

Molina Healthcare of Michigan Marketplace Product Changes

Dear Valued Provider Partner,

Molina is working to improve the affordability of our Marketplace program, especially given the uncertainty of the market dynamics for 2026. To achieve this, we will discontinue our On-Exchange product offerings for the 2026 plan year, with the intent to re-enter the Marketplace On-Exchange in 2027, subject to market conditions.

Provider-Focused Considerations

Our provider agreements for Marketplace will remain the same, but you will not see patient volume flowing through these agreements in 2026 as we work to adjust our provider network and service area for 2027. If our agreements cover other lines of business, they remain unchanged for those products.

Next Steps

- **Marketplace Re-entry Planning**

As we look ahead, we're preparing to offer an On-Exchange provider network and service area in Michigan for future years. This may involve some adjustments along the way, but we're committed to working collaboratively and communicating clearly throughout the process.

- **Member Transition**

For members with an ongoing course of treatment at the end of 2025, we will work collaboratively with you on assisting with member care needs as they transition to their new coverage.

- **Continued Mission Focus**

Molina will continue to focus on serving Medicaid and Dually Eligible populations, improving health outcomes for those we serve. Additionally, for any questions you may have about the 2026 plan year, please contact your Provider Relations Manager.

Thank you for your continued partnership and dedication to the communities we support. We look forward to working together through this transition and appreciate your ongoing collaboration.
