Dear Provider,

Molina Complete Care of Arizona is sharing the below news with you regarding Antiviral Prioritization Criteria.

Given the increasing supply of oral antivirals for Arizona, as well as the ability of pharmacy partners to meet demand with allotted supply, **ADHS has approved moving into Tier 3 of the Antiviral Prioritization Criteria** (<https://azdhs.gov/covid19/documents/antivirals/antivirals-prioritization-criteria.pdf>)

Tier 1 eligible patients include:

- Patients 70 years of age or older;
- OR who have major immune suppression (i.e., HIV, severe primary immunodeficiency, cancer and/or transplant patients, or patients on chronic steroids or other immunosuppressive drugs)

Tier 2 eligible patients include:

- Tier 1 and age 50 years or older with one or more CDC high risk conditions for COVID-19 disease progression. Please see the complete list of **CDC High Risk Health Conditions** (<https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/people-with-medical-conditions.html>)

Tier 3 expands use for all eligible patients within the general population.

We encourage you to visit the AZ Department of Health websites for updated information:

- azdhs.gov/mAbs
- azdhs.gov/antivirals
- azdhs.gov/findtreatment

Have a wonderful day and stay safe!

Sincerely,

Molina Complete Care
