Grievances, Appeals, and Hearing Rights

Grievance to the Plan: Grievances are when the member expresses dissatisfaction about any matter other than an adverse benefit determination. You may file a grievance directly with us by contacting Member Services. An example may include, but are not limited to, poor quality of care or services provided, poor customer service, a complaint about your Waiver Service Coordinator or even failure to respect the member's rights regardless of whether remedial action is requested.

Appeal to the Plan: You have the right to appeal adverse benefit determinations regarding your MyCare Ohio Waiver services including: denial or limited authorization of requested services; reduction, suspension, or termination of authorized services before the authorized services are received and before the authorization period has ended; denial of payment for a service not covered by Medicaid including a service denied through the prior authorization process as not medically necessary; denial of request for a specific plan contracted non-agency or participant-directed waiver service provider; our failure to provide services in a timely manner as specified in rule; and our failure to act within resolution timeframes. If we make an adverse benefit determination for which you have appeal rights, we will notify you how to request an appeal. Simply follow the instructions on the notice.

Appeal to the State: You will receive a hearing notice from the State for actions regarding your eligibility to participate in the MyCare Ohio Waiver. For adverse benefit determinations that you have the right to appeal to the plan, depending on the outcome of your appeal and the appeal resolution determined by the plan, you will receive a notice from us that includes your right to a state hearing. MyCare Ohio members must first exhaust the plan appeal process for adverse benefit determinations before being granted a state hearing. State hearings are held by a hearing officer from the Ohio Department of Job and Family Services. Simply follow the instructions on the notice.

Continuation of Medicaid Services: With some exceptions, if you timely appeal a proposed action to reduce, suspend, or stop a service you were authorized to receive before the authorized services are received and before the authorization period has ended, the service may continue for a limited period of time. When one of these actions is being proposed, you will receive a notice that includes detailed information about the circumstances, process, and timeframes that may allow you to continue to receive services.

Expedited Appeal: If you are requesting an appeal, and you believe the standard time frame to make a decision may seriously jeopardize your life, health, or ability to function, you may request the appeal process be expedited so a decision on your appeal can be made faster than usual. The notice you receive about the action will include details on the process and time frame for this provision.

Your Member Handbook also provides further details regarding grievances, appeals and state hearings.

Responsibilities

You, or your authorized representative, are the cornerstone to ensuring you get the Waiver services you need. Being a member, or authorized representative of a member, has many important responsibilities. Specifically, you or your authorized representative are responsible for:

- Communicating openly and honestly with your Waiver Service Coordinator, Care Manager, providers, and other members of your Care Team.
- Providing accurate and complete information, including your medical history.
- Actively participating in the process to develop your person-centered service plan, and implementing the plan.

Waiver Person-Centered Service Plan Development

Service planning and care coordination help to address changes you may encounter with your personal circumstances and/or medical conditions over time. The service planning process must be tailored to address your specific needs and revised as often as necessary to continue to meet your needs.

The person-centered service plan is a written outline of your Waiver services necessary to keep you safely in the community. It identifies goals, objectives, and outcomes related to your health, as well as the treatments and services you receive.

As a member enrolled in the MyCare Ohio Waiver, you may exercise choice and control over the provision of Waiver services you receive by actively participating in the service planning process. You can help decide who should participate in the service planning process.

If you have questions, please call Molina Dual Options MyCare Ohio at (855) 665-4623 or TTY/TDD 711, from Monday - Friday, 8 a.m. to 8 p.m. local time. The call is free.

For more information, visit MolinaHealthcare.com/Duals. A waiver services coordinator or a care manager can be contacted at any time at (855) 895-9986 or TTY/TDD 711.

Your Waiver Service Coordinator is responsible for ensuring all of your identified needs are included and addressed in your person-centered service plan. That includes exploring with you all feasible services and service settings available to meet your specific needs.

Both you and the service providers identified on your person-centered service plan must sign the service plan, or other document requested by your Care Manager or Waiver Service Coordinator, to indicate agreement with the plan.

After your person-centered service plan is developed and approved, your Waiver Service Coordinator will help arrange for the delivery of services to implement the plan.

