Comprehensive Health Interventions for Lifelong Development (CHILD) Trainings

This is an advisory notification to Molina Healthcare of California (MHC) network providers applicable to the Medi-Cal line of business.

What you need to know:

All Medi-Cal Managed Care Program primary care provider (PCP) offices who serve the pediatric population, ages 0-20 years old, are required by the California Senate Bill No. 184 and the Department of Health Care Services to undergo staff training for pediatric vision, audiometric, anthropometric and dental screenings.

Molina Healthcare of California, in collaboration with other California Medi-Cal Managed Care Health Plans, has developed four pediatric preventive screening training videos under the umbrella of the Comprehensive Health Interventions for Lifelong Development (CHILD) initiative. These online training videos incorporate research-based education from the former California Child Health and Disability Prevention (CHDP) program and industry leaders such as the American Academy of Pediatrics. Starting December 15, 2025, providers can view and receive completion attestation forms for the following CHILD trainings:

- Audiometric Screening
- Anthropometric Screening
- Pediatric Vision Screening
- Topical Fluoride Dental Screening and Application

When this is happening:

Starting **December 15, 2025**, the four CHILD trainings and completion attestation forms will be available on the MHC website.

Provider Action

Providers are encouraged to complete applicable trainings by visiting the Molina Provider website:

molinahealthcare.com/providers/ca/%20medicaid/comm/training.aspx

What if you need assistance?

If you have any questions regarding the notification, please contact your Molina Provider Relations Representative below.
