Molina Healthcare of Utah (Molina) complies with all Federal civil rights laws that relate to healthcare services. Molina offers healthcare services to all members without regard to race, color, national origin, age, disability, or sex. Molina does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex. This includes gender identity, pregnancy and sex stereotyping.

To help you talk with us, Molina provides services free of charge:

- Aids and services to people with disabilities
 - Skilled sign language interpreters
 - Written material in other formats (large print, audio, accessible electronic formats, Braille)
- Language services to people who speak another language or have limited English skills
 - Skilled interpreters
 - Written material translated in your language
 - Material that is simply written in plain language

If you need these services, contact Molina Member Services at (888) 483-0760, TTY: (800) 346-4128.

If you think that Molina failed to provide these services or treated you differently based on your race, color, national origin, age, disability, or sex, you can file a complaint. You can file a complaint in person, by mail, fax, or email. If you need help writing your complaint, we will help you. Call our Civil Rights Coordinator at (866) 606-3889, or TTY, 711. Mail your complaint to:

Civil Rights Coordinator
200 Oceangate
Long Beach, CA 90802

You can also email your complaint to civil.rights@molinahealthcare.com. Or, fax your complaint to (801) 858-0409.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights. Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>. You can mail it to:

U.S. Department of Health and Human Services
200 Independence Avenue, SW
Room 509F, HHH Building
Washington, D.C. 20201

You can also send it to a website through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>.

INTRODUCTION

We are pleased to provide the 2019 Molina Healthcare of Utah Preferred Drug List (CHIP Formulary) as a useful reference and informational tool. This document can assist medical providers in selecting clinically-appropriate and cost-effective products for their patients.

The drugs represented have been reviewed by a Pharmacy and Therapeutics (P&T) Committee and are approved for inclusion. The document is reflective of current medical practice as of the date of review.

The information contained in this document and its appendices is provided solely for the convenience of medical providers. We do not warrant or assure accuracy of such information nor is it intended to be comprehensive in nature. All the information in the document is provided as a reference for drug therapy selection.

The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

We assume no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.

PREFACE

The document is organized by sections. Each section is divided by therapeutic drug class primarily defined by mechanism of action.

PHARMACY AND THERAPEUTICS (P&T) COMMITTEE

The services of a Pharmacy and Therapeutics Committee ("P&T Committee") are utilized to approve safe and clinically effective drug therapies. The P&T Committee is an advisory body of clinical professionals. The P&T Committee's voting members include physicians and pharmacists, all of whom have a broad background of clinical and academic expertise regarding prescription drugs. Voting members of the P&T Committee must disclose any financial relationship or conflicts of interest with any pharmaceutical manufacturers.

DRUG LIST PRODUCT DESCRIPTIONS

To assist in understanding which specific strengths and dosage forms on the document are covered, general principles are noted below.

- The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., LIPITOR). Generic drugs are listed in lowercase italics (e.g., atorvastatin).
- The second column (labeled Drug Tier) will list what tier the drug is placed on in the Drug Formulary.
- The third column (Requirements/Limits) contains any special requirements for coverage of your drug.
- If both the OTC and Prescription versions of the product are covered, then both are listed.
- Extended-release and delayed-release products require their own entry.
- Dosage forms on the document will be consistent with the category and use where listed.

GENERIC SUBSTITUTION

Generic substitution is a pharmacy action whereby a generic version is dispensed rather than a prescribed brand-name product. In this document, *lowercase italicized* type indicates generic availability. In most instances, a brand-name drug for which a generic product becomes available will become non-formulary, with the generic product covered in its place, upon release of the generic product to the market. However, the document is subject to state specific regulations and rules regarding generic substitution and mandatory generic rules apply where appropriate.

Generic drugs are usually priced lower than their brand-name equivalents. Prescription generic drugs are:

- Approved by the U.S. Food and Drug Administration for safety and effectiveness, and are manufactured under the same strict standards that apply to brand-name drugs.
- Tested in humans to assure the generic is absorbed into the bloodstream in a similar rate and extent compared to the brand-name drug (bioequivalence). Generics may be different from the brand in size, color and inactive ingredients, but this does not alter their effectiveness or ability to be absorbed just like the brand-name drug.

- Manufactured in the same strength and dosage form as the brand-name drugs.

When a generic drug is substituted for a brand-name drug, you can expect the generic to produce the same clinical effect and safety profile as the brand-name drug (therapeutic equivalence).

PLAN DESIGN

The document represents a closed formulary plan design. Drugs represented on the document may have varying cost to the plan member. Generic medications typically are available at the lowest cost, brand-name medications on the document will generally cost more than generics, and medications not on the list will generally cost the most.

	Plan A	Plan B	Plan C	Plan D
Preferred Generic	\$1	\$5	\$15	\$0
Preferred Brand	\$1	5%	25%	\$0
Non-Preferred Drugs	5%	5%	50%	\$0

The tiered format places drugs into tiers in the following manner:

Tier 1: Preferred Generic Drugs

Tier 2: Preferred Brand Drugs

Tier 3: Non-Preferred Drugs: Medications not listed on the document are considered Non-Preferred

The medications listed on the document are covered by the plan as represented. Certain medications on the list are covered if utilization management criteria are met (i.e., Step Therapy, Prior Authorization, Quantity Limits, etc.); requests for use of such medications outside of their listed criteria will be reviewed for medical necessity. If a medication is not listed on the document, a formulary exception may be requested for coverage. Medical necessity or formulary exception requests will be reviewed based on drug-specific prior authorization criteria or standard non-formulary prescription request criteria. Log in to www.molinahealthcare.com to check coverage.

PRIOR AUTHORIZATION REQUEST PROCEDURE

Prescriptions for medications requiring prior approval or for medications not included on the Molina Drug Formulary may be approved when medically necessary and when formulary options have demonstrated ineffectiveness. When these exceptional situations arise, the physician may fax a completed drug prior authorization form to Molina at (866) 497-7448. The forms may be obtained by logging into the website www.molinahealthcare.com. Trials of pharmaceutical samples will not be considered as rationale for approving a prior authorization request.

PRIOR AUTHORIZATION HELPFUL HINTS

To ensure the quickest response possible from MHU Pharmacy Department, please provide relevant information with the Prior Authorization request. The following are examples:

Class of Medication/Diagnosis	Requested Clinical Information
Cholesterol Lowering	Lipid Panel, Cardiovascular risk factors
Diabetes	A1c Report
Non-Formulary/Non-Preferred Medication	Medication Log and/or Progress Notes documenting previous use of Formulary medications

CATEGORIES OF CONSIDERATION

OPIOID ANALGESICS

All Opioid Analgesics are subject to a Morphine Equivalent Dose of 90 mg per day. Concurrent use of opioids with benzodiazepines or muscle relaxants is excluded.

EXCLUDED SERVICES

Please note that certain medications are excluded. These include, but are not limited to:

- Drugs not eligible for Federal Medicaid funds
- Drugs for anorexia, weight loss or weight gain
- Drugs to promote fertility
- Drugs for cosmetic purposes or hair growth
- Drugs for the symptomatic relief of cough and colds, except for the medications listed on the preferred drug list
- Vitamins, except for Prenatal vitamins for pregnant women and vitamin drops with or without fluoride, for children through age five (5)
- Fluoride supplements
- Nonprescription drugs (Over-The-Counter or OTC), except for the medications listed on the preferred drug list
- Drugs for which the manufacturer requires, as a condition of sale, that associated tests and monitoring services are purchased exclusively from the manufacturer or its designee
- Drugs for the treatment of sexual or erectile dysfunction
- Drugs given by a hospital to a patient at discharge (take-home drugs)
- Breast milk, breast milk substitutes, baby food or medical foods, prescription metabolic products for in-born errors of metabolism (e.g. phenylketonuria and maple syrup urine disease) as defined in the Utah Medicaid Provider Manual
- Drugs available only through single-source distribution programs, unless the distributor is enrolled with Utah Medicaid as a pharmacy provider
- Experimental or Investigational Medications
- Convenience Dosage Forms (Transdermal Patches), not listed in the Drug List
- Pharmaceuticals determined by the Federal Drug Administration (FDA) to be less than effective and identical, related or similar drugs (frequently referred to as "DESI 5 and 6" drugs)
- Drug product not in Medicaid Drug Rebate Program
