

Medicare Prescription Payment Plan

Important Molina Healthcare information.

What is the Medicare Prescription Payment Plan?

Do you need help with managing your prescription costs? The Medicare Prescription Payment Plan can get you the help you need with your out-of-pocket costs for your medications, starting in 2025. This is a new payment option that will help with your prescription costs by spreading them across monthly payments throughout the year.

The prescription drug law caps your out-of-pocket costs at \$2,000 in 2025. This means you'll never pay more than \$2,000 in out-of-pocket drug costs in 2025.

Please note: This plan might help you manage your monthly expenses, but it doesn't save you money or lower your drug costs.

How does the Medicare Prescription Payment Plan work?

You will still pay your plan premium if you have one. Then you will get a bill from your prescription plan. Anyone can participate in this plan. Your income is not a factor. All Medicare plans with prescription coverage have this plan available.

You have the choice to participate in this plan or not.

Who is this program for?

If you have higher prescription costs early in the year, this program can help. You will have more months left to pay for your prescriptions.

This payment option may NOT be the best choice for you if:

- Your yearly prescription costs are low.
- Your prescription costs are the same each month.
- You're considering signing up for the payment option late in the calendar year (after September).
- You don't want to change how you pay for your prescriptions.
- You get or are eligible for Extra Help from Medicare.
- You get or are eligible for a Medicare Savings Program.
- You get help paying for your prescriptions from other organizations, like a State Pharmaceutical Assistance Program (SPAP), a coupon program, or other health coverage.

How do I leave the Medicare Prescription Payment Plan?

Medicare Prescription Payment Plan

You can opt out of the payment plan at any time by calling Member Services. Leaving won't affect your Medicare drug coverage and other Medicare benefits. Keep in mind:

- If you still owe a balance, you're required to pay the amount you owe, even though you're no longer participating in this payment option.
- You can choose to pay your balance all at once or be billed monthly.
- You'll pay the pharmacy directly for new out-of-pocket drug costs after you leave the Medicare Prescription Payment Plan.

Where can I find more information? Read the [Medicare Prescription Payment Plan fact sheet](#) to learn:
