Submitting Electronic Data Interchange (EDI) Claims

Look at all the benefits of using electronic claims submission:

- Ensures Health Insurance Portability and Accountability Act (HIPAA) compliance
- Helps to reduce operational costs associated with paper claims (printing, postage, etc.)
- Increases accuracy of data and efficient information delivery
- Reduces claims delays because errors can be corrected and resubmitted electronically
- Eliminates mailing time and claims reach Molina Healthcare (Molina) faster

EDI Claims Submission

Molina offers the following electronic claims submission options:

- Submit claims directly to Molina Healthcare of Illinois via the Provider Portal. See our Provider Web Portal Quick Reference Guide <https://provider.molinahealthcare.com> or contact your provider network manager for registration and claim submission guidance.
- Submit claims to Molina through your EDI clearinghouse using Payer ID 20934 and refer to our website www.MolinaHealthcare.com for additional information.

Frequently Asked Questions

- Can I submit coordination of benefits (COB) claims electronically?
 - Yes, Molina and our connected clearinghouses fully support electronic COB.
- Do I need to submit a certain volume of claims to send EDI?
 - No, any number of claims via EDI saves both time and money.

- Which clearinghouses are currently available to submit EDI claims to Molina?
 - Molina Healthcare uses Change Healthcare as our channel partner for EDI claims. You may use the clearinghouse of your choice. Change Healthcare partners with hundreds of other clearinghouses.
- What claims transactions are currently accepted for EDI transmission?
 - 837P (Professional claims), 837I (Institutional claims).
- Will you continue to accept paper claims?
 - While Molina requires providers to utilize EDI claims submission options, there are certain circumstances where exceptions may be made. For more information contact your provider network manager.
- What if I still have questions?
 - More information is available at www.MolinaHealthcare.com under the EDI tab. You may also call or email us using the contact information below.

Note: Providers please ensure you are registered for EFT for all participating lines of business.

Are You Culturally Competent?

Cultural and linguistic competency is the ability to provide respectful and responsive care to members with diverse values, beliefs and behaviors, including tailoring health care delivery to meet members' social, cultural and linguistic needs.

The National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care (National CLAS Standards), developed by the Health and Human Services

Office of Minority Health, aim to improve health care quality and advance health equity by establishing a collective set of mandates and guidelines that inform, guide and facilitate culturally and linguistically appropriate services.

Communicating Across Cultures

Clear communication is the foundation of culturally and linguistically competent care.

Guiding the conversation

- Initial greetings can set the tone for an interaction. If the patient's preference is not clear, ask how he or she would like to be addressed (i.e., Mr. Jones, Michael, Ms. Gonzalez).
- Ask open-ended questions whenever possible.
- Some individuals can tell you more about themselves through story telling than by answering direct questions.
- Inquire about preferred language and preferred method of communication (i.e. written, spoken, graphics, sign language, assistive listening devices, etc.).
- Consider treatment plans with respect to the patient's culture-based beliefs about health.
- Ask about any complimentary or alternative medicine possibly used by the patient.

Assisting patients whose first language is not English

- Speak slowly and try not to raise your voice.
- Use simple words and avoid jargon.
- Do not use acronyms, idioms and avoid technical language if possible. (i.e., shot vs. injection).
- Please articulate words.
- Give information in small chunks and short sentences.
- Repeat important information and have the patient repeat information back to you.
- Inform the interpreter of any specific patient needs.
- Hold a brief introductory discussion.
- Reassure the patient about confidentiality.
- Allow enough time for the interpreted sessions.
- Avoid interrupting during interpretation.
- Speak in the first person.
- Talk to the patient directly, rather than addressing the interpreter.

Please remember that it is never permissible to ask a minor, family member or friend to interpret.

Molina's language access services

Molina strives to ensure good communication with members by providing language access services. Providing language access services is a legal requirement for health care systems that are recipients of federal funds; a member cannot be refused services due to language barriers. Language access services ensure mutual understanding of illness and treatment, increase patient satisfaction and improve the quality of health care for limited English proficiency patients.

