Policy Number: C6121-C

Tadalafil and combinations

PRODUCTS AFFECTED

Cialis (tadalafil) 2.5mg and 5mg, Entadfi (finasteride/tadalafil)

COVERAGE POLICY

Coverage for services, procedures, medical devices and drugs are dependent upon benefit eligibility as outlined in the member's specific benefit plan. This Coverage Guideline must be read in its entirety to determine coverage eligibility, if any.

This Coverage Guideline provides information related to coverage determinations only and does not imply that a service or treatment is clinically appropriate or inappropriate. The provider and the member are responsible for all decisions regarding the appropriateness of care. Providers should provide Molina Healthcare complete medical rationale when requesting any exceptions to these guidelines.

Documentation Requirements:

Molina Healthcare reserves the right to require that additional documentation be made available as part of its coverage determination; quality improvement; and fraud; waste and abuse prevention processes. Documentation required may include, but is not limited to, patient records, test results and credentials of the provider ordering or performing a drug or service. Molina Healthcare may deny reimbursement or take additional appropriate action if the documentation provided does not support the initial determination that the drugs or services were medically necessary, not investigational or experimental, and otherwise within the scope of benefits afforded to the member, and/or the documentation demonstrates a pattern of billing or other practice that is inappropriate or excessive.

DIAGNOSIS:

Benign prostatic hyperplasia (BPH)

REQUIRED MEDICAL INFORMATION:

This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved. If a drug within this policy receives an updated FDA label within the last 180 days, medical necessity for the member will be reviewed using the updated FDA label information along with state and federal requirements, benefit being administered and formulary preferencing. Coverage will be determined on a case-by case basis until the criteria can be updated through Molina Healthcare, Inc. clinical governance. Additional information may be required on a case-by-case basis to allow for adequate review.

FOR TADALAFIL FOR PULMONARY HYPERTENTION PLEASE REFER TO PULMONARY ARTERIAL HYPERTENTION (PAH) CRITERIA C9837-A

A. BENIGN PROSTATIC HYPERPLASIA (BPH)

1. Documentation of a diagnosis of benign prostatic hyperplasia (BPH)
AND

Drug and Biologic Coverage Criteria

2. Prescriber attests to (or the clinical reviewer has found that) the member not having any FDA labeled contraindications that haven't been addressed by the prescriber within the documentation submitted for review [Contraindications to tadalafil include: use with any form of organic nitrate, either regularly and/or intermittently, known hypersensitivity to tadalafil, concomitant use with guanylate cyclase (GC) stimulators such as riociguat. Additional contraindications to Entadfi (tadalafil/finasteride) include: pregnancy.]
AND
3. Prescriber attests that tadalafil or Entadfi (finasteride/tadalafil) is being prescribed for daily use for symptomatic benign prostatic hyperplasia (BPH) in a male that is 18 years of age or older.
[Note: examples of signs and symptoms are incomplete emptying, weak stream, straining, urinary frequency, intermittency, urgency, or acute urinary retention.] [Cialis (tadalafil) is NOT covered when prescribed for sexual or erectile dysfunction]
AND
4. FOR TADALAFIL REQUESTS: Documentation the member had a trial (at least 4 weeks) and failure (or FDA labeled contraindication) to BOTH a formulary alpha-1 blocker AND a formulary 5-alpha reductase inhibitor
AND
5. FOR ENTADFI REQUESTS: Documentation of ALL of the following:
(a) member has had a trial (at least 4 weeks) and failure (or FDA labeled contraindication) to ALL of the following: a formulary alpha-1 blocker AND a formulary 5-alpha reductase inhibitor AND a phosphodiesterase 5 inhibitor
AND
(b) member has had a trial (at least 7 days) and failure of any of the therapies above used in combination concurrently.

CONTINUATION OF THERAPY:

A. BENIGN PROSTATIC HYPERPLASIA (BPH) [TADALAFIL ONLY]:

1. Documented improvement in baseline symptoms
AND
2. Prescriber attests to or clinical reviewer has found no evidence of intolerable adverse effects or drug toxicity
AND
3. Adherence to therapy at least 85% of the time as verified by the prescriber or member medication fill history OR adherence less than 85% of the time due to the need for surgery or treatment of an infection, causing temporary discontinuation

DURATION OF APPROVAL:

Tadalafil Initial authorization: 12 months, Continuation of therapy: 12 months

Entadfi (finasteride and tadalafil) Initial authorization: 26 weeks, Continuation of therapy: N/A

PRESCRIBER REQUIREMENTS:

No requirements

AGE RESTRICTIONS:

18 years of age and older

QUANTITY:

30 tablets per 30 days

PLACE OF ADMINISTRATION:

The recommendation is that oral medications in this policy will be for pharmacy benefit coverage and patient self-administered.

DRUG INFORMATION

ROUTE OF ADMINISTRATION:

Oral

DRUG CLASS:

Selective cGMP Phosphodiesterase Type 5 Inhibitors

FDA-APPROVED USES:

Tadalafil (Cialis): indicated for the treatment of erectile dysfunction (ED) and for the treatment of the signs and symptoms of benign prostatic hyperplasia (BPH) and indicated for the treatment of ED and the signs and symptoms of BPH (ED/BPH).

Entdafi (finasteride and tadalafil): indicated to initiate treatment of the signs and symptoms of benign prostatic hyperplasia (BPH) in men with an enlarged prostate for up to 26 weeks.

COMPENDIAL APPROVED OFF-LABELED USES:

None

APPENDIX

APPENDIX:

None

BACKGROUND AND OTHER CONSIDERATIONS

BACKGROUND:

Cialis is a phosphodiesterase 5 (PDE-5) inhibitor, indicated for the treatment of erectile dysfunction, the signs and symptoms of BPH, and the combination of erectile dysfunction and the signs and symptoms of BPH. This prior authorization is for plans who do not cover Cialis for erectile dysfunction

CONTRAINDICATIONS/EXCLUSIONS/DISCONTINUATION:

All other uses of Cialis (tadalafil) are considered experimental/investigational or are not a covered benefit and therefore, will follow Molina's Off-Label policy. Contraindications to tadalafil include: use with any form of organic nitrate, either regularly and/or intermittently, known hypersensitivity to tadalafil, concomitant use with guanylate cyclase (GC) stimulators such as riociguat. Additional contraindications to Entadfi (tadalafil/finasteride) include: pregnancy

OTHER SPECIAL CONSIDERATIONS:

None

CODING/BILLING INFORMATION

Note: 1) This list of codes may not be all-inclusive. 2) Deleted codes and codes which are not effective at the time the service is rendered may not be eligible for reimbursement
