skilled Nursing Facilities must submit a prior authorization request to Molina Healthcare for approval of nursing facility services.

The practitioner/provider is responsible for contacting the care coordinator to extend services beyond the initial authorization period. The practitioner/provider must complete a re-authorization form and send it to Molina Healthcare for re-authorization. The practitioner/provider must verify member eligibility on a monthly basis.

A. Home and Community Based Service (HCBS) Providers

Eligible independent practitioners/providers and provider agencies must have been approved by Medical Assistance Division (MAD) or its designees. Practitioners/providers may subcontract only with individuals who are qualified and must follow the general contract provisions and NMAC Regulations for subcontracting.

1. Assisted Living Facility Providers

Assisted living services can be provided only by an eligible assisted living facility. An assisted living facility must:

- Meet all the requirements and regulations, and be licensed by Department Of Health (DOH) as an adult residential care facility pursuant to 7.8.2 NMAC;
- Provide a home-like environment; and
- Comply with the provisions of Title II and III of the Americans with Disabilities Act (ADA).

2. Adult Day Health Provider Agencies

Adult day health services can be provided only by eligible adult day health agencies. Adult day health facilities must:

- Be licensed by the Department Of Health (DOH) as an adult day care facility;
- Meet all requirements and regulations set forth by DOH as an adult day care facility;
- Comply with the provisions of Title II and III of the Americans with Disabilities Act of 1990, (42 U.S.C. Section 12101 et seq.); and
- Comply with all applicable city, county or state regulations governing transportation services.

3. Environmental Modifications Providers

Environmental modification services can be provided only by eligible environmental modification agencies. An environmental modification provider must have a valid New
Mexico Regulation and Licensing Department, Construction Industries Division, GB-2 class construction license pursuant to the Construction Industries Licensing Act NMSA 1978, Section 60-13-1 et seq. An environmental modification provider must:

- Comply with all New Mexico state laws, rules, and regulations, including applicable building codes, and the laws and regulations of the Americans with Disability Act Accessibility Guidelines (ADAAG), the Uniform Federal Accessibility Standards (UFAS), and the New Mexico state building code; and
- Provide at a minimum, a one-year warranty on all parts and labor.

4. Emergency Response Provider(s)

Emergency response services can be provided only by eligible emergency response agencies.

An emergency response provider must comply with all laws, rules and regulations of the New Mexico state public corporation commission for telecommunications and security systems, if applicable. [8.307.18.10 NMAC - N, 12-15-10; Repealed, 10-15-12]

B. Critical Incident Reporting

HSD MAD Quality Bureau holds providers delivering Home and Community Based Services (HCBS) responsible for Incident Management. All providers rendering Centennial Care funded services to the HCBS population are required to report critical incidents and to develop and implement an incident management system that at minimum maintains, tracks, and trends data from the reports and includes the data in quality assurance activities.

Community agencies providing Medicaid Home and Community Based services (HCBS) are required to report critical incidents to the State Human Services Division (HSD) using their online Critical Incident Reporting portal (https://criticalincident.hsd.state.nm.us). HCSBS includes, but are not limited to, Personal Care services, Self-Directed Benefit services, Behavioral Health services, and Home Health services.

All allegations of Abuse, Neglect, and Exploitation of a Member must be reported, as well as any incidents involving Emergency Services, Hospitalization, the Death of a Member the involvement of Law Enforcement, any Environmental Hazards that compromise the health and safety of a Member, and any Elopement of Missing Member.

Agencies that do not comply with the incident reporting requirements are in violation of state statutes and federal regulations, and may be sanctioned up to and including termination of their Provider Agreement with Molina or by the HSD Medical Assistance Division.

Providers are expected to cooperate with any investigation conducted by the Molina Healthcare Quality Improvement Department by providing additional information as requested. Request for additional information may include: root cause analysis, documentation from internal investigations, policies and procedures, site visits, chart reviews and staff/Member interviews. Some investigations may be part of a collaboration with HSD the Behavioral Health Collaborative, New Mexico Department of Health, (Child Protective Services and Adult Protective Services.

For more information about critical incident reporting requirements, contact the Quality
Improvement Department toll free at: (800) 377-9594, ext. 180343. If you have questions regarding these requirements, please contact Provider Services toll free at (800) 377-9594.
Section 12 – Provider Responsibility / Participation Requirements

A. Primary Care Practitioner (PCP) Responsibilities

The Centennial Care PCP is a medical or behavioral health practitioner responsible for supervising, coordinating, and providing primary health care to Member’s initiating referrals for specialist care, and maintaining the continuity of the Member’s care.

The PCP’s responsibilities as the manager of Member’s care are as follows:

1. The PCP provides all the Member’s primary care health services. PCPs are responsible for twenty-four (24) hour, seven (7) day-a-week coverage. Members are instructed to contact their PCP prior to seeking care in all cases except life threatening emergencies. Members who require care for a life-threatening emergency are instructed to notify their PCP within twenty-four (24) hours of emergency treatment. A family Member may make this notification. If electronic answering machines are used, messages should include the following: 1) Name and telephone number of the on-call practitioner, with instructions to contact that practitioner; and 2) A disclaimer that if the Member presents to the emergency room or urgent care facility without contacting the on-call practitioner, payment by Molina Healthcare can be denied.

2. When specialized care is needed, the PCP will provide a referral to a participating specialist. The PCP should ensure the information from the specialty practitioner is reviewed and included in the Member’s medical record within ninety (90) days after the conclusion of treatment. If the Member requires care which can only be provided outside of Molina Healthcare’s provider panel, the PCP will work with Molina Healthcare and/or Medical Director to arrange for the appropriate services;

3. Upon request, the PCP is required to provide the Member information about the PCP’s education, training, applicable certification, and any subspecialty;

4. All lab and imaging services ordered by the PCP must be performed either in the PCP’s office, the office of a participating practitioner/provider or laboratory, or at one of the participating hospitals or outpatient centers;

5. All elective hospital inpatient, residential treatment, skilled nursing facility, and home health care admissions must be approved in advance by the PCP or the admitting practitioner (if a referral has been made by the PCP). The PCP or admitting practitioner must coordinate care with hospitals that require in-house staff to examine or treat Members. The PCP, specialist and hospitalist caring for a Member with special health care needs should contact Molina Healthcare to assist in coordination of care with the assigned Care Coordinator;

6. Use outpatient surgical services whenever medically appropriate;

7. Advise the Member of advance directive processes available. The Member can obtain forms by calling our Member Service Department;

8. The PCP maintains Member medical records in accordance with the standards established by Molina Healthcare. Molina Healthcare’s standards are outlined in this section; and

9. The PCP is responsible for the education and training of all individuals working with his/her medical practice to assure that the procedures for Molina Healthcare’s managed care delivery system are followed correctly. Representatives of the Provider Services Department are available to provide staff training which may include referral, grievance and billing procedures.

PCPs, BH practitioners, and other practitioners/providers should play an active role in the
Member’s BH treatment. One of the most important things to remember is that the Member and 
his/her family must be a part of the treatment planning process.

The role of the PCP is to refer the Member to the appropriate level of behavioral health care. A 
referral is not needed for a Molina Healthcare Member to access behavioral health care. The PCP 
should assist the Member in accessing needed behavioral health services. The PCP will refer a 
Member for behavioral Health Services based upon the following indicators:

- Suicidal/homicidal ideation or behavior;
- At-risk of hospitalization due to a BH condition;
- Children or adolescents at imminent risk of out-of-home placement in a psychiatric acute 
care hospital or residential treatment facility;
- Trauma victims;
- Serious threat of physical or sexual abuse of risk to life or health due to impaired mental 
status and judgment, mental retardation, or other developmental disabilities;
- Request by Member or Representative for BH services;
- Clinical status that suggests need for BH services;
- Identified psychosocial stressors and precipitants;
- Treatment compliance complicated by behavioral characteristics;
- Behavioral and psychiatric factors influencing medical conditions;
- Victims or perpetrators of abuse and/or neglect and Members suspected of being subject to 
abuse and/or neglect;
- Non-medical management of substance abuse;
- Follow-up to medical detoxification;
- An initial PCP contact or routine physical exam indicates a substance abuse problem;
- A prenatal visit indicates substance abuse problems;
- Positive response to questions indicates substance abuse, observation of clinical indicators or 
laboratory values that indicate substance abuse;
- A pattern of inappropriate use of medical, surgical, trauma, or emergency room services that 
could be related to substance abuse or other BH conditions; and/or
- The persistence of serious functional impairment.

**B. Specialist as PCP**

A Member may select a Specialist as PCP if clinically appropriate and if the specialist agrees to 
provide PCP services. Members are advised during the enrollment process that, if appropriate, they 
may use a Specialist as a PCP based on a special health care need. Board-certified physicians 
from appropriate specialty areas function as PCPs. **Psychiatrists are the only behavioral health 
practitioners who qualify and may serve as PCPs.**

**C. Specialty Provider Responsibilities**

When the PCP determines that a Molina Healthcare Member needs to see a specialist, the PCP 
initiates a referral. It is important for specialty practitioners/providers to advise the PCP when 
follow-up care is necessary. The specialty practitioner may treat as necessary within the parameters 
of the referral from the PCP that is appropriate (i.e. lab tests, radiology, therapies, etc.). If the 
Member requires a procedure for which prior authorization is required, including hospitalization, 
the specialty practitioner is responsible for obtaining the proper authorization from Molina
Healthcare.

Specialty practitioners will ensure that services provided are documented and incorporated into the Member’s primary care medical record within ninety (90) days after the conclusion of treatment. The specialty practitioner will be responsible for the education and training of all individuals working within his/her medical practice to assure that Molina Healthcare’s procedures are followed correctly. Upon request, the specialty practitioner is required to provide the Member with information about the specialty practitioner’s/provider’s education, training, applicable certification, and any subspecialty.

The specialty practitioner will advise the Member of advance directive processes available. Members may obtain forms by calling the Member Service Department.

Under certain circumstances, and with prior approval, a specialist can act as the Member’s PCP for some chronic or long term care conditions. Call the Provider Services Department for more information.

D. General Provider Responsibilities

1. **Abuse and/or Neglect Reporting**
   Every person who knows or has reasonable suspicion that a child or adult is being abused or neglected in New Mexico must report the matter immediately. Specific professionals mentioned under the law as mandated reporters are: licensed physicians, residents or interns, law enforcement officers, judges presiding during a proceeding, nurses, schoolteachers, school officials, social workers, and Members of the clergy who have information not privileged as a matter of law.

   - **Child Abuse**: Children, Youth, and Family Department’s (CYFD) Statewide Central Intake child abuse hotline toll free at (855)333-SAFE [7233] or #SAFE from a cell phone, or to law enforcement or the appropriate tribal identity. Additional information regarding Child Protective Services can be found at: [Children Youth and Family Department Central Abuse Line](http://www.nmaging.state.nm.us/Contact_Us.aspx)

   - **Adult Abuse**: Adult Protective Services (APS) toll free Hotline at (866) 654-3219 or at (505)476-4912. Additional information regarding Adult Protective Services can be found on their website at: [http://www.nmaging.state.nm.us/Contact_Us.aspx](http://www.nmaging.state.nm.us/Contact_Us.aspx)

2. **Advance Directives**
   It is the policy of Molina Healthcare to ensure that all Members have access to information regarding the right to make informed decisions about their medical treatment, even when they can no longer speak for themselves. Advance Directive means written instructions (such as an Advance Health Directive, a Mental Health Advance Directive, a Psychiatric Advance Directive, a Living Will, a Durable Health Care Power of Attorney, or a Durable Mental Health Care Power of Attorney) recognized under State law relating to the provision of care when an individual is incapacitated.

   Advance directives forms are state specific to meet state regulations. For copies of forms applicable to New Mexico, please go to the Caring Connections website at [http://www.caringinfo.org/files/public/ad/NewMexico.pdf](http://www.caringinfo.org/files/public/ad/NewMexico.pdf)
A mental health or psychiatric advanced directive (PAD) is a legal document designed to preserve the autonomy of an individual with mental illness during times when the mental illness temporarily compromises the individual’s ability to make or communicate mental health treatment decisions.

The Mental Health Care Treatment Decision Act gives all individuals > 18 years of age the right to have a psychiatric advance directive and provides direction on the completion of a PAD and how organizations and providers must utilize a PAD. The law includes a standard PAD form, which is optional and not mandatory. For more information on PAD’s in New Mexico and for a copy of the PAD form, link to: National Resource Center on Psychiatric Advance Directives

All practitioner/provider office personnel with Member contact must maintain a general knowledge of this policy and the contents of the “Advance Directives” article text.

3. Change of Address, Tax Identification Number, Open/Closed Panel, Affiliation, Name, etc.:
   - Practitioners/Providers are required to notify Molina Healthcare within thirty (30) days of any change and/or addition. Notify your Provider Service Representative in writing:
   - For Physical, Mailing, Name, TIN or Billing Address Change; include an updated IRS W-9 Form:
   - When leaving or joining a new and/or additional practice, notification must be send 30 days in advance.

4. Compliance with Cost-sharing Requirements
   Molina Healthcare utilizes Member grievances to closely monitor practitioner/provider compliance regarding cost-sharing requirements. When a Member contacts Molina about a practitioner/provider balance billing beyond any applicable copayment amount, or is denied a service or benefit covered under Medicaid, Molina Healthcare will investigate the complaint and provide specific education to the practitioner/provider office/facility about their obligations under their contract and participation in the Medicaid program. When an emergent Member need arises, Molina Healthcare will investigate the complaint and take immediate action to remediate the issue.

5. Cultural Competency/Sensitivity and Diversity
   **Cultural Competence** means a set of congruent behaviors, attitudes and policies that come together in a system or agency or among professionals that enables them to work effectively in cross-cultural situations. Cultural competency/sensitivity involves integrating and transforming knowledge, information and data about individuals and groups of people into specific clinical standards, service approaches, techniques and Marketing programs that match an individual’s culture to increase the quality and appropriateness of health care and outcomes.