Molina provides the following services to members at no cost, when needed:

- Written material in other formats (i.e., large print, audio, accessible electronic formats, Braille)
- Written material translated into languages other than English
- Oral and American Sign Language interpreter services
- Relay Service (711)
- 24-Hour Nurse Advice Line
- Bilingual/bicultural staff

Also, Molina's materials are always written simply in plain language and at required reading levels. For additional information on Molina's language access services or cultural competency resources, contact your provider network manager or visit www.MolinaHealthcare.com.

Telehealth

Telehealth is a rising trend in the health care industry, with new ways to deliver care when the patient and provider are not in the same location. Across the United States, Molina's contracted providers are more actively using this mode of care through telecommunications. (We use the terms telehealth and telemedicine interchangeably, to mean clinical care provided or information shared between member and provider using a telephone, smartphone, tablet or computer.)

Molina recognizes that telehealth offers a variety of benefits for our members. The vulnerable populations who we serve often face challenges related to disabilities, transportation or schedules that make it more difficult to see a provider in their office during regular business hours. Through technology, telehealth makes it easier for our members to access the care they need in a variety of ways: reduced travel time, more availability and choices of provider.

We support our members receiving quality care through telehealth in a secure, private manner that also is convenient for them. Members can access these services across our products for Medicaid, Medicare and Marketplace. Depending on the specialty and member's situation, telehealth can be used for diagnosis, consultation, or treatment.

Note: benefits for telehealth vary depending on product guidelines and local regulations. Not all members are appropriate candidates for telehealth. With a new format for care, Molina will look to our providers to provide appropriate education and screening protocols to help our members to have a positive productive experience with telehealth.

Molina wants to make it easy for providers to use telehealth to serve our members. Our corporate Telehealth Services team has developed resources to support each state health plans staying up to date on their local telehealth requirements, and template content that state health plans will be able to add to their 2019 Provider Manuals.

Also we are making the telehealth option more visible in our Provider Online Directory. A new indicator that a provider offers virtual visits is being rolled out, with all states scheduled to be live by August 1. Molina has pre-populated the indicator for providers who are submitting telehealth claims. If you want the indicator added for your practice, contact your provider network manager.

We realize that providers are on a spectrum in terms of level of engagement and knowledge for telehealth. For practitioners and organizations with an interest, we recommend accessing support available through local Regional Telehealth Resource Centers and also the American Telemedicine Association (ATA). Many of these are free.

Telehealth has a fast pace of change, including new legislation being considered and passed at both state and federal levels. Please stay tuned for more information from Molina. We recommend for providers to take time for ongoing review of industry sources for the latest about your local market and clinical specialties regarding telehealth practices and guidelines. In turn, we will appreciate your keeping Molina health plan partners posted on your telehealth services and offerings. If you have questions or updates on your offerings, please contact your provider network manager.

Model of Care

The 2018 Model of Care Provider Training materials are now available on www.MolinaHealthcare.com. This training complies with the Centers for Medicare and Medicaid Services (CMS) requirement that contracted providers who have been identified as directly or indirectly facilitating and/or providing Medicare Part C or D benefits for any Molina Healthcare Medicare and/or MMP members complete both an initial training and an annual Model of Care training. To ensure Molina Healthcare remains compliant with CMS Regulatory Requirements for Model of Care training, receipt of your completed Attestation Form is due to Molina no later than November 30, 2018. If you have questions, please contact your provider network manager.

Is Your Authorization Request Urgent?

CMS defines expedited/urgent authorization requests as “applying the standard time for making a determination could seriously jeopardize the life or health of the enrollee or the enrollee’s ability to regain maximum function.”

Providers are to be advised of the following:

- Urgent/Expedited service request designation should only be used if the treatment is required to prevent serious deterioration in the member’s health or could jeopardize the enrollee’s ability to regain maximum function. Requests outside of this definition will be handled as routine/non-urgent.
- Priority is based on turnaround time and then order of receipt.
- Molina Healthcare’s typical turnaround time is 72 hours for urgent and 14 days for standard, however this could vary based on state and line of business.

Provider Portal Corner

Did you know we are improving our electronic tools? The second phase of the Portal Claims Denial Messaging project was deployed on May 17. This change will align portal messaging with the information on the Explanation of Payment (EOP).
