Dear Behavioral Health Provider:

Molina Healthcare of New Mexico, Inc. (Molina Healthcare) has recently instituted new modifiers for same day services based on a supplement that came from Human Services Department (HSD). These new modifiers will now allow for same day services with respect to individual, family and group therapy.

*Previously billed claims that have been denied will still need to go through our Provider Reconsideration Request (PRR) process.*

The link to this supplement, which outlines how these can be billed, can be found here:

Please look at section IX for directions on how to bill same day services. Also, please peruse the entire supplement for other important information recently sent by HSD.

Thank You
