

Provider Communication:

Help Your Patients Complete Health Screenings and Earn Rewards

Molina Healthcare of Illinois has launched its 2020 incentive program which aims to boost member participation in services for preventive care and condition management. Molina providers play an important role in helping qualifying members complete these needed services and earning incentives. Gift cards can be used for basic household needs and incidentals.

The Pregnancy Rewards program has been in place for Illinois members since 2013 and this year's updates to the program include increased rewards for postpartum care. The Diabetic Care incentive program has been in place since 2016.

Molina mails information regarding the programs to members who have missing services to remind them to schedule appointments and information on how they can earn a reward. The mailers have a reply card that members must fill out and return to Molina to participate in the programs. No postage is necessary. Members who complete their missing services and required verification will receive their gift card(s) in the mail between four to six weeks after their claims are received.

Reward Program	Description	Member Incentive
Pregnancy Rewards Incentive Program — Prenatal Care	Existing qualifying Molina members may earn an incentive for completing their prenatal visit during the first trimester.	\$25 Walmart Gift Card
