

## Free ECHO BH Sessions for Pediatric Providers

### Information for pediatric providers in all networks

Project ECHO (Extensions for Healthcare Outcomes) is an interactive, case-based learning collaborative created to help providers acquire skills to manage children with behavioral health (BH) conditions presenting in primary care offices.

Children often use primary care providers (PCPs) for BH management. The ECHO BH series below has been created to help support pediatric primary care providers through collaboration with experts and the collective wisdom of the primary care community.

The Advanced Series: Adolescent Substance Use Disorder series is available from 12 to 1 p.m. on:

- Sept. 3 – Screening and Engaging Adolescents with Substance Use Disorder in Primary Care
- Sept. 17 – Vaping: Nicotine and Cannabis Use in Adolescents
- Oct. 1 – Alcohol Use Disorder: Screening and Brief Intervention for Youth
- Oct. 15 – Opioid Use Disorder: Clinical Features, Referral and Resources

Register for the ECHO series at [https://is.gd/BH\\_ECHO\\_SUBSTANCE\\_ABUSE](https://is.gd/BH_ECHO_SUBSTANCE_ABUSE) by Aug. 31, 2020.

Each session is limited to 10-12 practices and will include the following activities:

- Submit a case or practice issue to present to the group and engage in interactive discussion
- Collaborate with the expert team in providing recommendations

Note: There is no charge to participate, and participants will earn CME/CE credits.

For additional information visit [www.NationwideChildrens.org](http://www.NationwideChildrens.org) and “For Medical Professionals” then “Education and Training” and under “+Education and Training” choose “Project ECHO.” On the Project ECHO page, click on “View Series and Upcoming Sessions” and you will be taken to the Project ECHO Series with additional training opportunities and registration options.
