

Effective March 15th, 2022 Molina will be enforcing proper billing and coding for National Drug Codes (NDC) and related claims. The 11 digit NDC must be reported on all professional and outpatient claims when submitted on the CMS-1500 claim form, UB-04 or an electronic equivalent.

Claims need to be submitted with both HCPCS and NDC codes with the exact NDC that appears on the medication packaging, in the 5-4-2 digit format, as well as the NDC units and descriptors. Claims without the NDC will be denied, but can be corrected and resubmitted following Molina's outlined process.