Molina Healthcare practitioners/providers and subcontractors must be aware of and sensitive to the cultural, ethnic and linguistic needs of our Members. As a contracted practitioner/provider, you and your staff will receive orientation and information designed to facilitate communication with non-English speaking patients, patients who communicate using mechanisms other than a spoken language, and patients who do not hold mainstream health beliefs. Molina Healthcare provides a translation line to assist with Molina Healthcare Members that do not speak English.
Practitioners/providers are encouraged to contact Molina Healthcare’s Member Services Department to obtain assistance with our Members’ cultural, ethnic, and linguistic needs:
- Language Line – available during Molina Healthcare’s business hours to assist with language barriers; and
- Provider Directory – practitioner gender & languages spoken published.

Please call our Member Services Department in Albuquerque at (505) 341-7493 or toll free (888) 825-9266 and a Member Services Representative will assist you.

For additional cultural competency resources and tools, practitioners/providers are encouraged to visit our website at www.molinahealthcare.com

To obtain additional information, or a copy of our “Learn about Diversity” pamphlet, please contact the Provider Services Department in Albuquerque at (505) 342-4660 or toll free at (800) 377-9594. Several websites also offer insight into diversity issues. These include the American Medical Association, American Medical Association and the Association of American Medical Colleges. To obtain a copy of Molina Healthcare’s Cultural Competency Plan, please contact the Health Improvement Hotline in Albuquerque at (505) 342-4660, ext. 182618 or toll free at (800) 377-5954, ext. 182618.

6. Disease Reporting
As required by the State of New Mexico and the New Mexico Department of Health, all participating providers are required to report all applicable diseases as listed in the Notifiable Diseases or Conditions in New Mexico (7.4.3.13 New Mexico Administrative Code). The provider will notify the Epidemiology and Response Division at (505) 827-0006 regarding confirmed or suspected communicable diseases, infectious diseases, and health conditions related to environmental exposures and certain injuries, occupational illness and injury, adverse vaccine reactions, healthcare-associated infections, sexually transmitted diseases, birth defects, and cancer.

All reports must include the following:
- The disease condition being reported;
- Patient’s name, date of birth/age, gender, race/ethnicity, address, telephone number, and occupation;
- Physician or licensed healthcare professional name and telephone number; and
- Healthcare facility or laboratory name and telephone number, if applicable.

7. Documentation in the Medical Record
The provider is responsible for maintaining an electronic or paper medical record for each individual member. Records are expected to be current, legible, detailed and organized to allow for effective and confidential patient care by all providers. Standards for medical records have been developed to promote a consistent basis for documenting the provision of quality care and are in accordance with Regulatory and Accreditation requirements. An underlying principle in Medical Record Documentation Standards is to ensure continuity of care. Well-documented and accurate medical records demonstrate that coordination of care is occurring. Whether electronic or on paper this documentation facilitates communication, coordination, and continuity of care while promoting the efficiency and effectiveness of treatment.
Elements include but are not limited to: problem lists, preventive health summary sheets, referrals, diagnostic results and detailed prescription history including name, amount, route, instructions, refills and review of the effectiveness of the medication in treatment. These standards allow a provider who is seeing a new patient an opportunity to effectively review case history upon meeting the Member.

Practitioners/providers will maintain a medical record-keeping system that conforms with professional medical practice, permits effective internal and external quality review, permits encounter/claim review, and facilitates an adequate system for follow-up treatment. All medical records should be maintained against loss or destruction and retained for at least ten (10) years. Medical records are to be stored in a secure manner that permits easy retrieval. Only authorized personnel may have access to patient medical records.

In accordance with the HIPAA Privacy and Security Standards, providers will develop and implement appropriate safeguards to protect Member PHI. The provider will maintain the confidentiality of the medical record information, assuring that the contents of the medical record will be released to only as required or permitted under applicable federal and state law and regulations. The provider must ensure his/her staff receives periodic training regarding the confidentiality of member information.

The practitioner/provider will cooperate with Molina Healthcare and its representatives for the purposes of audits and the inspection and examination of medical records and other activities under Molina Healthcare’s Utilization Management, Quality Improvement and Compliance Programs.

Routine medical record audits are performed annually on selected PCPs and OB/GYN practitioner files. Documentation from selected facilities or specialists may be requested to conduct focused reviews relating to areas of non-compliance found during the auditing period. Providers must maintain a compliance rating of eighty percent (80%) overall for medical record audits.

- Practitioners/providers not achieving a threshold score of eighty percent (80%) may be required to develop a corrective action plan and a re-audit may be required. Re-audits not producing a significant improvement may jeopardize the provider’s contract.

- Audit results and educational materials addressing non-compliant areas will be sent to providers within thirty (30) business days following the audit. Educational classes regarding medical record documentation are available upon request to the Quality Improvement Department of Molina Healthcare.

The following information is required in all Member records maintained by contracted providers subject to the Members age, gender and history:

- Is the record current, detailed and organized?
- Is the patient’s name or identifier on each page?
- Are personal biographical data and consent forms as required by Human Services
Department (HSD) in the file? This includes a signed Statement of Notification of Privacy Practices (HIPAA). Is each date of entry and date of encounter noted? Is the practitioner’s signature or electronic identifier on each note?

- Are allergies or adverse reactions noted or no known drug allergy (NKDA) or no known allergy (NKA)?
- Is there a past medical history for patients seen two or more times? Is the status of preventive health services summarized on a single sheet and up to date within six (6) months of enrollment? (Adult only) Are current problems identified? Is the patient screened for smoking? (≥twelve 12 yo) (Age parameter per State of New Mexico’s Quality Assurance Bureau) Is the patient screened for alcohol use? If positive for abuse, is screening tool used? (≥twelve [12] yo) (Age parameter per State of New Mexico’s Quality Assurance Bureau)
- Is the patient screened for substance abuse? (≥twelve [12] yo) (Age parameter per State of New Mexico’s Quality Assurance Bureau)
- Are advance directive or a discussion about advanced directives being offered for adults (≥ 18 yo) in the file or noted? (Age parameter per the State of New Mexico Quality Assurance Bureau.) Is the record legible? Is there a History & Physical for the current complaints, including psychological and social conditions affecting the patient’s medical and psychiatric status?
- Is the plan of treatment noted?
- Does the file show the patients medication history, what has been effective, what has not and why?
- For drugs prescribed, does the practitioner note the name, strength, amount, directions for use and refills?
- Are follow-up plans for a return visit, and symptoms that should prompt a return visit documented? and
- Are new patients over age twenty-one (21) at first visit, screened for high-risk behavioral health conditions?

8. Employee Abuse Registry Act

All participating providers including all subcontractors and contracted providers must comply with the Employee Abuse Registry Act, NMSA 1978 § 27-7A-3, the New Mexico Caregivers Criminal History Screening Act, NMSA 1978, 29-17-2 et seq. and NMAC 7.1.9, the New Mexico Children’s and Juvenile Facility Criminal Records Screening Act, NMSA 1978, §§ 32A-15-1 to 32A-15-4. The Patient Protection and Affordable Care Act requires that all subcontracted and contracted providers are screened against the New Mexico “List of Excluded Individuals/Entities” and the Medicare exclusion databases.

Participating practitioners/providers covered by the law include, but are not limited to:

- A care management entity that provides services to elderly people with developmental disabilities;
- Adult foster care homes;
- Group homes;
- Homes for the aged or disabled;
- Home health agencies; and
- Intermediate care facilities for the mentally retarded.

Participating practitioners/providers must document that they have checked the Registry for each
applicant before the applicant was considered for employment or contract.

9. **Emergency Care**
Molina Healthcare defines a medical emergency as a condition that manifests itself by symptoms of sufficient severity, including severe pain, such that the absence of immediate medical attention could reasonably be expected by a reasonable layperson to result in: (a) jeopardy to the Member’s health; or (b) serious impairment of bodily functions; or (c) serious dysfunction of any bodily organ or part; or (d) disfigurement of the person.

**PCP Role in an Emergency Situation**
To assist in reducing inappropriate use of emergency department (ED) facilities during normal business hours, PCPs MUST have a health professional available to triage patients under the following circumstances:

- Patients who walk into a PCP’s office should be evaluated in a reasonable time frame to determine the emergent nature of the condition, and treatment should be scheduled that corresponds to the immediacy of the situation;
- Telephonic requests to the PCP’s office by Members must be assessed to determine appropriate action;
- Telephonic requests to the PCP’s office from other practitioners requesting approval to treat Members must be assessed for appropriateness; and
- The PCP must then advise the Member on a medically prudent course of action (i.e. whether to come to the office or to be referred for treatment to the emergency room at a participating hospital or urgent care center).

If the PCP is not available, practitioner back-up as part of the triage system should be provided by a practitioner having the same level or higher of training and specialty. PCPs are not required to submit referrals for patients they refer to an ER, but are encouraged to direct Members to appropriate care.

**Out-of-Area Emergencies**
Coverage for out-of-area emergencies is provided only for true emergency situations - those that could not have been anticipated. Routine medical services are not covered when provided outside the service area. Members are instructed to seek care at the nearest appropriate facility such as a clinic, urgent care center, or hospital Emergency Department.

When notified of an out-of-area emergency, which requires follow-up or has resulted in an inpatient admission, the PCP is expected to monitor the Member’s condition, arrange for appropriate care, and determine whether the Member can be safely transferred to a participating hospital.

10. **Gross Receipts / Sales Tax**
Molina Healthcare will reimburse Gross Receipt Tax (GRT) to applicable providers who meet the following criteria:
- The provider’s practice is a for-profit entity; and
- They are required to pay GRT to the State of New Mexico.
11. Individualized Education Program (IEP) & PCP
The IEP is a written plan of care created for every child with a disability attending school. The IEP is a principle tenet of the Individuals with Disabilities Education Act (IDEA) that is developed, written and as appropriate, revised in accordance with the Act. It is the cornerstone for a special education student, ensuring his/her right to a free and appropriate education, including medically necessary services.

In addition to academic services, speech/language therapy, occupational therapy, physical therapy, social work, health services (i.e. medications, tube feedings), audiology and psychological services may be provided.

The primary care practitioner (PCP) for the child must receive a copy of the child’s IEP if Medicaid reimbursable services are being requested. The PCP must then sign off on the plan of care to ensure he/she is aware of the medically necessary services that his/her patient is receiving at school.

It is important that the PCP sign off on the IEP and return it to the designated contact in the school setting. Per IDEA, schools are required to provide medically necessary services. However, without the PCP’s signature, the schools cannot bill for services rendered. There is no medical liability or financial loss to the PCP in approving these services.

For more information on IEPs or the Medicaid School Services Based Program, please contact:
Medicaid School Based Services Program Manager
Medical Assistance Division Benefits Bureau
Local in Santa Fe (505) 827-6233 or
Medicaid School Based Services Program Director Medical Assistance Division Benefits Bureau
Local in Santa Fe (505) 827-3199

12. Joining a Practice
Any practitioner changes (i.e. joining or leaving a practice) must be communicated to the appropriate Molina Healthcare Provider Services Representative and should be initiated at least thirty (30) days prior to the actual date of the change.

New Molina Healthcare Provider
- Complete a Provider Information Form (PIF) that is conveniently located on our Provider Website at [www.molinahealthcare.com](http://www.molinahealthcare.com)
- Complete the New Mexico Disclosure Form – this must be completed and submitted with the PIF located on our Provider Website at [www.molinahealthcare.com](http://www.molinahealthcare.com)
- Provide your CAQH (please make sure all information is up to date) information on the PIF, or complete a Credentialing Application;
- Send to your designated Provider Service Representative (fax or email); and
Sign the appropriate contractual agreement, if necessary.

**Existing Molina Healthcare Provider:**
- Notify your designated Provider Service Representative of the change in practice within thirty (30) days of change. If notification is not received within thirty (30) days, credentialing must be completed (follow above steps as a new provider);
- Joining an existing contracted provider? Notification within thirty (30) days; or
- Opening a new practice? Notification within thirty (30) days; Complete New Mexico Disclosure Form; Complete a W-9; and if you are a PCP, OB/GYN or High Volume Behavioral Health schedule a site visit may be required.

13. **Leaving a Practice/ Provider Termination**
   All Molina Healthcare contracted practitioners/providers and/or provider groups must notify Molina Healthcare and his/her Molina Healthcare patients of termination of an individual provider or of the entire group thirty (30) days prior to the effective date of termination. When terminating a Contracted Provider with Molina Healthcare:
   - Notify your Provider Services Representative in writing;
   - The Provider Services Representative will remove the terminating provider from various databases (including those that affect the production of an online or printed directory), claims processing system; and
   - Molina Healthcare’s Enrollment Department will notify Members of PCP changes. A Member assigned to a terminated PCP will be given adequate time to select a new PCP. If a new PCP is not selected, one will be assigned to him/her from a list of participating PCPs in his/her geographic area that is accepting new patients.

14. **On-Call Arrangements**
   Molina Healthcare contracted providers must use practitioners that are contracted with Molina Healthcare for on-call arrangements. Practitioners must contact Molina Healthcare and obtain a prior authorization if a non-contracted practitioner is needed for on-call.

15. **Open/Closed Panel**
   For PCPs, “Open Panel” indicates the practice is accepting new Members. “Closed Panel” indicates the practice is not accepting new Members. You must allow thirty (30) days notification of this change. Please notify your Provider Services Representative in writing.

16. **Promotional Activities**
   At the request of Molina Healthcare, Providers will (i) display Health Plan promotional materials in its offices and facilities as practical, and cooperate with and participate in all reasonable marketing efforts so long as it does not violate Federal or State law or regulations. Providers will not use Molina Healthcare’s name in any advertising or promotional materials without prior written permission.

