-40 to -58.0°

**MIN & MAX OK.**

- a. Press MEMORY CLEAR/ RESET buttons.
- b. Make sure freezer door is shut. Done.

**OK**

If temperatures go below -58.0°F, report excursion at [MyVFCvaccines.org](https://MyVFCvaccines.org).

\* For data loggers, check instructions in product guide and at [EZIZ.org/assets/docs/IMM-1206.pdf](http://EZIZ.org/assets/docs/IMM-1206.pdf).

## Supervisors

**Review log and sign when completed. Keep logs and excursion reports for 3 years.**

I certify that temperatures recorded on this log are correct. All temperatures that were TOO WARM are circled and corrective action was taken. I understand that falsifying logs will result in vaccines being unusable—patients may need to be revaccinated and provider may need to replace vaccines.
