INTRODUCTION

We are pleased to provide the 2015 *Molina Healthcare of South Carolina Preferred Drug List* as a useful reference and informational tool. This document can assist medical providers in selecting clinically-appropriate and cost-effective products for their patients.

The drugs represented have been reviewed by a Pharmacy and Therapeutics (P&T) Committee and are approved for inclusion. The document is reflective of current medical practice as of the date of review.

The information contained in this document and its appendices is provided solely for the convenience of medical providers. We do not warrant or assure accuracy of such information nor is it intended to be comprehensive in nature. All the information in the document is provided as a reference for drug therapy selection.

The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

We assume no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.

PREFACE

The document is organized by sections. Each section is divided by therapeutic drug class primarily defined by mechanism of action. Products are listed by generic name with brand name for reference only. Unless the cited drug is available as an injectable or an exception is specifically noted, generally, all applicable dosage forms and strengths of the drug cited are included in the document.

PHARMACY AND THERAPEUTICS (P&T) COMMITTEE

The services of a Pharmacy and Therapeutics Committee ("P&T Committee") are utilized to approve safe and clinically effective drug therapies. The P&T Committee is an advisory body of experts. The P&T Committee's voting members include physicians and pharmacists, all of whom have a broad background of clinical and academic expertise regarding prescription drugs. Voting members of the P&T Committee must disclose any financial relationship or conflicts of interest with any pharmaceutical manufacturers.

DRUG LIST PRODUCT DESCRIPTIONS

To assist in understanding which specific strengths and dosage forms on the document are covered, general principles are noted below.

- Listed products on the document generally include all strengths and dosage forms of the cited brand-name product.
- When a strength or dosage form is specified, only the specified strength and dosage form is on the document. Other strengths/dosage forms, including injectable dosage forms of the reference product are not.
- If the OTC and Prescription versions of the product are covered, then both are listed.
- Extended-release and delayed-release products require their own entry.
- Dosage forms on the document will be consistent with the category and use where listed.

GENERIC SUBSTITUTION

Generic substitution is a pharmacy action whereby a generic version is dispensed rather than a prescribed brand-name product. **Boldface type** indicates generic availability. However, not all strengths or dosage forms of the generic name in boldface type may be generically available. In most instances, a brand-name drug for which a generic product becomes available will become non-preferred, with the generic product covered in its place, upon release of the generic product onto the market. However, the document is subject to state specific regulations and rules regarding generic substitution and mandatory generic rules apply where appropriate.

Generic drugs are usually priced lower than their brand-name equivalents. Prescription generic drugs are:

- Approved by the U.S. Food and Drug Administration for safety and effectiveness, and are manufactured under the same strict standards that apply to brand-name drugs.

- Tested in humans to assure the generic is absorbed into the bloodstream in a similar rate and extent compared to the brand-name drug (bioequivalence). Generics may be different from the brand in size, color and inactive ingredients, but this does not alter their effectiveness or ability to be absorbed just like the brand-name drug.
- Manufactured in the same strength and dosage form as the brand-name drugs.

When a generic drug is substituted for a brand-name drug, you can expect the generic to produce the same clinical effect and safety profile as the brand-name drug (therapeutic equivalence).

PLAN DESIGN

The document represents a closed drug list plan design. The medications listed on the document are covered by the plan as represented. Certain medications on the list are covered if utilization management criteria are met (i.e. Step Therapy, Prior Authorization, Quantity Limits, etc.); requests for use of such medications outside of their listed criteria will be reviewed for medical necessity. If a medication is not listed on the document, a preferred drug list exception may be requested for coverage. Medical necessity or preferred drug list exception requests will be reviewed based on drug-specific prior authorization criteria or standard non-preferred prescription request criteria. Log in to www.molinahealthcare.com to check coverage.

Note: To promote safety in dosing, some medications are subject to age and dosing restrictions (i.e., edits) as per their respective FDA labeling and not denoted with AGE and/or QL indicators. Prior authorization may be required for doses or age limits outside the FDA recommendations.

PLAN DESIGN HIGHLIGHTS

Copay:	Molina Healthcare of SC (member age 19 years and older): \$3.40 copay per prescription and refill.
	Molina Healthcare of SC (member age under 19 years): \$0 copay per prescription and refill.

