Mental Health	Covered are medically necessary behavioral health services which may include the following Rehabilitative Behavioral Health Services. (Apple Health IMC Contract 17.1.14) • Behavioral Health Care Coordination and Community Integration: means a range of activities furnished to engage Enrollees in treatment and assist them in transitioning from a variety of inpatient, residential, or non-permanent settings back into the broader community. To be eligible, the Enrollee must need transition support services in order to ensure timely and appropriate Behavioral Health treatment and Care Coordination. This service is further described in the Medicaid State Plan at Attachment 3, Section 13.d. (Apple Health IMC Contract 1.32, 17.1.14.1) • Crisis Intervention: also referred to as “Crisis Services,” means screening, evaluation, assessment, and clinical interventions provided to Medicaid-enrolled individuals experiencing a Behavioral Health crisis. Crisis Services are not specific to mental health only. Crisis Services may be provided to both mental health and substance use clients. (Apple Health IMC Contract 1.90, 17.1.14.2) • Crisis Stabilization: (also referred to as Stabilization Services), means services provided to Medicaid-enrolled individuals who are experiencing a Behavioral Health crisis. This service includes follow-up after a crisis intervention. These services are to be provided in the person's own home, or another home-like setting, or a setting that provides safety for the individual and the Mental Health Professional. Crisis Services may be	Same coverage as Apple Health Integrated Managed Care (IMC) column	Same coverage as Apple Health Integrated Managed Care (IMC) column

	provided to both mental health and substance use clients. (Apple Health IMC Contract 1.280, 17.1.14.3) • Intake Evaluation, Assessment and Screenings (Mental Health): means an evaluation of an Enrollee’s Behavioral Health, along with their ability to function within a community, to establish the medical necessity for treatment, determine service needs, and formulate recommendations for treatment. Intake evaluations must be initiated prior to the provision of any other Behavioral Health services, except those specifically stated as being available prior to an intake. (Apple Health IMC Contract 1.174, 17.1.14.4) • Medication Management: means the prescribing and/or administering of psychiatric medications and reviewing of medications and their side effects. (Apple Health IMC Contract 1.203, 17.1.14.6) • Medication Monitoring: means one-on-one cueing, observing, and encouraging a Medicaid-enrolled individual to take their psychiatric medications as prescribed. (Apple Health IMC Contract 1.204, 17.1.14.7) • Mental Health Treatment Interventions: means services delivered in a wide variety of settings that promote recovery, using therapeutic techniques. These services are provided, as Medically Necessary, along a continuum from outpatient up through residential and inpatient levels of care and include evaluation, stabilization, and treatment. Services provided in facility settings must have the appropriate state facility licensure. This service is further described in the Medicaid State Plan at Attachment 3, Section 13.d. (Apple Health IMC Contract 1.208, 17.1.14.8) • Peer Support Services: means scheduled activities to promote wellness, recovery, self-advocacy, development of natural supports and maintenance of community living skills. (Apple Health IMC Contract 1.234, 17.1.14.9)
