

MOLINA HEALTHCARE OF CALIFORNIA

Guideline for the Management of High Blood Pressure in Adults

Molina Healthcare has adopted the Guideline for the Prevention, Detection, Evaluation and Management of High Blood Pressure in Adults from the American College of Cardiology.

The guideline was reviewed and adopted most recently by the Molina Healthcare National Quality Improvement Committee on April 3, 2019.

Clinical guidelines are not used by Molina to decide benefit coverage. The guidelines are an educational tool to aid clinical decision-making. They are not a standard of care. The physician should adapt the guideline when clinical judgment so indicates.

The Clinical Practice Guideline may be accessed at:
