Molina Healthcare: Legacy tools retiring – Transition to Availity Essentials

Greetings from Molina Healthcare,

This notice is to inform you that Molina will retire its legacy tools in Availity Essentials > Payer Spaces in late 2025. This includes tools for referrals, claims and care management.

What's changing?

Retiring the legacy tools will affect how you manage referrals, claims and care management within the payer spaces. To ensure a smooth transition, please begin using the updated referrals, claims and care management tools in Availity Essentials starting today.

Why this matters?

Getting familiar with the Availity tools before the legacy tools retire will help make the switch easy and stress-free. Many providers are already using Availity successfully with Molina and other payers.

Training available

Need help getting started? Watch our on-demand training at Molina PA Training.

Before you begin:

1. Log in to Availity

2. Allow pop-ups from:

    - **Apps.Availity.com**
    - **Availity.com**
    - **LearnUpon.com**

Not registered yet?

Your Availity administrator can go to **Availity.com** and click **Get Started**. For help, visit **Availity Customer Support**.

Thank you for being part of the Molina Healthcare network!
