

NOW AVAILABLE: Submit Electronic Attachments (275) via SSI

In addition to the ability to accept electronic attachments via our Availity Essentials Portal, Molina accepts standard electronic attachments (275) via The SSI Group.

Frequently Asked Questions (FAQ)

Q1: How will Molina match my electronic attachment to my electronic claim?

A: Molina links inbound electronic attachments with electronic claims by matching the attachment's control number (TRN02) with the corresponding claim's paperwork segment (PWK06). To ensure accurate and timely claim processing:

- TRN02/PWK values must match between 837 and 275 submissions.
- ACN values must be unique by Billing Provider. Each ACN can only be used once.

Q2: How can I confirm Molina received my attachment for processing?

A: Molina supports end-to-end attachment reconciliation by generating 824 and 999 response transmissions for all 275 inbound transactions received through our clearinghouse and return them to the provider's clearinghouse.
