Molina Dual Options may immediately remove a brand name drug on our Drug List if;

A new generic drug becomes available.

- We may remove the brand name drug if we are changing it with a new generic drug.
- When adding the new generic drug, we may keep the brand name drug on our Drug List, but change its coverage rules or limits.

A drug is taken off the market.

- The Food and Drug Administration (FDA) says a drug you are taking is not safe.
- If the drug’s maker removes the drug from the market.

We may not tell you before we make the above changes, but we will later send a notice about the specific change or changes we made.

When other changes are made to the Drug list we will tell you at least 30 days before it happens or when you ask for a refill. This will give you time to talk to your doctor or other prescriber and get a 60 day supply of the drug.

If you are affected by a change in drug coverage or limits, you or your doctor can ask us to make an exception. The notice we send you will explain the steps to ask for an exception. To find out more about coverage decisions and how to ask for an exception, see your Member Handbook.