Person-Centered Service Plan Contents

During the service planning process, you will identify all the services and supports you receive from any sources other than the MyCare Ohio Waiver that help meet your needs so they can be considered in the development of the plan.

Service planning includes identifying and arranging for Waiver services that support, but do not replace services from unpaid caregivers (such as neighbors, friends, family, etc.).

Your person-centered service plan documents how your needs will be met. It must address, but is not limited to, all of the following:

- Your care, including your medical and personal care needs
- Services that may be needed to keep your environment clean and safe
- Behavioral health, including any behavior interventions
- Services that may be needed to help you maintain activities with school, work, or other daytime activities
- Home modifications and/or adaptations
- Medication management
- Medical and personal care supplies, including equipment
- Back-up plan for when a provider is unable to furnish services as scheduled

Your person-centered service plan will identify the specific tasks and activities your service provider(s) will deliver to meet your needs. It will also specify how much, how often, and how long you will receive the services.

The person-centered service plan is necessary for your service providers to be paid and to help your Waiver Service Coordinator ensure you are getting the services you need.

Waiver Service Coordination

All members enrolled with Molina Dual Options MyCare Ohio in the MyCare Ohio Waiver will receive assistance with coordinating their waiver services.

It is important that you receive the Waiver services you need so long as your health and welfare is not placed at risk. You will be contacted by either your Waiver Services Coordinator

or Care Manager, and receive an in-person visit to review your care needs no more than 75 days after you are enrolled in the MyCare Ohio Waiver, or sooner upon request.

Waiver service coordination includes, but is not limited to, the following:

- Monitoring your health and welfare
- At least annually, assessing your needs, goals, and objectives
- Scheduling, coordinating and facilitating meetings with you and your care team
- Authorizing Waiver services in the amount, scope, and duration to meet your needs
- Linking and referring you to needed service providers
- Working with you and your care team to develop your person-centered service plan
- Monitoring the delivery of all services identified in your person-centered service plan
- Ensuring adjustments are made as appropriate in the event you encounter significant changes, including but not limited to, significant life milestones such as entering/exiting school, work, etc.
- Identifying and reporting incidents, as well as prevention planning to reduce the risk of reoccurrence.
- Assisting you to develop a meaningful backup plan in the event your provider is unable to show up for work. A backup plan includes one or more persons who are able to provide your care and that can respond quickly if your regularly scheduled provider is unable to work his or her shift(s).

When should you call your Waiver Service Coordinator?

Whenever any of the following happens:

- Your services are not meeting your needs
- Your home situation changes
- Your health changes, which includes an accident or fall
- You make a trip to the emergency room
- You are admitted to a hospital or nursing home
- You are unhappy with a provider or service

- You have any other concern or problem with the care you are receiving
- You believe the current person-centered service plan is no longer meeting your needs, and you need more services to stay safely in your home.
- To report an “Incident” (described later in this handbook)
- If a service provider does not show or cancels a service

If you can't reach your Waiver Service Coordinator, you can contact your Care Manager at (855) 895-9986 or TTY/TDD 711. You can also call Member Services at (855) 665-4623 or TTY/TDD 711 with any concerns or problems.

Transition Period

This section applies to individuals who were enrolled on any of the Medicaid waivers (PASSPORT, Assisted Living, or Ohio Home Care) immediately prior to enrolling on the MyCare Ohio Waiver.

In order to minimize service disruption, your existing service levels and providers will be maintained for a pre-determined amount of time, depending upon the type of service. Your services and service providers will remain in place for a limited time, with some exceptions as follows.

Exceptions:

During the transition period, change from the existing services or provider can occur in the following circumstances:

1. You request a change;
2. There is a significant change in your health, your condition, or your needs;
3. Your provider gives notice of their intent to discontinue services;
4. Provider performance issues are identified that affect your health & welfare.

So long as one of the above exceptions does not apply, your existing service levels and providers will be maintained while you are enrolled on the MyCare Ohio Waiver as follows:

Direct Care Waiver Services:

Personal care, Waiver Nursing, Home Care Attendant, Choices Home Care Attendant, Out-of-Home Respite, Enhanced Community Living, Adult Day Health Services, Social Work Counseling, Community Integration.

