The Member Advisory Council discusses and recommends ways for Molina to improve its services provided to Molina members. Council members must be 21 years old and be current Molina members. The Council will meet once a year in your area. Advisory Council members will be expected to participate in discussions concerning their experiences with Molina services and providers. ## Attention: Healthy Michigan Plan Enrollees

Did you know you could be eligible for a reduction in your health savings contribution? Visit your primary care provider (PCP) and complete your Health Risk Assessment (HRA). Your PCP must complete the HRA form with you. Return your HRA to Molina Healthcare of Michigan. Once we receive your HRA form, we will determine if you qualify for a reduction in the amounts owed to the MI Health Account. Visit your PCP at least 2 times per year to discuss any current illnesses and chronic conditions. We strongly encourage you to keep your appointments and checkups to help keep you healthy.

**Cost Sharing:** Some Members who are on the Healthy Michigan Plan will receive a bill for 'cost sharing'. Whether or not you pay cost sharing is dependent on your household income and the information you share with your case worker. If you owe any cost sharing, a bill will be sent to you from the Michigan Department of Health and Human Services. Once you receive this notice, you will have to send a monthly payment in the requested amount in order to receive the incentive. Make timely payments to the MI Health Account. Even if you have an outstanding amount, you will not lose your healthcare coverage.

Not all Members will receive a bill. If you do, you may contact Michigan Enrolls to answer any questions you may have. Please call our Member Services department at (888) 898-7969, Monday – Friday, 8 a.m. to 5 p.m., EST. (TTY/TDD: 711).

## When to visit a PCP and Specialist

It is important to visit your PCP at least 2 times per year to discuss any current illnesses and chronic conditions. Your PCP provides most of your care. Your PCP may also send you to specialists, other health care providers and hospitals.

Molina Healthcare and your PCP care about your health. Your PCP can help you avoid problems by:

- Finding medical, dental and other issues early
- Treating problems before they become serious and
- Educating you about your health

If you have a chronic health condition like diabetes or renal disease, you may be able to have a specialist take care of you as your PCP. Please call us at (888) 898-7969, Monday – Friday, 8 a.m. to 5 p.m., EST. (TTY/TDD: 711) and we will help you.

Your doctor should make you feel comfortable. You may change your PCP or choose a new PCP at any time. Your requests will take effect immediately. To change your PCP, visit [MyMolina.com](http://MyMolina.com) or please call Member Services at (888) 898-7969, Monday – Friday, 8 a.m. to 5 p.m., EST. (TTY/TDD: 711) and we will help. If your health or safety is in danger, you will be given another PCP right away.

You will find a list of PCPs at [MolinaHealthcare.com](http://MolinaHealthcare.com) or [MyMolina.com](http://MyMolina.com). To request a paper copy of our list of PCPs at no cost to you, please call Member Services at (888) 898-7969, Monday – Friday, 8 a.m. to 5 p.m., EST. (TTY/TDD: 711).

If needed, a specialist can be your PCP. You can get specialty care from a participating provider including routine and preventive health care services from an OB/GYN, women's health specialists and pediatric providers. There is no cost to get these services. While Molina Healthcare of Michigan doesn't require referrals, check with your PCP to make sure there are no other referral needs.

Prior Approval or Prior Authorization (PA) is a request for service from your doctor. You do not need it for most medical services. But some services do require it. Molina Healthcare’s medical staff and your doctor review the need for this care before services are given. They make sure it is right for your health condition. Please view the Covered Services section in your Member Handbook for more information. You can also call Member Services at (888) 898-7969, Monday – Friday, 8 a.m. to 5 p.m., EST. (TTY/TDD: 711).

### Yearly Health Exam

The basic purpose of a yearly health exam is prevention. It is also to identify risk factors for common illnesses and to detect illnesses that have no visible symptoms. Your yearly exam should include a check of your blood pressure, cholesterol and blood sugar levels (diabetes). Your doctor will also provide education on living healthy. This may include nutrition and exercise advice and recommending health screenings.