17. **Provider/Member Clinical Dialogue**
   Molina Healthcare does not place limitations on clinical dialogue. Molina Healthcare encourages open communication regarding treatment the provider feels is in the best interest of the patient, regardless of whether or not the particular treatment would be covered.
18. Providing and Measuring Access to Medical Care
Molina Healthcare is committed to providing its Members with accessible, timely, quality health care and services and is responsible for providing and maintaining appropriate access to primary medical care and services to all Members. Molina Healthcare is required to comply with access standards set forth by our regulators and the National Committee for Quality Assurance (NCQA). It is Molina Healthcare’s policy to communicate established standards to all participating network providers. Molina Healthcare monitors performance annually for each of these standards as part of our Quality Improvement Program. This enables Molina Healthcare to identify opportunities for improvement.

The following information contained in this section defines the minimum requirements of timely access to care. Participating network practitioners/providers are required to comply with Molina Healthcare’s access standards.

</table>

The use of telehealth technology is supported to improve access to care in rural and frontier areas of the state. Molina Healthcare offers technical assistance, training and other support for providers willing to provide or receive services via telehealth technology.

Molina Healthcare monitors Member access to care through a number of mechanisms including:
▪ Annual After-Hours Telephone Survey: Provider offices are called after business hours to determine whether the call was answered by a live-person or a recording; whether or not emergency instructions were provided; and had sufficient means to speak with a practitioner;
▪ Annual Appointment Availability Survey: Telephone surveys are conducted annually to measure performance against Access Standards for Primary Medical Care Services;
▪ Annual Member Satisfaction Survey; conducted annually through the Consumer Assessment of Healthcare Providers and Systems (CAHPS) survey;
- Ongoing Member Complaints Data: The rate of Member complaints relating to access and availability of care;
- Ongoing Report of Member Telephone Statistics: Molina Healthcare assesses the accessibility of Member services through ongoing measurements of average speed to answer; average abandonment rates; and percentage of calls answered within thirty (30) seconds or less; and
- Annual Healthcare Effectiveness Data and Information Set (HEDIS®) Access and Availability of Care Measures: These measures look at how Members access services from his/her healthcare delivery system, such as: adult’s access to preventive/ambulatory services; children’s access to PCPs; timeliness of prenatal and postpartum care; and annual dental visits.

On an annual basis, Molina Healthcare compiles results from the various monitoring activities to conduct a comprehensive analysis to identify barriers and areas for improving Member access to care.

Molina Healthcare requires that all contracted practitioners/providers offer the same office hours to Molina Healthcare Members that are offered to all other patients under Commercial Plans and/or Medicaid Fee for Service.

19. Missed Appointments
When practitioners/providers experience problems with Members who fail to show for appointments, this information should be relayed to Member Services. Molina Healthcare will assist in educating the Member about the need to cancel or reschedule appointments prior to the time of his/her appointment. The practitioner/provider will document missed appointments and recall efforts in his/her appointment system or the Member’s medical record.

20. Request for Patient Medical or Treatment Records
It is sometimes necessary for Molina Healthcare to request medical records from a practitioner/provider. Molina Healthcare staff will initiate requests for records from various departments including, but not limited to, the following: Claims, Utilization and Medical Management, Quality Improvement, Fraud, Waste and Abuse Program, Member Advocacy, Credentialing, Finance, and Administration as the HIPAA minimum necessary rule dictates.

Molina Healthcare will reimburse the practitioner/provider or his/her contracted vendor for copies of records requested, but not actually copied by Molina Healthcare and/or a Molina Healthcare vendor, and for collection of hybrid HEDIS® set data. Payment will be made only according to strict criteria established by Molina Healthcare.

Reimbursement will not be made for copies of records requested by Molina Healthcare staff for: utilization and medical management, care validation, anti-fraud program reviews, or suspected quality of care concerns.

21. Vaccines for Children Program
Molina Healthcare practitioners located in New Mexico are required to enroll in the Vaccines for Children (VFC) Program. VFC provides vaccines at no charge to immunize Molina Healthcare Members under the age of eighteen (18). For more information on:
- Enrolling with VFC, contact VFC at (866) 681-5872. For more information, please see the New Mexico Immunization Program’s website at: www.immunizenm.org; and/or
The New Mexico Statewide Immunization Information System to record immunizations administered in your clinic or healthcare facility, contact the NMSIIS website at: https://nmsiis.health.state.nm.us/PR/portalInfoManager.do.

22. Transition of Care after Termination
All Molina Healthcare contracted practitioners/providers terminating their contracted status with Molina Healthcare, including groups, are required to follow appropriate Transition of Care guidelines for Molina Healthcare patients under a current course of treatment or care of the terminating provider or group. This includes seeing Molina patients for no more than ninety (90) calendar days after termination until the Molina Healthcare patient’s current episode of care is resolved or until the Molina Healthcare patient has been appropriately transitioned to another contracted Molina Healthcare practitioner/provider.

The practitioner/provider will also:

- Not bill any Molina patients in this ninety (90) transition period for Covered Services with the exception of any applicable Copayments, Deductibles and/or Coinsurance;
- Accept the contracted rate reflected in the Agreement as payment in full during the ninety (90) Day transition period or until such time as the Molina patient’s episode of care is resolved or is transitioned to another contracted Molina Healthcare practitioner/provider;
- Continue to follow Molina Healthcare’s Utilization Managed policies and procedures; and
- Share any information requested, included medical records, regarding the treatment plan with Molina Healthcare.
Section 13 – Fraud, Waste and Abuse

A. Introduction
Molina Healthcare of New Mexico maintains a comprehensive Fraud, Waste, and Abuse program. The program is held accountable for the special investigative process in accordance with federal and state statutes and regulations. Molina Healthcare of New Mexico is dedicated to the detection, prevention, investigation, and reporting of potential health care fraud, waste, and abuse. As such, the Compliance department maintains a comprehensive plan, which addresses how Molina Healthcare of New Mexico will uphold and follow state and federal statutes and regulations pertaining to fraud, waste, and abuse. Molina’s Special Investigation Unit supports Compliance in its efforts to deter and prevent fraud, waste, and abuse by conducting investigations to identify and report findings to the appropriate regulatory and/or law enforcement agencies. The program also addresses fraud prevention and the education of appropriate employees, vendors, providers and associates doing business with Molina Healthcare of New Mexico.

B. Mission Statement
Molina Healthcare of New Mexico regards health care fraud, waste and abuse as unacceptable, unlawful, and harmful to the provision of quality health care in an efficient and affordable manner. Molina Healthcare of New Mexico has therefore implemented a program to prevent, investigate, and report suspected health care fraud, waste and abuse in order to reduce health care cost and to promote quality health care.

C. Regulatory Requirements

Federal False Claims Act
The False Claims Act is a federal statute that covers fraud involving any federally funded contract or program, including the Medicare and Medicaid programs. The act establishes liability for any person who knowingly presents or causes to be presented a false or fraudulent claim to the U.S. Government for payment. The term “knowing” is defined to mean that a person with respect to information:

- Has actual knowledge of falsity of information in the claim;
- Acts in deliberate ignorance of the truth or falsity of the information in a claim; or Acts in reckless disregard of the truth or falsity of the information in a claim.

The act does not require proof of a specific intent to defraud the U.S. government. Instead, health care providers can be prosecuted for a wide variety of conduct that leads to the submission of fraudulent claims to the government, such as knowingly making false statements, falsifying records, double-billing for items or services, submitting bills for services never performed or items never furnished or otherwise causing a false claim to be submitted.
Deficit Reduction Act
On February 8, 2006, the Deficit Reduction Act (“DRA”) was signed into law, which became effective on January 1, 2007. The DRA aims to cut fraud, waste and abuse from the Medicare and Medicaid programs.

Health care entities like Molina Healthcare of New Mexico who receive or pay out at least $5 million dollars in Medicaid funds per year must comply with the DRA. As a contractor doing business with Molina Healthcare of New Mexico, providers and their staff have the same obligation to report any actual or suspected violation of Medicare/Medicaid funds either by fraud, waste or abuse. Entities must have written policies that inform employees, contractors, and agents of the following:

- The Federal False Claims Act and state laws pertaining to submitting false claims;
- How providers will detect and prevent fraud, waste, and abuse;
- Employee protection rights as whistleblowers.

The Federal False Claims Act and the Medicaid False Claims Act have Qui Tam language commonly referred to as “whistleblower” provisions. These provisions encourage employees (current or former) and others to report instances of fraud, waste or abuse to the government. The government may then proceed to file a lawsuit against the organization/individual accused of violating the False Claims acts. The whistleblower may also file a lawsuit independently. Cases found in favor of the government will result in the whistleblower receiving a portion of the amount awarded to the government.

Whistleblower protections state that employees who have been discharged, demoted, suspended, threatened, harassed or otherwise discriminated against due to their role in disclosing or reporting a false claim are entitled to all relief necessary to make the employee whole including:

- Employment reinstatement at the same level of seniority;
- Two times the amount of back pay plus interest;
- Compensation for special damages incurred by the employee as a result of the employer’s inappropriate actions.

Affected entities who fail to comply with the law will be at risk of forfeiting all Medicaid payments until compliance is met. Molina Healthcare will take steps to monitor Molina Healthcare of New Mexico contracted providers to ensure compliance with the law.

Definitions
Fraud:
“Fraud” means an intentional deception or misrepresentation made by a person with the knowledge that the deception could result in some unauthorized benefit to himself or some other person. It includes any act that constitutes fraud under applicable Federal or State law. (42 CFR § 455.2)

Waste:
Health care spending that can be eliminated without reducing the quality of care. Quality Waste includes, overuse, underuse, and ineffective use. Inefficiency Waste includes redundancy, delays, and unnecessary process complexity. For example: the attempt to obtain reimbursement for items
or services where there was no intent to deceive or misrepresent, however the outcome of poor or inefficient billing methods (e.g. coding) causes unnecessary costs to the Medicaid program.

**Abuse:**
“Abuse” means provider practices that are inconsistent with sound fiscal, business, or medical practices, and result in unnecessary costs to the Medicaid program, or in reimbursement for services that are not medically necessary or that fail to meet professionally recognized standards for health care. It also includes recipient practices that result in unnecessary cost to the Medicaid programs. (42 CFR § 455.2)

**Examples of Fraud, Waste and Abuse by a Provider**
- Billing for services, procedures and/or supplies that have not actually been rendered.
- Providing services to patients that are not medically necessary.
- Balance Billing a Medicaid member for Medicaid covered services. For example, asking the patient to pay the difference between the discounted fees, negotiated fees, and the provider’s usual and customary fees.
- Intentional misrepresentation or manipulating the benefits payable for services, procedures and or supplies, dates on which services and/or treatments were rendered, medical record of service, condition treated or diagnosed, charges or reimbursement, identity of provider/practitioner or the recipient of services, “unbundling” of procedures, non-covered treatments to receive payment, “up-coding”, and billing for services not provided.
- Concealing patients misuse of Molina Healthcare of New Mexico identification card.
- Failure to report a patient’s forgery/alteration of a prescription.
- Knowingly and willfully soliciting/receiving payment of kickbacks or bribes in exchange for the referral of Medicaid patients.
- A physician knowingly and willfully referring Medicaid patients to health care facilities in which or with which the physician has a financial relationship. (The Stark Law)
Review of Provider
The Credentialing Department is responsible for monitoring practitioners through the various government reports, including:

- Federal and State Medicaid sanction reports.
- Federal and state lists of excluded individuals and entities.
- List of parties excluded from Federal Procurement and Non-procurement Programs.
- Medicaid suspended and ineligible provider list.
- Monthly review of state Medical Board sanctions list.
- Review of license reports from the appropriate specialty board.

If a match is found, the Credentialing Services staff will request copies of relevant information from the appropriate government entity. Upon receiving this information the documents are presented to the Credentialing Committee for review and potential action. The Credentialing staff will also present the list of physicians found on the Medicaid sanctions report to the Compliance Committee for review and potential oversight of action.

Provider Profiling
Molina Healthcare of New Mexico performs claims audits to detect potential external health care fraud, waste, or abuse. These audits of provider billings are based on objective and documented criteria. Molina Healthcare of New Mexico uses a fraud, waste, and abuse detection software application designed to score and profile provider and member billing behavior and patterns. The software utilizes a fraud finder engine to identify various billing behaviors, billing patterns, known schemes, as well as unknown patterns by taking into consideration a provider or member’s prior billing history. The software statistically identifies what is expected based on prior history and specialty norms, including recognition of pattern changes from those identified in profiled historical paid claims data and ongoing daily claims batches. If a score reaches a certain parameter or threshold, the provider or member is placed on a list for further review.

Molina Healthcare of New Mexico will inform the provider of the billing irregularities and request an explanation of the billing practices. The Compliance department, with the aid of the Special Investigation Unit, may conduct further investigation and take action as needed.

Provider/Practitioner Education
When Molina Healthcare of [state] identifies through an audit or other means a situation with a provider (e.g. coding, billing) that is either inappropriate or deficient, Molina Healthcare of [state] may determine that a provider/practitioner education visit is appropriate.

The Provider Services Representative will inform the provider’s office that an on-site meeting is required in order to educate the provider on certain issues identified as inappropriate or deficient.

Review of Provider Claims and Claims System
Molina Healthcare Claims Examiners are trained to recognize unusual billing practices and to detect fraud, waste and abuse. If the Claims Examiner suspects fraudulent, abusive or wasteful billing practices, the billing practice is documented and reported to the Compliance Department.
The claims payment system utilizes system edits and flags to validate those elements of claims are billed in accordance with standardized billing practices; ensure that claims are processed accurately and ensure that payments reflect the service preformed as authorized.

Molina Healthcare of New Mexico performs auditing to ensure the accuracy of data input into the claims system. The claims department conducts regular audits to identify system issues or errors. If errors are identified, they are corrected and a thorough review of system edits is conducted to detect and locate the source of the errors.

**Cooperating with Special Investigation Unit Activities**
Molina Healthcare’s Special Investigation Unit may conduct prepayment, concurrent, or post-payment review. Providers will cooperate with Special Investigation Unit activities, and will provide requested documentation to the unit following the timelines indicated in such requests. Failure to cooperate may result in further action, up to and including termination of the Provider contract.

