Molina Healthcare Drug Formulary (List of Drugs)

Molina Healthcare has a list of drugs that it will cover. The list is called the Drug Formulary. The formulary changes from plan year to plan year. The drugs on the list are chosen by a group of doctors and pharmacists from Molina Healthcare and the medical community. The group meets every three months to talk about the drugs that are in the formulary. They review new drugs and changes in health care. They try to find the most effective drugs for different conditions. Drugs are added or removed from the Drug Formulary for different reasons. Reasons may include:

- Changes in medical practice
- Medical technology
- When new FDA-approved drugs come on the market
- When drugs are removed from the market by the FDA
- When a drug is identified with a new safety issue

Within the current plan year, we only make certain changes to the formulary. These changes may include:

- Addition of drugs or dosage forms
- Movement of a drug from one drug tier to another that results in less cost sharing
- Changes in preferred status among similar drugs on the list
- Removal of restrictions on a drug or dosage form

When updates happen through our standard process, Molina Healthcare will publish any changes on a monthly basis. Your plan's most current drug list is on our website MolinaMarketplace.com.

Does the drug list include injectable drugs that a Provider gives to me in a clinic or other location?

In general, drugs on the drug list are drugs your provider prescribes for you to get from a pharmacy and give to yourself. Most injectable drugs you need help from a provider to use are covered under the medical benefit instead of the prescription drug ("pharmacy") benefit. Your provider has instructions from Molina on how to get you approved for drugs they buy and help give to you. Some injectable drugs can be approved to get from a pharmacy using your prescription drug benefit.

I have questions about how my plan covers drugs.

This guide contains many details for common questions. You may also call Molina Healthcare and ask specific coverage questions about a drug:

- Can my prescription be filled at a retail pharmacy?
- What is the cost sharing dollar amount for my prescription?
- What is the process for requesting a drug that has a Prior Authorization requirement?
- How can I request an exception for a drug that is not on the formulary or has step therapy requirements?
- Is my drug covered under the prescription drug benefit or the medical benefit?

Call toll-free 1 (888) 560-2025, Monday through Friday, 8:00 a.m. through 6:00 p.m. If you are deaf or hard of hearing, dial 711 for the Telecommunications Service. You can also ask us to mail you a copy of the drug list.

If a drug is listed on the formulary, will I be prescribed that drug?

A drug being listed on the formulary does not guarantee that your doctor will prescribe it for you. This guide lets you and your doctor know which prescription drugs are covered by your plan. Drugs that are not on this list may not be covered by your plan and may cost you more. You may ask for nonformulary drugs to be covered. Requests for nonformulary drugs will be considered for a medically accepted use when formulary options cannot be used and/or other coverage requirements are met. Details are included in this guide.

Using the Drug Formulary as your prescription drug coverage guide

How do I locate a drug that is on the drug list?

The list of drugs is organized alphabetically by therapeutic category and class using the American Hospital Formulary Service (AHFS) classification. Within category and class, drug names are also organized in alphabetical order. If you do not know the category or class for the drug you are looking for, there are two ways to search for the drug by name.

- If you are using an electronic version of the drug list, you can use the PDF Search Function by pressing Ctrl + F on your computer keyboard. Type the name of the drug you are looking for in the search box.
- If you are using a print version of the drug list, you can search for the name of the drug in the Index at the end of this guide.

Drug entries on the list contain the Drug Name, Drug Tier, and other coverage details for all the drugs and items covered under your plan's prescription drug benefit.

Here are examples of how a drug may be displayed on the drug list (actual coverage may differ from this example).

Drug Name	Drug Tier	Requirements/Limits
COUMADIN TAB 1MG (<i>warfarin sodium</i>)	Tier 2	QL (300 tabs / 30 days); MAIL
<i>warfarin sodium tab 1 mg</i>	Tier 1	QL (300 tabs / 30 days); MAIL
<i>warfarin sodium tab 1 mg</i> (Jantoven)	Tier 1	QL (300 ea / 30 days); MAIL

What drug names are used on the list?

The drug list uses trademarked brand names and non-proprietary or "generic" names to show what form of the drug is covered. There are also trademarked names used by certain generic drugs. The way a drug name is shown on the drug list will tell you if the branded form, the generic form, or the trademarked generic form is what is covered. The example above shows the branded, generic, and trademarked generic forms of the drug "warfarin sodium".

When the branded form of a drug is covered, the drug name will be listed in all CAPITAL letters as its BRAND NAME. The non-proprietary or "***generic name***" for the branded drug will follow in parentheses and in all ***bold and italicized lowercase*** letters. When the generic form of the drug is covered, it is listed separately by its ***generic name(s)*** in all ***bold and italicized lowercase*** letters. A generic drug that is covered as the trademarked generic form will be listed separately by its ***generic name*** followed by the trademarked name in parentheses. The trademarked generic name will be shown with the first letter of each word capitalized.

If both the brand form and the generic form for a drug are covered on the formulary, they will each be listed as separate drug entries. For example, COUMADIN and **warfarin sodium** are listed separately to show both the brand form and the generic form are covered on the formulary. In this example, a trademarked generic form (Jantoven) is also displayed. Different Drug Tier and Requirements/Limits may apply for a trademarked form versus a generic form of a drug if multiple drug forms are listed as covered on the actual drug list.

What are Drug Tiers and how do they affect my share of the drug's cost?

We put drugs on different levels called tiers based on how well they improve health and how much they cost compared to similar treatments. Your plan has the following tiers. For Tiers 1 through 4, the lower the Drug Tier, the lower your share of the cost will be.

Here are more details about which drugs are on which tiers.

Drug Tier	Description
Tier 1	Preferred Generic drugs and low-cost Brand Name drugs; Lowest enrollee cost sharing
Tier 2	Preferred Brand Name drugs; Higher cost sharing than Tier 1
Tier 3	Non-Preferred, Brand Name and Generic drugs; Higher cost sharing than lower tier drugs used to treat the same conditions
Tier 4	Specialty Drugs, both Brand Name and Generic; Higher cost sharing than lower tier drugs used to treat the same conditions if available. Most Specialty Drugs covered in your plan will be available through a Specialty Pharmacy. We may require you to use our exclusive In-Network Specialty Pharmacy
Tier 5	Preventative service drugs
DME	Durable Medical Equipment; Your plan's DME cost sharing applies for certain non-drug products

In accordance with the Affordable Care Act, your plan covers nationally recognized preventative service drugs and dosage forms (Tier 5) with \$0 cost sharing.

How can I find more information about how much my drug will cost?

Information about prescription drug cost sharing amounts can be found on our Benefits at a Glance brochure or by entering your prescription and pharmacy information into the Check Drug Cost tool. To use the Check Drug Cost tool, click on the "Drug Look-Up" link for your plan on our View Plans webpage. This tool will provide you with an estimate of your cost. If you create an account with Caremark.com before using the tool, your plan design information will also be used to more closely estimate actual prices you pay at the pharmacy.

Prior authorization and exception request procedure

Prior authorization

Drugs that require advanced approval for coverage are reviewed against standard rules to determine medical necessity. Providers must show you have a medically accepted use for the drug and that other treatments have not worked for you or are not clinically appropriate. Other requirements may apply depending on the drug. We may require certain test

results to show a drug is right for you. An enrollee's response to drug samples from a provider or a drug maker will not be considered as a reason to bypass standard rules for coverage.

Your provider may fax a completed drug Prior Authorization form to Molina at 1 (888) 487-9251. The forms may be obtained on our website MolinaMarketplace.com.

If your prescription requires a Prior Authorization, the request can be considered under Standard or Urgent Circumstances.

- Any request that is not for an Urgent Circumstance is considered a Standard Exception request.
- A request is considered urgent if it is for treating a health condition that may seriously jeopardize your life, health, or ability to regain maximum function.

We will reach a decision no later than:

- 24 hours following receipt of request with Urgent Circumstances.
- 72 hours following receipt of request with Standard Circumstances.

If the request is approved, Molina will send a letter to you and your doctor. We will tell you how long the request is approved for. If the request is denied, we will send a letter with the reasons why and give instructions on your rights for follow up.

Requesting an Exception

Can I have a drug covered if it is not on the formulary or does not follow plan requirements such as step therapy?

Molina has a process to allow you to request clinically appropriate drugs that are not on the formulary or that have requirements or limits under your plan. Your doctor may order a drug that is not in the formulary but that he or she believes is best for you. Or, you may be taking a drug that is no longer on the drug list. Your doctor can ask us to keep covering it for you by sending us a Prior Authorization request.

Exceptions may be considered when formulary options cannot be used and/or other requirements are met. The drug must be safe and effective for your medical condition. Your doctor must write your prescription for the usual amount of the drug for you. Molina may consider an exception under the following conditions:

- There is documentation of a specific need in your medical record.
- Your doctor has certified that you tried drugs on the formulary, and they did not help you in the past; or the options have caused you harm or are reasonably expected by the prescriber to cause you harm or to be ineffective because of the clinical features of your condition.

If the request is approved, Molina will send a letter to you and your doctor. If the request is denied, we will send a letter with the reasons why and give instructions on your rights for follow up. If you disagree with the denial reasons, you can appeal the decision.

Complaints and Appeals

If Molina denies your drug request, a notice of rights to appeal the decision will be included in the notice of action. You may file a grievance or complaint by contacting the Molina Customer Support Center at (888) 560-2025. For more information refer to the section in your Agreement (policy) titled "Complaints and Appeals".

What are the Requirements and Limits on the drug list?

Requirements and limits may be set up for certain drugs. Drugs may have the following requirements and limitations:

Requirements/Limits Description

AGE	Age limits apply. We only pay for this drug or dosage form for certain age groups based on information about the drug's safety, efficacy, and cost.
MED	Morphine Equivalent Dose limits apply. Quantities of this drug are limited to the equivalent ("EQ") of 90 milligrams of morphine per day of supply filled.
OTC	Over-the-Counter dosage forms are covered on the drug list with a valid prescription from a provider.
PA	Prior Authorization is required. We require advanced approval of coverage on some drugs before they will be paid for. If Prior Authorization is required for a drug or dosage form, providers must show you have a medically accepted use for the drug and other treatments have not worked or are not appropriate. Other requirements may apply depending on the drug.
QL	Quantity Limits apply. We will pay for a maximum daily amount based on information about the drug's medically accepted use and cost.
ST	Step Therapy is required. If we have paid for you to have the required Step Therapy drug(s) in the past, this drug will be paid for at the pharmacy without need for a Prior Authorization or Step Therapy exception request. The drug list will show you which drugs are required first and for how long.

Some drugs are designated "Preferred Brand" in the drug class they are listed. If there is a drug in the same class as the drug you are requesting and it is the Preferred Brand drug in the class, we require that the Preferred Brand be used first or instead. Specific drugs that require use of a Preferred Brand drug first may also be indicated "Medical Necessity PA". Medical Necessity Prior Authorization requirements apply to some Tier 4 Specialty Drugs.

The drug list will also indicate if a drug is eligible for Mail Order (**MAIL**) programs in the Requirements/Limits column. It is your choice if you want to use Mail Order programs. You may have lower cost sharing using Mail Order on some drugs.
