Getting prescription refills

If you have routine or other active prescriptions that need a refill, make sure you are using one of our network pharmacies by visiting **MyMolina.com** or checking the Molina Mobile app. If your prescription is currently with a different pharmacy, they can arrange for a prescription transfer. Talk to your pharmacist or provider about transferring your prescription. Make sure to allow time for the transfer so you don't run out of your medication.

Many people prefer to use a 90-day mail-order prescription refill to save time and money. Talk to your PCP about this option and review the Pharmacy Mail Order Instructions section of your Welcome Kit for more information.

During your visit, our Care Connections Nurse Practitioner will review your health history and partner with you to create a plan to access the care and services most helpful to you. We will also share this information with your doctor to ensure you receive the best care for you

In addition, our Care Connections Nurse Practitioner can help you:

- Find a new PCP, if needed, schedule your first appointment and arrange transportation.
- Get the right help at the right time, including spending time to teach you how to download and use helpful member resources.

We'll call you after your first 90 days to see how your membership has been working for you. We want to make sure you're able to see your doctor and get the care and services you need. Good or bad, we want to know!
