

Molina Healthcare of New York, Inc. Payment Policy:

COVID Approved codes where a published rate is not yet available

Last Review Date: 10/20

Payment Policy:

Molina Healthcare of New York Inc. accepts claims that are billed with American Medical Association (AMA) approved codes, for immediate reporting. Upon notification from CMS or the New York State Department of Health, Molina makes the necessary changes to allow the valid code to process. In the event where a published rate has not yet been determined by eMedNY or CMS, the claim will process with a reimbursement amount of \$0.01. Should a rate be listed in the contract between Molina and the billing provider, that rate will be paid accordingly.

Retroactive claim adjustments will be made to claims back to the effective date of the service code, once a published rate has been announced.
