## **Guideline for the Management of High Blood Pressure in Adults**

Molina Healthcare has adopted the Guideline for the Management of High Blood Pressure in Adults from the Journal of the American Medical Association (JAMA).

The guideline was reviewed and adopted most recently by the Molina Healthcare National Quality Improvement Committee on April 3, 2019.

Clinical guidelines are not used by Molina to decide benefit coverage. The guidelines are an educational tool to aid clinical decision-making. They are not a standard of care. The physician should adapt the guideline when clinical judgment so indicates.

The Clinical Practice Guideline may be accessed at:
