August is Immunization Awareness Month (NIAM)

This annual observance highlights the efforts of healthcare professionals to protect patients of all ages against vaccine-preventable diseases through on-time vaccination.

During NIAM, Molina encourages you to ensure your patients are up to date on recommended vaccines. Research has consistently shown that healthcare professionals are the most trusted source of vaccine information for parents and patients. Use NIAM as an opportunity to access [CDC educational resources](#) like the [#HowIRecommend Video Series](#), which offers simple and practical guidance for having successful vaccine conversations with parents and patients. These short videos demonstrate how to make effective vaccine recommendations, address common vaccine questions, and take a team-based approach to vaccination. For more information please visit <https://www.cdc.gov/vaccines/index.html> or see the **Vaccines: what you need to know** flyer attached to this month's rounding materials.