**Reporting Fraud, Waste and Abuse**
If you suspect cases of fraud, waste, or abuse, you must report it by contacting the Molina Healthcare AlertLine. AlertLine is an external telephone and web based reporting system hosted by NAVEX Global, a leading provider of compliance and ethics hotline services. AlertLine telephone and web based reporting is available 24 hours a day, 7 days a week, 365 days a year. When you make a report, you can choose to remain confidential or anonymous.

If you choose to call AlertLine, a trained professional at NAVEX Global will note your concerns and provide them to the Molina Healthcare Compliance Department for follow-up. If you elect to use the web-based reporting process, you will be asked a series of questions concluding with the submission of your report. Reports to AlertLine can be made from anywhere within the United States with telephone or internet access.

Molina Healthcare AlertLine can be reached toll free at 1-866-606-3889 or you may use the service’s website to make a report at any time at [https://molinahealthcare.alertline.com](https://molinahealthcare.alertline.com)

You may also report cases of fraud, waste or abuse to Molina Healthcare of New Mexico’s Compliance Department. You have the right to have your concerns reported anonymously without fear of retaliation.

Molina Healthcare of New Mexico
Attn: Compliance
8801 Horizon Blvd NE, Suite 400
Albuquerque, NM 87113

Remember to include the following information when reporting:
- Nature of complaint.
- The names of individuals and/or entity involved in suspected fraud and/or abuse including address, phone number, Medicaid ID number and any other identifying information.
Suspected fraud and abuse may also be reported directly to the state at:

Section 14 – Preventive Health Guidelines and Standards

A. Preventive Health Guidelines

The objective of Molina Healthcare of New Mexico, Inc. (Molina Healthcare) is the delivery of a core package of clinical preventive health services that will be beneficial to the and his/her patients. These guidelines are derived predominately from the latest recommendations of the United States Preventive Services Task Force; Bright Futures: Guidelines for Health Supervision of Infants, Children, and Adolescents published by the National Center for Education in Maternal and Child Health, American Academy of Pediatrics; Centers for Disease Control and Prevention (CDC) Advisory Committee on Immunization Practices, and other professional organizations. Although there is a wide array of preventive services, we have chosen to identify age specific preventive interventions and have prioritized them based on the effectiveness of interventions that improve outcomes. These guidelines are meant to be a standard level of care and do not preclude the delivery of additional preventive services depending on the individual needs of the patient.

Providers may contact Molina Healthcare Health Improvement Program for a complete set of our Preventive Health Guidelines for Children, Adolescents, Adults and Pregnancy or see the Molina Healthcare web link to obtain them.

B. Early and Periodic Screening, Diagnostic and Treatment (EPSDT)

The EPSDT Program is a federally mandated program ensuring comprehensive health care to Medicaid recipients from birth to twenty-one (21) years of age. EPSDT visits include:

- Comprehensive health and development history;
- Comprehensive unclothed physical exam including height, weight and BMI percentile;
- Appropriate immunizations according to the most current Advisory Committee on Immunization Practices (ACIP) Schedule*
- Laboratory tests including Hematocrit/Hemoglobin at nine (9) months and thirteen (13) years;
- Blood Lead Screening at twelve (12) and twenty-four (24) months;
- Nutrition screening;
- Development/Behavioral Assessment;
- Health education and Anticipatory Guidance;
- Dental Screening; and
- Vision and Hearing Screening.

If any component of the above EPSDT screen is not completed, this must be noted in the medical record including whether the EPSDT or Well Child Check was offered and declined, or the patient/guardian chose not to complete the screen.

Practitioners who have implemented a formal system for delivering preventive services increase
his/her delivery in the clinical setting. There is also scientific evidence to support the effectiveness of using certain tools in a system to deliver preventive services - such as preventive care flow sheet, reminder notes on patient charts, and patient reminders. Molina Healthcare currently mails out educational reminders through its monthly Patient Appointment Reminder Card for children and adults.

C. Tot-to-Teen Health Checks
The initial screening component of the EPSDT Program is called the Tot-to-Teen Health Check. The Primary Care Practitioner (PCP) initiates all follow-up and referral services at the Tot-to-Teen Health Check.

D. Claims Processing
Submit the Centers for Medicare & Medicaid Services (CMS)-1500 (08/05) form with the encounter code from the following codes:

**Group A - Preventive Medicine Services**

- 99381 New patient under one (1) year
- 99384 New patient (ages twelve [12] to seventeen [17] years)
- 99385 New patient (ages eighteen [18] to thirty-nine [39] years)
- 99391 Established patient under one (1) year
- 99392 Established patient (ages one [1] to four [4] years)
- 99394 Established patient (ages twelve [12] to seventeen [17] years)
- 99395 Established patient (ages eighteen [18] to thirty-nine [39] years)
- 99431 Newborn care (history and examination)
- 99432 Normal newborn care

**Group B - Evaluation and Management Codes**

- 99201-99205 New Patient
- 99211-99215 Established Patient

**Diagnoses Used with Group B**

- Encounter for health supervision and care of infant, child or foundling
- Encounter for health supervision and care of other healthy infant and child
- Encounter for routine child health examination with normal or abnormal findings
- Encounter for general adult medical examination with normal or abnormal findings
- Encounter for examination for admission to educational institution or residential institution, for sports, driver's license, insurance, adoption, or other administrative purposes.
- Encounter for paternity testing, blood-alcohol or blood drug tests, or other exam and observation for medico-legal reasons.
- Encounter for other general examination
- Encounter for examination for normal comparison and control in clinical research program
• Encounter for examination of potential donor of organ and tissue
• Encounter for examination for period of delayed growth in childhood with or without abnormal findings

**Immunizations Codes**

Practitioners must document all immunizations administered in the New Mexico Statewide Immunization Information System (NMSIIS). For assistance, please contact Provider Services. All practitioners that enter immunizations into NMSIIS will receive an incentive of five dollars when billing CPT-4 code 99080 in conjunction with the immunization codes.

**Blood Lead Screen Code**
CPT-4 code: 83655
Practitioners are encouraged to follow the New Mexico Department of Health protocols for Childhood Blood Lead Screening. Molina Healthcare provides these protocols to practitioners in the EPSDT Provider Toolkit.

**Vision Screening at Twelve (12) and Twenty-four (24) Months**
CPT-4 code: 99173

**Hearing Screening**
CPT-4 code: 92551 – 92553, 92555 – 92556, 92587 (in conjunction with well child exam)
Developmental screening: Thirty (30) months
CPT-4 code: 96110

**EPSDT Periodicity Schedule**
The basic schedule for Tot-to-Teen Health Checks is as follows (see this Section for full description of each of the following office visits):

<table>
<thead>
<tr>
<th>Infancy</th>
<th>Early Childhood</th>
</tr>
</thead>
<tbody>
<tr>
<td>By one month</td>
<td>12 months</td>
</tr>
<tr>
<td>At two months</td>
<td>15 months</td>
</tr>
<tr>
<td>4 months</td>
<td>18 months</td>
</tr>
<tr>
<td>6 months</td>
<td>24 months</td>
</tr>
<tr>
<td>30 months (developmental screen)</td>
<td>3 years</td>
</tr>
<tr>
<td>9 months</td>
<td></td>
</tr>
</tbody>
</table>

**Middle Childhood**
4 to 11 years

**Adolescence**
12 to 20 years

**Pregnancy Identification Codes**
Practitioners are encouraged to provide notification of pregnancy for Molina Healthcare Members. Notify Molina Healthcare within seventy-two (72) hours following the visit where
pregnancy is determined. Molina Healthcare will reimburse contracted Primary Care Practitioners and Obstetrics/Gynecology Practitioners when notification is received within this time period. Submit a Prior Authorization Request Form for notification and to report and bill for these services; please use CPT-4 code 59899 and ICD diagnosis code that indicates a pregnancy exam, test or encounter with a positive result.

Appointment Scheduling Assistance
EPSDT patients may receive assistance with appointment scheduling by contacting Molina Healthcare’s Member Services Department directly in Albuquerque at (505) 341-7493 or toll free (888) 825-9266.

Transportation
EPSDT also provides assistance with transportation to and from appointments under certain circumstances. Patients may contact Integrated Transport Management, Inc. (ITM) toll free at (888) 593-2052.

EPSDT Provider Toolkit
Molina Healthcare has provider toolkits and resources available that contains information to assist your practice in understanding the importance of EPSDT and to encourage proper documentation of preventive services provided to your patients. For your copy of the EPSDT Provider Toolkit, call the Health Improvement Hotline in Albuquerque at (505) 342-4660 extension 182618 or toll free at (800) 377-9594 extension 182618.

For more information about documentation of preventive health services provided to children and adolescents, contact the Health Improvement Hotline in Albuquerque at (505) 342-4660 extension 182618 or toll free at (800) 377-9594 extension 182618.

D. Preventive Health Standards
As a part of continuous quality improvement, Molina Healthcare encourages practitioners to routinely document preventive health screenings including laboratory tests and immunizations. Practitioners are expected to document all immunizations given to Members in the New Mexico Statewide Immunization Information System (NMSIIS). Molina Healthcare will consider the following when evaluating services provided:

Were immunizations for adults offered as appropriate? (Flu, Pneumococcal, Tetanus & Varicella) Or is there a note that immunizations were offered and patient refused to consent and/or refused access to care?

- Has the patient had a Mammography in the last one to two years? (Females aged 40-69 years) Or is there a note that mammography was offered and patient refused to consent and/or refused access to care?
- Has the patient (females twenty-one [21]-sixty-five [65] years) had a Papanicolaou (PAP) in the last three (3) years? If the patient is at high risk, is there an annual PAP? If a PAP is not done, is there a note that the screen was offered and the patient refused to consent and/or refused access to care?
- Has the patient had a colorectal cancer screen by fecal occult blood in the last year,
or colonoscopy or sigmoidoscopy or double contrast barium periodicity to be determined by the practitioner (Adults > fifty [50] years old)? If screen not done, is there a note that the screen was offered and the patient refused to consent and/or refused access to care?

- Has the patient (over age eighteen [18]) received a blood pressure measurement at least every two (2) years? If screen not done, is there a note that the screen was offered and the patient refused to consent and/or refused access to care?
- Are all sexually active women age twenty-five (25) or younger screened for Chlamydia?
- Are all female Members over age twenty-five (25) who are considered at high risk (inconsistently use barrier contraception, have more than one (1) sex partner, or have had a sexually transmitted disease in the past) screened for Chlamydia? If the test not done is there a note that the screen was offered and the patient refused to consent and/or refused to access care?

E. Preventive Health Specific to Early and Periodic Screening, Diagnostic and Treatment (EPSDT) Visits Up to the Age of Twenty- One (21)

- Is there a comprehensive health and developmental history, including assessment of physical and mental health development?
- Is there a comprehensive unclothed physical exam?
- Are there appropriate immunizations to age and history unless contraindicated? If immunizations are not done, is there a note that they were offered and refused (included refusal to access care), or is there documentation that copies of immunizations were requested and not brought in?
- Laboratory tests, including an appropriate lead blood level assessment at age one (1) and prior to two (2) years old.
- Is health education including anticipatory guidance documented?
- Are vision and hearing test orders and results documented?
- If not done, is there a note that the EPSDT or Well Child Check was offered and declined, or the patient/guardian chose not to access?

F. Preventive Health Standards for Pregnancy

- Is the patient screened for preeclampsia in accordance with the most current American College of Obstetricians and Gynecologists (ACOG) recommendations? If not done, is there a note that the screen was offered and the patient refused to consent and/or refused access care?
- Is the patient screened for Rh incompatibility in accordance with the most current ACOG recommendations? If Rh test was not done, is there a note that the screen was offered and the patient refused to consent and/or refused access to care?
- Is the patient’s fetus screened for Down’s syndrome and neural tube defects in accordance with the most current ACOG recommendations-Maternal Serum Alpha-Fetoprotein (MSAFP)? If test not done, is there a note that the screen was offered and refused (including refused to access care) or a note of “too late” as pregnancy is beyond twenty (20) weeks?
- Is the patient screened for hemoglobinopathies in accordance with the most current ACOG recommendations Hematocrit (H & H)? If H & H not done is there a note that the screen was
offered and the patient refused and/or refused to access care?

- Is the patient screened for vaginal and rectal group B streptococcal infection in accordance with the most current ACOG recommendations? If screen not done, is there a note that the screen was offered and the patient refused and/or refused to access care?

- Is the patient screened and counseled for Human Immunodeficiency Virus (HIV) in accordance with the most current ACOG recommendations? If screening and counseling not done, is there a note that the screen was offered and the patient refused to consent and/or refused to access care?

For more information about documentation of preventive health services provided to children, adolescents, and adults contact the Health Improvement Hotline in Albuquerque at (505) 342-4660 extension 182618 or toll free at (800) 377-9594 extension 182618.
Section 15 – Privacy Practices and Health Insurance Portability and Accountability Act (HIPAA)

A. Molina Healthcare’s Commitment to Patient Privacy
Protecting the privacy of Members’ personal health information is a core responsibility that Molina Healthcare takes very seriously. Molina Healthcare is committed to complying with all federal and state laws regarding the privacy and security of Members’ protected health information (PHI).

B. Provider Responsibilities
Molina Healthcare expects that its contracted practitioners/providers will respect the privacy of Molina Healthcare Members and comply with all applicable laws and regulations regarding the privacy of patient and Member PHI.

C. Applicable Laws
Practitioners/providers must understand all state and federal healthcare privacy laws applicable to their practice and organization. Currently, there is no comprehensive regulatory framework that protects all health information in the United States; instead there is a patchwork of laws that providers must comply with. In general, most healthcare providers are subject to various laws and regulations pertaining to privacy of health information including, without limitation, the following:

1. Federal Laws and Regulations
   - HIPAA;
   - Medicare and Medicaid laws;
   - Federal Alcohol and Drug Abuse Confidentiality Regulations [42 CFR Part 2]; and

2. Applicable New Mexico Laws and Regulations.

Practitioners/providers should be aware that HIPAA provides a floor for patient privacy but that state laws should be followed in certain situations, especially if the state law is more stringent than HIPAA. Practitioners/providers should consult with their own legal counsel to address their specific situation.

D. Uses and Disclosures of PHI
Member and patient PHI should only be used or disclosed as permitted or required by applicable law. Under HIPAA, a practitioner/provider may use and disclose PHI for their own treatment, payment, and healthcare operations activities (TPO) without the consent or authorization of the patient who is the subject of the PHI.

Uses and disclosures for TPO apply not only to the practitioner’s own TPO activities, but also for the TPO of another covered entity. (See Sections 164.506(c) (2) & (3) of the HIPAA Privacy Rule). Disclosure of PHI by one covered entity to another covered entity, or health care provider, for the recipient’s TPO is specifically permitted under HIPAA in the following situations:

1. A covered entity may disclose PHI to another covered entity or a healthcare provider for the
payment activities of the recipient. Please note that “payment” is a defined term under the HIPAA Privacy Rule that includes, without limitation, utilization review activities, such as preauthorization of services, concurrent review, and retrospective review of “services.” (See the definition of Payment, Section 164.501 of the HIPAA Privacy Rule.)

2. A covered entity may disclose PHI to another covered entity for the health care operations activities of the covered entity that receives the PHI, if each covered entity either has or had a relationship with the individual who is the subject of the PHI being requested, the PHI pertains to such relationship, and the disclosure is for the following health care operations activities:
   - Quality improvement;
   - Disease management;
   - Care management and care coordination;
   - Training Programs; or
   - Accreditation, licensing, and credentialing.

Importantly, this allows practitioners/providers to share PHI with Molina Healthcare for our healthcare operations activities, such as HEDIS and quality improvement.

E. Confidentiality of Alcohol and Substance Abuse Patient Records
Federal Alcohol or Substance Abuse Confidentiality Regulations apply to any entity or individual providing federally assisted alcohol or drug abuse prevention functions. Records of the identity, diagnosis, prognosis, or treatment of any patient which are maintained in connection with alcohol or drug abuse treatment or programs are confidential and may be disclosed only as permitted by 42 CFR Part 2. Although HIPAA protects substance abuse information, the federal alcohol and substance abuse regulations are more restrictive than HIPAA and they do not allow disclosure without the Member’s written consent except in very limited circumstances.

F. Written Authorizations
Uses and disclosures of PHI that are not permitted or required under applicable law require the valid written authorization of the patient. Authorizations should meet the requirements of HIPAA and applicable state law. A sample Authorization for the Use and Disclosure of Protected Health Information is included at the end of this section.

G. Patient Rights
Patients are afforded various rights under HIPAA. Molina Healthcare providers must allow patients to exercise any of the below-listed rights that apply to the practitioner/provider’s practice:

1. Notice of Privacy Practices
   Practitioners/providers that are covered under HIPAA and that have a direct treatment relationship with the patient should provide patients with a notice of privacy practices that explains the patient’s privacy rights and the process the patient should follow to exercise those rights. The provider should obtain a written acknowledgment that the patient received.

2. Requests for Restrictions on Uses and Disclosures of PHI
   Patients may request that a healthcare provider restrict its uses and disclosures of PHI. The
practitioner/provider is not required to agree to any such request for restrictions.

3. Requests for Confidential Communications
Patients may request that a healthcare provider communicate PHI by alternative means or at alternative locations. Providers must accommodate reasonable requests by the patient.

4. Requests for Patient Access to PHI
Patients have a right to access their own PHI within a provider’s designated record set. Personal representatives of patients have the right to access the PHI of the subject patient. The designated record set of a practitioner/provider includes the patient’s medical record, as well as billing and other records used to make decisions about the Member’s care or payment for care.

5. Request to Amend PHI
Patients have a right to request that the practitioner/provider amend information in their designated record set.

6. Request Accounting of PHI Disclosures
Patients may request an accounting of disclosures of PHI made by the practitioner/provider during the preceding six (6) year period. The list of disclosures does not need to include disclosures made for treatment, payment, or healthcare operations or made prior to April 14, 2003.

H. HIPAA Security
Practitioners/providers should implement and maintain reasonable and appropriate safeguards to protect the confidentiality, availability and integrity of Member PHI. Practitioners/providers should recognize that identity theft is a rapidly growing problem and that their patients trust them to keep their most sensitive information private and confidential.

In addition, medical identity theft is an emerging threat in the health care industry. Medical identity theft occurs when someone uses a person’s name and sometimes other parts of their identity—such as health insurance information—without the person’s knowledge or consent to obtain healthcare services or goods. Medical identity theft frequently results in erroneous entries being put into existing medical records. Practitioners/providers should be aware of this growing problem and report any suspected fraud to Molina Healthcare.

I. HIPAA Transactions and Code Sets
Molina Healthcare strongly supports the use of electronic transactions to streamline health care administrative activities. Molina Healthcare providers are encouraged to submit claims and other transactions to Molina Healthcare using electronic formats. Certain electronic transactions are subject to HIPAA’s Transactions and Code Sets Rule including, but not limited to, the following:

- Claims and encounters;
- Member eligibility status inquiries and responses;
- Claims status inquiries and responses;
- Authorization requests and responses; and
- Remittance advices.
Molina Healthcare is committed to complying with all HIPAA Transaction and Code Sets standard requirements. Providers who wish to conduct HIPAA standard transactions with Molina Healthcare should refer to Molina Healthcare’s website at www.molinahealthcare.com or Molina Healthcare’s Provider Portal at HIPAA Resource Center for additional information.

J. National Provider Identifier (NPI)
All practitioners/providers requesting reimbursement for services must comply with the National Provider Identifier (NPI) Rule promulgated under HIPAA. The provider must report its NPI and any subparts to Molina Healthcare and to any other entity that requires it. Any changes in its NPI or subparts information must be reported to NPPES within thirty (30) days and should also be reported to Molina Healthcare within thirty (30) days of the change. Practitioners/providers must use its NPI to identify itself on all electronic transactions required under HIPAA and on all claims and encounters (both electronic and paper formats) submitted to Molina Healthcare.

K. Additional Requirements for Delegated Providers
Practitioners/providers that are delegated for claims and utilization management activities are the “business associates” of Molina Healthcare. Under HIPAA, Molina Healthcare must obtain contractual assurances from all business associates that they will safeguard Member PHI. Delegated providers must agree to various contractual provisions required under HIPAA’s Privacy and Security Rules.

L. Reimbursement for Copies of PHI
Molina Healthcare does not reimburse providers for copies of PHI related to our program Members. These requests may include, although are not limited to, the following purposes:
- Utilization Management;
- Care Coordination and/or Complex Medical Care Management Services;
- Claims Review;
- Resolution of an Appeal;
- Anti-Fraud Program Review;
- Quality of Care Issues;
- Regulatory Audits;
- Treatment, Payment and/or Operation Purposes; and
- Collection of HEDIS® medical records.
Section 16 – Claims and Reimbursement

A. Initial Claims Submissions
Participating practitioners/providers are required to submit claims within ninety (90) days from the date of service when Molina Healthcare is the Member’s primary insurance. All claims must be submitted within one (1) year from the date of service when Molina Healthcare is the secondary carrier when the primary carrier’s filing limit is one (1) year, and within ninety (90) days of the other carrier’s Explanation of Benefit (EOB).

Practitioners/providers are required under ACA to submit claims electronically using the standard CMS -1500 or UB-04 claim form. Providers must use a good faith effort to bill Molina Healthcare for services with the most current CMS approved diagnostic and procedural coding available as of the date the service was provided, or for inpatient facility claims, the date of discharge. The following information must be included on every claim:

- Institutional Providers: The completed UB 04 data set or its successor format adopted by the National Uniform Billing Committee (NUBC), submitted on the designated paper or electronic format as adopted by the NUBC. Entries stated as mandatory by NUBC and required by federal statute and regulations and any state designated data requirements included in statutes or regulation.
- Physicians and Other Professional Providers: The Centers for Medicare and Medicaid Services (CMS) Form 1500 or its successor adopted by the National Uniform Claim Committee (NUCC) submitted on the designated paper or electronic format utilizing Current Procedural Terminology (CPT) codes and modifiers and International Classification of Diseases (ICD) codes. Entries states as mandatory by NUCC and required by federal statute and regulation and any state designated data requirements included in statutes or regulations.

B. Encounter Data
Molina Healthcare is required by the New Mexico Human Services Department to report all services rendered to MHNM Members. The reporting of these services, also known as encounter data reporting is a critical contractual requirement. Molina Healthcare works closely with its providers and subcontractors to ensure they are in compliance with Encounter Data submission requirements. This includes training, technical assistance and other activities to support providers and subcontractors to ensure compliance with the HIPAA 837 format. Molina Healthcare also partners with the clearinghouse, Emdeon, to identify opportunities to assist practitioners/providers to use electronic claims submission and improve the quality of claims and encounter data submitted.

C. Electronic Claims Submission /EDI
The State of New Mexico Human Services Department (HSD) requires that all of Molina Healthcare practitioners/providers file all claims electronically. All contracted practitioners/providers that are unable to file claims electronically must notify Provider Services with the reason(s). The benefits of Electronic Data Interchange (EDI) are:
- Efficient information delivery;
- Reduced operational costs associated with paper claims (printing, correlating, and postage);
- Increased accuracy of data; and
- Ensure HIPAA compliance.

Forms and additional information can be obtained via our website: Benefits of Using EDI

150
D. “Clean” Claim Criteria

The following items must be included to be considered a “clean” claim:

- Member’s name;
- Member’s correct date of birth;
- Provider’s National Provider Identifier (NPI);
- Complete diagnosis code carried out to the highest degree (4th or 5th digit);
- Valid date of service;
- Valid Current Procedural Terminology (CPT-4) code or Health Care Procedure Coding System (HCPCS) code;*
- Valid Revenue (REV) codes – please refer to Section K-5;
- Valid modifiers (if appropriate); and
- All other requirements as specified in Subsection L of 8.305.1.7 NMAC.

*Telehealth providers: Telehealth service codes must be included.

E. Coordination of Benefits (COB) - Practitioners/providers should maintain current coverage information on all Members.

1. Order of Benefit Determination

COB is a method of determining who has primary responsibility when there is more than one insurance coverage available to pay benefits. The combined payments provided by the primary and secondary plans cannot be more than the total of charges. When benefits are coordinated by Medicaid, the payor of last resort, the total payment will not exceed the Medicaid eligible payment.

Molina Healthcare follows the “Order of Benefit Determination Rules” to identify the primary insurance carrier. These rules are explained below:

- The program that covers the patient as an employee is primary;
- If an individual is a covered Member by more than one (1) group program as an active employee and as a retired employee, the program covering the individual as an active employee is primary. this rule also applies to dependents of the Member;
- If an individual is enrolled in a group retiree program and also as a dependent on an active working spouse’s coverage, the dependent’s active coverage is primary;
- Molina Healthcare will be the payor of last resort. Centennial Care claims will represent the balance of the eligible amount minus the payment from the primary insurance company. The combined payments will not exceed what would normally have been paid by Molina Healthcare in the absence of other coverage. If the payment from the primary insurance company is equal to or greater than the Medicaid Fee Schedule or contractual amount, no payment will be made by Molina Healthcare. The provider is not permitted to bill the Centennial Care Member for the balance.
- When two (2) plans cover the same child as a dependent (parents NOT separated or divorced), and neither plan is a Medicaid program:
  - The plan of the parent whose birthday falls earlier in the year is primary over the plan of the parent whose birthday falls later in the calendar year; but
  - If both parents have the same birthday, the plan that covered one (1) parent longer is
primary over the plan that covered the other parent for a shorter time; or

- If the other coverage plan does not use the birthday rule described above, but instead uses a rule based on the gender of the parent, the rule of the other plan will determine the order of benefits.

- When two plans cover the same child as a dependent (parents are separated or divorced), the primary payor is determined in this order:
  - First, the plan of the parent who has custody of the child;
  - Second, the plan of the spouse of the parent who has custody of the child;
  - Third, the plan of the natural parent not having custody of the child; or
  - If the specific terms of a court decree require one parent to be responsible for the dependent’s health care expenses, that parent’s plan will be primary over any other plan covering the child as a dependent. This applies as long as the plan designated as primary has actual knowledge of those terms.

- If none of the above rules establishes an order of benefits, the plan that covered the person longer is primary over the plan that covered the person for a shorter time; and

- If it is determined that a Centennial Care Member has Medicare, their coverage will coordinate with the appropriate Centennial Care Plan. All claims should be submitted to Medicare or Medicare Managed Care Plan as the primary carrier, then to the appropriate Centennial Plan for secondary payment.

2. Submitting COB Claims
   When submitting claims for Members for which Molina Healthcare is not the primary insurance, you must attach a copy of the primary payor’s EOB with the exception of home services billed by Early, Periodic Screening and Diagnostic Treatment (EPSDT) Providers for waiver children, prenatal and pregnancy care. Molina Healthcare will bill the primary insurance directly for these services unless the rendering practitioner/provider has already done so, and has provided the primary payor’s EOB. The primary payor’s EOB must match the submitted claim, and include descriptions of all associated remit messages so that Molina Healthcare may appropriately consider the charges.

3. Revenue Codes
   Practitioners/providers are required to use industry standard billing forms and coding. Claims submitted on a UB-04 form should include the appropriate type of bill, specific revenue codes and HCPCS or other codes as appropriate for services.

Skilled nursing facility (SNF), sub-acute care, or psychiatric services should be billed with the appropriate specific revenue codes and should not be billed using general medical surgical revenue codes.

