About Medicare

Medicare is health insurance for people who are 65 years old or older, or under 65 years old with certain disabilities.

Original Medicare is a Federal Insurance Program. It pays a fee for your care directly to the doctors and hospitals you visit. Original Medicare does not cover most preventive care and has unpredictable out-of-pocket expenses.

Medicare Part A (Hospital Insurance) covers inpatient care in hospital, skilled nursing facilities, hospice care, and some home health care services.

Medicare Part B (Medical Insurance) covers certain doctors' services, outpatient care, medical supplies and preventive services.

Medicare Part C (Medicare Advantage) is an all-in-one alternative to Original Medicare. Medicare Advantage plans include Parts A, B and usually Part D. Some Medicare Advantage plans may have lower out-of-pocket costs than Original Medicare and may cover extra benefits that Original Medicare doesn't – like dental, vision or hearing. Medicare pays a fixed fee to the plan for your care, and then the plan directly pays the doctors and hospitals. Medicare Advantage has predictable out-of-pocket expenses and offers preventive care and care coordination.

Medicare Part D (Prescription Drug Coverage) helps you pay for drugs you get from a pharmacy.

Part D Coverage Stages

Stage 1: Deductible

You pay the full cost of Tier 3-5 drugs until you reach the yearly \$125 deductible. For drugs on Tiers 1, 2, and 6, you begin the Initial Coverage Stage when you fill your first prescription of the year.

Stage 2: Initial Coverage

During this stage, the plan pays its share of the cost of your drugs and you pay your share of the cost. If you reside in a long-term care facility, you pay the same as at a retail pharmacy. You may get drugs from an out-of-network pharmacy at the same cost as an in-network pharmacy. You stay in this stage until your year-to-date "total drug costs" (your payments plus any Part D plan payments) total \$4,430.

Stage 3: Gap Coverage

During this stage, you pay 25% of the price for brand name drugs (plus a portion of the dispensing fee) and 25% of the price for generic drugs. You stay in this stage until your year-to-date "out-of-pocket costs" (your payments) reach a total of \$7,050. This amount and rules for counting costs toward this amount have been set by Medicare.

Stage 4: Catastrophic Coverage

After your yearly out-of-pocket drug costs (including drugs purchased through your retail pharmacy and through mail order) reach \$7,050, you pay the greater of:

- 5% of the cost, or
- \$3.95 for a generic drug or a drug that is treated like a generic and \$9.85 for all other drugs.
