December 2, 2025

Evaluation and Management Services Billed with Rev. Code 0761 (All Lines of Business)

Molina Healthcare of Washington, Inc. is notifying providers that effective January 1, 2026, any outpatient facility claims incorrectly submitted with revenue code 0761 and an evaluation and management (E/M) CPT code will be denied. This applies to any claims with service dates on or after the effective date.

Important Information:

- **Description:** Revenue code 0761 falls under Specialty Services (0760-0769) and is defined as a Treatment Room, which is a room in a facility where a specific procedure or treatment is rendered.
- **Usage:** According to the UB-04 manual and Uniform Billing Editor (2020), revenue code 0761 should be used solely to represent specialty services, and the appropriate Healthcare Common Procedure Coding System (HCPCS) must be included.
- **Non-Reimbursable:** Facility E/M charges billed with 0761 are not reimbursable since E/M services do not represent a specific procedure performed in a treatment room.
- **Reimbursable:** Revenue code 0761 is reimbursable when a specific outpatient procedure is carried out in a hospital setting.
- **Compliance:** The billing of E/M services with revenue code 0761 does not align with the definition of Specialty Services and should not be billed together.

Please refer to the current Uniform Billing Editor Facility Claim Forms for correct billing requirements.
