Managing Your Medications Is Important To Us

Molina Dual Options MI Health Link Medicare-Medicaid Plan has formed measures and systems to make sure that prescription drugs are used in a safe and useful way. Our goal is to avoid drug errors and harmful drug reactions.

Our program includes the following:

- Drug utilization review systems designed to ensure that a review of your drug therapy is done before each prescription is dispensed, such as potential drug therapy problems due to over-utilization, under-utilization, drug-drug interactions, and drug-allergy interactions
- Computerized drug utilization review systems designed to ensure ongoing periodic examination of prescription data and other records in order to identify drug therapy problems among Molina Dual Options members
- Dosage checks to ensure that drugs are used within rules set by the Food and Drug Administration (FDA)
- Reporting of our quality assurance practices to the Centers for Medicare & Medicaid Services
