## Patient Status Code 30 Billing Reminder

**DATE:** May 20, 2025

**FROM:** Passport by Molina Healthcare

**TO:**

☐ All ☐ Primary Care ☐ Specialist Care ☒ Hospital/Facility  
☒ Ancillary ☐ Behavioral Health

**LINE OF BUSINESS:**

☐ All ☒ Medicaid ☐ Medicare ☐ Marketplace

**REMINDER:**

Passport by Molina Healthcare would like to remind outpatient facility providers that, for reimbursement consideration, the patient discharge status code 30 must align with the frequency code associated with the submitted type of bill.

The discharge status code 30 signifies that the patient is still receiving care or is expected to return for outpatient services. It is not appropriate to report discharge status code 30 on an outpatient type of bill that uses one of the following frequency codes:

Frequency code	Description
1	Admit Through Discharge
4	Interim - Last Claim
5	Late Charge Only

When a discharge status code 30 is reported on an outpatient type of bill with a frequency code of "1", "4" or "5", the claim will be denied.

**QUESTIONS:**

If you have questions, please contact Provider Services at (800) 578-0775 or your [Provider Services Representative](#).
