B. Background Information about Senior Whole Health's Behavioral Health Network Providers

B1. Key terms

This section explains key terms in our Directory.

- **Behavioral Health Providers** are professionals such as psychiatrists, psychiatric advanced practiced registered nurses, psychologists, social workers, mental health counselors, and other behavioral health professionals who provide care and services. **Services** offered range from outpatient mental health and substance use disorder treatment services such as individual counseling and medication management, to detox, to crisis counseling.
 - The term providers includes facilities such as hospitals, clinics, and other places that provide behavioral health services.
 - Providers that are a part of our plan's behavioral health network are called behavioral health network providers.
- **Behavioral Health Network providers** have contracted with us to deliver services to members of our plan. Behavioral Health Network providers participate in our plan. That means they accept members of our plan and provide services our plan covers. When you use a behavioral health network provider, you usually pay nothing for covered services.

- You may need **prior authorization** to see a specialist or access specific behavioral health services. A **prior authorization** is different than a referral. It means that **Senior Whole Health** (not your network PCP or behavioral health provider) must give you approval **before** we will cover a specific service or an out-of-network provider. If you don't get prior authorization, Senior Whole Health may not cover the service.
 - Prior authorization is **not** needed for:
 - Emergency services;
 - Substance use disorder treatment services; and
 - Behavioral health office visits with a network specialist.
 - Additionally, if you are eligible to get services from Indian health providers, you may use these providers without a referral. We must pay the Indian health provider for those services even if they are out of our plan's network.
 - More information on referrals and prior authorization is available in Chapter 3 of the *Evidence of Coverage*.

B2. How to access Senior Whole Health's behavioral health network providers

You must get all of your covered services from behavioral health providers within our network. If you use behavioral health providers who are not in Senior Whole Health's network (**without prior authorization**), **you will have to pay the bill**.

A **prior authorization** is an approval from Senior Whole Health to seek services outside of our network or to get services not routinely covered by our network **before** you get the services.

The only exceptions to this rule are when you need emergency care and cannot get to a provider in the plan, such as when you are away from home. You can also go outside the plan for other non-emergency services if Senior Whole Health gives you permission first.

- You may change providers within the behavioral health network at any time during the year. If you have been using one network provider, you do not have to keep using that same provider.
- Senior Whole Health works with all the behavioral health providers in our network to accommodate the needs of people with disabilities. As

If you have questions, please call Senior Whole Health at (888) 794-7268, (TTY: 711). The call is free. **For more information**, visit www.SWHMA.com.

applicable, the list of behavioral health network providers in this Directory includes information about the accommodations they provide.

- If you need a behavioral health provider and are not sure if they offer the accommodations you need, Senior Whole Health can help you. Talk to your Nurse Care Manager or Member Services for assistance.