F. Timely Filing Suggestions
   Please follow these suggestions in order to facilitate timely reimbursement of claims and to avoid timely filing issues:

- Submit your electronic claims within forty five (45) days of providing the service, and your paper claims within thirty (30) days of providing the service;
- Check the status of your claims no sooner than thirty (30) days from the date of your original submission;
If, after forty-five (45) days from submission of your claim(s), you have not received payment/denial, please call Member Services to confirm receipt of your claim(s) and be certain to document the name of the person you spoke with and the date of the call; and
If Molina Healthcare does not have record of receipt of your claim(s), please immediately resubmit. Resubmission should only occur if Molina Healthcare does not have record of your original claim submission.

G. Key to EOB Messages
Explanation of benefits (EOB) is defined on the EOB document sent with claims (i.e., payments, adjustments, denials, etc.). Please call Member Services if additional information is needed. The EOB is a single document with pages clearly and consecutively numbered. The EOB includes:
- The check, if applicable, is printed on the lower third of the first page;
- All settled claims within the Remittance Advice (RA) run cycle appear in alphabetical order first by rendering provider, then by patient last name, first name, and middle initial. If there are multiple claims for the same patient, they are presented in the order they were processed;
- Reason codes are conveniently displayed at the charge line or summarized at the end of the remittance advice or directly below the explanation of payment for the specified claim; and
- Each claim has a heading, which includes the provider internal patient account number (control number).

H. Claim Resubmission/Adjustments
ALL requests must include any/all documentation to support the request. The Provider Reconsideration Review Request Form (PRR) can be accessed on the Molina Healthcare website.

Provider Reconsideration Review Request Form

All claims resubmission or adjustment requests must be submitted and received by Molina Healthcare within:
- One Hundred Eighty (180) days of dated correspondence from Molina Healthcare referencing the claim (correspondence must be specific to the referenced claim);
- One (1) year from the date of service when Molina Healthcare is the secondary payor when the primary carrier’s filing limit is one (1) year, and ninety (90) days of the other carrier’s EOB; and
- Ninety (90) days of the other carrier’s EOB when submitted to the wrong payor.

Acceptable Proof of Timely Filing - Acceptable proof of timely filing includes, but is not limited to any one item or combination of:
- EOB issued by Molina Healthcare;
- Provider statements/ledgers indicating the original submission date as well as all follow-up attempts;
- Dated copy of Molina Healthcare correspondence referencing the claim (correspondence must be specific to the referenced claim);
- Other carrier’s EOB when Molina Healthcare is the secondary payor (one [1] year from the date of service);
- Other carrier’s EOB when submitted to the wrong carrier (ninety [90] days); and
- Documentation of inquiries (calls or correspondence) made to Molina Healthcare for follow-up
that can be verified by Molina Healthcare.

I. Claim Edits
Molina Healthcare with external vendors performs prepayment claim audits. HCI uses Medicare (i.e., CMS) claim edits and other industry standard coding guidelines (i.e., Current Procedural Terminology (CPT) & Health Care Procedure Coding System (HCPCS) to ensure proper handling of claims.

J. Claim Submission
Molina Healthcare requires that all professional claims are submitted on a CMS-1500 Form, and all technical/facility claims are submitted on a UB-04 Form with the National Provider Identifier (NPI). Please refer to Section H for additional information regarding NPI. Both of these forms are available via the links below:
- CMS 1500 Form
- UB 04 Form

K. Members Held Financially Harmless
The practitioner/provider will not seek to collect, accept payment from, or bill Molina Healthcare Members any amounts except applicable co-payments or coinsurance for the provision of covered services over and above those paid for by Molina Healthcare.

Practitioners/providers who participate in Medicaid agree to accept the amount paid as payment in full (see 42 C RF 447.15) with the exception of co-payment amounts required in certain Medicaid categories (Native Americans are exempt from co-payment requirements).

Aside from co-payments, a provider may not bill a Member for any unpaid portion of the bill or for a claim that is not paid with the following exceptions:
- **Failure to follow managed care policies:** A Member must be aware of the providers, pharmacies, facilities and hospitals, who are contracted with Molina Healthcare;
- **Denied emergency room claims:** A Member is responsible for payment of a hospital outpatient emergency room visit if it is determined that an emergency did not exist at the time the service was provided. The Member may only be billed for the emergency room charges if they have signed a waiver at the hospital stating they will be responsible for the charges if it is determined that an emergency did not exist. A Member cannot be billed for the ancillary charges (i.e. laboratory & radiology services); or
- **Other Member responsibilities:** 1) The Member has been advised by the provider that the service is not a covered benefit; 2) The Member has been advised by the provider that he/she is not contracted with Molina Healthcare; and/or 3) The Member agrees in writing to have the service provided with full knowledge that he/she is financially responsible for payment.

L. Enhanced Payments for Primary Care Services
In accordance with section 1202 of the PPACA and implementing regulations, Molina Healthcare has mechanisms in place to reimburse certain evaluation and management services and immunization administration services furnished in calendar year 2014 by a physician with a specialty designation of family medicine, general internal medicine, or pediatric medicine at a rate not less
than 100 percent of the payment rate that applies to such services under Medicare.

N. Electronic Remittance Advice (ERA)

Molina Healthcare offers EFT/ERA free to our practitioners/providers through Provider Net Portal. Registration is easy. Contact your dedicated Molina Healthcare Provider Service Representative if you are unable to register.

O. Overpayments

Practitioners/providers are required to report overpayments to Molina Healthcare by the later of the date which is sixty (60) calendar days after the date on which the overpayment was identified or the date any corresponding cost report is due, if applicable. A person has identified an overpayment if the person has actual knowledge of the existence of an overpayment or acts in reckless disregard or with deliberate indifference of the overpayment.

An overpayment will be deemed to have been “identified” when a practitioner/provider:

- Reviews billing or payment records and learns that it incorrectly coded certain services, resulting in increased reimbursement;
- Learns that a patient death occurred prior to the service date on which a claim that has been submitted for payment;
- Learns that services were provided by unlicensed or excluded individual on its behalf;
- Performs an internal audit and discovers that an overpayment exists;
- Is informed by a government agency of an audit that discovered a potential overpayment.
- Is informed by Molina Healthcare of an audit that discovered a potential overpayment;
- Experiences a significant increase in Medicaid revenue and there is no apparent reason – such as a new partner added to a group practice or new focus on a particular area of medicine – for the increase;
- Has been notified that Molina Healthcare or a government agency has received a hotline call for email; and/or
- Has been notified that Molina Healthcare or a government agency has received information
alleging that a recipient had not received services or been supplied goods for which the provider submitted a claim for payment.

1. **Self-Reporting**
   Within sixty (60) calendar days from the date on which the practitioner/provider identifies an overpayment, the practitioner / provider must send an “Overpayment Report” to the CONTRACTOR and HSD, which must include:
   a. Provider’s name;
   b. Provider’s tax identification number and National Provider Number;
   c. How the overpayment was discovered;
   d. The reason for the overpayment;
   e. The health insurance claim number, as appropriate;
   f. Date(s) of service;
   g. Medicaid claim control number, as appropriate;
   h. Description of a corrective action plan to ensure the Overpayment does not occur again;
   i. Whether the Provider has a corporate integrity agreement (CIA) with the United States Health and Human Services Department Office of Inspector General (OIG) or is under the OIG Self-Disclosure Protocol;
   j. The specific dates (or time-span) within which the problem existed that cause the overpayments;
   k. If a statistical sample was used to determine the overpayment amount, a description of the statistically valid methodology used to determine the overpayment; and
   l. The refund amount.

2. **Refunds**
   All self-reported refunds for overpayments must be made by the provider to Molina Healthcare as an intermediary and are the property of Molina Healthcare unless HSD, the Recovery Audit Contractor or Medical Fraud and Elder Abuse Division (of the New Mexico Attorney General’s Office) independently notified the Provider that an overpayment existed or Molina Healthcare fails to initiate recovery within twelve (12) months from the date the CONTRACTOR first paid the claim; or fails to complete the recovery within fifteen (15) months from the date the it first paid the claim. In cases where HSD, the RAC, or MFEAD identifies the overpayment, HSD will seek recovery of the Overpayment in accordance with NMAC §8.351.2.13.

   The provider may:
   a. request that the CONTRACTOR permit installment payments of the Refund, such request be agreed to by the CONTRACTOR and the Provider; or
   b. in cases where HSD, the RAC, or MFEAD identify the Overpayment, HSD will seek recovery of the Overpayment in accordance with NMAC §8.351.2.13.

3. **Failure to Self-Report and/or Refund Overpayments**
   Overpayments that have been identified by the Provider and not self-reported within the sixty (60)-day timeframe are presumed to be false claims and are subject to referrals as Credible Allegations of Fraud.
P. Health Care Acquired Conditions (HCAC) and Never Events
Molina Healthcare has an established and systematic process to identify, investigate and review any Quality of Care, Adverse Event/Never Event, and/or service issues affecting Member care. This process includes researching the issue, resolution of the issue, and tracking facilities and providers for trend issues. Confirmed Adverse Events/Never Events are reported to Molina Healthcare’s Professional Review Committee for recommendations and/or case closure.

If it is determined that a HAC has occurred, payment will be denied. In such instances, please note that the practitioner/provider is not allowed to bill the Member.

Q. Barred from Participation
Molina Healthcare will not make payment to any practitioner/provider who has been barred from participation based on existing Medicare, Medicaid or State Children’s Health Insurance Program sanctions, except for Emergency Services.

R. Reimbursement for Members Who Disenroll While Hospitalized
If a Member is hospitalized at the time of enrollment or disenrollment from an MCO or upon an approved switch to another Centennial Care MCO, the originating MCO is responsible for payment of all covered inpatient facility and professional services provided within a licensed acute care facility, or a non-psychiatric specialty unit or hospitals until the date of discharge. Upon discharge, the Member becomes the financial responsibility of the MCO receiving the capitation payment for that Member.

If a Member is hospitalized and is disenrolled from an MCO due to a loss in Medicaid coverage, the MCO is only financially liable for the inpatient hospitalization and associated professional services until such time that the Member is determined to be ineligible for Medicaid.

If a Member is in a Nursing Facility at the time of disenrollment (not including loss of Medicaid eligibility), Molina Healthcare be responsible for the payment of all Covered Services until the date of discharge or the date of disenrollment, whichever occurs first.
Section 17 – Member Advocacy - Grievance, Appeal and Fair Hearing Process

This section describes the process to be utilized by practitioners/providers who are assisting Members with complaints and appeals, as well as for providers who are themselves filing a complaint or appeal on their own behalf. The processes for Members will be discussed first.

- A complaint (also known as a grievance) is any dissatisfaction voiced by any Member on any aspect of his/her health care or health benefits plan other than a request for services;
- An appeal is a request for review of a denied specific health care service or non-payment for a health care service;
- Complaints and appeals are reviewed and resolved to promote Member satisfaction and in compliance with applicable state and federal law, regulations and guidelines. Complaints are processed in a confidential manner. Molina Healthcare employees are required to sign a confidentiality statement at the time of hire; and
- No person will be subject to retaliatory action by Molina Healthcare for any reason related to complaints or appeals.

A. Assisting Molina Healthcare Members When They Have a Complaint or Appeal

When practitioners/providers are trying to help a patient get a service covered, or have a complaint or appeal addressed, Molina Healthcare Member complaint or appeal processes apply. The Member may select someone of his/her choosing, including an attorney (at the Member’s expense), to represent his/her complaint or appeal. If someone other than the Member files a complaint on the Member’s behalf, an authorization to represent the Member must be submitted to Molina Healthcare. 

*If you are filing the complaint or appeal on behalf of a Member, you must submit a signed authorization form from the Member before Molina Healthcare can accept the complaint or appeal request. This authorization form can be found by following this link: Authorization of Release - Appointment of Representative*

If you receive a complaint or an issue from a Molina Healthcare Member, please ask the Member to contact the Molina Healthcare Member Services Department. If a Member is unable to call Molina Healthcare for any reason, we ask that you take the basic information about the complaint or appeal from the Member. A form for written complaints or appeals is included in this section for your convenience. Upon filling out the form, providers can either call in the information to Molina Healthcare, or the information may be sent via mail or fax to the attention of the Appeals Department at the address or fax number listed in this section.

The Member, the legal guardian of the Member, in the case of minors or incapacitated adults, the Member’s provider, or the representative of the Member with the Member’s written consent, has the right to file a written or oral complaint or appeal to Molina Healthcare or to the Human
Services Department (HSD) Hearings Bureau on behalf of the Member. This information is also provided to Members in the Member Handbook. As previously discussed, if you are filing the complaint or appeal on behalf of the Member, you must submit a signed authorization form from the Member before Molina Healthcare can accept the complaint or appeal request. A copy of that form is included in this section for your convenience.

**B. Filing a Formal Verbal or Written Complaint or Appeal for Members**

Molina Healthcare’s Appeals Department for Members is also known internally as the Member Advocacy Department. The Member or representative of the Member (with the Member’s written consent) has the right to file a formal verbal or written complaint or appeal if they are dissatisfied with some aspect of Molina Healthcare (i.e., provider, or health care received or requested and not received). A network provider also has the right to file a formal verbal or written appeal with Molina Healthcare, on the Member’s behalf with the Member’s written consent, if he/she is dissatisfied with Molina Healthcare’s decision to terminate, suspend, reduce, or not provide services to a Member.

To submit a formal verbal or written complaint or appeal on behalf of a Molina Healthcare Member, call or write to:

**Molina Healthcare of New Mexico, Inc. Albuquerque: (505) 342-4681**
**Toll free: (800) 580-2811**

**Molina Healthcare of New Mexico, Inc. Attn: Appeals Department**
**P.O. Box 3887**
**Albuquerque, NM 87190-9859**
**Fax (in Albuquerque): (505) 342-0583**

Basic information needed when initiating a formal verbal or written complaint or appeal on behalf of a Member:
- Member name;
- The Member’s Molina Healthcare identification number;
- Telephone number (where Member can be reached during the day); and
- A brief description of the issue(s).