If you were receiving any of these Medicaid waiver services while enrolled on one of the Medicaid waivers immediately prior to enrolling on the MyCare Ohio Waiver, you can continue to receive these services at the same authorized level and with the same service provider(s) for at least 365 days from the date you enrolled in the MyCare Ohio Waiver.

Assisted Living Waiver services:

If you were receiving Assisted Living service while enrolled on the Assisted Living Medicaid Waiver immediately prior to enrolling on the MyCare Ohio Waiver, you can continue to receive the authorized Assisted Living service from the same provider for the entire time you are enrolled in the MyCare Ohio Waiver.

All other Waiver services:

For all other Waiver services that you were receiving while enrolled on one of the Medicaid waivers immediately prior to enrolling on the MyCare Ohio Waiver, those services can be maintained at the same authorized level for at least 365 days after enrollment in the MyCare Ohio Waiver. The same service provider(s) can be maintained for at least 90 days.

End of Transition Period:

Just because the transition period ends, does not necessarily mean that your services or providers will change. Prior to the conclusion of the transition period, your Waiver Services Coordinator will meet with you to review your care plan and discuss any needed changes in services or providers. If a change in provider is required for any reason, you will be provided with information regarding other available providers.

Self-Directed Opportunities

If you have a need for certain services, as determined by your Waiver Care Manager and Care Team, you, or your authorized representative, may have the option to self-direct some of your services.

Self-directing services includes assuming **Employer Authority and/or Budget Authority**.

Employer Authority means you will assume responsibilities of being your worker's employer. You will be responsible to recruit, hire, train, direct, and even terminate that worker from providing care to you if necessary. The option to have Employer Authority may only be available if your Waiver Service Coordinator, Care Manager, and Care Team determined that you need either of the following services:

- Individual Personal Care service; or
- Individual Choices Home Care Attendant service

Budget Authority means you will assume responsibility for establishing a rate of pay with the service provider(s) within certain parameters, and scheduling when and how services are to be provided to you within the budgeted amount established by you and your Waiver Services Coordinator. The option to have Budget Authority may only be available if your Waiver Service Coordinator, Care Manager, and Care Team determined you need any of the following services:

- Choices home care attendant service
- Alternative meals service
- Pest control jobs, and maintenance/repair jobs furnished under the Home Maintenance and Chore service
- Home modification
- Home medical equipment and supplemental adaptive and assistive devices service

Employer Responsibilities:

The responsibilities of directing your worker requires certain abilities. Before you may self-direct your care, your ability and willingness to learn about the expectations of an employer must first be considered. When you chose to exercise employer authority you must utilize the MyCare Ohio Financial Management Services (FMS) vendor who will processing payroll for your worker. In addition, you must establish an email account so you can access and use the online FMS vendor's timesheet approval system. If you are unable to establish an email account of your own, you may appoint a trusted friend or family member as your authorized representative who has email to help you set up your account with the FMS vendor and help you approve timesheets (however, this may not be your employee).

How to Request Self-Direction of Your Services:

If you believe self-directing services is right for you, and are interested in directing your own care, you should tell your Waiver Service Coordinator or Care Manager.

If you have questions, please call Molina Dual Options MyCare Ohio at (855) 665-4623 or TTY/TDD 711, from Monday - Friday, 8 a.m. to 8 p.m. local time. The call is free.

For more information, visit MolinaHealthcare.com/Duals. A waiver services coordinator or a care manager can be contacted at any time at (855) 895-9986 or TTY/TDD 711.

Self-Directing Services in Previous Medicaid Waiver:

If you were already self-directing your services through a Medicaid waiver immediately before enrolling into the MyCare Ohio Waiver, you may keep your current provider for up to one year with the same service amount at the same rate, unless any of the following happens:

- You no longer have an assessed need for one of these services;
- You or your authorized representative is no longer able to fulfill the responsibilities of the employer;
- You no longer have an authorized representative, if required;
- Your health and welfare are at risk as determined by your Waiver Service Coordinator.
