

Provider Memorandum

2019 Quality Incentive Program and HEDIS® Coding Booklet is now available

Molina Healthcare of Illinois (Molina) has released its new Quality Incentive Program for 2019. Molina has also posted the Healthcare Effectiveness Data and Information Set (HEDIS®) Coding Booklet on the Molina website.

These documents hop to help providers as they provider quality care and services for our members. To achieve the highest levels of quality, Molina offers the incentive program which rewards primary care providers with bonus payments after they successfully achieve the goals set for HEDIS® which are developed by the National Committee for Quality Assurance (NCQA).

As part of the incentive program, providers will be able to work throughout 2019 to achieve the highest quality of care for their assigned members while also earning bonus payments.