All formal verbal or written complaints and appeals are to be reported to Molina Healthcare who relies on the assistance of providers in facilitating the notification process as well as helping to resolve the Member’s issues as quickly as possible. If a provider or someone other than the Member files a formal verbal or written complaint or appeal on any Member’s behalf, an authorization to represent that Member must be submitted to Molina Healthcare.

When practitioners/providers assist a Molina Healthcare Member in trying to get a service covered, or a formal verbal or written complaint or appeal addressed, Molina Healthcare Member complaints and appeal processes apply. At any level of the formal verbal or written complaint and appeal process, the Member can select someone of his/her own choosing to represent him/her. This includes the legal guardian of the Member in the case of a minor or incapacitated adult, providers working on behalf of the Member with the Member’s written permission, and/or
an attorney (at the Member’s expense) to represent him/her.

Please contact Molina Healthcare if any Member needs the complaint and appeal information in a language other than English. Translation Services and Teletype/Telecommunication Device for the Deaf (TTY/TDD) services for the hearing impaired are also available.

C. Accessing TTY/TDD Services
Our Complaint and Appeal Line is accessible to all Members. Deaf, hard of hearing, or speech-disabled Members can communicate with Molina Healthcare through the Relay New Mexico (Relay NM) Network. This service is available twenty-four (24) hours a day, seven (7) days a week. Members may access Relay NM by following these directions:

- Using your TTY text telephone, call the Relay NM operator toll free at (800) 659-8331;
- Type your message to the Relay NM operator, informing him/her that you would like to contact the Molina Healthcare Member Services Department in Albuquerque at (505) 341-7493 or toll free at (888) 825-9266;
- The Relay NM operator voices the typed conversation to the Molina Healthcare Member Service Representative answering the call;
- The Member Service Representative can converse with the Member through the Relay NM operator, who then types the verbal communication to the Member; or
- Molina Healthcare Appeals Staff can also contact Members using the TTY text telephone by calling Relay NM toll free at (800) 659-1779, and asking the Relay NM Operator to call the Member and type the conversation to the Member.

Conversations are kept confidential by Molina Healthcare and Relay NM. Relay NM does not maintain records of actual conversations.

D. Expedited Review Processes
Internal expedited reviews on pre-service denials will be completed for all Members in accordance with the medical urgency of the case and will not exceed seventy-two (72) hours whenever:
- The life or health of a covered person may be jeopardized; and
- The covered person’s ability to attain, maintain or regain maximum function may be jeopardized. Such determination is based on:
  - A request from the Member;
  - A practitioner/provider’s support of the Member’s request;
  - A practitioner/provider’s request on behalf of the Member; or
  - Molina Healthcare’s independent determination.

If the expedited review request is denied, the Member and the practitioner/provider are notified and the review is placed in the standard review timeframe.

Automatic Appeals – In accordance with Medical Assistance Division Policy, if a Member is inpatient and coverage for additional days is denied based on medical necessity, and if the conditions are met for an expedited appeal, Molina will automatically initiate an expedited appeal on behalf of the Member.
E. Processing Member Formal Complaints and Appeals

Molina Healthcare provides to the Member and/or his/her representative, the opportunity before and during the appeal process, to examine the case file, including medical records and other documents and records considered during the appeal process that are not considered as confidential or privileged information. Molina Healthcare will include as parties to the complaint or appeal, the Member and his/her representative, or the legal representative of a deceased Member’s estate.

- The complaint or appeal will be reviewed by a committee of one or more Molina Healthcare employees, who did not participate in any previous level of review or decision-making, including staff with expertise in the issue(s) under review; and
- When resolved, the Appeals Staff will inform the Member of the outcome of the review by letter. If the Member is dissatisfied with the resolution, he/she may appeal the decision with Molina Healthcare. If dissatisfied with an appeal outcome, the Member may also appeal to HSD and request a Fair Hearing.

The written decision will include the following:

- The results of the complaint or appeal review;
- The date the review of the complaint or appeal was completed;
- All information considered in investigating the complaint or appeal;
- Findings and conclusions reached based on the investigation results; and
- Disposition of the complaint or appeal.

If a denial has been upheld in whole or in part, the following information will also be provided:

- Information regarding the fact that the Member may, with a written request, receive reasonable access to and copies of all documents relevant to the appeal as allowed by law;
- Information on the Member’s right to request a Fair Hearing to appeal the decision to the HSD Hearings Bureau within thirty (30) calendar days of the decision;
- The right to request the continuation of benefits while the hearing is pending, and how to make this request; and
- A statement that the Member may be held liable for the cost of those appealed benefits if the hearing decision upholds Molina Healthcare’s original decision/action.

F. Requesting a Fair Hearing for Members

Members may request a Fair Hearing with HSD after the appeals process has been exhausted with Molina Healthcare:

Hearings Bureau
P.O. Box 2348
Santa Fe, NM 87504-2348

Santa Fe: (505) 476-6213
Toll free: (800) 432-6217, option #6
Fax: (505) 476-6215

When the HSD receives a request for a Fair Hearing to appeal Molina Healthcare’s final decision, an
official record of the appeal and copy of Molina Healthcare’s final decision will be submitted to the HSD Hearings Bureau.

G. Continuation of Benefits While Awaiting the HSD Fair Hearing

Molina Healthcare will continue the Member’s benefits while the appeal and/or HSD Fair Hearing process is pending.

_The Member will be responsible for repayment of services provided to the Member if the Fair Hearing decision is not in the Member’s favor._

Molina Healthcare will provide benefits until one of the following occurs:

- The Member withdraws the appeal;
- An HSD Administrative Law Judge issues a hearing decision adverse to the Member; and
- The time period of service limits of a previously authorized service has expired.

If the final resolution of the appeal is adverse to the Member, Molina Healthcare may recover the cost of the services furnished to the Member while the appeal was pending to the extent that services were furnished solely because of the benefit continuation requirement.

If Molina Healthcare or an HSD Administrative Law Judge reverses a decision to deny, limit, or delay services, and:

- The Member did not receive the disputed services while the appeal was pending, Molina Healthcare will authorize or provide the disputed services promptly and as expeditiously as the Member’s health condition requires; and
- If the Member received the disputed services while the appeal was pending.

H. Time Limitations

Processing of complaints and appeals for Members must be completed within thirty (30) calendar days from the date a written or verbal complaint or appeal request is received. If a delay is incurred, the Member will be notified prior to the thirtieth (30th) day. Molina Healthcare may extend the thirty (30) day timeframe by fourteen (14) calendar days if the Member requests the extension, or it is demonstrated to HSD that there is need for additional information, and the extension is in the Member’s best interest.

A formal Member complaint or appeal request must be filed within ninety (90) calendar days of the date of Molina Healthcare’s notice of action or the date the dissatisfaction occurred.
# Timelines for Member Appeals

<table>
<thead>
<tr>
<th>Complaint or Appeal Type</th>
<th>When Applied</th>
<th>Timelines</th>
</tr>
</thead>
</table>
| Expedited Resolution of Appeal Request | When taking the time for a standard resolution could seriously jeopardize the Member's life or health. | ➢ 72 hours  
Oral decision notice  
➢ 2 calendar days from the date of the oral decision notice  
Written decision notice |
| Denial for an expedited resolution request | When the request for an expedited resolution does not meet expedited review guidelines. | ➢ 2 calendar days - Written confirmation and a reasonable effort to provide verbal notice  
➢ 30 calendar days -  
To resolve the issue |
| Automatic Appeal | When an expedited service authorization rendered by Molina Healthcare denies or authorizes a service in an amount, duration, or scope less than was requested by the provider. | ➢ 72 hours -  
Written decision notice and best effort to provide oral decision notice. |
| Oral or Written pre or post service Appeal | When a Member makes an oral or written inquiry seeking to Appeal an action, the inquiry is treated as an Appeal, pre or post service. | ➢ 5 business days -  
Acknowledgement is sent to the Member after receipt of the request  
➢ 30 calendar days -  
To resolve the issue |
| Review Extension | When the Member requests the extension or Molina Healthcare can demonstrate the need for additional information. | ➢ 14 calendar days -  
To resolve.  
➢ 2 business days - Written confirmation of reason for extension when Molina Healthcare requests the extension. |
| Filing limit | Applies to timeframe that an Appeal is considered. | ➢ 90 calendar days - From date of occurrence or notice of action. |
| Appeal Files | Applies to timeframe that Appeal files are retained. | ➢ 10 years - From final decision date. |
Section 18 - Provider Grievance, Reconsideration and Appeal Processes

Molina Healthcare ensures that providers may bring to its attention their concerns regarding the operation of the plan, reimbursement disputes, claims denials due to lack of prior authorization, timeliness issues, concerns regarding quality of and access to health care services, the choice of health care providers and the adequacy of the contracted network.

Provider concerns addressed here are specific to provider interests (as opposed to individual Member interests or provider issues initiated on behalf of a Member). Provider grievances and appeals are evaluated in a consistent, impartial and timely manner to ensure compliance with state and federal laws, regulations and standards.

1. **Provider Grievances** may be submitted orally by telephone, via email or in writing. **Providers may generate a grievance by calling the Molina Healthcare Member Services Department during regular business hours:**

   Albuquerque: (505) 341-7493
   Toll free: (888) 825-9266

   **Written complaints must be submitted by mail or fax to:**
   Molina Healthcare of New Mexico, Inc.
   Attn: Appeals Department
   P.O. Box 3887
   Albuquerque, NM 87190-9859
   Fax: (505) 342-0583

2. **Grievances** may be submitted for such things as a complaint about a Molina Healthcare Member or employee or about the health plan. Issues that are not related to a Molina Healthcare action are not eligible for appeal. Every effort will be made to resolve grievances at an informal level to the provider’s satisfaction whenever possible.

3. Initial disputes/disagreements with claim payments/denial, except as noted below in #4, are handled as a **Provider Reconsideration Request (PRR)** and not considered formal appeals. (Please see the PRR Form at the end of this Section.) Examples of PRRs include:
   - Disagreement with payment amount or denial of a claim; and/or;
   - Claim edit disputes.

4. Those items that are handled as **Formal Appeals** include:
   - Denial of a claim due to a Utilization Management decision (denial of prior authorization); and/or;
   - Disagreement with a PRR decision.
5. **Appeals must be submitted in writing** to Molina Healthcare for Utilization Management issues (e.g. denials resulting from not obtaining prior authorization for some or all types of services and/or for all dates of service), and for Provider Reconsideration Requests (PRR) denials.

6. **Registering and responding to provider grievances and appeals** is performed by a member of the Appeals Department (also known internally at Molina Healthcare as the “Provider Inquiry, Research and Resolution” staff). The activities involved in registering and responding to provider grievances or appeals include the following:
   - Notification of the review results in writing within thirty (30) calendar days;
   - Documenting the substance of the grievance or appeal and the actions taken;
   - Coordinating appeal reviews with the applicable department representative(s) responsible for the particular service(s) that are the subject of the grievance or appeal; and
   - Notification to the provider of the appeal disposition.

7. **The Appeals Department** coordinates relaying provider grievance and appeal information to internal quality improvement committees.

8. **Written notifications** to the provider of appeal review determination decisions will include the following elements:
   - The names and titles of the reviewers;
   - A statement of the reviewer’s understanding of the nature of the appeal and all pertinent facts;
   - Reference to the evidence or documentation considered by the reviewer(s) in making the decision as applicable; and
   - An explanation of the rationale for the reviewer’s decision.

### Timeline Grid

<table>
<thead>
<tr>
<th>Type</th>
<th>Timeline</th>
</tr>
</thead>
</table>
| Complaints and Grievances | - Filing Limit: Ninety (90) calendar days from the date of dissatisfaction.  
                           - Resolution: No more than thirty (30) calendar days from receipt. |
| Appeals            | - Filing Limit: Ninety (90) calendar days from the date of notice of action.  
                           - Resolution: Thirty (30) calendar days from receipt. |

9. **Appeal Process** - When a provider appeal is submitted in writing to Molina Healthcare, the resolution of the appeal will include the following:
   - The Appeals Department staff member assigned to the appeal will coordinate and document the investigation of the substance of the appeal;
   - Molina Healthcare will appoint one or more persons responsible for the substantive area addressed by the concern to review the appeal and will grant the reviewers the authorization to take appropriate corrective action on the issue;
The provider is encouraged to present additional data pertinent to the appeal, including but not limited to, written materials, medical records and medical literature; and

- The Appeals Department will mail a written decision from the internal review to the provider within thirty calendar (30) days from the date the appeal is received.

10. Confidential Information
- When reviewing grievances and appeals, Molina Healthcare will treat all identifying information of Members in accordance with the rules and regulations of the Health Insurance Portability and Accountability Act (HIPAA), except as otherwise provided by State law and internal policy and procedure;
- To ensure confidentiality, information needed for a grievance or appeal review is available to Molina Healthcare staff member(s) who have a business need for the information, as required by HIPAA Minimum Necessary Rule guidance. In most cases, access is limited only to those staff members who are conducting the review.

11. The provider will not be subject to retaliation for filing a grievance or appeal.

12. Upon receipt, the issue is reviewed by the Appeals staff and the grievance or appeal is processed accordingly.

13. Molina Healthcare will maintain confidential locked files located in the Appeals Department, or secure electronic files, for all issues received.

14. Each file will identify and/or contain:
- Date the grievance or appeal was received;
- The name and address of the provider;
- The name of the person requesting the grievance or appeal or the name of the person on whose behalf the issue is being opened;
- The line of business under which the provider is contracted;
- Name of the staff member assigned to the issue;
- A description of the issue;
- Grievance or appeal type/level;
- Name of reviewer(s) and the final outcome;
- The date the issue was resolved and the date the provider was notified of the outcome; and
- Grievance and appeal files will be maintained for a period of no less than ten (10) years.

