

Medicare Fee Schedule Reduction Effective 01/01/23

On December 29, 2022, President Biden signed the FY23 Omnibus Appropriations Package into law. This new spending package, effective 01/01/23, includes a reduction of approximately 2% that will go into effect for providers reimbursed at the Medicare physician fee schedule rates. This will impact our Medicare and Marketplace lines of business. This will also impact any Medicaid Providers reimbursed based on Medicare physician fee schedule rates.

Please note that effective immediately, payment runs will continue on their standing schedule for dates of service in 2022 and prior for Medicare, MMP and Marketplace lobs. Claims for dates of service in 2023 were held temporarily until the reduced rates were deployed. As of January 18th, all claims are processing accordingly.
