

Take the Support Act PCP Provider Survey

May 1, 2026

Every year, Molina Healthcare of Wisconsin, Inc. must report to the Wisconsin Department of Health Services on what screening tools our network providers are using with Children's Health Insurance Program (CHIP) populations in support of the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment (SUPPORT) Act.

We are asking for your help to complete a 10-question survey by June 30, 2026.

[Click here to take the survey.](#)

Results of the survey will be shared with state regulators to document the use of behavioral health assessment tools in accordance with the national Support Act.
