

In-Office Laboratory Tests

Purpose

This policy is intended to ensure correct provider reimbursement and serves only as a general resource regarding Passport by Molina Healthcare reimbursement policy for the services described in this policy. It is not intended to address every aspect of a reimbursement situation, nor is it intended to impact care decisions. This policy was developed using nationally accepted industry standards and coding principles. In the event of a conflict, federal and state guidelines, as applicable, as well as the member's benefit plan document supersede the information in this policy. Additionally, to the extent there are any conflicts between this policy and the provider contract language, the Provider contract language will prevail. Coverage may be mandated by applicable legal requirements of a State, the Federal government or the Centers for Medicare and Medicaid Services (CMS). References included were accurate at the time of policy approval.

Policy

The laboratory services below are allowed in a physician's office for all lines of business. All other laboratory testing must be referred to an In-Network Laboratory Provider that is a certified, full-service laboratory, offering a comprehensive test menu that includes routine, complex, drug, genetic testing, and pathology.

For more information about In-Network Laboratory Providers, please consult the [Passport Provider Directory](#). For testing available through In-Network Laboratory Providers, or for a list of In-Network Laboratory Provider patient services centers, please reach out to the In-Network Laboratory Provider.

Reimbursement

Specimen collection is allowed in a physician's office and may be compensated in accordance with your agreement with Molina Healthcare, when applicable state and federal billing and payment rules and regulations allow.

Claims for tests performed in the physician office, but not listed below will be denied.

Code(s)	Description
