

Initiating a StationMD Visit

Call 1-877-STATMDS
(782-8637)

Registration for the telemedicine visit:

- Person's name, date of birth, and location
- Callback number
- Reason for call
- Vital signs (T, HR, BP, RR, Pulse Ox)

Navigator sets up
Telemedicine Visit

Navigator calls you to help connect your device to the visit and to confirm:

- Fax number
- Current list of meds and allergies
- Pharmacy (name & zip code)

Start the Telemedicine
Visit with the Provider

Launch StationMD icon and standby for the provider:

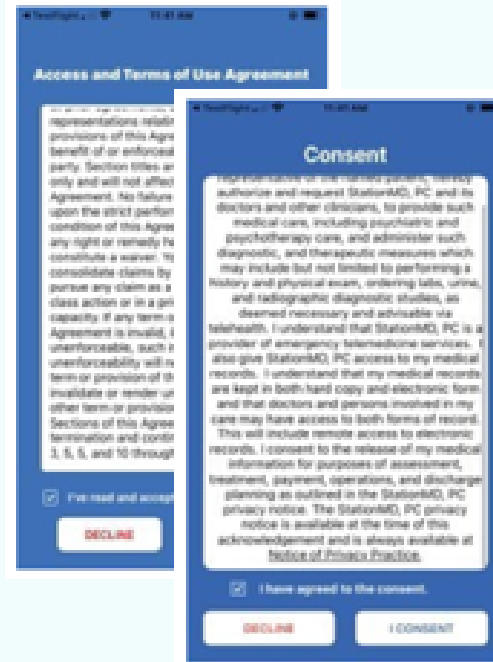

- Join with Video and Audio
- After the visit, documentation is sent:
 - Via fax
 - Entered into your electronic health record (if StationMD has access)
 - Through our portal (if designated to have access)

Please have device turned on, charged, and connected to Wi-Fi prior to initiating visit!

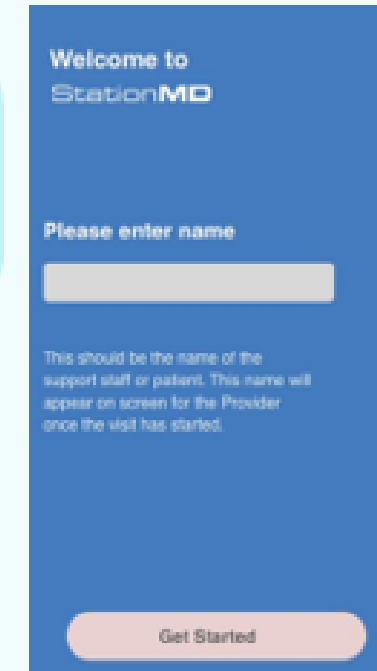

Starting your telemedicine visit

To initiate any visit, call **1-877-782-8637** first. When you are ready to start the visit, locate the app on your device and open it up to get started!

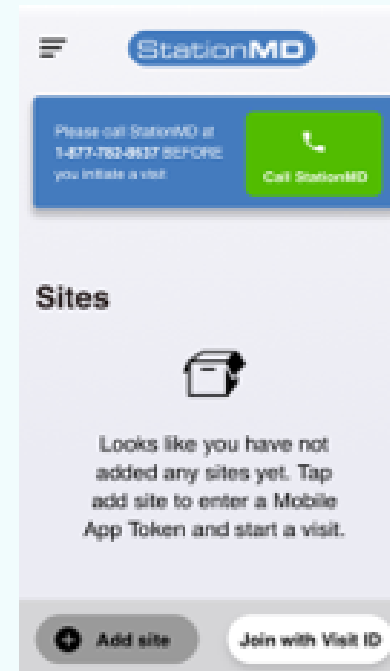

1 Review and agree to both the Terms of Use & Consent screens when using the app for the first time only.

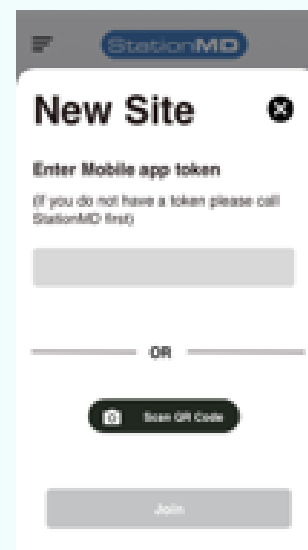

2 Enter a name. (This is what the doctor will see when you join the visit)

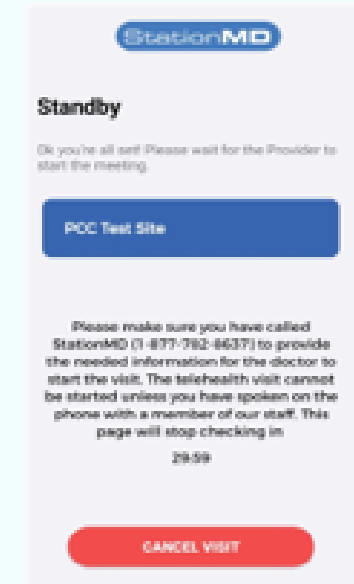

3 Tap "Add Site" If you already have a QR code, you can tap "add site" to enter. If you don't have a QR code, you will be given a mobile app token when you call. Once you enter your token, you can tap "Add Site" to enter. Once the site is entered, it will appear in your list of sites.

4 Enter your mobile app token (or scan QR code). This only needs to be done once per site.

5 Wait for the doctor to start the visit.

Download and Use the **StationMD Mobile App**: Search "**StationMD**" in the Google Play or Apple App Store
