Call 911 or go to the nearest hospital/emergency facility if you think you need emergency care and help getting to the emergency room. If you get care, call your doctor to schedule a follow up visit. Call Molina and let us know of the emergency care you received.

Molina defines an emergency as a condition in which you think you have a serious medical condition, and not getting care right away will be a threat to your/your child's health, life, limb or sight.

Molina may need to approve this. Emergency care does not need approval from Molina. Emergency care does not need to be approved by your doctor.

Early Childhood Intervention

What is Early Childhood Intervention (ECI)?

ECI is a statewide program for families with children, birth to three, with disabilities and developmental delays. ECI supports families to help their children reach their potential through developmental services. Services are provided by a variety of local agencies and organizations across Texas.

ECI provides evaluations and assessments, at no cost to families, to determine eligibility and need for services. Families and professionals work as a team to plan appropriate services based on the unique needs of the child and family. ECI asks families who can afford to do so, to share in the cost of services. The amount a family pays for ECI services is determined using a sliding fee scale and is based on family size and income after allowable deductions. No child and family will be turned away because of an inability to pay.

ECI goes to families and focuses on working with the child and family in their natural environment, such as at home, grandma's house, or a child care center. Essentially, it's where children live, learn and play.

Research shows that growth and development are most rapid in the early years of life. The earlier problems are identified, the greater the chance of reducing the impact of them. Early intervention responds to the critical needs of children and families by:

- promoting development and learning,

- providing support to families,
- coordinating services, and
- decreasing the need for costly special programs.

If you have a child age birth to 36 months with a developmental delay or disability, Early Childhood Intervention Services (ECI) may be able to help you and your child. Services are provided in the home and in other places where your child goes regularly, for example, a childcare center, park, library, or other community setting.

ECI services feature:

- Individualized Planning Process
- Family-Centered Services
- Case Management
- Familiar Settings
- Professional Providers
- Plans for Continuing Services
- ECI programs provide services in every Texas county.

ECI is here to help and can become an important resource for all families. For more information about ECI or to refer a child, call the DARS Inquiries Line at (800) 628-5115.

Do I need a referral for this?

A medical diagnosis or a confirmed developmental delay is not needed to refer. As soon as a delay is suspected, children may be referred to ECI, even as early as birth.

Where do I find an ECI provider?

To locate the ECI program that serves your area, visit The Texas Department of Assistive and Rehabilitative Services (DARS) website at <https://citysearch.hhsc.state.tx.us/>, select the city or county where you live from the drop-down menu and click the “Search” button.

One or more ECI programs will appear along with the address, phone numbers, email and Web site (if available).

There may be several ECI programs in your city or county. To narrow your search, enter your home zip code and click the “Search” button. If more than one ECI program serves this zip code, you may contact any ECI program from the list and they will either forward your information to the correct ECI program or provide you the contact information so you may directly contact the program that serves your zip code.

Rights and Responsibilities

These right and responsibilities are posted in doctors' offices. They are also posted at MolinaHealthcare.com.

What are my rights and responsibilities?

Member Rights

1. You have the right to get accurate, easy-to-understand information to help you make good choices about your child's health plan, doctors, hospitals, and other providers.
2. Your health plan must tell you if they use a "limited provider network." This is a group of doctors and other providers who only refer patients to other doctors who are in the same group. "Limited provider network" means you cannot see all the doctors who are in your health plan. If your health plan uses "limited networks," you should check to see that your child's primary care provider and any specialist doctor you might like to see are part of the same "limited network."
3. You have a right to know how your doctors are paid. Some get a fixed payment no matter how often you visit. Others get paid based on the services they give to your child. You have a right to know about what those payments are and how they work.
4. You have a right to know how the health plan decides whether a service is covered or medically necessary, regardless of cost or benefit coverage. You have the right to know about the people in the health plan who decide those things.

