
Molina Healthcare of New Mexico, Inc.
90-Day Prescription Update
Pharmacy Management Department

Effective January 1, 2017

Molina Healthcare of New Mexico Inc., (Molina Healthcare), now offers 90-day prescription refills for Centennial Care Members on long-term (maintenance) medications. This is made possible by Maintenance Choice[®] using the Caremark Retail 90 Network.

Maintenance Choice

Maintenance Choice is a program that lets your patients easily fill long-term (maintenance) medications. The program is ideal for medications your patients take for chronic conditions such as asthma, depression, diabetes, high blood pressure and high cholesterol. Molina Healthcare's Centennial Care Members can now fill up to a three-month supply of most long-term medications at participating community pharmacies.

The following types of drugs are not part of Maintenance Choice:

- Antibiotics that treat infections;
- Drugs used for pain;
- Drugs used for short-term medical conditions;
- Drugs not taken long-term on an ongoing basis; and
- Drugs for which the physician must often change the dosage.

Please note: Three-month supplies of medications will be covered only at a Caremark Retail 90 Network community pharmacy or through Home Delivery Service from Caremark. If your patient chooses to fill a prescription at a community pharmacy that is not part of the Caremark Retail 90 Network, he or she will be limited to a one-month supply.

Many independent and chain pharmacies are part of the Caremark Retail 90 Network. Ask pharmacies if they participate in this network.

**When appropriate please write prescriptions for a three-month supply. Pharmacies may contact your office on behalf of patients for three-month supply prescriptions. Specialty pharmacy medications are limited to a one-month supply and are available from only a preferred specialty pharmacy. Other selected medications have quantity limits. Check the Prescription Drugs section of www.molinahealthcare.com for the most up-to-date information. Home Delivery Service is available to members with transportation issues – for details contact the Molina Member Contact and Provider Center toll free at (800) 580-2811.*

For pharmacy specific questions please contact the Molina Healthcare Pharmacy Management Department toll free at (888) 562-5442 ext. 186336.
