Criteria for Participation in the Molina Network

Molina has established criteria and the sources used to verify these criteria for the evaluation and selection of Practitioners for participation in the Molina network. These criteria have been designed to assess a Practitioner's ability to deliver care. This policy defines the criteria that are applied to applicants for initial participation, recredentialing and ongoing participation in the Molina network. To remain eligible for participation, Practitioners must continue to satisfy all applicable requirements for participation as stated herein and in all other documentations provided by Molina.

Molina reserves the right to exercise discretion in applying any criteria and to exclude Practitioners who do not meet the criteria. Molina may, after considering the recommendations of the Professional Review Committee, waive any of the requirements for network participation established pursuant to these policies for good cause if it is determined such waiver is necessary to meet the needs of Molina and the community it serves. The refusal of Molina to waive any requirement shall not entitle any practitioner to a hearing or any other rights of review.

Practitioners must meet the following criteria to be eligible to participate in the Molina network. The Practitioner shall have the burden of producing adequate information to prove they meet all criteria for initial participation and continued participation in the Molina network. If the Practitioner fails to provide this information, the credentialing application will be deemed incomplete and it will result in an administrative denial or administrative termination from the Molina network. Practitioners who fail to provide this burden of proof do not have the right to submit an appeal.

- **Application** – Provider must submit to Molina a complete credentialing application either from CAQH ProView or other State mandated Practitioner application.

The attestation must be signed within one-hundred-twenty (120) days. Application must include all required attachments.

- **License, Certification or Registration** – Provider must hold a current and valid license, certification or registration to practice in their specialty in every State in which they will provide care and/or render services for Molina Members. Telemedicine Practitioners are required to be licensed in the State where they are located and the State the Member is located.
- **DEA or CDS Certificate** – Provider must hold a current, valid, unrestricted Drug Enforcement Agency (DEA) or Controlled Dangerous Substances (CDS) certificate. Provider must have a DEA or CDS in every State where the Provider provides care to Molina Members. If a Practitioner has never had any disciplinary action taken related to their DEA and/or CDS and has a pending DEA/CDS certificate or chooses not to have a DEA and/or CDS certificate, the Practitioner must then provide a documented process that allows another Practitioner with a valid DEA and/or CDS certificate to write all prescriptions requiring a DEA number. If a Practitioner does not have a DEA or CDS because it has been revoked, restricted or relinquished due to disciplinary reasons, the Practitioner is not eligible to participate in the Molina network.
- **Specialty** – Provider must only be credentialed in the specialty in which they have adequate education and training. Provider must confine their practice to their credentialed area of practice when providing services to Molina Members.
- **Education**—Providers must have graduated from an accredited school with a degree required to practice in their designated specialty.
- **Residency Training** – Providers must have satisfactorily completed residency programs from accredited training programs in the specialties in which they are practicing. Oral Surgeons must complete a training program in Oral and Maxillofacial Surgery accredited by the Commission on Dental Accreditation (CODA). Training must be successfully completed prior to completing the verification. It is not acceptable to verify completion prior to graduation from the program. As of July 2013, podiatric residencies are required to be three (3) years in length. If the podiatrist has not completed a three (3)-year residency or is not board certified, the podiatrist must have five (5) years of work history practicing podiatry.
- **Fellowship Training** – If the Provider is not board certified in the specialty in which they practice and has not completed a residency program in the specialty in which they practice, they must have completed a fellowship program from an accredited training program in the specialty in which they are practicing.