5. You have a right to know the names of the hospitals and other providers in your health plan and their addresses.
6. You have a right to pick from a list of health care providers that is large enough so that your child can get the right kind of care when your child needs it.
7. If a doctor says your child has special health care needs or a disability, you may be able to use a specialist as your child's primary care provider. Ask your health plan about this.
8. Children who are diagnosed with special health care needs or a disability have the right to special care.
9. If your child has special medical problems, and the doctor your child is seeing leaves your health plan, your child may be able to continue seeing that doctor for three months, and the health plan must continue paying for those services. Ask your plan about how this works.
10. Your daughter has the right to see a participating obstetrician/gynecologist (OB/GYN) without a referral from her primary care provider and without first checking with your health plan. Ask your plan how this works. Some plans may make you pick an OB/GYN before seeing that doctor without a referral.
11. Your child has the right to emergency services if you reasonably believe your child's life is in danger, or that your child would be seriously hurt without getting treated right away. Coverage of emergencies is available without first checking with your health plan. You may have to pay a copayment depending on your income. Copayments do not apply to CHIP Perinatal Members.
12. You have the right and responsibility to take part in all the choices about your child's health care.
13. You have the right to speak for your child in all treatment choices.
14. You have the right to get a second opinion from another doctor in your health plan about what kind of treatment your child needs.
15. You have the right to be treated fairly by your health plan, doctors, hospitals, and other providers.
16. You have the right to talk to your child's doctors and other providers in private, and to have your child's medical records kept private. You have the right to look over and copy your child's medical records and to ask for changes to those records.
17. You have the right to a fair and quick process for solving problems with your health plan and the plan's doctors, hospitals and others who provide services to your child. If your health plan says it will not pay for a covered service or benefit that your child's doctor thinks is medically necessary, you have a right to have another group, outside the health plan, tell you if they think your doctor or the health plan was right.
18. You have a right to know that doctors, hospitals, and others who care for your child can advise you about your child's health status, medical care, and treatment. Your health plan cannot prevent them from giving you this information, even if the care or treatment is not a covered service.
19. You have a right to know that you are only responsible for paying allowable copayments for covered services. Doctors, hospitals, and others

cannot require you to pay any other amounts for covered services.

You have the right to suggest changes to Molina Healthcare's member rights and responsibility policy.

You have the right to submit a bill for covered services if applicable, please submit to:

Molina Healthcare
Member Inquiry Research & Resolution
PO BOX 165089
Irving, TX 75016

Member Responsibilities

You and your health plan both have an interest in seeing your child's health improve. You can help by assuming these responsibilities.

1. You must try to follow healthy habits. Encourage your child to stay away from tobacco and to eat a healthy diet.
2. You must become involved in the doctor's decisions about your child's treatments.
3. You must work together with your health plan's doctors and other providers to pick treatments for your child that you have all agreed upon.
4. If you have a disagreement with your health plan, you must try first to resolve it using the health plan's complaint process.
5. You must learn about what your health plan does and does not cover. Read your Member Handbook to understand how the rules work.

6. If you make an appointment for your child, you must try to get to the doctor's office on time. If you cannot keep the appointment, be sure to call and cancel it.
7. If your child has CHIP, you are responsible for paying your doctor and other providers copayments that you owe them. If your child is getting CHIP Perinatal services, you will not have any copayments for that child.
8. You must report misuse of CHIP or CHIP Perinatal services by health care providers, other members, or health plans.
9. You must talk to your provider about your medications that are prescribed.

If you think you have been treated unfairly or discriminated against, call the U.S. Department of Health and Human Services toll-free at 1-800-368-1019. You also can view information concerning the HHS Office of Civil Rights online at www.hhs.gov/ocr.

Advance Directives

All members have the right to accept or refuse treatment offered by a provider. However, what if you are not able to tell the provider what you want? To avoid decisions that may be made against your will, it is important to have an Advance Directive.

An Advance Directive is a legal form that tells medical providers what kind of care you want if you cannot speak for yourself. You can write an Advance Directive before you have an emergency. This keeps other people from making

important health decisions for you if you are not well enough to make your own. There are different types of Advance Directive forms. Some examples are:

- Power of Attorney for Health Care
- Living Will

It is your choice to complete an Advance Directive. No one can deny you care based on whether or not you have an Advance Directive. Talk with someone you trust, like a family member or friend. They can help you make decisions about your health care. You can also talk with your lawyer or PCP if you have questions, or would like to complete an Advance Directive form.

You may call Molina Healthcare to get information on how to obtain Advance Directive forms that comply with applicable state laws.

If you have signed an Advance Directive and you believe the provider has not followed your instructions, you may file a complaint. Please visit the website at MolinaHealthcare.com or call Member Services for more information on how to file a complaint.

For example: the attempt to obtain reimbursement for items or services where there was no intent to deceive or misrepresent, however the outcome of poor or inefficient billing methods (e.g. coding) causes unnecessary costs to the Medicaid/Medicare programs.
