Updated: Medicaid Enrollment Requirements Provider Bulletin

Information for Medicaid network providers

Update: As of Aug. 15, 2021, any provider who is not enrolled and noted as ”active” in Medicaid Information Technology System (MITS) will receive denials for claims submitted to Molina. Claim denials will continue until the provider’s Medicaid enrollment is noted as an “active” status.

For example, if a provider appears in “active” status on Aug. 16, 2021, but appears “inactive” as of Dec. 1, 2021, all claims from this provider will be denied from Dec. 1, 2021 forward until the provider takes action to re激活their record in MITS.

Note: Providers who update their records after claims begin rejecting, will need to submit corrected claims once the records are updated.

More details on this requirement and process can be found in prior Provider Bulletin communications. Please see below.

On July 16, Molina communicated to our provider network that the ODM requires providers to be enrolled and active with ODM, and that Molina would begin denying claims submitted by non-enrolled or inactive providers starting on Aug. 15, 2021.

How to Join WebEx

To join WebEx, call (404) 397-1516 and follow the instructions. To view sessions, log into WebEx.com, click on “Join” and follow the instructions. Meetings passwords are case sensitive. For trouble connecting to a Molina training, email Molina at OHPBPRelations@MolinaHealthcare.com and we'll assist you with getting connected immediately.
In response to provider questions regarding this communication, please see the following additional details:

- Although standard revalidation activities have been suspended by ODM during the Public Health Emergency (PHE), Molina has confirmed with ODM that this waiver period only applies to providers who were active prior to the PHE and whose revalidation date has lapsed during the PHE timeframe. If this applies to you, then your Medicaid ID is still currently active with ODM and no action is needed at this time. Please remember to revalidate your ID once the waiver period concludes.

- However; if your Medicaid ID has become inactive in the Medicaid Information Technology System (MITS) due to the following reasons: "no claims activity in 24 months," "inactive due to license issues," or "revalidation expiration outside of the state of emergency time frame" you must take immediate action to reactivate your Medicaid ID with ODM. These 3 situations were not covered under the PHE waiver and must be addressed to avoid claim denials by Molina starting on dates of service Aug. 15, 2021 and after.

Molina Transitioning Away from eviCore
Information for all network providers

Effective Sept. 1, 2021, PA requests for Molina members currently being submitted through eviCore Healthcare (eviCore) will transition back to Molina. This change will apply to all lines of business (LOB).

This change will impact PA processes for specialized services as outlined below.

The MyCare Ohio Managed Care Plans (MCOPs) and the Medicaid Managed Care Plans (MCPs) have been working to address and reduce the administrative burden providers experience with the PA and level of care (LOC) process. The [Nursing Facility Request Form](https://medicaid.ohio.gov) was created to assist with this endeavor. The NF Request Form is available on the Molina Provider Website, on the Forms page, under the Prior Authorization header.

Molina has also posted the [Ohio Medicaid Managed Care/MyCare Ohio Nursing Facility Request Form Instructions](https://medicaid.ohio.gov) training guide on the Molina Provider Website, under the Communications tab, on the It Matters To Molina page, under Tools and Resources.

Reminder: The NF Request Form is not required for Long-Term Care providers to use.

**Diagnosis Related Group (DRG) Validation**

*Information for all network providers*

Molina has a continued commitment to program integrity and accurate claims payment through ongoing analysis of claims submitted and review of billing trends to identify unusual billing behavior inconsistent with widely acknowledged national guidelines for billing practices and uniform billing.

As part of these program integrity activities, Molina has historically conducted Diagnosis Related Group (DRG) (both Medicare Severity-Diagnosis Related Group [MS-DRG] and All Patient Refined-Diagnosis Related Group [APR-DRG]) clinical validations through a vendor, Change Healthcare, to confirm DRG assignments and appropriate payment. Effective Sept. 1, 2021, Molina will perform these validations through coordinated activities performed by Molina and our new vendor, Cotiviti.

Correct DRG assignment will continue to be in accordance with industry coding standards:
- Official International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM) Coding Guidelines,
- Applicable ICD Coding Manual,
- Uniform Hospital Discharge Data Set (UHDDS), and/or