In an effort to encourage adherence to high-value medications, the following classes of medications are exempt from the copay effective July 1, 2014.

- Antidiabetic medications (e.g., insulin, metformin, sulfonylureas, thiazolidinediones, DPP-4 inhibitors, GLP-1 receptor antagonists)
- Cardiovascular medications (e.g., statins and other lipid lowering agents, anti-hypertensives, diuretics, anti-arrhythmics, anticoagulants)
- Behavioral health medications (e.g., antipsychotics, antidepressants)
- Anticonvulsants
- Systemic antibiotics and antivirals

PRESCRIPTION QUANTITIES

Prescriptions should be written for a therapeutic supply of medications (the amount to appropriately treat a medical condition) up to a maximum of a 31-day supply. Trial quantities may be used when trying new treatments, if appropriate.

MONTHLY PRESCRIPTION LIMITS

Members ages 21 and older are limited to four (4) prescriptions per month. Certain medications are excluded from this limit and additionally, exceptions can be made on a case by case basis. To ask questions regarding this program or to request an Exception form, please contact the Pharmacy Department at 1-855-237-6178.

NON-COVERED MEDICATIONS

Please note that certain medications are not covered. These include, but are not limited to:

- Appetite Suppressants / Anorexiants for weight loss (except for lipase inhibitors)
- Drugs for Cosmetic Purposes, including hair growth
- Drugs used to treat infertility
- Drugs used to treat erectile dysfunction
- Pharmaceuticals determined by the Federal Drug Administration (FDA) to be less than effective and identical, related, or similar drugs (frequently referred to as "DESI" drugs)
- Experimental or Investigational Medications
- Progesterone Suppositories

- Convenience Dosage Forms (Transdermal Patches) not Listed in the Preferred Drug List
- OTC (Over-the-Counter non-prescription medications) unless specifically listed in the Preferred Drug List
- OTC Analgesics unless specifically listed in the Preferred Drug List
- OTC Cough and Cold products unless specifically listed in the Preferred Drug List
- OTC Vitamin and mineral products including calcium supplements/TUMS unless specifically listed in the Preferred Drug List

PRIOR AUTHORIZATION REQUEST PROCEDURE

Prescriptions for medications requiring prior approval or for medications not included on the Molina Preferred Drug List may be approved when medically necessary and when preferred drug list options have demonstrated ineffectiveness. When these exceptional situations arise, the physician may fax a completed drug prior authorization form to Molina at 1-855-571-3011. The forms may be obtained by logging into the website www.molinahealthcare.com. Trials of pharmaceutical samples will not be considered as rationale for approving a prior authorization request.

PRIOR AUTHORIZATION HELPFUL HINTS

To ensure the quickest response possible from Molina Healthcare of South Carolina's Pharmacy Department, please provide relevant information with the Prior Authorization request. The following are examples:

Class of Medication/Diagnosis

Requested Clinical Information

Cholesterol Lowering

Lipid Panel, Cardiovascular risk factors

Diabetes

A1c Report

Osteoporosis

T-score

Opioid dependence/addiction

Urine screen

Non-Preferred Medication

Medication Log and/or Progress Notes documenting previous use of Preferred Drug List medications

*NOTE: Samples given to members in providers' offices do not constitute evidence of existing therapy on a medication for prior authorization purposes. When choosing to provide samples, providers should choose only samples of medications on the Molina Healthcare preferred drug list.

REQUESTING PREFERRED DRUG LIST CHANGES

If you are a prescriber and would like to request a preferred drug list change, please submit your request and rationale to Molina's Pharmacy Department with your contact information.

Fax: 1-855-571-3011

URGENT AND AFTER-HOURS MEDICATION POLICY

To prevent a member's condition from worsening in an urgent situation, it may be necessary to dispense a 5-day supply of a medication before prior authorization may be obtained from Molina. (e.g., a member is discharged from a hospital after regular business hours with a special antibiotic prescription). Pharmacies are instructed to use their professional judgment and should not use this process to dispense medications that are specifically excluded from the pharmacy benefit. At the point of sale, pharmacies may enter a PAMC code of 11112222333 to allow for one-time processing of a 5-day supply of medication. This code should be submitted in the PA Auth code section on the claim. Successive 5-day supplies for a single prescription are not permitted.
