INTRODUCTION

We are pleased to provide the 2014 Molina Healthcare of Washington Medicaid Preferred Drug List (*Formulary*) as a useful reference and informational tool. This document can assist medical providers in selecting clinically-appropriate and cost-effective products for their patients.

The drugs represented have been reviewed by a Pharmacy and Therapeutics (P&T) Committee and are approved for inclusion. The document is reflective of current medical practice as of the date of review.

The information contained in this document and its appendices is provided solely for the convenience of medical providers. We do not warrant or assure accuracy of such information nor is it intended to be comprehensive in nature. All the information in the document is provided as a reference for drug therapy selection.

The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

We assume no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.

PREFACE

The document is organized by sections. Each section is divided by therapeutic drug class primarily defined by mechanism of action. Products are listed by generic name with brand name for reference only. Unless the cited drug is available as an injectable or an exception is specifically noted, generally, all applicable dosage forms and strengths of the drug cited are included in the document.

PHARMACY AND THERAPEUTICS (P&T) COMMITTEE

The services of a Pharmacy and Therapeutics Committee ("P&T Committee") are utilized to approve safe and clinically effective drug therapies. The P&T Committee is an advisory body of experts. The P&T Committee's voting members include physicians and pharmacists, all of whom have a broad background of clinical and academic expertise regarding prescription drugs. Voting members of the P&T Committee must disclose any financial relationship or conflicts of interest with any pharmaceutical manufacturers.

DRUG LIST PRODUCT DESCRIPTIONS

To assist in understanding which specific strengths and dosage forms on the document are covered, general principles are noted below.

- Listed products on the document generally include all strengths and dosage forms of the cited brand-name product.
- When a strength or dosage form is specified, only the specified strength and dosage form is on the document. Other strengths/dosage forms, including injectable dosage forms of the reference product are not.
- If the OTC and Prescription versions of the product are covered, then both are listed.
- Extended-release and delayed-release products require their own entry.
- Dosage forms on the document will be consistent with the category and use where listed.

PRESCRIPTION QUANTITIES

Prescriptions should be written for a therapeutic supply of medications (the amount to appropriately treat a medical condition) up to a maximum of a 30-day supply. Trial quantities may be used when trying new treatments, if appropriate.

GENERIC SUBSTITUTION

Generic substitution is a pharmacy action whereby a generic version is dispensed rather than a prescribed brand-name product. **Boldface type** indicates generic availability. However, not all strengths or dosage forms of the generic name in boldface type may be generically available. In most instances, a brand-name drug for which a generic product becomes available will become non-formulary, with the generic product covered in its place, upon release of the generic product onto the market. However, the document is subject to state specific regulations and rules regarding generic substitution and mandatory generic rules apply where appropriate.

Generic drugs are usually priced lower than their brand-name equivalents. Prescription generic drugs are:

- Approved by the U.S. Food and Drug Administration for safety and effectiveness, and are manufactured under the same strict standards that apply to brand-name drugs.
- Tested in humans to assure the generic is absorbed into the bloodstream in a similar rate and extent compared to the brand-name drug (bioequivalence). Generics may be different from the brand in size, color, and inactive ingredients, but this does not alter their effectiveness or ability to be absorbed just like the brand-name drug.
- Manufactured in the same strength and dosage form as the brand-name drugs.

When a generic drug is substituted for a brand-name drug, you can expect the generic to produce the same clinical effect and safety profile as the brand-name drug (therapeutic equivalence).

PLAN DESIGN

The document represents a closed formulary plan design. The medications listed on the document are covered by the plan as represented. Certain medications on the list are covered if utilization management criteria are met (i.e. Step Therapy, Prior Authorization, Quantity Limits, etc.); requests for use of such medications outside of their listed criteria will be reviewed for medical necessity. If a medication is not listed on the document, a formulary exception may be requested for coverage. Medical necessity or formulary exception requests will be reviewed based on drug-specific prior authorization criteria or standard non-formulary prescription request criteria. Log in to www.molinahealthcare.com to check coverage.

PRIOR AUTHORIZATION REQUEST PROCEDURE

Prescriptions for medications requiring prior approval or for medications not included on the Molina Drug Formulary may be approved when medically necessary and when formulary options have demonstrated ineffectiveness. When these exceptional situations arise, the physician may fax a completed drug prior authorization form to Molina at (800) 869-7791. The forms may be obtained by logging into the website www.molinahealthcare.com. Trials of pharmaceutical samples will not be considered as rationale for approving a prior authorization request.

PRIOR AUTHORIZATION HELPFUL HINTS

To ensure the quickest response possible from Molina Healthcare of Washington's Pharmacy Department, please provide relevant information with the Prior Authorization request. The following are examples:

Class of Medication/Diagnosis	Requested Clinical Information
Cholesterol Lowering	Lipid Panel, Cardiovascular risk factors
Diabetes	A1c Report
Non-Formulary/Non-Preferred Medication	Medication Log and/or Progress Notes documenting previous use of Formulary medications

NON-COVERED MEDICATIONS

Please note that certain medications are not covered. These include, but are not limited to:

- Appetite Suppressants and other drugs used for weight loss
- Medications used for the treatment of infertility, impotence and sexual dysfunction
- Medications used for cosmetic purposes
- Experimental or Investigational Medications

CARVED-OUT MEDICATIONS (medications covered under the Apple Health Fee-for-Service program):

The following types of medications are covered by the Apple Health Fee-for-Service program directly, even when the member is enrolled in Molina managed care. For questions about a benefit or service listed here, call Apple Health Customer Service at 1-800-562-3022.

- Alcohol and Substance Abuse Services, Inpatient, Outpatient, and Detoxification - Must be provided by Department of Social and Health Services (DSHS) certified agencies. Call 1-877-301-4557 for specific information related to chemical dependency.
- Prescriptions related to dental care.
- Hemophiliac Blood Product – Blood factors VII, VIII and IX and the anti-inhibitor indicated for use in treatment for hemophilia and von Willebrand disease distributed for administration in the enrollee's home or other outpatient setting.

LEGEND

AGE	Age Limit
OTC	Over-the-counter
PA	Prior Authorization
QL	Quantity Limit
SP	Specialty Drug; These drugs must be obtained through CVS Caremark Specialty Pharmacy Services.
ST	Step Therapy
boldface	Indicates generic availability; boldface may not apply to every strength or dosage form under the listed generic name
delayed-rel	Delayed-release (also known as enteric-coated), refer to the reference brand listed for clarification
ext-rel	Extended-release (also known as sustained-release), refer to the reference brand listed for clarification

REQUESTING FORMULARY CHANGES

If you are a prescriber and would like to request a formulary change, please submit your request and rationale to Molina's Pharmacy Department with your contact information.

Fax: 800-869-7791
