

Provider Memorandum

2018 Provider Education Webinar Series

Molina Healthcare of Illinois (Molina) invites providers to attend provider education webinars. The webinar sessions will be hosted by the Molina provider engagement team.

Provider education webinars help providers learn about the resources available at MolinaHealthcare.com, and help educate providers on a variety of other important topics such as web portal functionality, claims submission options and appeals and grievances.

Providers may view the provider education webinar schedule online. Please visit Molina Healthcare's website and click on the "Health Care Professionals" tab. From there, click on the "Communications" tab and select the "Webinars & Events" option from the drop-down menu. Click on "2018 Provider Education Webinar Series" to view a schedule of trainings or register for trainings.

Webinar Schedule
