Prenatal Care Visits with a PCP or OB/GYN

Early prenatal care is an important way to prevent complications in pregnancy that can affect the health of both mother and baby. Prenatal visits should begin as soon as the pregnancy is confirmed or immediately after the member is enrolled. Molina Healthcare provides dental services to pregnant women ages 19 to 64. Pregnant Medicaid members will be able to use their Molina Healthcare Medicaid ID to obtain services.

Notification of Pregnancy Form

Use the **Notification of Pregnancy Form** to assist Molina with early identification of your pregnant patients. This ensures they receive educational materials and enrollment in the enhanced Medicaid benefit which provides dental coverage during pregnancy through 90 days after they deliver. Fax forms to: (248) 925-1732, ATTN: Quality Management

Claims and Encounters

Molina prefers our providers submit all HEDIS® information on a claim (HCFA 1500); an efficient and highly automated claims process that ensures prompt and appropriate payment for your services. The "Using Correct Billing Codes" section of the HEDIS® Provider Manual contains the appropriate CPT and diagnosis codes for your services. The HEDIS® Provider Manual is available at www.Molinahealthcare.com

Pay for Performance Bonus Offer

PCPs or OB/GYNs who complete a prenatal visit for pregnant members in the first trimester or within 42 days of enrollment will be offered a **$100 Pay for Performance bonus!** A qualified prenatal visit may be completed by any of the following Providers: Obstetrician, Gynecologist, Midwife, Primary Care Provider (PCP), Nurse Practitioner, Physician Assistant, or other Family Practice Physician

Important Note

Intake documents for visits performed by an RN must be co-signed by the attending physician overseeing the patient's care.

Thank you for your continued commitment to our members
