Performance Enhancement Program

This is an advisory notification to Molina Healthcare of California (MHC) network providers.

Effective 2018, MHC's new strategic goal is to focus on reaching the 50th percentile in all HEDIS and Stars related health care measures. To achieve this goal, MHC has identified the need to collaborate with provider groups and IPA's that support our contracted providers.

MHC has created a new Performance Enhancement Program (PEP) to ensure our members are receiving the best quality care and our providers and IPA groups have the tools necessary to be successful.

MHC has scheduled webinars to go over materials related to the PEP as well as quality data that is available to each IPA and MSO. We invite you to please participate in one of the two upcoming sessions on Friday, August 31, 2018 or Wednesday, September 5, 2018**:**
