## About Medicare

Medicare is health insurance for people who are 65 years old or older, or who are under 65 years old with certain disabilities.

Original Medicare is a Federal Insurance Program. It pays a fee for your care directly to the doctors and hospitals you visit. Original Medicare does not cover most preventive care and has unpredictable out-of-pocket expenses.

**Medicare Part A (Hospital Insurance)** covers inpatient care in hospital, skilled nursing facilities, hospice care, and some home health care services.

---

**Medicare Part B (Medical Insurance)** covers certain doctors' services, outpatient care, medical supplies and preventive services.

---

**Medicare Part C (Medicare Advantage)** is an all-in-one alternative to Original Medicare. Medicare Advantage plans include Parts A, B and usually Part D. Some Medicare Advantage plans may have lower out-of-pocket costs than Original Medicare and may cover extra benefits that Original Medicare doesn't – like dental, vision or hearing. Medicare pays a fixed fee to the plan for your care, and then the plan directly pays the doctors and hospitals. Medicare Advantage has predictable out-of-pocket expenses and offers preventive care and care coordination.

**Medicare Part D (Prescription Drug Coverage)**

## Coverage Stages

### **Stage 1: Initial Coverage**

You begin this stage when you fill your first prescription of the year. During this stage, the plan pays its share of the cost of your drugs and you pay your share of the cost. If you reside in a long-term care facility, you pay the same as at a retail pharmacy. You may get drugs from an out-of-network pharmacy at the same cost as an in-network pharmacy. You stay in this stage until your year-to-date "total drug costs" (your payments plus any Part D plan payments) total \$4,130.

### **Stage 2: Gap Coverage**

During this stage, you pay 25% of the price for brand name drugs (plus a portion of the dispensing fee) and 25% of the price for generic drugs. You stay in this stage until your year-to-date "out-of-pocket costs" (your payments) reach a total of \$6,550. This amount and rules for counting costs toward this amount have been set by Medicare.

### **Stage 3: Catastrophic Coverage**

After your yearly out-of-pocket drug costs (including drugs purchased through your retail pharmacy and through mail order) reach \$6,550, you pay the greater of:

- 5% of the cost, or
- \$3.70 for a generic drug or a drug that is treated like a generic and \$9.20 for all other drugs.