15. Reporting of Provider Complaints and Appeals
   Provider complaints and appeals are reported to Molina Healthcare’s governing body, the Board of Directors, through the Member and Provider Satisfaction Committee (MPSC) on a semi-annual basis. Complaint and appeal data is reported to HSD/MAD.

16. Provider Reconsideration Request Form
   Please use the Molina Healthcare Provider Reconsideration Review Request (PRR) Form when submitting a claim adjustment request. This form can be accessed via the Molina Provider Portal by following this link:
**Provider Reconsideration Review Request Form**

- A PRR Form is required for each claim;
- This form must be completely filled out, or it will be returned;
- Attach a legible copy of the claim and remittance advice;
- Upon receipt of this form and additional necessary information, the request will be reviewed and sent for processing if appropriate;
- If the request is declined, a letter will be sent with the denial reason;
- If you disagree with the PRR denial, you will have ninety (90) days from the date of the denial letter to appeal; and
- Mail the PRR Form (faxes will not be accepted) and the necessary attachments to:

  **Molina Healthcare of New Mexico, Inc.**
  **P.O. Box 3887**
  **Albuquerque, NM 87190-9859 Attention: Provider Services**

If you have any questions or need additional copies of the PRR Form, please contact Member Services in Albuquerque at **(505) 341-7493** or toll free at **(888) 825-9266** and a representative will be glad to assist you.
Section 19 – Quality Improvement Program

Additional information on the Quality Improvement Program (QIP) and activities is available on our website at www.molinahealthcare.com

Upon request in writing, Molina Healthcare of New Mexico, Inc. (Molina Healthcare) will provide information on these or other QIP activities in writing, including a description of the QIP and an update on Molina Healthcare’s progress in meeting the QIP goals. Please contact the QI Department in Albuquerque at (505) 342-4660, extension 182618 or toll free at (800) 377-9594, extension 182618.

For additional Health Improvement or Disease Management Program information, contact the Health Improvement Hotline in Albuquerque at (505) 342-4660, extension 182618 or toll free at (800) 377-9594, extension 182618.

A. Quality Improvement (QI)

The Molina Healthcare QIP is a comprehensive framework for continuous assessment and focused improvement of all aspects of health care delivery and service.

Program Philosophy

Molina Healthcare maintains the following values, assumptions, and operating principles for the Quality Improvement Program:

- The QIP provides a structure for promoting and achieving excellence in all areas through Continuous Quality Improvement (CQI);
- Improvements are based on industry “best practice” or on standards set by regulators or accrediting organizations;
- The QIP is applicable to all disciplines comprising the health plan, at all levels of the organization;
- Teams and teamwork are essential to the improvement of care and services;
- Data collection and analysis is critical to problem-solving and process improvement;
- Each employee is highly valued as a contributor to quality processes and outcomes;
- Compliance with National Committee for Quality Assurance (NCQA) Standards and achievement of accreditation demonstrates Molina Healthcare's commitment to continuous quality improvement (CQI); and
- Information about the QIP is available for Members and providers upon request.

B. Quality Improvement Program Goals

Molina Healthcare has defined the following goals for the QIP:

- Design and maintain programs that improve the care and service outcomes and ensure patient safety within identified Member populations, ensuring the relevancy through understanding of the health plan’s demographics and epidemiological data;
- Define, demonstrate and communicate the organization-wide commitment to and involvement in achieving improvement in the quality of care, Member safety and service;
- Improve the quality, safety, appropriateness, availability, accessibility, coordination and
continuity of the health care and service provided to Members;
- Promote Member safety through appropriate safety and error avoidance initiatives.
- Through ongoing and systematic monitoring, interventions and evaluation improve Molina Healthcare structure, process and outcomes;
- Using feedback from stakeholders, improve reporting methods to enhance the availability of relevant and timely information;
- Use a multidisciplinary committee structure to facilitate the achievement of QI goals, improve organizational communication and ensure participation of contracted community practitioners in clinical aspects of programs and services;
- Apply sound approaches and methods in the development of indicators that are objective and clearly defined using a systematic collection of valid and reliable data reported at the contract and plan level;
- Facilitate organizational efforts to achieve, maintain, and enhance regulatory compliance, including NCQA accreditation and to continually review practices to ensure compliance with standards and contractual requirements;
- Provide data on quality and outcomes to enable Medicare beneficiaries to compare and select from among health coverage options;
- Facilitate organizational efforts to sustain Centers for Medicare and Medicaid Services (CMS), Federal and State regulatory compliance;
- Promote and collaborate with the strategic healthcare entities in the development and implementation of Patient Centered Medical Homes and Health Home initiatives;
- Ensure systems are in place to address the cultural and linguistic diversity found within Molina Healthcare’s Membership; and
- Ensure systems are in place to address the complex health needs found within Molina Healthcare’s Membership.

The Program operates using the CQI process by:
- Continuously monitoring performance according to, or in comparison with objective, measurable performance standards—National, Regional or Local/Plan;
- Analyzing information and data to identify trends;
- Prioritizing opportunities for improvement;
- Designing interventions for improvement;
- Implementing those interventions;
- Re-measuring the processes; and
- Evaluating the effectiveness of the interventions and identifying additional opportunities for improvement.

The purpose and scope of the QIP is to provide a formal process to monitor and evaluate the quality, utilization, appropriateness, safety, efficiency and effectiveness of care and service delivered to Molina Healthcare Members using a multidimensional approach. This approach enables the organization to focus on opportunities for improving operational processes as well as health outcomes and Member and provider satisfaction. The QIP promotes and fosters accountability of employees and network affiliated health personnel for the quality and safety of care and services provided to Molina Healthcare Members.

The major areas of emphasis of the QIP are, in no specific order:
- Delegation;
- Patient Safety;
- Collaborative Activities;
- Medical Record Review;
- Quality of Care Review;
- QIP Surveys;
- Member Satisfaction Assessment;
- Clinical and Preventive Data Assessment;
- Health Management;
- Health Promotion and Education;
- Cultural Competency/Sensitivity;
- Complex Health Needs;
- Credentialing and Recredentialing; and
- Regulatory Compliance.

Telehealth best practice adherence will be measured through consumer surveys and/or site visits.

Contracted practitioners/providers must allow Molina Healthcare to use its performance data collected in accordance with the practitioner/provider’s contract. The use of performance data may include, but is not limited to, the following: (1) development of quality improvement activities; (2) public reporting to consumers; (3) preferred status designation in the network; (4) and/or reduced Member cost sharing.

Molina Healthcare welcomes and encourages practitioner/provider participation in the Molina Healthcare QIP. If you have any interest in doing so, have feedback, or questions in general, please contact us toll free at (800) 377-9594, extension 182618.

C. Patient Safety Program

Molina Healthcare is committed to promoting and fostering an environment that ensures quality and safety of care and services provided to our Members. Molina Healthcare promotes safe health practices through education and dissemination of information for decision-making. Molina Healthcare does this in the following ways:

- Distributes information to Members for the purpose of helping him/her improve his/her knowledge of clinical safety in his/her own care;
- Collaborates with network providers to support safe clinical practices;
- Monitors and reviews codes specific to safety issues in the complaint system to capture, track and trend Member safety concerns;
- Develops and maintains drug usage criteria, assesses the efficacy of new drugs or a new use for an existing drug;
- Collaborates with the Molina Healthcare Pharmacy Benefits Manager to ensure that polypharmacy of narcotic controlled substances and drug interaction information is incorporated into routine counseling information provided to Members and practitioners/providers;
- Monitors indicators relating to polypharmacy of narcotic controlled substances and misuse of
medication;
- Monitors Member complaint, appeal, and quality of care review and reporting processes for issues regarding poor care or potentially unsafe practices;
- Ensure review and action, through the expedited appeal process, on an appeal of a medical necessity denial based on the urgency of the request;
- Promotes continuity and coordination of care between behavioral health and primary care practitioners (PCPs);
- Monitors processes to ensure that care is continued if a provider is terminated from or leaves the Molina Healthcare Network;
- Verifies the credentials of providers joining the Molina Healthcare Network to assure that they meet the requirements for providing quality care;
- Ensures that credentialing and recredentialing processes includes practice site assessment data, medical record review data, utilization and complaint information;
- Evaluates provider offices during site visits for initial credentialing or follow-up visits for other indications;
- Reviews Department of Health and Human Services Office of Inspector General sanctioning information; and
- Monitors Critical Incident reports on Molina members submitted through HSDs Critical Incident Management website to ensure Member Safety and Quality of Care services rendered to Members.

D. HEDIS® & CAHPS®

1. Measurement of Clinical and Service Quality
   - Healthcare Effectiveness Data and Information Set (HEDIS®)
   - Consumer Assessment of Healthcare Providers and Systems (CAHPS®)

2. HEDIS®

Molina Healthcare utilizes NCQA HEDIS® as a measurement tool to provide a fair and accurate assessment of specific aspects of managed care organization performance. HEDIS® is conducted annually in the spring. The data comes from on-site medical record review and available administrative data. All reported measures must follow rigorous specifications and are externally audited to assure continuity and comparability of results. The HEDIS® measurement set currently includes a variety of health care aspects including immunizations, women’s health screening, diabetes care, appropriate use of asthma medications, and prenatal and postpartum care. HEDIS® results are used in a variety of ways. They are the measurement standard for many of Molina Healthcare’s clinical quality improvement activities and health improvement programs. The standards are based on established clinical guidelines and protocols, providing a firm foundation to measure the success of these programs. These activities include Molina Healthcare’s diabetic and asthma health management programs, childhood and adolescent well-child and immunization program, and prenatal and postpartum care programs.

Some of the key HEDIS® measures that Molina Healthcare collects data on includes but is not limited to:
- Childhood and Adolescent Immunizations;
- Breast and Cervical Cancer Screening;
- Use of appropriate Medications for People with Asthma;
- Appropriate Treatment for Children with Upper Respiratory Infection and Pharyngitis;
- Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis;
- Controlling High Blood Pressure;
- Cholesterol Management for Patients with Cardiovascular Conditions;
- Comprehensive Diabetes Screening (HbA1c testing, LDL-C screening, Nephropathy monitoring and Eye Exams);
- Medical Assistance with Smoking Cessation (Advising Smokers to Quit only);
- Use of Imaging Studies for Low Back Pain;
- Use of Spirometry Testing in the Assessment and Diagnosis of COPD;
- Prenatal and Postpartum Care;
- Preventive Dental;
- Blood Lead Screening;
- Antidepressant Medication Management; and
- Follow-up After Hospitalization for Mental Illness.

Selected HEDIS® results are provided to HSD as part of our contract. Health plans also submit results directly to NCQA, consistent with the original intent of HEDIS® – to provide health care Members data with which to make informed decisions. The data is also used by NCQA to establish health plan performance benchmarks and is an integral part of the NCQA health plan accreditation process.

Your office may be requested to submit documentation from medical files as part of the HEDIS® data collection process. The most recent HEDIS® results for Molina Healthcare can be found by following this link on our website: [HEDIS Results](#)

As part of our QIP, we look to our providers to assist with Molina Healthcare’s HEDIS® process by accurately coding and documenting care and services. The administrative data for HEDIS® comes from submitted claims information. Providers also assist Molina Healthcare with the HEDIS® process by providing patient medical record information either by faxing or mailing information to Molina Healthcare, or by allowing our medical record reviewers to schedule a time to review records in the office. Medical record information is typically collected during February through May of each year. Molina Healthcare does cover some costs associated with copying and mailing medical records. The Molina Healthcare HEDIS® process is Health Insurance Portability and Accountability Act compliant where applicable.

**HEDIS® Coding Guidance for Providers, Billers and Coders**

Molina Healthcare understands that the annual HEDIS® audit process can be burdensome to our healthcare partners. We want to reduce this burden. Provider sites are strongly encouraged to utilize the Medicaid and HEDIS Coding Brochures that are available on the Molina Healthcare Provider Portal: [HEDIS Coding Brochure](#). Electronic submission of health data on our membership with
appropriate coding will reduce the need for hybrid chart abstraction.

3. CAHPS®

CAHPS® is the tool used by NCQA to summarize Member satisfaction with health care, including practitioners/providers and health plans. The CAHPS® surveys are administered annually in the spring to randomly selected Centennial Care adult Members, and Centennial Care child Members with chronic conditions.

CAHPS® survey results are used in much the same way as HEDIS® results, only the focus is on the service aspect of care rather than clinical activities. They form the basis for several of Molina Healthcare’s quality improvement activities and are used by external agencies and health care Members to help ascertain the quality of services being delivered.

This survey provides consumers, Members and health plans with information about a broad range of key consumer issues such as:

- Rating of Health Plan;
- Rating of Health Care;
- Getting Needed Care;
- Getting Care quickly;
- How Well Doctors Communicate;
- Customer Service;
- Share Decision Making;
- Health Promotion and Education;
- Coordination of Care;
- Rating of Personal Doctor;
- Rating of Specialist; and
- Effectiveness of Care Measures (relating to smoking cessation).

Molina Healthcare’s most recent CAHPS® results can be found on our website.
Section 20 – Clinical Practice Guidelines

Clinical Practice Guidelines are available for review and printing on the Molina Healthcare website at www.molinahealthcare.com in the Clinical Practice Guideline section. If you do not have internet capability a hard copy of the Clinical Practice Guideline can be mailed to you. Contact Provider Services in Albuquerque (505) 342-4660 or toll free (800) 377-9594.

Asthma: Expert Panel Report 3: Guidelines for the Diagnosis and Management of Asthma

The following document is also available: Sample of the New Mexico Asthma Action Plans for Schools in both English and Spanish.

Bronchitis: Management of Uncomplicated Acute Bronchitis in Adults
Molina Healthcare adopted the Michigan Quality Improvement Consortium (MQIC) guideline for Management of Uncomplicated Acute Bronchitis in Adults. This guideline is available at: http://www.guideline.gov/content.aspx?id=38688

Diabetes: New Mexico Adult Diabetes Practice Guidelines
